All votes will be tabulated by the inspector of elections appointed for the meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes.

Quorum Required

The Company's bylaws provide that the holders of a majority of the Company's common stock issued and outstanding and entitled to vote at the Annual Meeting, present in person or represented by proxy, shall constitute a quorum for the transaction of business at the Annual Meeting. Abstentions and broker non-votes will be counted as present for the purpose of determining the presence of a quorum.

#### Compensation of Directors

Directors are not reimbursed for their out-of-pocket expenses in serving on the Board of Directors or any committee of the Board of Directors. Non-employee directors are eligible to receive options under the Company's 2000 Director Option Plan (the "Directors' Plan"). Each non-employee director receives an option for 40,000 shares of the Company's common stock upon joining the Board. The option becomes exercisable and vests in four equal annual installments from the date of grant. In addition, at each of the Company's annual stockholders' meetings, each non-employee director who will continue to be a director after that meeting will automatically be granted at that meeting an option for 10,000 shares of the Company's common stock. This option becomes fully exercisable and fully vested on the first anniversary of the date of grant. However, a new non-employee director who is receiving the initial option will not receive the annual option in the same calendar year.

The following table sets forth for each of the non-employee directors the number of securities underlying options held by the non-employee directors at December 31, 2001:

#### COMPENSATION COMMITTEE REPORT

The Compensation Committee was formed on July 19, 2000. Since its formation, the Compensation Committee has had the exclusive authority to establish the level of base salary payable to the chief executive officer ("CEO") and certain other executive officers of the Company and authority to administer the Company's 2000 Equity Incentive Plan, 2001 Supplemental Option Plan and Employee Stock Purchase Plan. In addition, the Compensation Committee has the responsibility for approving the individual bonus programs to be in effect for the CEO and certain other executive officers and other key employees each fiscal year.

For the 2001 fiscal year, the process utilized by the Compensation Committee in determining executive officer compensation levels was based on the subjective judgment of the Compensation Committee. Among the factors considered by the Compensation Committee were the recommendations of the CEO with respect to the compensation of the Company's key executive officers. However, the Committee makes the final compensation decisions concerning such officers.

**General Compensation Policy.** The Compensation Committee's fundamental policy is to offer the Company's executive officers competitive compensation opportunities based upon overall Company performance, their individual contribution to the financial success of the Company and their personal performance. It is the Committee's objective to have a substantial portion of each officer's compensation contingent upon the Company's performance, as well as upon his or her own level of performance. Accordingly, each executive officer's compensation package consists of: (i) base salary, (ii) discretionary cash bonus and (iii) long-term stock-based incentive awards.

**Base Salary.** The base salary for each executive officer is set on the basis of general market levels and personal performance. Each individual's base pay is positioned relative to the total compensation package, including cash incentives and long-term incentives.

**Annual Cash Bonuses.** Executive officers who are eligible for bonuses receive such bonuses if they achieve individual performance objectives that are set on an annual basis. Actual bonuses paid reflect an individual's accomplishment of these individual objectives and are based on a percentage of the individual's base salary. For 2001, in an effort to conserve corporate cash, no bonuses were paid, except for those earned by Mr. Koen and Ms. Backaus for achieving individual performance goals related to corporate performance and to Mr. Ferris for achieving individual performance targets related to sales and certain employee referral bonuses were paid. In addition, certain officers received assistance with respect to loans extended to them by the Company in consideration for repaying the loans early.

**Long-Term Incentive Compensation.** During fiscal 2001, the Compensation Committee approved significant option grants to the executive officers largely in consideration of the challenges facing the Company, high exercise prices for the officers' existing options and the decision to reduce bonuses in order to conserve corporate cash. Generally, a significant grant is made in the year that an officer commences employment. Thereafter, option grants may be made at varying times and in varying amounts in the discretion of the Compensation Committee. Generally, the size of each grant is set at a level that the Committee deems appropriate to create a meaningful opportunity for stock ownership based upon the individual's position with the Committee, the individual's potential for future responsibility and promotion, the individual's performance in the recent period, the exercise prices of that individual's outstanding options relative to current market value, and the number of unvested options held by the individual at the time of the new grant. The relative weight given to each of these factors will vary from individual to individual at the Compensation Committee's discretion.

Each grant allows the officer to acquire shares of the Company's common stock at a fixed price per share (the market price on the grant date) over a specified period of time. The option vests in periodic installments over a two

to four year period, contingent upon the executive officer's continued employment with the Company. The vesting schedule and the number of shares granted are established to ensure a meaningful incentive in each year

10

following the year of grant. Accordingly, the option will provide a return to the executive officer only if he or she remains in the Company's employ, and then only if the market price of the Company's common stock appreciates over the option term.

CEO Compensation. The annual base salary for Mr. Van Camp, the Company's CEO, was established in connection with his commencement of employment and has not been increased. A significant option was granted during fiscal 2001 based on the same factors as for the executive officers. In January 2002, the Board of Directors forgave \$874,000 of the CEO's employee loan totaling \$1,512,000 in exchange for the CEO waiving his right to any bonuses earned and expensed in 2001.

Tax Limitation. Under the Federal tax laws, a publicly held company such as the Company will not be allowed a federal income tax deduction for compensation paid to certain executive officers to the extent that compensation exceeds \$1 million per officer in any year. To qualify for an exemption from the \$1 million deduction limitation, the stockholders approved a limitation under the Company's 2000 Equity Incentive Plan on the maximum number of shares of common stock for which any one participant may be granted stock options per fiscal year. Because this limitation was adopted, any compensation deemed paid to an executive officer when he exercises an outstanding option under the 2000 Equity Incentive Plan with an exercise price equal to the fair market value of the option shares on the grant date will qualify as performance-based compensation that will not be subject to the \$1 million limitation. Since it is not expected that the cash compensation to be paid to the Company's executive officers for the 2002 fiscal year will exceed the \$1 million limit per officer, the Compensation Committee will defer any decision on whether to limit the dollar amount of all other compensation payable to the Company's executive officers to the \$1 million cap.

- (1) The options in the table that show an expiration date of January 9, 2011 were granted on January 9, 2001 and the options in the table that show an expiration date of April 9, 2011 were granted on April 9, 2001. These options are exercisable in 48 equal monthly installments from the grant date. The options in the table that show an expiration date of September 26, 2011 were granted on September 26, 2001 and these options are exercisable in 24 equal monthly installments from the grant date. The plan administrator has the discretionary authority to re-price the options through the cancellation of those options and the grant of replacement options with an exercise price based on the fair market value of the option shares on the re-grant date. The options have a maximum term of 10 years measured from the option grant date, subject to earlier termination in the event of the optionee's cessation of service with the Company. Under each of the options, the option shares vest upon an acquisition of the Company by merger or asset sale, unless the acquiring entity or its parent corporation assumes the outstanding options. Any options which are assumed or replaced in the transaction and do not otherwise accelerate at that time automatically accelerate (and any unvested option shares which do not otherwise vest at that time automatically vest) in the event the optionee's service terminates by reason of an involuntary or constructive termination within 18 months following the transaction. In addition, the options granted on September 26, 2001 vest one additional year upon a change in control of the Company.
  - (2) Based on an aggregate of 16,036,597 shares subject to options granted in the fiscal year ended December 31, 2001.
  - (3) The exercise price for each option may be paid in cash, in shares of common stock valued at fair market value on the exercise date or through a cashless exercise procedure involving a same-day sale of the purchased shares. The Company may also finance the option exercise by loaning the optionee sufficient funds to pay the exercise price for the purchased shares, together with any federal and state income tax liability incurred by the optionee in connection with such exercise.
  - (4) In accordance with the rules of the Securities and Exchange Commission ("SEC"), the table sets forth the hypothetical gains or "option spreads" that would exist for the options at the end of their respective ten-year

terms based on assumed annualized rates of compound stock price appreciation of 5% and 10% from the dates the options were granted to the end of the respective option terms. Actual gains, if any, on option exercises are dependent on the future performance of the Company's common stock and overall market conditions. There can be no assurance that the potential realizable values shown in this table will be achieved.

Aggregate Option Exercises in 2001 and Fiscal Year-End Option Values

No options were exercised by the Named Executive Officers in 2001. The following table sets forth for each of the Named Executive Officers the number and value of securities underlying options held by the Named Executive Officers at December 31, 2001:

Employment Agreements, Change of Control Arrangements and Severance Agreements

The Compensation Committee, as plan administrator of the 2000 Equity Incentive Plan, has the authority to provide for accelerated vesting of the shares of common stock subject to outstanding options held by the Named Executive Officers and any other person in connection with certain changes in control of Equinix. In connection with the adoption of the 2000 Equity Incentive Plan, the Company has provided that upon a change in control of the Company, each outstanding option and all shares of restricted stock will generally become fully vested unless the surviving corporation assumes the option or award or replaces it with a comparable award. Any options which are assumed or replaced in the transaction and do not otherwise accelerate at that time shall automatically accelerate (and any unvested option shares which do not otherwise vest at that time shall automatically vest) in the event the optionee's service terminates by reason of an involuntary or constructive termination within 18 months following the transaction. In addition, options granted to the executive officers of the Company prior to the Company's initial public offering provide for an additional 12 months of vesting upon a change in control of the Company and our form of offer letter for officers provides for an additional 12 months of vesting upon a change in control, provided such officer is employed upon closing of the change in control. Except as noted below, none of the Company's executive officers have employment agreements with the Company, and their employment may be terminated at any time.

The Company extended an offer of employment to Peter F. Van Camp, the Company's chief executive officer, pursuant to an offer letter dated April 25, 2000. The agreement provides for 12 months of severance pay if Mr. Van Camp is terminated by the Company for reasons other than cause or disability. Mr. Van Camp's stock option agreement also provides that he will vest an additional 12 months in his initial option upon a change in control of the Company.

The Company extended an offer of employment to Philip J. Koen, the Company's president and chief operating officer, pursuant to a letter agreement dated July 9, 1999. The letter provides for six months of severance pay if Mr. Koen is terminated by the Company for reasons other than cause.

The Company extended an offer of employment to Peter T. Ferris, the Company's vice president, worldwide sales, pursuant to an offer letter dated June 28, 1999. The letter provides for acceleration of vesting of option shares for an additional 12 months if there are certain changes in control of the Company. The Company also agreed to indemnify Mr. Ferris for any claims brought by his former employer under an employment and non-compete agreement he had with his former employer.

The Company entered into an agreement on February 8, 2000 with Albert M. Avery, IV, its vice chairman of the Board of Directors, which provides that his base compensation will be the same as the CEO's base compensation and also provides for continuation of his salary and continued option vesting for 12 months should his employment with the Company cease. Any options granted to Mr. Avery after February 8, 2000 will allow 24 months to exercise post-termination of employment.

The Company extended an offer of employment to Marjorie S. Backaus, the Company's Vice President of Marketing, pursuant to an offer letter dated October 21, 1999. The agreement provides that she will vest an additional 12 months in her options upon a change in control of the Company.

## PROPOSAL 2

### RATIFICATION OF INDEPENDENT ACCOUNTANTS

The Company is asking the stockholders to ratify the appointment of PricewaterhouseCoopers LLP as the Company's independent public accountants for the fiscal year ending December 31, 2002. The affirmative vote of the holders of a majority of shares present or represented by proxy and voting at the Annual Meeting will be required to ratify the appointment of PricewaterhouseCoopers LLP.

In the event the stockholders fail to ratify the appointment, the Board of Directors will reconsider its selection. Even if the appointment is ratified, the Board of Directors, in its discretion, may direct the appointment of a different independent accounting firm at any time during the year if the Board of Directors feels that such a change would be in the Company's and its stockholders' best interests.

PricewaterhouseCoopers LLP has audited the Company's financial statements since 2000. Its representatives are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions.

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" PROPOSAL 2.

### CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Lease Agreement with Entity Affiliated with 5% Stockholder. In March 1999, the Company entered into an equipment lease facility with Cisco Systems Credit Corporation, an entity affiliated with Cisco Systems, Inc. ("Cisco"), under which the Company leased \$137,000 of equipment for a 24-month term. Cisco is a greater than 5% stockholder in the Company and Michelangelo Volpi, one of the Company's directors, is an executive officer of Cisco.

Loans to Executive Officers. In September 1999, the Company loaned an aggregate of \$750,000 to Peter T. Ferris, one of the Company's executive officers, to purchase a principal residence. The loan was evidenced by a non-interest bearing promissory note. The note was paid in full in February 2002 in exchange for the Company paying the interest on the mortgage for his principal residence for a 24-month period commencing in February 2002. The largest aggregate amount of indebtedness owing on this note since the beginning of the 2001 fiscal year was \$750,000.

In January 2000, the Company loaned an aggregate of \$250,000 to Marjorie S. Backaus, one of the Company's executive officers, to purchase a principal residence. The loan was evidenced by a non-interest bearing promissory note. The note was paid in full in March 2002 in exchange for the Company paying the interest on the mortgage for her principal residence for a 24-month period commencing in May 2002. The largest aggregate amount of indebtedness owing on this note since the beginning of the 2001 fiscal year was \$250,000.

In February 2001, the Company loaned an aggregate of \$1,512,000 to Peter F. Van Camp, the Company's chief executive officer, to purchase a principal residence. The loan was evidenced by a non-interest bearing promissory note. In January 2002, the Board of Directors forgave \$874,000 of this loan in exchange for Mr. Van Camp waiving his right to any bonuses earned and expensed in 2001. The remaining amount due under the loan of \$638,000 was repaid to the Company in full in February 2002. The largest aggregate amount of indebtedness owing on this note during the 2001 fiscal year was \$1,512,000.

Mr. Ferris and Ms. Backaus each repaid their loans early in consideration of the Company's agreeing to provide certain benefits, including assisting each borrower with interest payments on a bank loan used to finance the repayment of the Company's loan.

Significant Customer Relationship with Affiliated Company. For the year ended December 31, 2001, Loudcloud, Inc. ("Loudcloud") was the Company's second largest customer. Revenues from Loudcloud amounted to \$5,105,000, which represented 8% of the Company's total revenues for the last fiscal year. Andrew S. Rachleff, one of the Company's directors, is a co-founder and general partner of Benchmark Capital. Benchmark Capital is a greater than 5% stockholder of Loudcloud, and Mr. Rachleff currently serves on the Board of Directors of Loudcloud.

Equipment Reseller Agreements with Affiliated Companies. In March 2002, the Company entered into an agreement to resell equipment with Cisco Systems, Inc. ("Cisco"), a greater than 5% stockholder in the Company. Michelangelo Volpi, one of the Company's directors, is an executive officer of Cisco. The Company plans to recognize revenue from this arrangement on a gross basis in accordance with Emerging Issue Task Force Issue No. 99-19, Recording Revenue as a Principal versus Net as an Agent. The Company acts as the principal in the transaction as the Company's customer services agreement identifies the Company as the party responsible for the fulfillment of product/ services to the Company's customers and has full pricing discretion. In the case of products sold under this arrangement, the Company takes title to the products and bears the inventory risk as the Company has made minimum purchase commitments for equipment to various vendors. The Company has credit risk, as it is responsible for collecting the sales price from a customer, but must pay the amount owed to its suppliers after the suppliers perform, regardless of whether the sales price is fully collected. In addition, the Company will often determine the required equipment configuration. As of March 31, 2002, the Company purchased and resold equipment for \$928,000 under the agreement with Cisco. The Company intends to enter into additional equipment transactions with Cisco in 2002.

19

In February 2002, the Company entered into an agreement to resell equipment with Juniper Networks (IS), Inc., an entity affiliated with Juniper Networks, Inc. ("Juniper"). Scott Kriens, one of the Company's directors, is both a director and an executive officer of Juniper. The Company plans to recognize revenue from this arrangement on a gross basis in accordance with Emerging Issue Task Force Issue No. 99-19, Recording Revenue as a Principal versus Net as an Agent. The Company acts as the principal in the transaction as the Company's customer services agreement identifies the Company as the party responsible for the fulfillment of product/ services to the Company's customers and has full pricing discretion. In the case of products sold under this agreement, the Company takes title to the products and bears the inventory risk as the Company has made minimum purchase commitments for equipment to various vendors. The Company has credit risk, as it is responsible for collecting the sales price from a customer, but must pay the amount owed to its suppliers after the suppliers perform, regardless of whether the sales price is fully collected. In addition, the Company will often determine the required equipment configuration. As of March 31, 2002, the Company purchased and resold equipment for \$576,000 under the agreement with Juniper. The Company intends to enter into additional equipment transactions with Juniper in 2002.
