## Equinix Reports First Quarter 2014 Results

Reported revenues of \$580.1 million, a 3% increase over the previous quarter and a 12% increase over the same quarter last year

Increased 2014 annual guidance of revenues to be greater than \$2,395.0 million and adjusted EBITDA to be greater than \$1,105.0 million

REDWOOD CITY, Calif., April 30, 2014 /PRNewswire/ -- Equinix, Inc. (Nasdaq: EQIX), a global interconnection and data center company, today reported quarterly results for the quarter ended March 31, 2014. The Company uses certain non-GAAP financial measures, which are described further below and reconciled to the most comparable GAAP financial measures after the presentation of our GAAP financial statements.

# EQUINIX

Revenues were \$580.1 million for the first quarter, a 3% increase over the previous quarter and a 12% increase over the same quarter last year. Recurring revenues, consisting primarily of colocation, interconnection and managed services, were \$549.7 million for the first quarter, a 2% increase over the previous quarter and an 11% increase over the same quarter last year. Non-recurring revenues were \$30.4 million in the quarter. MRR churn for the first quarter was 2.3%, unchanged from the previous quarter and lower than prior guidance.

"Equinix delivered a strong start to the year with revenue and adjusted EBITDA above the top end of our guidance ranges. Our first quarter performance was solid across all three regions, and our key operating metrics, including MRR per cabinet, MRR churn, and cross-connect additions, reflect continued health of the business and the competitive edge derived from Platform Equinix," said Steve Smith, president and CEO of Equinix. "Today we are also excited to announce the Equinix Cloud Exchange, which builds on our successful heritage in interconnection service delivery by bringing together cloud and network service providers with buyers in a new way to realize the promise of cloud computing. With an encouraging start to 2014, Equinix is on track to deliver its financial objectives for the year."

Cost of revenues were \$287.5 million for the first quarter, a 7% increase over the previous quarter and an 11% increase from the same quarter last year. Cost of revenues, excluding depreciation, amortization, accretion and stock-based compensation of \$103.3 million for the quarter, which we refer to as cash cost of revenues, were \$184.2 million for the quarter, a 6% increase over the previous quarter and a 14% increase over the same quarter last year. Gross margins for the quarter were 50%, down from 52% for the previous quarter and unchanged from the same quarter last year. Cash gross margins, defined as gross profit before depreciation, amortization, accretion and stock-based compensation, divided by revenues, for the quarter were 68%, down from 69% for the previous quarter and the same quarter last year.

Selling, general and administrative expenses were \$170.7 million for the first quarter, a 3% increase over the previous quarter and a 15% increase over the same quarter last year. Selling, general and administrative expenses, excluding depreciation, amortization, accretion and stock-based compensation of \$35.3 million for the quarter, which we refer to as cash selling, general and administrative expenses, were \$135.4 million for the quarter, a 7% increase over the previous quarter and a 20% increase over the same quarter last year.

Interest expense was \$68.8 million for the first quarter, a 5% increase over the previous quarter and a 14% increase over the same quarter last year, primarily attributed to the \$1.5 billion senior notes offering in March 2013 and additional financings such as various capital lease and other financing obligations to support the Company's expansion projects. The Company recorded income tax expense of \$13.6 million for the first quarter as compared to income tax expense of \$11.5 million in the same quarter last year.

Net income attributable to Equinix for the first quarter was \$41.4 million. This represents a basic net income per share attributable to Equinix of \$0.83 and a diluted net income per share attributable to Equinix of \$0.81 based on a weighted average share count of 49.6 million and 53.4 million, respectively, for the first quarter of 2014.

Income from operations was \$121.6 million for the first quarter, a 3% decrease from the previous quarter and a 16% increase over the same quarter last year. Adjusted EBITDA, defined as income or loss from operations before depreciation, amortization, accretion, stock-based compensation, restructuring charges, impairment charges and acquisition costs, for the first quarter was \$260.4 million, a 1% decrease over the previous quarter and an 8% increase over the same quarter last year.

Capital expenditures, defined as gross capital expenditures less the net change in accrued property, plant and equipment in the first quarter, were \$105.9 million, of which \$61.0 million was attributed to expansion capital expenditures and \$44.9 million was attributed to ongoing capital expenditures.

The Company has repurchased approximately 732,000 shares of its common stock under the \$500 million share repurchase program authorized in December 2013 at an average price of \$173.46 per share for total consideration of \$127.0 million through April 25, 2014.

The Company generated cash from operating activities of \$171.7 million for the first quarter as compared to \$166.7 million in the previous quarter and \$84.2 million for the same quarter last year. Cash provided by investing activities was \$98.9 million in the first quarter as compared to cash used in investing activities of \$233.4 million in the previous quarter and cash used in investing activities of \$1,142.5 million in the same quarter last year, primarily attributed to \$836.4 million of the proceeds from the issuance of the \$1.5 billion senior notes that was placed into a restricted cash account for the redemption of the \$750.0 million 8.125% senior notes in April 2013. Cash used in financing activities was \$37.3 million for the first quarter as compared to cash used in financing activities of \$70.6 million in the previous quarter and cash provided by financing activities of \$1,496.8 million in the same quarter last year, primarily attributed to the issuance of the \$1.5 billion senior notes.

As of March 31, 2014, the Company's cash, cash equivalents and investments were \$1,041.7 million, as compared to \$1,030.1 million as of December 31, 2013.

In April 2014, the Company entered into an agreement with a note holder to exchange \$98.9 million of the principal amount of its 4.75% convertible subordinated notes for approximately 1.2 million shares of the Company's common stock and a cash payment of approximately \$10.3 million. As a result, the Company will recognize a loss on debt extinguishment of approximately \$22.0 million in the second quarter of 2014 upon the exchange of the 4.75% convertible subordinated notes.

## Business Outlook

For the second quarter of 2014, the Company expects revenues to range between \$594.0 and \$598.0 million. Cash gross margins are expected to approximate 68% to 69%. Cash selling, general and administrative expenses are expected to range between \$135.0 and \$139.0 million. Adjusted EBITDA is expected to range between \$267.0 and \$273.0 million, which includes \$11.0 million in professional fees and costs primarily related to the REIT conversion. Capital expenditures are expected to range between \$165.0 and \$175.0 million, comprised of approximately \$60.0 million of ongoing capital expenditures and \$105.0 to \$115.0 million of expansion capital expenditures.

For the full year of 2014, total revenues are expected to be greater than \$2,395.0 million, or an as-reported greater than 11% year over year growth rate, which includes a positive foreign currency benefit of approximately \$7.0 million compared to the rates used from our prior guidance. Total year cash gross margins are expected to approximate 69%. Cash selling, general and administrative expenses are expected to range between \$530.0 and \$550.0 million. Adjusted EBITDA for the year is expected to be greater than \$1,105.0 million, which includes a positive foreign currency benefit of approximately \$3.0 million compared to the rates used from our prior guidance, and includes \$37.0 million in professional fees and costs primarily related to the REIT conversion. Capital expenditures for 2014 are expected to range between \$550.0 and \$650.0 million, comprised of approximately \$200.0 million of ongoing capital expenditures and \$350.0 to \$450.0 million for expansion capital expenditures.

The U.S. dollar exchange rates used for 2014 guidance have been updated to \$1.37 to the Euro, \$1.64 to the Pound, S\$1.26 to the U.S. dollar and R\$2.28 to the U.S. dollar, and take into consideration the impact of currency hedges where applicable. The 2014 global revenue breakdown by currency for the Euro, Pound, Singapore dollar and Brazilian Real is 15%, 9%, 6% and 4%, respectively.

## Company Metrics and Q1 Results Presentation

The Company will discuss its results and guidance on its quarterly conference call on Wednesday, April 30, 2014, at 5:30 p.m. ET (2:30 p.m. PT). ## Non-GAAP Financial Measures

Equinix provides all information required in accordance with generally accepted accounting principles (GAAP), but it believes that evaluating its ongoing operating results may be difficult if limited to reviewing only GAAP financial measures. Accordingly, Equinix uses non-GAAP financial measures, such as adjusted EBITDA, cash cost of revenues, cash gross margins, cash operating expenses (also known as cash selling, general and administrative expenses or cash SG&A), adjusted EBITDA margins, free cash flow, adjusted free cash flow, discretionary free cash flow and adjusted discretionary free cash flow to evaluate its operations. In presenting these non-GAAP financial measures, Equinix excludes certain items that it believes are not good indicators of the Company's current or future operating performance. These items are depreciation, amortization, accretion of asset retirement obligations and accrued restructuring charges, stock-based compensation, restructuring charges, impairment charges and acquisition costs. Legislative and regulatory requirements encourage use of and emphasis on GAAP financial metrics and require companies to explain why non-GAAP financial metrics are relevant to management and investors. Equinix excludes these items in order for Equinix's lenders, investors, and industry analysts who review and report on the Company, to better evaluate the Company's operating performance and cash spending levels relative to its industry sector and competitors.

Equinix excludes depreciation expense as these charges primarily relate to the initial construction costs of our IBX centers and do not reflect our current or future cash spending levels to support our business. Our IBX centers are long-lived assets, and have an economic life greater than 10 years. The construction costs of our IBX centers do not recur and future capital expenditures remain minor relative to our initial investment. This is a trend we expect to continue. In addition, depreciation is also based on the estimated useful lives of our IBX centers. These estimates could vary from actual performance of the asset, are based on historic costs incurred to build out our IBX centers, and are not indicative of current or expected future capital expenditures. Therefore, Equinix excludes depreciation from its operating results when evaluating its operations.

In addition, in presenting the non-GAAP financial measures, Equinix excludes amortization expense related to certain intangible assets, as it represents a cost that may not recur and is not a good indicator of the Company's current or future operating performance. Equinix excludes accretion expense, both as it relates to its asset retirement obligations as well as its accrued restructuring charges, as these expenses represent costs which Equinix believes are not meaningful in evaluating the Company's current operations. Equinix excludes stock-based compensation expense as it primarily represents expense attributed to equity awards that have no current or future cash obligations. As such, we, and many investors and analysts, exclude this stock-based compensation expense when assessing the cash generating performance of our operations. Equinix excludes restructuring charges from its non-GAAP financial measures. The restructuring charges relate to the Company's decision to exit leases for excess space adjacent to several of our IBX centers, which we did not intend to build out, or our decision to reverse such restructuring charges or severance charges related to the Switch and Data acquisition. Equinix also excludes impairment charges related to certain long-lived assets. The impairment charges are related to expense recognized whenever events or changes in circumstances indicate that the carrying amount of long-lived assets are not recoverable. Finally, Equinix excludes acquisition costs from its non-GAAP financial measures. The acquisition costs relate to costs the Company incurs in connection with business combinations. Management believes such items as restructuring charges, impairment charges and acquisition costs are non-core transactions; however, these types of costs will or may occur in future periods.

Our management does not itself, nor does it suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. However, we have presented such non-GAAP financial measures to provide investors with an additional tool to evaluate our operating results in a manner that focuses on what management believes to be our core, ongoing business operations. Management believes that the inclusion of these non-GAAP financial measures provides consistency and comparability with past reports and provides a better understanding of the overall performance of the business and its ability to perform in subsequent periods. Equinix believes that if it did not provide such non-GAAP financial information, investors would not have all the necessary data to analyze Equinix effectively.

Investors should note, however, that the non-GAAP financial measures used by Equinix may not be the same non-GAAP financial measures, and may not be calculated in the same manner, as that of other companies. In addition, whenever Equinix uses such non-GAAP financial measures, it provides a reconciliation of non-GAAP financial measures to the most closely applicable GAAP financial measure. Investors are encouraged to review the related GAAP financial measures and the reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measure.

Equinix does not provide forward-looking guidance for certain financial data, such as depreciation, amortization, accretion, stock-based compensation, net income (loss) from operations, cash generated from operating activities and cash used in investing activities, and as a result, is not able to provide a reconciliation of GAAP to non-GAAP financial measures for forward-looking data. Equinix intends to calculate the various non-GAAP financial measures in future periods consistent with how they were calculated for the periods presented within this press release.

## Forward Looking Statements

This press release contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from expectations discussed in such forward-looking statements. Factors that might cause such differences include, but are not limited to, the challenges of acquiring, operating and constructing IBX centers and developing, deploying and delivering Equinix services; unanticipated costs or difficulties relating to the integration of companies we have acquired or will acquire into Equinix; a failure to receive significant revenue from customers in recently built out or acquired data centers; failure to complete any financing arrangements contemplated from time to time; competition from existing and new competitors; the ability to generate sufficient cash flow or otherwise obtain funds to repay new or outstanding indebtedness; the loss or decline in business from our key customers; and other risks described from time to time in Equinix's filings with the Securities and Exchange Commission. In particular, see Equinix's recent quarterly and annual reports filed with the Securities and Exchange Commission, copies of which are available upon request from Equinix. Equinix does not assume any obligation to update the forward-looking information contained in this press release.

<b>Adjusted discretionary free cash flow (5)</b>	<b>\$ 164,439</b>	<b>\$ 135,441</b>	<b>\$ 74,965</b>

(1) We define free cash flow as net cash provided by operating activities plus net cash provided by (used in) investing activities (excluding the net purchases, sales and maturities of investments) as presented below:

Net cash provided by operating activities as presented above	\$ 171,718	\$ 166,706	\$ 84,181
Net cash provided by (used in) investing activities as presented above	98,885	(233,362)	(1,142,540)
Purchases, sales and maturities of investments, net	(221,654)	(18,641)	232,965
<b>Free cash flow (negative free cash flow)</b>	<b>\$ 48,949</b>	<b>\$ (85,297)</b>	<b>\$ (825,394)</b>

(2) We define adjusted free cash flow as free cash flow (as defined above) excluding any purchases of real estate, acquisitions, any excess tax benefits from employee equity awards, cash paid for taxes associated with reclassifying our assets for tax purposes triggered by our planned conversion into a real estate investment trust ("REIT") and costs related to the planned REIT conversion, as presented below:

Free cash flow (as defined above)	\$ 48,949	\$ (85,297)	\$ (825,394)
Less purchase of Frankfurt Kleyer 90 Carrier Hotel	-	48,739	-
Less purchase of Asia Tone, less cash acquired	-	-	107
Less purchase of real estate	16,791	-	-
Less excess tax benefits from employee equity awards	10,018	(42)	18,990
Less cash paid for taxes resulting from the planned REIT conversion	17,827	30,040	3,734
Less costs related to the planned REIT conversion	9,790	6,796	2,057
<b>Adjusted free cash flow</b>	<b>\$ 103,375</b>	<b>\$ 236</b>	<b>\$ (800,506)</b>

We categorize our cash paid for taxes into cash paid for taxes resulting from the planned REIT conversion (as defined above) and other cash taxes paid.

Cash paid for taxes resulting from the planned REIT conversion	\$ 17,827	\$ 30,040	\$ 3,734
Other cash taxes paid	12,086	6,914	10,302

Total cash paid for taxes	\$ 29,913	\$ 36,954	\$ 14,036
---------------------------	-----------	-----------	-----------

- (3) We refer to our purchases of other property, plant and equipment as our capital expenditures (or capex). We categorize our capital expenditures into expansion and ongoing capex. Expansion capex is capex spent to build out our new data centers and data center expansions. Our ongoing capex represents all of our other capex spending.

Ongoing capital expenditures	\$ 44,914	\$ 68,059	\$ 33,997
Expansion capital expenditures	60,993	134,782	41,670
Total capital expenditures	<u>\$ 105,907</u>	<u>\$ 202,841</u>	<u>\$ 75,667</u>

- (4) We define discretionary free cash flow as net cash provided by operating activities less ongoing capital expenditures (as described above), as presented below:

Net cash provided by operating activities, as presented above	\$ 171,718	\$ 166,706	\$ 84,181
Less ongoing capital expenditures	<u>(44,914)</u>	<u>(68,059)</u>	<u>(33,997)</u>
Discretionary free cash flow	<u>\$ 126,804</u>	<u>\$ 98,647</u>	<u>\$ 50,184</u>

- (5) We define adjusted discretionary free cash flow as discretionary free cash flow (as defined above), excluding any excess tax benefits from employee equity awards, cash paid for taxes associated with reclassifying our assets for tax purposes triggered by our planned REIT conversion and costs related to the planned REIT conversion, as presented below:

	\$
