Redemption

At any time prior to March 1, 2013, the Company may on any one or more occasions redeem up to 35% of the aggregate principal amount of the notes (calculated giving effect to any issuance of Additional Notes) outstanding under the Indenture, at a redemption price equal to 108.125% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest to, but not including, the redemption date, with the net cash proceeds of one or more Equity Offerings; provided that

- (1) at least 65% of the aggregate principal amount of the notes (calculated giving effect to any issuance of Additional Notes) issued under the Indenture remains outstanding immediately after the occurrence of such redemption (excluding notes held by the Company and its subsidiaries); and
- (2) the redemption must occur within 90 days of the date of the closing of such Equity Offering.

On or after March 1, 2014, the Company may redeem all or a part of the notes, on any one or more occasions, at the redemption prices (expressed as percentages of principal amount) set forth below plus accrued and unpaid interest thereon, if any, to, but not including, the applicable redemption date, if redeemed during the twelve-month period beginning on March 1 of the years indicated below:

	Redemption price of the notes

2016 and thereafter	100.00%

At any time prior to March 1, 2014, the Company may also redeem all or a part of the notes at a redemption price equal to 100% of the principal amount of notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to, but not including, the date of redemption (the "Redemption Date"), subject to the rights of Holders of record of notes on the relevant record date to receive interest due on the relevant interest payment date.

"Applicable Premium" means, with respect to any note on any Redemption Date, the greater of:

- (1) 1.0% of the principal amount of the note; and
- (2) the excess of:
 - (a) the present value at such Redemption Date of (i) the redemption price of the note at March 1, 2014 (such redemption price being set forth in the table appearing above under the caption "—Redemption"), plus (ii) all required interest payments due on the note through March 1, 2014 (excluding accrued but unpaid interest, if any, to, but not including, the Redemption Date), computed using a discount rate equal to the Treasury Rate as of such Redemption Date plus 50 basis points; over
 - (b) the principal amount of the note, if greater.

“*Treasury Rate*” means, as of any Redemption Date, the yield to maturity as of such Redemption Date of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15 (519) that has become publicly available at least two business days prior to the Redemption Date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from the Redemption Date to March 1, 2014; provided, however, that if the period from the Redemption Date to March 1, 2014 is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year will be used.

Summary—The Offering

The first sentence in the second paragraph under “Summary—The Offering—Ranking” is replaced with the following:

At December 31, 2009, after giving pro forma effect to the offering, we would have had total consolidated indebtedness of approximately \$2.2 billion, none of which was secured indebtedness of Equinix.

The following item is added to “Summary—The Offering”:

Conflicts of Interest Because Goldman, Sachs & Co. and/or its affiliates beneficially own more than 10% of our common stock prior to the closing of this offering, Goldman, Sachs & Co. may be deemed to have a “conflict of interest” with us under NASD Rule 2720 of the Financial Industry Regulatory Authority (formerly known as the National Association of Securities Dealers, Inc., or NASD) (“FINRA”). Because all of the members primarily responsible for managing the public offering do not have a conflict of interest, are not affiliates of any member that does have a conflict of interest, and meet the requirements of NASD Rule 2720(f)(12)(E), FINRA does not require that we use a qualified independent underwriter for this offering.
