"*Applicable Premium*" means, with respect to any note on any Redemption Date, the greater of:

(1) 1.0% of the principal amount of the note; and

(2) the excess of:

(a) the present value at such Redemption Date of (i) the redemption price of the note at January 15, 2021 (such redemption price being set forth in the table appearing above under the caption "Optional Redemption"), plus (ii) all required interest payments due on the note through January 15, 2021 (excluding accrued but unpaid interest, if any, to, but not including, the Redemption Date), computed using a discount rate equal to the Treasury Rate as of such Redemption Date plus 50 basis points; over

“*Treasury Rate*” means, as of any Redemption Date, the yield to maturity as of such Redemption Date of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H.15 (519) that has become publicly available at least two business days prior to the Redemption Date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from the Redemption Date to January 15, 2021; *provided*, however, that if the period from the Redemption Date to January 15, 2021 is less than one year, the weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year will be used.

It is expected that delivery of the notes will be made against payment therefor on or about December 4, 2015, which is the tenth business day following the date of pricing of the notes (such settlement cycle being referred to as “T+10”). Under Rule 15c6-1 under the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on the date of pricing or the next succeeding six business days will be required, by virtue of the fact that the notes initially will settle in T+10, to specify an alternative settlement cycle at the time of any such trade to prevent failed settlement and should consult their own advisors.

Use of Proceeds:

As set forth in the Preliminary Prospectus Supplement. The additional proceeds from the increase of \$100,000,000 in aggregate principal amount from the Preliminary Prospectus Supplement will be used for general corporate purposes.
