FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 000-31293

EQUINIX, INC.

(Exact name of registrant as specified in its charter)

Delaware
(State of incorporation)

77-0487526
(I.R.S. Employer
Identification No.)

One Lagoon Drive, Fourth Floor, Redwood City, California 94065

(Address of principal executive offices, including ZIP code)

(650) 598-6000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) Yes No and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of the registrant's Common Stock as of March 31, 2016 was 69,427,936.

EQUINIX, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation and Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by Equinix, Inc. ("Equinix" or the "Company") and reflect all adjustments, consisting only of normal recurring adjustments, which in the opinion of management are necessary to fairly state the financial position and the results of operations for the interim periods presented. The condensed consolidated balance sheet data as of December 31, 2015 has been derived from audited consolidated financial statements as of that date. The consolidated financial statements have been prepared in accordance with the regulations of the Securities and Exchange Commission ("SEC"), but omit certain information and footnote disclosure necessary to present the statements in accordance with generally accepted accounting principles in the United States of America ("GAAP"). For further information, refer to the Consolidated Financial Statements and Notes thereto included in Equinix's Form 10-K as filed with the SEC on February 26, 2016. Results for the interim periods are not necessarily indicative of results for the entire fiscal year.

Consolidation

The accompanying unaudited condensed consolidated financial statements include the accounts of Equinix and its subsidiaries, including the acquisitions of Telecitec Group plc ("TelecitecGroup") from January 15, 2016, Bit-isle Inc. ("Bit-isle") from November 2, 2015 and Nimbo Technologies Inc. ("Nimbo") from January 14, 2015. All significant intercompany accounts and transactions have been eliminated in consolidation.

Income Taxes

The Company began operating as a real estate investment trust for federal income tax purposes ("REIT") effective January 1, 2015. In May 2015, the Company received a favorable response to a private letter ruling ("PLR") it had requested from the U.S. Internal Revenue Service ("IRS") in connection with the Company's conversion to a REIT for federal income tax purposes. As a result, the Company may deduct the distributions made to its shareholders from taxable income generated by the Company and its Qualified REIT Subsidiaries ("QRSs"). The Company's dividends paid deduction generally eliminates the taxable income of the Company and its QRSs, resulting in no U.S. income tax due. However, the Taxable REIT Subsidiaries ("TRSs") will continue to be subject to income taxes on any taxable income generated by them. In addition, the foreign operations of the Company will continue to be subject to local income taxes regardless of whether the foreign operations are operated as a QRS or a TRS.

The Company provides for income taxes during interim periods based on the estimated effective tax rate for the year. The effective tax rate is subject to change in the future due to various factors such as the operating performance of the Company, tax law changes and future business acquisitions.

The Company's effective tax rates were 22.2% and 7.5% for the three months ended March 31, 2016 and 2015, respectively. The increase in the effective tax rate for 2016 is primarily due to non-tax deductible costs related to the TelecitecGroup acquisition.

Assets Held for Sale and Discontinued Operations

Assets and liabilities to be disposed of that meet all of the criteria to be classified as held for sale as set forth in the accounting standard for impairment or disposal of long-lived assets are reported at the lower of their carrying amounts or fair values less costs to sell. Assets are not depreciated or amortized while they are classified as held for sale. A component of a reporting entity or a group of components of a reporting entity that are disposed or meet the criteria to be classified as held for sale should be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. The accounting guidance requires a business activity that, on acquisition, meets the criteria to be classified as held for sale be reported as a discontinued operation. Accordingly, the results of operations for the TelecitecGroup data centers that will be divested have been reported as net income from discontinued operations, net of tax, from January 15, 2016, the date of the acquisition, through March 31, 2016 in the Company's condensed consolidated statement of operations. For further information on the Company's assets held for sale and discontinued operations, see Notes 4 and 5.

Recent Accounting Pronouncements

In March 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting ("ASU 2016-09"). This ASU simplifies several areas of the accounting for share-based payment award transactions, including (a) income

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

tax consequences; (b) classification of awards as either equity or liabilities; and (c) classification on the statement of cash flows. This ASU is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods, with early adoption permitted. The Company is currently evaluating the impact that the adoption of this standard will have on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-06, Derivatives and Hedging (Topic 815), Contingent Put and Call Options in Debt Instruments ("ASU 2016-06"). This ASU clarifies the requirements for assessing whether contingent call (put) options that can accelerate the payment of principal on debt instruments are clearly and closely related to their debt hosts. An entity performing the assessment under the amendments in this ASU is required to assess the embedded call (put) options solely in accordance with the four-step decision sequence. This guidance should be applied on a modified retrospective basis to existing debt instruments as of the beginning of the fiscal year in which the amendments are effective, and is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The Company is currently evaluating the impact that the adoption of this standard will have on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-05, Derivatives and Hedging (Topic 815), Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships ("ASU 2016-05"). This ASU clarifies that a change in the counterparty to a derivative instrument that has been designated as a hedging instrument under Topic 815 does not, in and of itself, require dedesignation of that hedging relationship provided that all other hedge accounting criteria continue to be met. This ASU may be applied prospectively or using a modified retrospective approach, and is effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The Company is currently evaluating the impact that the adoption of this standard will have on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842) ("ASU 2016-02"). Under the new guidance, lessees will be required to recognize the following for all leases (with the exception of short-term leases) at the commencement date: (1) a lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and (2) a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. Under the new guidance, lessor accounting is largely unchanged. Certain targeted improvements were made to align, where necessary, lessor accounting with the lessee accounting model and Topic 606, Revenue from Contracts with Customers. The new lease guidance simplified the accounting for sale and leaseback transactions primarily because lessees must recognize lease assets and lease liabilities. Lessees (for capital and operating leases) and lessors (for sales-type, direct financing, and operating leases) must apply a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. The modified retrospective approach would not require any transition accounting for leases that expired before the earliest comparative period presented. Lessees and lessors may not apply a full retrospective transition approach. ASU 2016-02 is effective for public companies for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, with early adoption permitted. While the Company is currently evaluating the impact that the adoption of this standard will have on its consolidated financial statements, the Company believes this standard will have a significant impact on its consolidated financial statements due, in part, to the substantial amount of operating leases it has.

In January 2016, the FASB issued ASU 2016-01, Financial Instruments- Overall (Subtopic 825-10) ("ASU 2016-01"), which requires all equity investments to be measured at fair value with changes in the fair value recognized through net income other than those accounted for under equity method of accounting or those that result in consolidation of the investees). The ASU also requires that an entity present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. In addition, the ASU eliminates the requirement to disclose the fair value of financial instruments measured at amortized cost for entities that are not public business entities and the requirement to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet for public business entities. ASU 2016-01 is effective for public companies for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company is currently evaluating the impact that the adoption of this standard will have on its consolidated financial statements.

In September 2015, the FASB issued ASU 2015-16, Business Combinations ("ASU 2015-16"), to simplify accounting for adjustments made to provisional amounts recognized in a business combination by eliminating the requirement to retrospectively account for those adjustments. This ASU is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years, with early adoption permitted. The amendments in this ASU require that the acquirer record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization or other income effects as a result of changes to provisional amounts, calculated as if the accounting had been completed at the acquisition

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

date. The Company adopted ASU 2015-16 in the three months ended March 31, 2016. The adoption of ASU 2015-16 did not have a significant impact on the Company's consolidated financial statements.

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (“ASU 2015-07”), which permits a reporting entity, as a practical expedient, to measure the fair value of certain investments using the net asset value per share of the investment. This ASU is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years with early adoption permitted. A reporting entity should apply the amendment retrospectively to all periods presented. The retrospective approach requires that an investment for which fair value is measured using the net asset value per share practical expedient be removed from the fair value hierarchy in all periods presented in an entity's financial statements. The Company adopted ASU 2015-07 in the three months ended March 31, 2016. The adoption of ASU 2015-07 did not have a significant impact on the Company's consolidated financial statements.

In February 2015, the FASB issued ASU 2015-02, Consolidations (“ASU 2015-02”). This ASU requires companies to adopt a new consolidation model, specifically: (1) the ASU modifies the evaluation of whether limited partnerships and similar legal entities are variable interest entities (VIEs) or voting interest entities; (2) the ASU eliminates the presumption that a general partner should consolidate a limited partnership; (3) the ASU affects the consolidation analysis of reporting entities involved with VIEs and (4) the ASU provides a scope exception from consolidation guidance for reporting entities with interests in legal entities that are required to comply with or operate in accordance with requirements that are similar Rule 2a-7 of the Investment Company Act of 1940 for registered money market funds. This ASU is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015, with early adoption permitted. The Company adopted ASU 2015-02 in the three months ended March 31, 2016. The adoption of ASU 2015-02 did not have a significant impact on the Company's consolidated financial statements.

In January 2015, the FASB issued ASU 2015-01, Income Statement – Extraordinary and Unusual Items (“ASU 2015-01”), to simplify the income statement presentation requirements by eliminating the concept of extraordinary items. ASU 2015-01 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015, with early adoption permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. The Company adopted ASU 2015-01 in the three months ended March 31, 2016. The adoption of ASU 2015-01 did not have a significant impact on the Company's consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (“ASU 2014-09”). This ASU requires companies to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which companies expect to be entitled in exchange for those goods or services. This ASU will replace most existing revenue recognition guidance in GAAP when it becomes effective. This ASU was originally effective for fiscal years and interim periods beginning after December 15, 2016. In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (“ASU 2015-14”), which amends ASU 2014-09 and defers its effective date to fiscal years and interim reporting periods beginning after December 15, 2017. ASU 2015-14 permits earlier application only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers, which clarifies the implementation guidance of principal-versus-agent considerations. The Company is currently evaluating the impact that the adoption of this standard and its amendments will have on its consolidated financial statements. In April 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing. The amendments clarify the following two aspects of Topic 606: (a) identifying performance obligations; and (b) the licensing implementation guidance. The amendments do not change the core principle of the guidance in Topic 606. The ASU 2016-10 is effective for annual reporting periods beginning after December 15, 2017, including interim reporting periods therein (i.e., January 1, 2018, for a calendar year entity). Early application for public entities is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is currently evaluating the impact that the adoption of this standard will have on its consolidated financial statements.

Table of Contents

2. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share ("EPS") for the periods presented (in thousands, except per share amounts):

	Three months ended March 31,	
	2016	2015
Net income (loss):		
Net income (loss) from continuing operations	\$ (37,327)	\$ 76,452
Net income from discontinued operations	6,216	—
Net income (loss)	\$ (31,111)	\$ 76,452
Weighted-average shares used to calculate basic EPS	68,132	56,661
Effect of dilutive securities:		
Employee equity awards	—	566
Weighted-average shares used to calculate diluted EPS	68,132	57,227
Basic EPS:		
Continuing operations	\$ (0.55)	\$ 1.35
Discontinued operations	0.09	—
Basic EPS	\$ (0.46)	\$ 1.35
Diluted EPS:		
Continuing operations	\$ (0.55)	\$ 1.34
Discontinued operations	0.09	—
Diluted EPS	\$ (0.46)	\$ 1.34

The following table sets forth weighted-average outstanding potential shares of common stock that are not included in the diluted earnings per share calculation above because to do so would be anti-dilutive for the periods indicated (in thousands):

	Three months ended March 31,	
	2016	2015
Shares reserved for conversion of 4.75% convertible subordinated notes	1,969	1,942
Common stock related to employee equity awards	1,583	211
	3,552	2,153

3. Acquisitions

TelecityGroup Acquisition

On January 15, 2016, the Company completed the acquisition of the entire issued and to be issued share capital of Telecity Group plc ("TelecityGroup"). TelecityGroup operates data center facilities in cities across Europe. The acquisition of TelecityGroup enhances the Company's existing data center portfolio by adding new IBX metro markets in Europe including Dublin, Helsinki, Istanbul, Manchester, Milan, Sofia, Stockholm and Warsaw. As a result of the transaction, TelecityGroup has become a wholly-owned subsidiary of Equinix.

Under the terms of the acquisition, the Company acquired all outstanding shares of TelecityGroup and all vested equity awards of TelecityGroup at 572.5 pence in cash and 0.0336 new shares of Equinix common stock for a total purchase consideration of approximately £2,624,500,000 or approximately \$3,743,587,000. In addition, the Company assumed \$1,299,000 of vested TelecityGroup's employee equity awards as part of consideration transferred. The Company incurred acquisition costs of approximately \$36,185,000 during period ended March 31, 2016 related to the TelecityGroup acquisition.

EQUINIX, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

In connection with the TelecityGroup acquisition, the Company placed £322,851,000 or approximately \$475,689,000 into a restricted cash account, which was included in the current portion of restricted cash in the condensed consolidated balance sheet as of December 31, 2015. The cash was released upon completion of the acquisition.

Also, in connection with TelecityGroup acquisition, the Company entered into a bridge credit agreement with J.P. Morgan Chase Bank, N.A. (“JPMCB”) as the initial lender and as administrative agent for the lenders for a principal amount of £875,000,000 or approximately \$1,289,000,000 at the exchange rate in effect on December 31, 2015 (the “Bridge Loan”). The Company had not made any borrowings under the Bridge Loan and the Bridge Loan was terminated on January 8, 2016.

The Company has initially designated the legal entities acquired in the TelecityGroup acquisition as TRSs.

Purchase Price Allocation

Under the acquisition method of accounting, the assets acquired and liabilities assumed in a business combination shall be measured at fair value at the date of the acquisition. As of the date of this quarterly report, the Company has not completed the detailed valuation analysis to derive the fair value of the following items including, but not limited to, deferred revenues; property plant and equipment; accounting for lease contracts; asset retirement obligations; favorable leasehold interests; accruals and taxes. Therefore, the allocation of the purchase price to acquired assets and liabilities is based on provisional estimates and is subject to continuing management analysis, with assistance of third party valuation advisers. As of the acquisition date, the preliminary allocation of the purchase price is as follows (in thousands):

Cash and cash equivalents	\$ 73,368
Accounts receivable	20,022
Other current assets	39,929
Property, plant and equipment	1,249,374
Goodwill	2,745,913
Intangible assets	861,817
Deferred tax assets	568
Other assets	4,123
Total assets acquired	<u>4,995,114</u>
Accounts payable and accrued expenses	(163,490)
Accrued property, plant and equipment	(3,634)
Capital lease and other financing obligations	(263,894)
Mortgage and loans payable	(592,304)
Other current liabilities	(33,730)
Deferred tax liabilities	(156,667)
Other liabilities	(36,509)
Net assets acquired	<u>\$ 3,744,886</u>

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

The preliminary purchase price allocation above, as of the acquisition date, includes acquired assets and liabilities that have been classified by the Company as held for sale (Note 4). The assets and liabilities held for sale also includes Company's London 2 data center in London, UK ("LD2").

The following table presents certain information on the acquired intangible assets (dollars in thousands):

Intangible assets	Fair value	Estimated useful lives (years)	Weighted-average estimated useful lives (years)
Customer relationships	\$ 764,550	13.5	13.5
Trade names	72,033	1.5	1.5
Favorable leases	25,234	2.4 - 33.0	13.6

The fair value of customer relationships was estimated by applying an income approach. The fair value was determined by calculating the present value of estimated future operating cash flows generated from existing customers less costs to realize the revenue. The Company applied a weighted-average discount rate of approximately 8.5%, which reflected the nature of the assets as it relates to the estimated future operating cash flows. Other significant assumptions used to estimate the fair value of the customer relationships include projected revenue growth, customer attrition rates, sales and marketing expenses and operating margins. The fair value of the TelectyGroup trade name was estimated using the relief of royalty approach. The Company applied a relief of royalty rate of 2.0% and a weighted-average discount rate of approximately 9.0%. The other acquired identifiable intangible assets were estimated by applying a relief of royalty or cost approach as appropriate. The fair value measurements were based on significant inputs that are not observable in the market and thus represent Level 3 measurements as defined in the accounting standard for fair value measurements.

The fair value of the property, plant and equipment was estimated by applying the income approach or cost approach. The income approach is used to estimate fair value based on the income stream, such as cash flows or earnings that an asset can be expected to generate its useful life. There are two primary methods of applying the income approach to determine the fair value assets: the discounted cash flow method and the direct capitalization method. The key assumptions include the estimated earnings, discount rate and direct capitalization rate. The cost approach is to use the replacement or reproduction cost as an indicator of fair value. The premise of the cost approach is that a market participant would pay no more for an asset than the amount that the asset could be replaced or reproduced. The key assumptions of cost approach include replacement cost new, physical deterioration, functional and economic obsolescence, economic useful life, remaining useful life, age and effective age.

The Company determined the fair value of the loans payable assumed in the TelectyGroup acquisition by estimating TelectyGroup's debt rating and reviewed market data with a similar debt rating and other characteristics of the debt, including the maturity date and security type. On January 15, 2016, the Company prepaid and terminated these loans payable. In conjunction with the repayment of the loans payable, the Company incurred an insignificant amount of pre-payment penalties and interest rate swap termination costs, which were recorded as interest expense in the condensed consolidated statement of operations.

Goodwill represents the excess of the purchase price over the fair value of the net tangible and intangible assets acquired. The goodwill is attributable to the workforce of the acquired business and the significant synergies expected to arise after the acquisition. The goodwill is not expected to be deductible for local tax purposes. Goodwill will not be amortized and will be tested for impairment at least annually. Goodwill recorded as a result of the TelectyGroup acquisition, except for the goodwill associated with asset held for sale, is attributable to the Company's EMEA region. For the three months ended March 31, 2016, the Company's results of continuing operations include TelectyGroup revenues of \$84,439,000 and net loss from continuing operations of \$2,821,000 for the period January 15, 2016 through March 31, 2016.

Bit-isle Acquisition

On November 2, 2015, the Company, acting through its Japanese subsidiary, completed a cash tender offer for approximately 97% of the equity instruments, including stock options, of Tokyo-based Bit-isle. The Company acquired the remaining outstanding equity instruments of Bit-isle in December 2015. The offer price was JPY 922 per share, in an all cash transaction totaling approximately \$275,367,000.

EQUINIX, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

On September 30, 2015, the Company, acting through its Japanese subsidiaries as borrowers, entered into a term loan agreement (the “Bridge Term Loan Agreement”) with the Bank of Tokyo-Mitsubishi UFJ, Ltd. (“BTMU”). Pursuant to the Bridge Term Loan Agreement, BTMU has committed to provide a senior bridge loan facility (the “Bridge Term Loan”) in the amount of up to ¥47,500,000,000, or approximately \$422,275,000 in U.S. dollars at the exchange rate in effect on March 31, 2016. Proceeds from the Bridge Term Loan were to be used exclusively for the acquisition of Bit-isle, the repayment of Bit-isle’s existing debt and transaction costs incurred in connection with the closing of the Bridge Term Loan and the acquisition of Bit-isle. For further information on the Bridge Term Loan, see Note 9 below.

The Company included Bit-isle’s results of operations from November 2, 2015 and the estimated fair value of assets acquired and liabilities assumed in its consolidated balance sheets beginning November 2, 2015.

The Company has initially designated the legal entities acquired in the Bit-isle acquisition as TRSs.

Purchase Price Allocation

Under the acquisition method of accounting, the total purchase price was allocated to Bit-isle’s net tangible and intangible assets based upon their fair value as of the Bit-isle acquisition date. Under the accounting guidance, the Company can adjust the fair value of acquired assets and liabilities assumed in the measurement period, as it obtains new information regarding the facts and circumstances that existed at the acquisition date. Based upon the purchase price and the valuation of Bit-isle, the purchase price allocation was as follows (in thousands):

Cash and cash equivalent	\$ 33,198
Accounts receivable	7,359
Other current assets	51,038
Long-term investments	3,806
Property, plant and equipment	308,985
Goodwill	95,444
Intangible assets	111,374
Other assets	22,981
Total assets acquired	634,185
Accounts payable and accrued expenses	(15,028)
Accrued property, plant and equipment	(465)
Capital lease and other financing obligations	(108,833)
Mortgage and loans payable	(190,227)
Other current liabilities	(8,689)
Deferred tax liabilities	(32,192)
Other liabilities	(3,384)
Net assets acquired	\$ 275,367

The following table presents certain information on the acquired identifiable intangible assets (dollars in thousands):

Intangible assets	Fair value	Estimated useful lives (years)	Weighted-average estimated useful lives (years)
Customer relationships	\$ 105,434	13	13
Trade name	3,455	2	2
Favorable solar contracts	2,410	18	18
Other intangible assets	75	0.25	0.25

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

The fair value of customer relationships was estimated by applying an income approach. The fair value was determined by calculating the present value of estimated future operating cash flows generated from existing customers less costs to realize the revenue. The Company applied a weighted-average discount rate of approximately 11.0%, which reflected the nature of the assets as it relates to the estimated future operating cash flows. Other significant assumptions used to estimate the fair value of the customer relationships include projected revenue growth, customer attrition rates, sales and marketing expenses and operating margins. The fair value of the Bit-isle trade name was estimated using the relief of royalty approach. The Company applied a relief of royalty rate of 2.0% and a weighted-average discount rate of approximately 12.0%. The other acquired identifiable intangible assets were estimated by applying an income or cost approach as appropriate. The fair value measurements were based on significant inputs that are not observable in the market and thus represent Level 3 measurements as defined in the accounting standard for fair value measurements.

The fair value of the property, plant and equipment was estimated by applying the income approach or cost approach. The income approach is used to estimate fair value based on the income stream, such as cash flows or earnings that an asset can be expected to generate its useful life. There are two primary methods of applying the income approach to determine the fair value assets: the discounted cash flow method and the direct capitalization method. The key assumptions include the estimated earnings, discount rate and direct capitalization rate. The cost approach is to use the replacement or reproduction cost as an indicator of fair value. The premise of the cost approach is that a market participant would pay no more for an asset than the amount that the asset could be replaced or reproduced. The key assumptions of cost approach include replacement cost new, physical deterioration, functional and economic obsolescence, economic useful life, remaining useful life, age and effective age.

The Company determined the fair value of the loans payable assumed in the Bit-isle Acquisition by estimating Bit-isle's debt rating and reviewed market data with a similar debt rating and other characteristics of the debt, including the maturity date and security type. During the year ended December 31, 2015, the Company prepaid and terminated the majority of these loans payable. In conjunction with the repayment of the loans payable, the Company incurred an insignificant amount of pre-payment penalties and interest rate swap termination costs, which were recorded as interest expense in the consolidated statement of operations for the year ended December 31, 2015.

Goodwill represents the excess of the purchase price over the fair value of the net tangible and intangible assets acquired. The goodwill is attributable to the workforce of the acquired business and the significant synergies expected to arise after the acquisition. The goodwill is not expected to be deductible for local tax purposes. Goodwill will not be amortized and will be tested for impairment at least annually. Goodwill recorded as a result of the Bit-isle acquisition is attributable to the Company's Asia-Pacific region. For the three months ended March 31, 2016, the Company's results of continuing operations include Bit-isle revenues of \$34,204,000 and net loss of \$4,213,000.

Nimbo Acquisition

On January 14, 2015, the Company acquired all of the issued and outstanding share capital of Nimbo Technologies Inc. ("Nimbo"), a company which specializes in migrating business applications to the cloud with extensive experience moving legacy applications into a hybrid cloud architecture, and connecting legacy data centers to the cloud, for a cash payment of \$10,000,000 and a contingent earn-out arrangement to be paid over two years (the "Nimbo Acquisition"). Nimbo continues to operate under the Nimbo name. The Nimbo Acquisition was accounted for using the acquisition method. As a result of the Nimbo Acquisition, the Company recorded goodwill of \$17,192,000, which represents the excess of the total purchase price over the fair value of the assets acquired and liabilities assumed. The Company recorded the contingent earn-out arrangement at its estimated fair value. The results of operations for Nimbo are not significant to the Company; therefore, the Company does not present its purchase price allocation or pro forma combined results of operations. In addition, any prospective changes in the Company's earn-out estimates are not expected to have a material effect on the Company's consolidated statement of operations.

Unaudited Pro Forma Combined Consolidated Financial Information

The following unaudited pro forma combined consolidated financial information has been prepared by the Company using the acquisition method of accounting to give effect to the TelecityGroup and Bit-isle acquisitions as though the acquisitions occurred on January 1, 2015. The Company completed the TelecityGroup acquisition on January 15, 2016. The operating results of TelecityGroup for the period January 15, 2016 through March 31, 2016 were included in the condensed consolidated statement of operations for the period ended March 31, 2016. The pro forma effect for the period ended March 31, 2016 was insignificant. The unaudited pro forma combined consolidated financial information reflects certain adjustments, such as additional depreciation, amortization and interest expense on assets and liabilities acquired.

EQUINIX, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

The unaudited pro forma combined consolidated financial information is presented for illustrative purposes only and is not necessarily indicative of the results of operations that would have actually been reported had the acquisitions occurred on the above dates, nor is it necessarily indicative of the future results of operations of the combined company.

The following table sets forth the unaudited pro forma consolidated combined results of operations for the three months ended March 31, 2015 (in thousands):

	Three months ended March 31, 2015
Revenues	\$ 778,536
Net income from continuing operations	50,960
Basic EPS	0.80
Diluted EPS	0.80

4. Assets Held for Sale

In order to obtain the approval of the European Commission for the acquisition of TelecityGroup, the Company and TelecityGroup have agreed to divest certain data centers, including the Company's LD2 and certain data centers of TelecityGroup in the United Kingdom, Netherlands and Germany. There is no definitive agreement with any buyer or buyers and any such agreement will be subject to the approval of the European Commission. There can be no assurance as to the timing or amount of proceeds to be received in connection with the sale of all or any part of data centers to be divested in connection with the TelecityGroup acquisition. The assets and liabilities of LD2, which are included within the EMEA operating segment, were classified as held for sale in the fourth quarter of 2015 and, therefore, the corresponding depreciation and amortization expense was ceased at that time. This anticipated divestiture is not presented as discontinued operations in the consolidated statements of operations, because it does not represent a strategic shift in the Company's business, as the Company will continue operating similar businesses after the acquisition. During the three months ended March 31, 2016 and 2015, LD2 had revenue of \$3,166,000 and \$4,682,000, respectively, and net income recognized during these periods was insignificant.

During the fourth quarter of 2015, the Company entered into an agreement to sell a parcel of land in San Jose, California and reported the San Jose land parcel as asset held for sale in the accompanying consolidated balance sheet as of December 31, 2015. The sale was completed in February 2016.

The acquisition of TelecityGroup closed on January 15, 2016. Accordingly, the assets and liabilities of the TelecityGroup data centers that will be divested were included in assets and liabilities held for sale in the condensed consolidated balance sheet as of March 31, 2016. The results of operations for the TelecityGroup data centers that will be divested were classified as discontinued operations from January 15, 2016, the date the acquisition closed, through March 31, 2016.

When an asset is classified as held for sale, the asset's book value is evaluated and adjusted to the lower of its carrying amount or fair value less cost to sell. The determination of fair value for assets is dependent upon, among other factors, the potential sales transaction, composition of assets in the disposal group, the comparability of the disposal group to market transactions and negotiations with third party purchasers, etc. Such factors impact the range of potential fair values and the selection of the best estimates. As of the date of this quarterly report, the fair value of assets acquired as a result of the acquisition of TelecityGroup has not been finalized yet. The assets held for sale is based on the estimated selling price less the estimated cost to sell the assets. As of March 31, 2016 and December 31, 2015, the Company determined that assets held for sale had not been impaired.

EQUINIX, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

The following table summarizes assets and liabilities that were classified in assets and liabilities held for sale as of March 31, 2016 and December 31, 2015 (in thousands):

	March 31, 2016	December 31, 2015
Accounts receivable	\$ 9,011	\$ 2,222
Other current assets	3,178	408
Property, plant and equipment	216,364	23,533
Goodwill	518,766	5,000
Intangible assets	206,644	784
Other assets	1,941	1,310
Total assets held for sale	\$ 955,904	\$ 33,257
Accounts payable, accrued expenses and estimated costs to sell	\$ (56,367)	\$ (654)
Accrued property, plant and equipment	—	(816)
Current portion of capital lease and other financing obligation	(93)	—
Other current liabilities	(4,048)	(435)
Capital lease and other financing obligations, less current portion	(56,896)	—
Other liabilities	(7,167)	(1,630)
Total liabilities held for sale	\$ (124,571)	\$ (3,535)

5. Discontinued Operations

In order to obtain the approval of the European Commission for the acquisition of TelecityGroup, the Company and TelecityGroup have agreed to divest certain data centers, including the Company's LD2 and certain data centers of TelecityGroup in the United Kingdom, Netherlands and Germany. Accounting guidance requires a business activity that, on acquisition, meets the criteria to be classified as held for sale be reported as a discontinued operation. Accordingly, the results of operations for the TelecityGroup data centers that will be divested have been reported as net income from discontinued operations, net of tax, from January 15, 2016, the date of the acquisition, through March 31, 2016 in the Company's condensed consolidated statement of operations.

The following table presents the financial results of the discontinued operations:

	Three months ended March 31, 2016
Revenues	\$ 20,581
Costs and operating expenses:	
Cost of revenues	11,610
Sales and marketing	217
General and administrative	383
Total costs and operating expenses	12,210
Income from operations of discontinued operations	8,371
Interest and other, net	(469)
Income from discontinued operations before income taxes	7,902
Income tax expense	(1,686)
Income from discontinued operations, net of income taxes	\$ 6,216

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)**

Net cash used in operating activities for discontinued operations was \$11,769,000 and net cash used in investing activities for discontinued operations was \$23,428,000 for the period ended March 31, 2016.

No gain or loss on the disposition of the assets and liabilities of these data centers has been recognized in the condensed consolidated financial statements.

**6. Derivatives and Hedging
Activities*****Derivatives Designated as Hedging Instruments***

Net Investment Hedges. The Company is exposed to the impact of foreign exchange rate fluctuations in investments in its wholly-owned foreign subsidiaries that are denominated in currencies other than the U.S. dollar. In order to mitigate the volatility in foreign currency exchange rates, the Company has entered into various foreign currency loans which are designated as hedges against the Company's net investment in foreign subsidiaries. In April 2015, the Company entered into a foreign currency term loan ("Term Loan A") and designated 100% of the Term Loan A to hedge its net investments in its wholly-owned foreign subsidiaries that are denominated in the same foreign currencies as the term loan. In December 2015, the Company terminated hedging its net investment in subsidiaries that are denominated in Swiss Francs. In January 2016, the Company borrowed the full amount of the \$250,000,000 and £300,000,000 seven year term loan commitments made available to it under the second amendment to the Company's Senior Credit Facility ("Term Loan B"). The Company designated the portion of Term Loan B that is denominated in the British pound to hedge the net investments in its wholly-owned foreign subsidiaries. In March 2016, the Company used foreign exchange forward contracts to hedge against the effect of foreign exchange rate fluctuations on a portion of its net investment in the EMEA operations. The total principal amount of foreign currency loans outstanding at March 31, 2016 and December 31, 2015, which were designated as net investment hedges, was \$844,278,000 and \$411,881,000, respectively. For a net investment hedge, all changes in the fair value of the hedging instrument designated as a net investment hedge, except the ineffective portion, are recorded as a component of other comprehensive income in the condensed consolidated balance sheet. The Company recorded net foreign exchange loss of \$16,312,000 in other comprehensive income and loss for the three months ended March 31, 2016. The Company recorded no ineffectiveness from its net investment hedges for the three months ended March 31, 2016.

Cash Flow Hedges. The Company hedges its exposure to foreign currency exchange rate fluctuations for forecasted revenues and expenses in its EMEA region in order to help manage the Company's exposure to foreign currency exchange rate fluctuations between the U.S. dollar and the British Pound, Euro and Swiss Franc. The foreign currency forward and option contracts that the Company uses to hedge this exposure are designated as cash flow hedges under the accounting standard for derivatives and hedging.

Effective January 1, 2015, the Company entered into intercompany hedging instruments ("intercompany derivatives") with a wholly-owned subsidiary of the Company and simultaneously entered into derivative contracts with unrelated parties to hedge certain forecasted revenues and expenses denominated in currencies other than the U.S. dollar.

The following disclosure is prepared on a consolidated basis. Assets and liabilities resulting from intercompany derivatives have been eliminated in consolidation.

EQUINIX, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

As of March 31, 2016, the Company’s cash flow hedges had maturities dates ranging from April 2016 to December 2017 as follows (in thousands):

	Notional Amount	Fair Value ⁽¹⁾	Accumulated other comprehensive income (loss) ⁽²⁾⁽³⁾
Derivative assets	\$ 282,657	\$ 11,965	\$ 27,270
Derivative liabilities	236,860	(6,762)	(21,445)
	<u>\$ 519,517</u>	<u>\$ 5,203</u>	<u>\$ 5,825</u>

(1) All derivative assets related to cash flow hedges are included in the condensed consolidated balance sheets within other current assets, other assets, other current liabilities and other liabilities.

(2) Included in the condensed consolidated balance sheets within accumulated other comprehensive income (loss).

(3) The Company recorded a net gain of \$5,951 within accumulated other comprehensive income (loss) relating to cash flow hedges that will be reclassified to revenue and expenses as they mature in the next 12 months.

As of December 31, 2015, the Company’s cash flow hedges had maturities dates ranging from January 2016 to December 2017 as follows (in thousands):

	Notional Amount	Fair Value ⁽¹⁾	Accumulated other comprehensive income (loss) ⁽²⁾⁽³⁾
Derivative assets	\$ 367,330	\$ 16,027	\$ 34,578
Derivative liabilities	47,447	(813)	(19,709)
	<u>\$ 414,777</u>	<u>\$ 15,214</u>	<u>\$ 14,869</u>

(1) All derivative assets related to cash flow hedges are included in the condensed consolidated balance sheets within other current assets, other assets, other current liabilities and other liabilities.

(2) Included in the condensed consolidated balance sheets within accumulated other comprehensive income (loss).

(3) The Company recorded a net gain of \$12,940 within accumulated other comprehensive income (loss) relating to cash flow hedges that will be reclassified to revenue and expense as they mature over the next 12 months.

During the three months ended March 31, 2016 and 2015, the ineffective and excluded portions of cash flow hedges recognized in other income (expense) were not significant. During the three months ended March 31, 2016, the amount of net gains reclassified from accumulated other comprehensive income (loss) to revenue was \$6,446,000 and the amount of net losses reclassified from accumulated other comprehensive income (loss) to operating expenses was \$3,831,000. During the three months ended March 31, 2015, the amount of net gains reclassified from accumulated other comprehensive income (loss) to revenue was \$8,078,000 and the amount of net losses reclassified from accumulated other comprehensive income (loss) to operating expenses were not significant.

Derivatives Not Designated as Hedging Instruments

Embedded Derivatives. The Company is deemed to have foreign currency forward contracts embedded in certain of the Company’s customer agreements that are priced in currencies different from the functional or local currencies of the parties involved. These embedded derivatives are separated from their host contracts and carried on the Company’s balance sheet at their fair value. The majority of these embedded derivatives arise as a result of the Company’s foreign subsidiaries pricing their customer contracts in the U.S. dollar. Gains and losses on these embedded derivatives are included within revenues in the Company’s condensed consolidated statements of operations. During the three months ended March 31, 2016, the loss associated with these embedded derivatives were \$6,559,000 and during the three months ended March 31, 2015, the gains (losses) associated with these embedded derivatives were insignificant.

Economic Hedges of Embedded Derivatives. The Company uses foreign currency forward contracts to manage the foreign exchange risk associated with the Company’s customer agreements that are priced in currencies different from the functional or local currencies of the parties involved (“economic hedges of embedded derivatives”). Foreign currency forward contracts represent agreements to exchange the currency of one country for the currency of another country at an agreed-upon price on an agreed-

EQUINIX, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

upon settlement date. Gains and losses on these contracts are included in revenues along with gains and losses of the related embedded derivatives. The Company entered into various economic hedges of embedded derivatives during the three months ended March 31, 2016 and 2015. During the three months ended March 31, 2016, the gains associated with these contracts were \$3,690,000 and during the three months ended March 31, 2015, the gains (losses) from these contracts were insignificant.

Foreign Currency Forward and Option Contracts. The Company also uses foreign currency forward and option contracts to manage the foreign exchange risk associated with certain foreign currency-denominated assets and liabilities. As a result of foreign currency fluctuations, the U.S. dollar equivalent values of its foreign currency-denominated assets and liabilities change. Gains and losses on these contracts are included in other income (expense), net, along with foreign currency gains and losses of the related foreign currency-denominated assets and liabilities associated with these foreign currency forward and contracts. The Company entered into various foreign currency forward and option contracts during the three months ended March 31, 2016 and 2015. During the three months ended March 31, 2016 and 2015, the company recognized a net loss of \$7,593,000 and a net gain of \$10,257,000, respectively, associated with these contracts.

EQUINIX, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

8. Leases

Capital Lease and Other Financing Obligations

Tokyo 5 ("TY5") Equipment Leases

In February 2016, the Company entered into a lease agreement for certain equipment in TY5 data center in Tokyo metro area. The lease was accounted for as a capital lease. Monthly payments under the equipment lease will be made through February 2032 at an effective interest rate of 6.33%. The total obligation under the equipment lease was approximately ¥3,074,947,000, or \$27,335,000 in U.S. dollars at the exchange rate in effect as of March 31, 2016.

Maturities of Capital Lease and Other Financing Obligations

The Company's capital lease and other financing obligations are summarized as follows (in thousands):

	Capital lease obligations	Other financing obligations ⁽¹⁾	Total
2016 (9 months remaining)	\$ 58,850	\$ 64,147	\$ 122,997
2017	79,509	86,216	165,725
2018	80,032	82,472	162,504
2019	80,857	77,091	157,948
2020	80,878	74,617	155,495
Thereafter	961,236	794,225	1,755,461
Total minimum lease payments	1,341,362	1,178,768	2,520,130
Plus amount representing residual property value	368	539,509	539,877
Less amount representing interest	(629,395)	(830,142)	(1,459,537)
Present value of net minimum lease payments	712,335	888,135	1,600,470
Less current portion	(23,269)	(25,056)	(48,325)
	<u>\$ 689,066</u>	<u>\$ 863,079</u>	<u>\$ 1,552,145</u>

⁽¹⁾ Other financing obligations are primarily build-to-suit lease obligations.

Other financing obligations for data centers to be divested in connection with the Company's acquisition of TelecityGroup are included in liabilities held for sale in the condensed consolidated balance sheet at March 31, 2016 and are not included in the summary of the Company's capital lease and other financing obligations above. Total minimum lease payments under those obligations totaled \$56,989,000 at March 31, 2016.

EQUINIX, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

9. Debt
Facilities

Mortgage and Loans Payable

The Company's mortgage and loans payable consisted of the following (in thousands):

	March 31, 2016	December 31, 2015
Term loans	\$ 1,139,986	\$ 456,740
Bridge term loan	422,275	386,547
Revolving credit facility borrowings	—	325,622
Brazil financings	28,873	27,113
Mortgage payable and other loans payable	49,568	47,677
	1,640,702	1,243,699
Less amount representing debt discount and debt issuance cost	(15,895)	(2,681)
Plus amount representing mortgage premium	2,065	1,987
	1,626,872	1,243,005
Less current portion	(487,065)	(770,236)
	<u>\$ 1,139,807</u>	<u>\$ 472,769</u>

On January 8, 2016, the Company borrowed the full amount of the \$250,000,000 and £300,000,000 seven year term loan commitments made available to it under the second amendment to the Company's Senior Credit Facility. The \$250,000,000 seven year term loan bears interest at 4.0000% per annum and will be repaid in quarterly installments of \$625,000 commencing on June 30, 2016 with the remaining \$233,125,000 due on January 8, 2023. The £300,000,000 seven year term loan bears interest at 4.5000% per annum and will be repaid in quarterly installments of £750,000 commencing on June 30, 2016 with the remaining £279,750,000 due on January 8, 2023. The £300,000,000 outstanding term loan was approximately \$431,310,000 in U.S. dollars at the exchange rate in effect as of March 31, 2016.

On January 15, 2016, the Company prepaid and terminated loans payable of TelecityGroup. In conjunction with the repayment of the loans payable, the company incurred an insignificant amount of pre-payment penalties and interest rate swap termination costs, which were recorded as interest expense in the condensed consolidated statement of operations. See Note 3 for additional information.

In February 2016, the Company borrowed the remaining ¥1,040,000,000, or approximately \$9,246,000 in U.S. dollars at the exchange rate in effect as of March 31, 2016, available under its JPY bridge term loan agreement.

During the three months ended March 31, 2016, the Company repaid \$325,622,000 of borrowings under its revolving credit facility. No borrowings were outstanding under the revolving credit facility as of March 31, 2016.

Convertible Debt

The Company's convertible debt consisted of the following (in thousands):

	March 31, 2016	December 31, 2015
4.75% convertible subordinated notes	\$ 150,082	\$ 150,082
Less amount representing debt discount and debt issuance cost	(1,800)	(3,961)
	<u>\$ 148,282</u>	<u>\$ 146,121</u>

4.75% Convertible Subordinated Notes

Holders of the 4.75% convertible subordinated notes were eligible to convert their notes during the quarter ended March 31, 2016 and are eligible to convert their notes during the remaining term of the notes, since the stock price condition conversion

EQUINIX, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

clause was met during the applicable periods. As of March 31, 2016, had the holders of the 4.75% convertible subordinated notes converted their notes, the 4.75% convertible subordinated notes would have been convertible into a maximum of 1,972,258 shares of the Company's common stock.

The 4.75% convertible subordinated notes are scheduled to mature on June 15, 2016. Upon maturity (and assuming that no conversion occurs prior to such maturity), the Company will be obligated to settle any outstanding principal amount of the notes and accrued interest in cash. On March 15, 2016, the Company notified convertible bond holders it has elected to deliver shares (and cash in lieu of any fractional shares) in respect of any conversion notices on or after March 15, 2016.

To minimize the impact of potential dilution upon conversion of the 4.75% convertible subordinated notes, the Company entered into capped call transactions (the "Capped Call") separate from the issuance of the 4.75% convertible subordinated notes and paid a premium of \$49,664,000 for the Capped Call in 2009. The Capped Call covers a total of approximately 4,432,638 shares of the Company's common stock, subject to adjustment. Under the Capped Call, the Company effectively raised the conversion price of the 4.75% convertible subordinated notes from \$84.32 to \$114.82.

The Company amends the Capped Call agreement each time a special distribution or quarterly dividend is declared to adjust the effective conversion price of the 4.75% Convertible Subordinated Notes. Pursuant to the declaration of the quarterly dividend in February 2016, the Company further amended the Capped Call agreement to adjust the effective conversion price of the 4.75% convertible subordinated notes from \$76.10 to \$103.54 per share of common stock. Depending upon the Company's stock price at the time the 4.75% convertible subordinated notes are redeemed, the settlement of the Capped Call will result in a delivery of up to 1,301,644 shares of the Company's common stock to the Company; however, the Company will receive no benefit from the Capped Call if the Company's stock price is \$76.10 or lower at the time of conversion and will receive less shares than the 1,301,644 share maximum as described above for share prices in excess of \$103.54 at the time of conversion than it would have received at a share price of \$103.54 (the Company's benefit from the Capped Call is capped at \$103.54 and the benefit received begins to decrease above this price).

Senior Notes

The Company's senior notes consisted of the following as of (in thousands):

	March 31, 2016	December 31, 2015
5.375% Senior Notes due 2023	\$ 1,000,000	\$ 1,000,000
5.375% Senior Notes due 2022	750,000	750,000
4.875% Senior Notes due 2020	500,000	500,000
5.75% Senior Notes due 2025	500,000	500,000
5.875% Senior Notes due 2026	1,100,000	1,100,000
	3,850,000	3,850,000
Less amount representing debt issuance cost	(43,833)	(45,366)
	<u>\$ 3,806,167</u>	<u>\$ 3,804,634</u>

Maturities of Debt Facilities

The following table sets forth maturities of the Company's debt, including mortgage and loans payable, convertible debt and senior notes and excluding debt discounts and premium as of March 31, 2016 (in thousands):

Year ending:	
2016 (9 months remaining)	\$ 624,264
2017	60,136
2018	56,255
2019	356,803
2020	510,232
Thereafter	4,035,159
	<u>\$ 5,642,849</u>

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

Fair Value of Debt Facilities

The following table sets forth the estimated fair values of the Company's mortgage and loans payable, senior notes and convertible debt, including current maturities, as of (in thousands):

	March 31, 2016	December 31, 2015
Mortgage and loans payable	\$ 1,624,926	\$ 916,602
Convertible debt	152,896	151,997
Senior notes	4,024,875	3,954,000
Revolving credit line	—	325,617

The Company has determined that the inputs used to value its debt facilities fall within Level 2 of the fair value hierarchy.

Interest Charges

The following table sets forth total interest costs incurred and total interest costs capitalized for the periods presented (in thousands):

	Three months ended March 31,	
	2016	2015
Interest expense	\$ 100,863	\$ 68,791
Interest capitalized	2,286	3,203
Interest charges incurred	\$ 103,149	\$ 71,994

10. Commitments and Contingencies
Purchase Commitments

Primarily as a result of the Company's various IBX expansion projects, as of March 31, 2016, the Company was contractually committed for \$410.7 million of unaccrued capital expenditures, primarily for IBX infrastructure equipment not yet delivered and labor not yet provided, in connection with the work necessary to open these IBX data centers and make them available to customers for installation. In addition, the Company had numerous other, non-capital purchase commitments in place as of March 31, 2016, such as commitments to purchase power in select locations through the remainder of 2016 and thereafter, and other open purchase orders for goods or services to be delivered or provided during the remainder of 2016 and thereafter. Such other miscellaneous purchase commitments totaled \$442.4 million as of March 31, 2016.

11. Stockholders' Equity
Accumulated Other Comprehensive Loss

The components of accumulated other comprehensive loss, net of tax, are as follows (in thousands):

	Balance as of December 31, 2015	Net Change	Balance as of March 31, 2016
Foreign currency translation adjustment ("CTA") gain (loss)	\$ (523,709)	\$ 115,899	\$ (407,810)
Unrealized gain (loss) on cash flow hedges	11,153	(6,784)	4,369
Unrealized loss on available-for-sale securities	(139)	(304)	(443)
Net investment hedge CTA gain (loss)	4,484	(16,312)	(11,828)
Net actuarial gain (loss) on defined benefit plans	(848)	6	(842)
	\$ (509,059)	\$ 92,505	\$ (416,554)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
(Unaudited)

Changes in foreign currency exchange rates can have a significant impact to the Company’s consolidated balance sheets (as evidenced above in the Company’s foreign currency translation gain or loss), as well as its consolidated results of operations, as amounts in foreign currencies generally translate into more U.S. dollars when the U.S. dollar weakens or less U.S. dollars when the U.S. dollar strengthens. As of March 31, 2016, the U.S. dollar was generally weaker relative to certain of the currencies of the foreign countries in which the Company operates. This overall weakening of the U.S. dollar had an overall favorable impact on the Company’s consolidated financial position because the foreign denominations translated into more U.S. dollars as evidenced by an increase in foreign currency translation gain for the three months ended March 31, 2016 as reflected in the above table. In future periods, the volatility of the U.S. dollar as compared to the other currencies in which the Company operates could have a significant impact on its consolidated financial position and results of operations including the amount of revenue that the Company reports in future periods.

Dividends

On February 18, 2016, the Company declared a quarterly cash dividend of \$1.75 per share, with a record date of March 9, 2016 and a payment date of March 23, 2016. The Company paid a total of \$121,494,000 on March 23, 2016 for the first quarter cash dividend. In addition, the Company accrued an additional \$1,366,000 in dividends payable for the restricted stock units that have not yet vested.

Stock-Based Compensation

In the first quarter of 2016, the Compensation Committee and the Stock Award Committee of the Company’s Board of Directors approved the issuance of an aggregate of 526,988 shares of restricted stock units to certain employees, including executive officers, pursuant to the 2000 Equity Incentive Plan, as part of the Company’s annual refresh program. These equity awards are subject to vesting provisions and have a weighted-average grant date fair value of \$290.46 and a weighted-average requisite service period of 3.48 years. The valuation of restricted stock units with only a service condition or a service and performance condition requires no significant assumptions as the fair value for these types of equity awards is based solely on the fair value of the Company’s stock price on the date of grant. The Company used revenue and adjusted funds from operations (“AFFO”) as the performance measurements in the restricted stock units with both service and performance conditions that were granted in February 2016, whereby revenue and adjusted earnings before interest, taxes, depreciation and amortization (“EBITDA”) were used as the performance measurements in prior years’ grants.

The Company uses a Monte Carlo simulation option-pricing model to determine the fair value of restricted stock units with a service and market condition. There were no significant changes in the assumptions used to determine the fair value of restricted stock units with a service and market condition that were granted in 2016 compared to the prior year.

The following table presents, by operating expense category, the Company’s stock-based compensation expense recognized in the Company’s condensed consolidated statement of operations (in thousands):

	Three months ended March 31,	
	2016	2015
Cost of revenues	\$ 2,997	\$ 2,306
Sales and marketing	9,771	8,711
General and administrative	21,747	19,596
	\$ 34,515	\$ 30,613

12. Segment Information

While the Company has a single line of business, which is the design, build-out and operation of IBX data centers, it has determined that it has three reportable segments comprised of its Americas, EMEA and Asia-Pacific geographic regions. The Company’s chief operating decision-maker evaluates performance, makes operating decisions and allocates resources based on the Company’s revenue and adjusted EBITDA performance both on a consolidated basis and based on these three reportable segments. The Company defines adjusted EBITDA as income from operations plus depreciation, amortization, accretion, stock-

EQUINIX, INC.

 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)
 (Unaudited)

based compensation expense, restructuring charges, impairment charges, acquisition costs and gains on asset sales as presented below (in thousands):

	Three months ended March 31,	
	2016	2015
Adjusted EBITDA:		
Americas	\$ 184,460	\$ 172,734

Revenue information on a services basis is as follows (in thousands):

	Three months ended March 31,	
	2016	2015
Colocation	\$ 619,893	\$ 481,545
Interconnection	127,205	101,658
Managed infrastructure	44,736	23,855
Other	5,260	2,599
Recurring revenues	797,094	609,657
Non-recurring revenues	47,062	33,517
	<u>\$ 844,156</u>	<u>\$ 643,174</u>

No single customer accounted for 10% or greater of the Company's revenues for the three months ended March 31, 2016 and 2015. No single customer accounted for 10% or greater of the Company's gross accounts receivable as of March 31, 2016 and December 31, 2015.

**13. Subsequent
Events**

On May 4, 2016, the Company declared a quarterly cash dividend of \$1.75 per share, which is payable on June 15, 2016 to the Company's common stockholders of record as of the close of business on May 25, 2016.

Item 2.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The information in this discussion contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such statements are based upon current expectations that involve risks and uncertainties. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. For example, the words "believes," "anticipates," "plans," "expects," "intends" and similar expressions are intended to identify forward-looking statements. Our actual results and the timing of certain events may differ significantly from the results discussed in the forward-looking statements. Factors that might cause such a discrepancy include, but are not limited to, those discussed in "Liquidity and Capital Resources" below and "Risk Factors" in Item 1A of Part II of this Quarterly Report on Form 10-Q. All forward-looking statements in this document are based on information available to us as of the date of this Report and we assume no obligation to update any such forward-looking statements.

Our management's discussion and analysis of financial condition and results of operations is intended to assist readers in understanding our financial information from our management's perspective and is presented as follows:

- Overview
- Results of Operations
- Non-GAAP Financial Measures
- Liquidity and Capital Resources
- Contractual Obligations and Off-Balance-Sheet Arrangements

- Recent Accounting Pronouncements

Overview

In January 2016, as more fully described in Note 3 of Notes to Condensed Consolidated Financial Statements in Item 1 of this Quarterly Report on Form 10-Q, we completed our acquisition of Teledyne Group plc ("TeledyneGroup") for a total purchase price of approximately \$1.7 billion in cash and 6.9 million shares of our common stock valued at approximately \$2.1 billion, for a total of \$3.8 billion. In January 2016, we terminated our bridge credit agreement for £875.0 million, or approximately \$1.3 billion, related to the TeledyneGroup acquisition.

In January 2016, as more fully described in Notes 4 and 5 of Notes to Condensed Consolidated Financial Statements in Item 1 of this Quarterly Report on Form 10-Q, we agreed to divest certain data centers, including our London 2 data center in London, UK ("LD2") and certain data centers of TeledyneGroup in order to obtain the approval of the European Commission for the acquisition of TeledyneGroup. Assets and liabilities of these data centers were included in assets and liabilities held for sale in the condensed consolidated balance sheet as of March 31, 2016. The results of operations for the TeledyneGroup data centers that will be divested were classified as net income from discontinued operations, net of tax, from January 15, 2016, the date of the acquisition, through March 31, 2016 in our condensed consolidated statement of operations.

In January 2016, as more fully described in Note 9 of Notes to Condensed Consolidated Financial Statements, we borrowed the full amount of the \$250.0 million and £300.0 million, or \$431.3 million, made available to us under the second amendment to our Senior Credit Facility to fund the TeledyneGroup acquisition.

Equinix provides global data center offerings that protect and connect the world's most valued information assets. Global enterprises, financial services companies and content and network service providers rely upon Equinix's leading insight and data centers in 40 markets around the world for the safehousing of their critical IT equipment and the ability to directly connect to the networks that enable today's information-driven economy. Equinix offers the following solutions: (i) premium data center colocation, (ii) interconnection and (iii) exchange and outsourced IT infrastructure services. As of March 31, 2016, we operated or had partner International Business Exchange® ("IBX") data centers in the Atlanta, Boston, Chicago, Dallas, Denver, Los Angeles, Miami, New York, Philadelphia, Rio De Janeiro, Sao Paulo, Seattle, Silicon Valley, Toronto and Washington, D.C. metro areas in the Americas region; Bulgaria, France, Finland, Germany, Ireland, Italy, the Netherlands, Poland, Switzerland, Sweden,

[Table of Contents](#)

Turkey, the United Arab Emirates and the United Kingdom in the Europe, Middle East and Africa (“EMEA”) region; and Australia, China, Hong Kong, Indonesia, Japan and Singapore in the Asia-Pacific region.

Our data centers in 40 markets around the world are a global platform, which allows our customers to increase information and application delivery performance while significantly reducing costs. Based on our global platform and the quality of our IBX data centers, we believe we have established a critical mass of customers. As more customers locate in our IBX data centers, it benefits their suppliers and business partners to colocate as well, in order to gain the full economic and performance benefits of our offerings. These partners, in turn, pull in their business partners, creating a “marketplace” for their services. Our global platform enables scalable, reliable and cost-effective colocation, interconnection and traffic exchange that lowers overall cost and increases flexibility. Our focused business model is built on our critical mass of customers and the resulting “marketplace” effect. This global platform, combined with our strong financial position, continues to drive new customer growth and bookings.

Historically, our market has been served by large telecommunications carriers who have bundled telecommunications products and services with their colocation offerings. The data center market landscape has evolved to include cloud computing/utility providers, application hosting providers and systems integrators, managed infrastructure hosting providers and colocation providers. More than 350 companies provide data center solutions in the U.S. alone. Each of these data center solutions providers can bundle various colocation, interconnection and network offerings, and outsourced IT infrastructure services. We are able to offer our customers a global platform that reaches 21 countries with proven operational reliability, improved application performance and network choice, and a highly scalable set of offerings.

Our utilization rate was approximately 80% as of March 31, 2016 and 79% as of March 31, 2015; however, excluding the impact of our IBX data center expansion projects that have opened during the last 12 months, our utilization rate would have increased to approximately 83% as of March 31, 2016. Our utilization rate varies from market to market among our IBX data centers across the Americas, EMEA and Asia-Pacific regions. We continue to monitor the available capacity in each of our selected markets. To the extent we have limited capacity available in a given market it may limit our ability for growth in that market. We perform demand studies on an ongoing basis to determine if future expansion is warranted in a market. In addition, power and cooling requirements for most customers are growing on a per unit basis. As a result, customers are consuming an increasing amount of power per cabinet. Although we generally do not control the amount of power our customers draw from installed circuits, we have negotiated power consumption limitations with certain of our high power demand customers. This increased power consumption has driven the requirement to build out our new IBX data centers to support power and cooling needs twice that of previous IBX data centers. We could face power limitations in our IBX data centers even though we may have additional physical cabinet capacity available within a specific IBX data center. This could have a negative impact on the available utilization capacity of a given IBX data center, which could have a negative impact on our ability to grow revenues, affecting our financial performance, operating results and cash flows.

Strategically, we will continue to look at attractive opportunities to grow our market share and selectively improve our footprint and offerings. As was the case with our recent expansions and acquisitions, our expansion criteria will be dependent on a number of factors, such as demand from new and existing customers, quality of the design, power capacity, access to networks, capacity availability in the current market location, amount of incremental investment required by us in the targeted property, lead-time to break even on a free cash flow basis, and in-place customers. Like our recent expansions and acquisitions, the right combination of these factors may be attractive to us. Depending on the circumstances, these transactions may require additional capital expenditures funded by upfront cash payments or through long-term financing arrangements in order to bring these properties up to Equinix standards. Property expansion may be in the form of purchases of real property, long-term leasing arrangements or acquisitions. Future purchases, construction or acquisitions may be completed by us or with partners or potential customers to minimize the outlay of cash, which can be significant.

Our business is based on a recurring revenue model comprised of colocation and related interconnection and managed infrastructure offerings. We consider these offerings recurring because our customers are generally billed on a fixed and recurring basis each month for the duration of their contract, which is generally one to three years in length. Our recurring revenues have comprised more than 90% of our total revenues during the past three years. In addition, during any given quarter of the past three years, more than half of our monthly recurring revenue bookings came from existing customers, contributing to our revenue growth. During the three months ended March 31, 2016 and 2015, our largest customer accounted for approximately 3% of our recurring revenues. Our 50 largest customers accounted for approximately 36% and 34% of our recurring revenues for the three months ended March 31, 2016 and 2015, respectively.

Our non-recurring revenues are primarily comprised of installation services related to a customer’s initial deployment and professional services that we perform. These services are considered to be non-recurring because they are billed typically once, upon completion of the installation or the professional services work performed. The majority of these non-recurring revenues are typically billed on the first invoice distributed to the customer in connection with their initial installation. However, revenues from installation services are deferred and recognized ratably over the expected life of the customer installation. Additionally,

Table of Contents

revenue from contract settlements, when a customer wishes to terminate their contract early, is recognized when no remaining performance obligations exist and collectability is reasonably assured, to the extent that the revenue has not previously been recognized. As a percentage of total revenues, we expect non-recurring revenues to represent less than 10% of total revenues for the foreseeable future.

Our Americas and EMEA revenues are derived primarily from colocation and related interconnection offerings, and our Asia-Pacific revenues are derived primarily from colocation and managed infrastructure offerings.

The largest components of our cost of revenues are depreciation, rental payments related to our leased IBX data centers, utility costs, including electricity and bandwidth, IBX data center employees' salaries and benefits, including stock-based compensation, repairs and maintenance, supplies and equipment and security services. A substantial majority of our cost of revenues is fixed in nature and should not vary significantly from period to period, unless we expand our existing IBX data centers or open or acquire new IBX data centers. However, there are certain costs which are considered more variable in nature, including utilities and supplies that are directly related to growth in our existing and new customer base. We expect the cost of our utilities, specifically electricity, will generally increase in the future on a per-unit or fixed basis in addition to the variable increase related to the growth in consumption by our customers. In addition, the cost of electricity is generally higher in the summer months as compared to other times of the year. To the extent we incur increased utility costs, such increased costs could materially impact our financial condition, results of operations and cash flows. Furthermore, to the extent we incur increased electricity costs as a result of either climate change policies or the physical effects of climate change, such increased costs could materially impact our financial condition, results of operations and cash flows.

Sales and marketing expenses consist primarily of compensation and related costs for sales and marketing personnel, including stock-based compensation, sales commissions, marketing programs, public relations, promotional materials and travel, as well as bad debt expense and amortization of customer contract intangible assets.

General and administrative expenses consist primarily of salaries and related expenses, including stock-based compensation, accounting, legal and other professional service fees, and other general corporate expenses such as our corporate regional headquarters office leases and some depreciation expense.

Due to our recurring revenue model, and a cost structure which has a large base that is fixed in nature and generally does not grow in proportion to revenue growth, we expect our cost of revenues, sales and marketing expenses and general and administrative expenses to decline as a percentage of revenues over time, although we expect each of them to grow in absolute dollars in connection with our growth. However, for cost of revenues, this trend may periodically be impacted when a large expansion project opens or is acquired, and before it starts generating any meaningful revenue. Furthermore, in relation to cost of revenues, we note that the Americas region has a lower cost of revenues as a percentage of revenue than either EMEA or Asia-Pacific. This is due to both the increased scale and maturity of the Americas region, compared to either the EMEA or Asia-Pacific region, as well as a higher cost structure outside of the Americas, particularly in EMEA. As a result, to the extent that revenue growth outside the Americas grows in greater proportion than revenue growth in the Americas, our overall cost of revenues as a percentage of revenues may increase in future periods. Sales and marketing expenses may periodically increase as a percentage of revenues as we continue to scale our operations to invest in sales and marketing initiatives to further increase our revenue, including the hiring of additional headcount and new product innovations. General and administrative expenses may also periodically increase as a percentage of revenues as we continue to scale our operations to support our growth.

Real Estate Investment Trust ("REIT") Conversion

We began operating as a REIT for federal income tax purposes effective January 1, 2015. In May 2015, we received a favorable private letter ruling ("PLR") from the U.S. Internal Revenue Service ("IRS") in connection with our conversion to a REIT. As of March 31, 2016, our REIT structure includes all of our data center operations in the U.S., Canada and the historical data center operations in Europe and Japan. Our data center operations in other jurisdictions have initially been designated as taxable REIT subsidiaries ("TRSs").

We initially have designated the legal entities acquired in the Bit-isle acquisition as TRSs, which we believe will not impact our qualification for taxation as a REIT. We plan to integrate the data center assets of the Bit-isle business into our REIT structure during the first half of 2017.

We initially will designate the legal entities acquired in the TelecityGroup acquisition as TRSs, which we believe will not impact our qualification for taxation as a REIT. We plan to integrate a significant portion of the TelecityGroup businesses into our REIT structure by the end of 2016 and to complete almost all remaining TelecityGroup REIT integration efforts during the first half of 2017.

[Table of Contents](#)

As a REIT, we generally are permitted to deduct from federal taxable income the dividends we pay to our stockholders (including, for this purpose, the value of any deemed distribution on account of adjustments to the conversion rate relating to our outstanding debt securities that are convertible into our common stock). The income represented by such dividends is not subject to federal taxation at the entity level but is taxed, if at all, at the stockholder level. Nevertheless, the income of our TRSs which hold our U.S. operations that may not be REIT-compliant, are subject, as applicable, to federal and state corporate income tax. Likewise, our foreign subsidiaries continue to be subject to foreign income taxes in jurisdictions in which they hold assets or conduct operations, regardless of whether held or conducted through TRSs or through qualified REIT subsidiaries ("QRSs"). We are also subject to a separate corporate income tax on gain recognized from a sale of a REIT asset where our basis in the asset is determined by reference to the basis of the asset in the hands of a former C corporation (such as (i) an asset that we held as of the effective date of our REIT election, that is January 1, 2015 or (ii) an asset that we hold in a QRS following the liquidation or other conversion of a former TRS). This built-in-gains tax is generally applicable to any disposition of such an asset during the five-year period after the date we first owned the asset as a REIT asset (e.g., January 1, 2015 in the case of REIT assets we held at the time of our REIT conversion), to the extent of the built-in-gain based on the fair market value of such asset on the date we first held the asset as a REIT asset. If we fail to qualify for taxation as a REIT, we will be subject to federal income tax at regular corporate rates. Even if we remain qualified for taxation as a REIT, we may be subject to some federal, state, local and foreign taxes on our income and property in addition to taxes owed with respect to our TRSs' operations. In particular, while state income tax regimes often parallel the federal income tax regime for REITs, many states do not completely follow federal rules and some may not follow them at all.

We began paying quarterly cash dividends in 2015 in connection with our conversion to a REIT. On March 23, 2016 we paid a quarterly cash dividend of \$1.75 per share and on May 4, 2016 we declared a quarterly cash dividend of \$1.75 per share, payable on June 15, 2016 to stockholders of record on May 25, 2016. We expect the amount of all 2016 quarterly distributions and the value of the deemed distributions on account of all the adjustments to the conversion rate relating to our outstanding 4.75% convertible subordinated notes that are made in 2016 prior to the maturity of the convertible subordinated notes will equal or exceed the taxable income to be recognized in 2016.

We continue to monitor our REIT compliance to maintain our qualification for taxation as a REIT. For this and other reasons, as necessary we may convert certain of our data center operations in additional countries into the REIT structure in future periods.

Results of Operations

Our results of operations for the three months ended March 31, 2015 include the results of operations of Bit-isle from January 1, 2016 and the results of operations of TeleticityGroup from January 16, 2016.

Discontinued Operations

We present the results of operations associated with the TeleticityGroup data centers that will be divested as discontinued operations in our condensed consolidated statement of operations for the three months ended March 31, 2016. We did not have any discontinued operations activity during 2015.

Three Months Ended March 31, 2016 and 2015

Revenues. Our revenues for the three months ended March 31, 2016 and 2015 were generated from the following revenue classifications and geographic regions (dollars in thousands):

	Three months ended March 31,				% change	
	2016	%	2015	%	Actual	Constant currency
Americas:						
Recurring revenues	\$ 380,156	45%	\$ 347,054	54%	10%	12%
Non-recurring revenues	24,238	3%	16,915	3%	43%	44%
	404,394	48%	363,969	57%	11%	13%
EMEA:						
Recurring revenues	253,381	30%	153,424	24%	65%	69%
Non-recurring revenues	14,475	2%	11,199	2%	29%	33%
	267,856	32%	164,623	26%	63%	67%
Asia-Pacific:						
Recurring revenues	163,557	19%	109,179	17%	50%	53%
Non-recurring revenues	8,349	1%	5,403	0%	55%	59%
	171,906	20%	114,582	17%	50%	54%
Total:						
Recurring revenues	797,094	94%	609,657	95%	31%	34%
Non-recurring revenues	47,062	6%	33,517	5%	40%	43%
	\$ 844,156	100%	\$ 643,174	100%	31%	34%

Americas Revenues. Our revenues from the U.S., the largest revenue contributor in the Americas region for the period, represented approximately 93% and 92%, respectively, of the regional revenues during the three months ended March 31, 2016 and 2015. Growth in Americas revenues was primarily due to (i) approximately \$11.0 million of revenue generated from our recently-opened IBX data centers or IBX data center expansions in the Dallas, Silicon Valley and Washington, D.C. metro areas and (ii) an increase in orders from both our existing customers and new customers during the period. During the three months ended March 31, 2016, the U.S. dollar was generally stronger relative to the Canadian dollar and Brazilian real than during the three months ended March 31, 2015, resulting in approximately \$8.3 million of net unfavorable foreign currency impact to our Americas revenues during the three months ended March 31, 2016 compared to average exchange rates of the three months ended March 31, 2015. We expect that our Americas revenues will continue to grow in future periods as a result of continued growth in the recently-opened IBX data centers or IBX data center expansions and additional expansions currently taking place in the Atlanta, New York, São Paulo, Silicon Valley and Washington D.C. metro areas, which are expected to open during the remainder of 2016 and 2017. Our estimates of future revenue growth take account of expected changes in recurring revenues attributed to customer bookings, customer churn or changes or amendments to customers' contracts.

EMEA Revenues. Revenues for our EMEA region for the three months ended March 31, 2016 include \$84.4 million of revenues attributable to our acquisition of TeleticityGroup, which closed on January 15, 2016. After our acquisition of TeleticityGroup, the UK continues to be our largest revenue contributor in the EMEA region, providing 34% of regional revenues for the three months ended March 31, 2016 compared to 37% of regional revenues for the three months ended March 31, 2015 without TeleticityGroup. Our EMEA revenue growth was primarily due to (i) \$84.4 million of revenues attributable to TeleticityGroup, (ii) approximately

[Table of Contents](#)

\$13.6 million of revenue from our recently-opened IBX data centers or IBX data center expansions in the Amsterdam, Frankfurt, Paris and Zurich metro areas and (iii) an increase in orders from both our existing customers and new customers during the period. During the three months ended March 31, 2016, the impact of foreign currency fluctuations resulted in approximately \$6.4 million of net unfavorable foreign currency impact to our EMEA revenues primarily due to a generally stronger U.S. dollar relative to the British pound and Euro during the three months ended March 31, 2016 compared to the three months ended March 31, 2015. We expect that our EMEA revenues will continue to grow in future periods as a result of continued growth in recently-opened IBX data centers or IBX data center expansions and additional expansions currently taking place in the Amsterdam, Dublin, Frankfurt, London and Warsaw metro areas, which are expected to open during the remainder of 2016 and 2017 as well as our acquisition of TeletyGroup. Our estimates of future revenue growth take account of expected changes in recurring revenues attributed to customer bookings, customer churn or changes or amendments to customers' contracts as well as our acquisition of TeletyGroup.

Asia-Pacific Revenues. Revenues for our Asia-Pacific region for the three months ended March 31, 2016 include \$34.2 million of revenues attributable to our acquisition of Bit-isle, which closed in November 2015. After our acquisition of Bit-isle, Japan is our largest revenue contributor in the Asia-Pacific region, providing 34% of regional revenues including Bit-isle for the three months ended March 31, 2016 compared to 15% for the three months ended March 31, 2015 without Bit-isle. Excluding revenues attributable to Bit-isle, our revenues from Singapore, which was our largest revenue contributor in the Asia-Pacific region before we acquired Bit-isle, represented approximately 38% and 39%, respectively, of the regional revenues for the three months ended March 31, 2016 and 2015. Our Asia-Pacific revenue growth was primarily due to (i) \$34.2 of revenues attributable to Bit-isle, (ii) approximately \$19.3 million of revenue generated from our recently-opened IBX data center expansions in the Hong Kong, Melbourne, Shanghai, Singapore, Sydney and Tokyo metro areas and (iii) an increase in orders from both our existing customers and new customers during the period. During the three months ended March 31, 2016, the U.S. dollar was generally stronger relative to the Australian and Singapore dollars, than during the three months ended March 31, 2015, resulting in approximately \$4.1 million of net unfavorable foreign currency impact to our Asia-Pacific revenues during the three months ended March 31, 2016 when compared to average exchange rates during the three months ended March 31, 2015. We expect that our Asia-Pacific revenues will continue to grow in future periods as a result of continued growth in these recently-opened IBX data centers and additional expansions currently taking place in the Hong Kong and Sydney metro areas, which are expected to open during the remainder of 2016 and 2017. Our estimates of future revenue growth take into account expected changes in recurring revenues attributed to customer bookings, customer churn or changes or amendments to customers' contracts as well as the impact of our acquisition of Bit-isle.

Cost of Revenues. Our cost of revenues for the three months ended March 31, 2016 and 2015 were split among the following geographic regions (dollars in thousands):

	Three months ended March 31,				% change	
	2016	%	2015	%	Actual	Constant currency
Americas	\$ 170,126	40%	\$ 150,369	50%	13%	17%
EMEA	151,762	35%	81,216	28%	87%	91%
Asia-Pacific	105,792	25%	66,728	22%	59%	61%
Total	\$ 427,680	100%	\$ 298,313	100%	43%	47%

	Three months ended March 31,	
	2016	2015
<i>Cost of revenues as a percentage of revenues:</i>		
Americas	42%	41%
EMEA	57%	49%
Asia-Pacific	62%	58%
Total	51%	46%

Americas Cost of Revenues. Depreciation expense was \$58.8 million and \$53.4 million for the three months ended March 31, 2016 and 2015, respectively. The growth in depreciation expense was primarily due to our IBX expansion activity. In addition to the increase in depreciation expense, the increase in our Americas cost of revenues for the three months ended March 31, 2016 compared to the three months ended March 31, 2015 was primarily due to (i) \$4.9 million of higher utilities, rent and facilities costs in support of our business growth and (ii) \$4.2 million of higher costs associated with equipment resales to support growth

Table of Contents

of our non-recurring revenues. During the three months ended March 31, 2016, the impact of foreign currency fluctuations resulted in approximately \$6.4 million of net favorable foreign currency impact to our Americas cost of revenues primarily due to a generally stronger U.S. dollar relative to the Brazilian real and Canadian dollar during the three months ended March 31, 2016 compared to the three months ended March 31, 2015. We expect Americas cost of revenues to increase as we continue to grow our business.

EMEA Cost of Revenues. Cost of revenues for our EMEA region for the three months ended March 31, 2016 includes \$60.6 million of cost of revenues attributable to our acquisition of TelecityGroup, which closed on January 15, 2016. Excluding cost of revenues attributable to TelecityGroup, EMEA cost of revenues was \$91.1 million for the three months ended March 31, 2016 compared to \$81.2 million for the three months ended March 31, 2015. Depreciation expense, excluding TelecityGroup, was \$25.4 million and \$22.0 million for the three months ended March 31, 2016 and 2015, respectively. The growth in depreciation expense was primarily due to our IBX data center expansion activity. Excluding the impact of our acquisition of TelecityGroup, the remaining increase in our EMEA cost of revenues, was primarily due to \$3.9 million of higher utilities and repairs and maintenance costs in support of our business growth. During the three months ended March 31, 2016 the impact of foreign currency fluctuations to our EMEA cost of revenues resulted in approximately \$3.0 million of net favorable foreign currency impact to our EMEA cost of revenues primarily due to a generally stronger U.S. dollar relative to the British pound and Euro during the three months ended March 31, 2016 compared to the three months ended March 31, 2015. We expect EMEA cost of revenues to increase as we continue to grow our business and as a result of our acquisition of TelecityGroup.

Asia-Pacific Cost of Revenues. Cost of revenues for our Asia-Pacific region for the three months ended March 31, 2016 includes \$27.0 million of cost of revenues attributable to our acquisition of Bit-isle, which closed in November 2015. Excluding cost of revenues attributable to Bit-isle, Asia-Pacific cost of revenues was \$78.8 million for the three months ended March 31, 2016 compared to \$66.7 million for the three months ended March 31, 2015, primarily due to an increase in depreciation expense. Depreciation expense, excluding Bit-isle, was \$34.7 million and \$27.2 million for the three months ended March 31, 2016 and 2015, respectively. The growth in depreciation expense was primarily due to our IBX data center expansion activity. For the three months ended March 31, 2016, the impact of foreign currency fluctuations to our Asia-Pacific cost of revenues was not significant when compared to average exchange rates of the three months ended March 31, 2015. We expect Asia-Pacific cost of revenues to increase as we continue to grow our business, including from the impact of our acquisition of Bit-isle.

Sales and Marketing Expenses. Our sales and marketing expenses for the three months ended March 31, 2016 and 2015 were split among the following geographic regions (dollars in thousands):

	Three months ended March 31,				% change	
	2016	%	2015	%	Actual	Constant currency
Americas	\$ 57,753	54%	\$ 49,045	62%	18%	20%
EMEA	31,851	30%	17,245	22%	85%	88%
Asia-Pacific	16,986	16%	12,326	16%	38%	40%
Total	\$ 106,590	100%	\$ 78,616	100%	36%	38%

	Three months ended March 31,	
	2016	2015
<i>Sales and marketing expenses as a percentage of revenues:</i>		
Americas	14 %	13 %
EMEA	12 %	10 %
Asia-Pacific	10 %	11 %
Total	13 %	12 %

Americas Sales and Marketing Expenses. The increase in our Americas sales and marketing expenses was primarily due to \$5.8 million of higher compensation costs, including sales compensation, general salaries, bonuses and stock-based compensation and \$3.0 million of higher advertising, promotion, consulting and travel and entertainment expenses to support our growth. During the three months ended March 31, 2016, the impact of foreign currency fluctuations to our Americas sales and marketing expenses was not significant when compared to average exchange rates of the three months ended March 31, 2015. Over the past several years, we have been investing in our Americas sales and marketing initiatives to further increase our revenue. These investments have included the hiring of additional headcount and new product innovation efforts and, as a result, our Americas sales and marketing expenses as a percentage of revenues have increased. Although we anticipate that we will continue to invest in Americas

[Table of Contents](#)

sales and marketing initiatives, we believe our Americas sales and marketing expenses as a percentage of revenues will remain at approximately current levels over the next year but should ultimately decrease as we continue to grow our business.

EMEA Sales and Marketing Expenses. Sales and Marketing expenses for our EMEA region for the three months ended March 31, 2016 included \$11.3 million attributable to our acquisition of TelectyGroup, which closed on January 15, 2016. Excluding the impact of TelectyGroup, our EMEA sales and marketing expenses were \$20.6 million for the three months ended March 31, 2016 compared to \$17.2 million for the three months ended March 31, 2015. The increase was primarily due to \$2.8 million of higher compensation costs, including sales compensation, general salaries, bonuses, stock-based compensation and headcount growth (236 EMEA sales and marketing employees, excluding TelectyGroup employees, as of March 31, 2016 versus 195 as of March 31, 2015). For the three months ended March 31, 2016, the impact of foreign currency fluctuations to EMEA sales and marketing expenses was not significant when compared to the average exchange rates for the three months ended March 31, 2015. Over the past several years, we have been investing in our EMEA sales and marketing initiatives to further increase our revenue. We believe our EMEA sales and marketing expenses as a percentage of revenues will remain at approximately current levels over the next year but should ultimately decrease as we continue to grow our business.

Asia-Pacific Sales and Marketing Expenses. Sales and marketing expenses for our Asia-Pacific region for the three months ended March 31, 2016 included \$3.6 million attributable to our acquisition of Bit-isle, which closed in November 2015. Excluding the impact of Bit-isle, our Asia-Pacific sales and marketing expenses did not materially change during the three months ended March 31, 2016 compared to the three months ended March 31, 2015. For the three months ended March 31, 2016, the impact of foreign currency fluctuations to our Asia-Pacific sales and marketing expenses was not significant when compared to average exchange rates of the three months ended March 31, 2015. Over the past several years, we have been investing in our Asia-Pacific sales and marketing initiatives to further increase our revenue. These investments have included the hiring of additional headcount and new product innovation efforts. We expect our Asia-Pacific sales and marketing expenses to increase as a result of the Bit-isle acquisition. Although we anticipate that we will continue to invest in Asia-Pacific sales and marketing initiatives, including the integration of Bit-isle, we believe our Asia-Pacific sales and marketing expenses as a percentage of revenues will ultimately decrease as we continue to grow our business.

General and Administrative Expenses. Our general and administrative expenses for the three months ended March 31, 2016 and 2015 were split among the following geographic regions (dollars in thousands):

	Three months ended March 31,				% change	
	2016	%	2015	%	Actual	Constant currency
Americas	\$ 93,104	56%	\$ 82,123	72%	13%	14%
EMEA	55,477	33%	20,431	18%	172%	176%
Asia-Pacific	17,323	11%	11,086	10%	56%	60%
Total	\$ 165,904	100%	\$ 113,640	100%	46%	48%

	Three months ended March 31,	
	2016	2015
<i>General and administrative expenses as a percentage of revenues:</i>		
Americas	23 %	23 %
EMEA	21 %	12 %
Asia-Pacific	10 %	10 %
Total	20 %	18 %

Americas General and Administrative Expenses. The increase in our Americas general and administrative expenses was primarily due to (i) \$3.8 million of higher compensation costs, including general salaries, bonuses, stock-based compensation, and headcount growth (826 Americas general and administrative employees as of March 31, 2016 versus 720 as of March 31, 2015) and (ii) \$3.9 million of higher depreciation expense associated with the implementation of our Oracle R12 ERP system, certain systems to improve our quote to order and billing processes and other systems to support the REIT conversion. During the three months ended March 31, 2016, the impact of foreign currency fluctuations to our Americas general and administrative expenses was not significant when compared to average exchange rates for the three months ended March 31, 2015. Over the course of the past year, we have been investing in our Americas general and administrative functions to scale this region effectively for growth, which has included additional investments into improving our back office systems. We expect our current efforts to improve our back office systems will continue over the next several years. Going forward, although we are carefully monitoring

Table of Contents

our spending, we expect Americas general and administrative expenses to increase as we continue to further scale our operations to support our growth, including these investments in our back office systems and maintaining our REIT qualification.

EMEA General and Administrative Expenses. General and administrative expenses for our EMEA region for the three months ended March 31, 2016 included \$18.8 million attributable to our acquisition of TelectyGroup, which closed on January 15, 2016. Excluding the impact of TelectyGroup, our EMEA general and administrative expenses were \$36.7 million for the three months ended March 31, 2016 compared to \$20.4 million for the three months ended March 31, 2015. Excluding the impact of TelectyGroup, the increase was primarily due to (i) \$12.3 million of higher compensation costs, including sales compensation, general salaries, bonuses, stock-based compensation and headcount growth (456 EMEA general and administrative employees, excluding TelectyGroup employees, as of March 31, 2016 versus 361 as of March 31, 2015) and (ii) \$2.8 million of higher outside services to support the integration of TelectyGroup. For the three months ended March 31, 2016, the impact of foreign currency fluctuations to EMEA general and administrative expenses was not significant when compared to the average exchange rates for the three months ended March 31, 2015. Over the course of the past year, we have been investing in our EMEA general and administrative functions as a result of our ongoing efforts to scale this region effectively for growth. Going forward, although we are carefully monitoring our spending given the current economic environment, we expect our EMEA general and administrative expenses to increase in future periods as we continue to scale our operations to support our growth, as well as integration of TelectyGroup; however, as a percentage of revenues, we generally expect them to decrease.

Asia-Pacific General and Administrative Expenses. General and administrative expenses for our Asia-Pacific region for the three months ended March 31, 2016 included \$4.2 million attributable to our acquisition of Bit-isle, which closed in November 2015. Excluding the impact of Bit-isle, our Asia-Pacific general and administrative expenses did not materially change and the impact of foreign currency fluctuations to our Asia-Pacific general and administrative expenses for the three months ended March 31, 2016 was not significant when compared to average exchange rates of the three months ended March 31, 2015. Going forward, although we are carefully monitoring our spending, we expect Asia-Pacific general and administrative expenses to increase as a result of our acquisition and integration of Bit-isle and as we continue to scale or operations to support our growth.

Acquisition Costs. During the three months ended March 31, 2016, we recorded acquisition costs totaling \$36.5 million primarily in the EMEA region. During the three months ended March 31, 2015, we recorded acquisition costs totaling \$1.2 million primarily in the Americas region.

Income from Continuing Operations. Our income from continuing operations for the three months ended March 31, 2016 and 2015 were split among the following geographic regions (dollars in thousands):

	Three months ended March 31,				% change	
	2016	%	2015	%	Actual	Constant currency
Americas	\$ 88,539	79 %	\$ 81,466	54%	9 %	9 %
EMEA	(7,419)	(7)%	45,541	30%	(116)%	(112)%
Asia-Pacific	31,568	28 %	24,442	16%	29 %	37 %
Total	\$ 112,688	100 %	\$ 151,449	100%	(26)%	(23)%

Americas Income from Continuing Operations. The increase in our Americas income from continuing operations was due to higher revenues as result of our IBX data center expansion activity and organic growth as described above, partially offset by higher cost of revenues and operating expenses as a percentage of revenues primarily attributable to higher compensation and other headcount related expenses to support our growth. The impact of foreign currency fluctuations on our Americas income from continuing operations for the three months ended March 31, 2016 was not significant when compared to average exchange rates of the three months ended March 31, 2015.

EMEA Income (loss) from Continuing Operations. The decrease in our EMEA income from continuing operations was primarily due to acquisition and integration costs incurred in connection with our acquisition of TelectyGroup, which closed on January 15, 2016, as well as the increased depreciation and amortization created in the purchase accounting for TelectyGroup. The impact of foreign currency fluctuations on our EMEA loss from continuing operations for the three months ended March 31, 2016 was not significant when compared to average exchange rates of the three months ended March 31, 2015.

Asia-Pacific Income from Continuing Operations. The increase in our Asia-Pacific income from continuing operations was primarily due to higher revenues as a result of our acquisition of Bit-isle, which closed in November 2015, as well as our IBX data center expansion activity and organic growth as described above, partially offset by higher cost of revenues and operating expenses as a percentage of revenues primarily attributable to our acquisition of Bit-isle as well as higher compensation and other headcount related expenses and higher professional fees to support our growth. The impact of foreign currency fluctuations on

Table of Contents

our Asia-Pacific income from continuing operations for the three months ended March 31, 2016 was not significant when compared to average exchange rates of the three months ended March 31, 2015.

Interest Income. Interest income was \$925,000 and \$520,000, respectively, for the three months ended March 31, 2016 and 2015. The average annualized yield for the three months ended March 31, 2016 was 0.26% versus 0.19% for the three months ended March 31, 2015. We expect our interest income to remain at these low levels for the foreseeable future due to lower invested balances and a portfolio more weighted towards short-term U.S. government securities.

Interest Expense. Interest expense increased to \$100.9 million for the three months ended March 31, 2016 from \$68.8 million for the three months ended March 31, 2015. This increase in interest expense was primarily due to the impact of our \$1.1 billion of senior notes issued in December 2015, \$681.3 million of seven year term loans that we borrowed in January 2016 and \$422.3 million of an outstanding bridge term loan we borrowed to finance our acquisition of Bit-isle, which closed in November 2015, as well as additional financings such as various capital lease and other financing obligations to support our expansion projects. During the three months ended March 31, 2016 and 2015, we capitalized \$2.3 million and \$3.2 million, respectively, of interest expense to construction in progress. Going forward, we expect to incur higher interest expense as we recognize the full impact of our \$1.1 billion senior notes offering in December 2015, \$681.3 million of seven year term loans we borrowed in January 2016 and \$422.3 million of an outstanding bridge term loan which we expect to refinance in 2016. We expect to incur additional indebtedness to support our growth and acquisition opportunities such as the Bit-isle and TeleticityGroup acquisitions, resulting in higher interest expense.

Other Income (Expense). We recorded net expense of \$60.7 million and \$0.5 million, respectively, of other expense, for the three months ended March 31, 2016 and 2015, primarily due to foreign currency exchange gains and losses during the periods, including \$63.5 million in foreign currency losses for the three months ended March 31, 2016 as a result of completing the acquisition of TeleticityGroup.

Income Taxes. Effective January 1, 2015, we have operated as a REIT for federal income tax purposes. As a REIT, we are generally not subject to federal income taxes on the taxable income distributed to our stockholders. We intend to distribute and distributed the entire taxable income generated by the operations of our REIT and its QRSs for the tax year ended December 31, 2016 and December 31, 2015. As such, no provision for U.S. income taxes for the REIT and its QRSs has been included in the accompanying condensed consolidated financial statements for the three months ended March 31, 2016 and 2015.

We have made TRS elections for some of our subsidiaries in and outside the U.S. In general, a TRS may provide services that would otherwise be considered impermissible for REITs to provide and may hold assets that REITs cannot hold directly. U.S. income taxes for the TRS entities located in the U.S. and foreign income taxes for our foreign operations regardless of whether the foreign operations are operated as a QRS or TRS were accrued, as necessary, for the three months ended March 31, 2016 and 2015.

For the three months ended March 31, 2016 and 2015, we recorded \$10.6 million of income tax benefit and \$6.2 million of income tax expense, respectively. Our effective tax rates were 22.2% and 7.5%, respectively, for the three months ended March 31, 2016 and 2015. The increase in the effective tax rate for 2016 is primarily due to non-tax deductible costs related to the TeleticityGroup acquisition.

Income from Discontinued Operations. Our net income from discontinued operations was \$6.2 million for the three months ended March 31, 2016. We did not have discontinued operations during the three months ended March 31, 2015.

Adjusted EBITDA. Adjusted EBITDA is a key factor in how we assess the performance of our segments, measure the operational cash generating abilities of our segments and develop regional growth strategies such as IBX data center expansion decisions. We define adjusted EBITDA as income or loss from operations plus depreciation, amortization, accretion, stock-based compensation expense, restructuring charges, impairment charges, acquisition costs and gains on asset sales. See "Non-GAAP Financial Measures" below for more information about adjusted EBITDA and a reconciliation of adjusted EBITDA to net income. Our adjusted EBITDA for the three months ended March 31, 2016 and 2015 were split among the following geographic regions (dollars in thousands):

	Three months ended March 31,				% change	
	2016	%	2015	%	Actual	Constant currency
Americas	\$ 184,460	49%	\$ 172,734	56%	7%	8%
EMEA	111,489	29%	76,031	25%	47%	51%
Asia-Pacific	84,701	22%	56,983	19%	49%	53%
Total	\$ 380,650	100%	\$ 305,748	100%	24%	27%

[Table of Contents](#)

Americas Adjusted EBITDA. The increase in our Americas adjusted EBITDA was due to higher revenues as result of our IBX data center expansion activity and organic growth as described above. During the three months ended March 31, 2016, currency fluctuations resulted in approximately \$2.6 million of net unfavorable foreign currency impact on our Americas adjusted EBITDA primarily due to the generally stronger U.S. dollar relative to the Brazilian real and Canadian dollar during the three months ended March 31, 2016 compared to the three months ended March 31, 2015.

EMEA Adjusted EBITDA. Adjusted EBITDA for our EMEA region includes \$40.7 million of adjusted EBITDA attributable to our acquisition of TelectyGroup, which closed on January 15, 2016. Excluding adjusted EBITDA attributable to TelectyGroup, the increase in our EMEA adjusted EBITDA was primarily due higher revenues as result of our IBX data center expansion activity and organic growth as described above. During the three months ended March 31, 2016, currency fluctuations resulted in approximately \$3.0 million of net unfavorable foreign currency impact to our EMEA adjusted EBITDA primarily due to a generally stronger U.S. dollar relative to the British pound and Euro during the three months ended March 31, 2016 compared to the three months ended March 31, 2015.

Asia-Pacific Adjusted EBITDA. Adjusted EBITDA for our Asia-Pacific region includes \$11.6 million of adjusted EBITDA attributable to our acquisition of Bit-isle, which closed in November 2015. Excluding adjusted EBITDA attributable to Bit-isle, the increase in our Asia-Pacific adjusted EBITDA was primarily due to higher revenues as result of our IBX data center expansion activity and organic growth as described above. During the three months ended March 31, 2016, currency fluctuations resulted in approximately \$2.6 million of net unfavorable foreign currency impact to our Asia-Pacific adjusted EBITDA primarily due to a generally stronger U.S. dollar relative to the Australian and Singapore dollars during the three months ended March 31, 2016 compared to the three months ended March 31, 2015.

Non-GAAP Financial Measures

We provide all information required in accordance with generally accepted accounting principles in the United States of America (“GAAP”), but we believe that evaluating our ongoing operating results may be difficult if limited to reviewing only GAAP financial measures. Accordingly, we use non-GAAP financial measures to evaluate our operations.

Non-GAAP financial measures are not a substitute for financial information prepared in accordance with GAAP. Non-GAAP financial measures should not be considered in isolation, but should be considered together with the most directly comparable GAAP financial measures and the reconciliation of the non-GAAP financial measures to the most directly comparable GAAP financial measures. We have presented such non-GAAP financial measures to provide investors with an additional tool to evaluate our operating results in a manner that focuses on what management believes to be our core, ongoing business operations. We believe that the inclusion of these non-GAAP financial measures provides consistency and comparability with past reports and provides a better understanding of the overall performance of the business and ability to perform in subsequent periods. We believe that if we did not provide such non-GAAP financial information, investors would not have all the necessary data to analyze Equinix effectively.

Investors should note that the non-GAAP financial measures used by us may not be the same non-GAAP financial measures, and may not be calculated in the same manner, as those of other companies. Investors should therefore exercise caution when comparing non-GAAP financial measures used by us to similarly titled non-GAAP financial measures of other companies.

Our primary non-GAAP financial measures, adjusted funds from operations (“AFFO”) and adjusted EBITDA, exclude depreciation expense as these charges primarily relate to the initial construction costs of our IBX data centers and do not reflect our current or future cash spending levels to support our business. Our IBX data centers are long-lived assets and have an economic life greater than 10 years. The construction costs of an IBX data center do not recur with respect to such data center, although we may incur initial construction costs in future periods with respect to additional IBX data centers, and future capital expenditures remain minor relative to our initial investment. This is a trend we expect to continue. In addition, depreciation is also based on the estimated useful lives of our IBX data centers. These estimates could vary from actual performance of the asset, are based on historical costs incurred to build out our IBX data centers and are not indicative of current or expected future capital expenditures. Therefore, we exclude depreciation from our operating results when evaluating our operations.

In addition, in presenting AFFO and adjusted EBITDA, we exclude amortization expense related to certain intangible assets, as it represents the amortization of a cost that may not recur and is not meaningful in the evaluation of our current or future operating performance. We exclude accretion expense, both as it relates to asset retirement obligations as well as accrued restructuring charge liabilities, as these expenses represent costs which we believe are not meaningful in evaluating our current operations. We exclude stock-based compensation expense as it represents expense attributed to equity awards that have no current or future cash obligations. As such, we, and many investors and analysts, exclude this stock-based compensation expense when assessing the cash generating performance of our operations. We also exclude restructuring charges. The restructuring charges

[Table of Contents](#)

relate to our decisions to exit leases for excess space adjacent to several of our IBX data centers, which we did not intend to build out, or our decision to reverse such restructuring charges. We also exclude impairment charges related to certain long-lived assets. The impairment charges are related to expense recognized whenever events or changes in circumstances indicate that the carrying amount of long-lived assets are not recoverable. We also exclude gains on asset sales as it represents profit that may not recur and is not meaningful in evaluating our current or future operating performance. Finally, we exclude acquisition costs from AFFO and adjusted EBITDA. The acquisition costs relate to costs we incur in connection with business combinations. Management believes items such as restructuring charges, impairment charges, acquisition costs and gains on asset sales are non-core transactions; however, these types of costs may occur in future periods.

Adjusted EBITDA

We define adjusted EBITDA as income or loss from operations plus depreciation, amortization, accretion, stock-based compensation expense, restructuring charges, impairment charges, acquisition costs and gains on asset sales as presented below (in thousands):

	Three months ended March 31,	
	2016	2015
Income from continuing operations	\$ 112,688	\$ 151,449
Depreciation, amortization, and accretion expense	202,153	122,530
Stock-based compensation expense	34,515	30,613
Acquisition costs	36,536	1,156
Gains on asset sales	(5,242)	—
Adjusted EBITDA	\$ 380,650	\$ 305,748

Our adjusted EBITDA results have improved each year and in each region in total dollars due to the improved operating results discussed earlier in “Results of Operations”, as well as due to the nature of our business model which consists of a recurring revenue stream and a cost structure which has a large base that is fixed in nature as discussed earlier in “Overview”.

Funds from Operations (“FFO”) and AFFO

We use FFO and AFFO, which are non-GAAP financial measures commonly used in the REIT industry. FFO is calculated in accordance with the standards established by the National Association of Real Estate Investment Trusts (“NAREIT”). FFO represents net income (loss), excluding gains (losses) from the disposition of real estate assets, depreciation and amortization on real estate assets and adjustments for unconsolidated joint ventures’ and non-controlling interests’ share of these items.

We use AFFO to evaluate our performance on a consolidated basis and as a metric in the determination of employees’ annual bonuses beginning in 2015 and vesting of restricted stock units that were granted beginning in 2015 and that have both service and performance conditions. In presenting AFFO, we exclude certain items that we believe are not good indicators of our current or future operating performance. AFFO represents FFO excluding depreciation and amortization expense on non-real estate assets, accretion, stock-based compensation, restructuring charges, impairment charges, acquisition costs, an installation revenue adjustment, a straight-line rent expense adjustment, amortization of deferred financing costs, gains (losses) on debt extinguishment, an income tax expense adjustment, recurring capital expenditures and adjustments for unconsolidated joint ventures’ and non-controlling interests’ share of these items, gain on asset and net income from discontinued operations, net of tax. The adjustments for both installation revenue and straight-line rent expense are intended to isolate the cash activity included within the straight-lined or amortized results in the consolidated statement of operations. We exclude the amortization of deferred financing costs as these expenses relate to the initial costs incurred in connection with debt financings that have no current or future cash obligations. We exclude gains (losses) on debt extinguishment since it represents a cost that may not recur and is not a good indicator of our current or future operating performance. We include an income tax expense adjustment, which represents changes in its income tax reserves and valuation allowances that may not recur or may not relate to the current year’s operations. We exclude recurring capital expenditures, which represent expenditures to extend the useful life of its IBX centers or other assets that are required to support current revenues. We also exclude net income from discontinued operations, net of tax, which represents profit that may not recur and is not a good indicator of our current future operating performance.

Table of Contents

Our FFO and AFFO for the three months ended March 31, 2016 and 2015 were as follows (in thousands):

	Three months ended March 31,	
	2016	2015
Net income	\$ (31,111)	\$ 76,452
Adjustments:		
Real estate depreciation and amortization	150,995	102,648
(Gain) loss on disposition of real estate property	(4,037)	62
Adjustments for FFO from unconsolidated joint ventures	28	28
NAREIT FFO attributable to common shareholders	<u>\$ 115,875</u>	<u>\$ 179,190</u>
	Three months ended March 31,	
	2016	2015
NAREIT FFO attributable to common shareholders	\$ 115,875	\$ 179,190
Adjustments:		
Installation revenue adjustment	3,354	8,654
Straight-line rent expense adjustment	1,133	3,201
Amortization of deferred financing costs	5,508	3,858
Stock-based compensation expense	34,515	30,613
Non-real estate depreciation expense	21,387	12,693
Amortization expense	28,152	6,295
Accretion expense	1,619	894
Recurring capital expenditures	(31,815)	(22,373)
Acquisition costs	36,536	1,156
Income tax expense adjustment ⁽¹⁾	(190)	(2,408)
Adjustments for AFFO from unconsolidated joint ventures	(12)	(17)
Net income from discontinued operations, net of tax	(6,216)	—
Adjusted Funds from Operations (AFFO)	<u>\$ 209,846</u>	<u>\$ 221,756</u>

(1) Represents changes in our income tax reserves and valuation allowances that may not recur or may not relate to the current year's operations.

Our AFFO results have improved due to the improved operating results discussed earlier in "Results of Operations," as well as due to the nature of our business model which consists of a recurring revenue stream and a cost structure which has a large base that is fixed in nature as discussed earlier in "Overview."

Constant Currency Presentation

Our revenues and certain operating expenses (cost of revenues, sales and marketing expenses and general and administrative expenses) from our international operations have represented and will continue to represent a significant portion of our total revenues and certain operating expenses. As a result, our revenues and certain operating expenses have been and will continue to be affected by changes in the U.S. dollar against major international currencies such as the Brazilian real, British pound, Canadian dollar, Euro, Swiss franc, Australian dollar, Hong Kong dollar, Japanese yen, Singapore dollar and United Arab Emirates dirham. In order to provide a framework for assessing how each of our business segments performed excluding the impact of foreign currency fluctuations, we present period-over-period percentage changes in our revenues and certain operating expenses on a constant currency basis in addition to the historical amounts as reported. Presenting constant currency results of operations is a non-GAAP financial measure and is not meant to be considered in isolation or as an alternative to GAAP results of operations. However, we have presented this non-GAAP financial measure to provide investors with an additional tool to evaluate our operating results. To present this information, our current and comparative prior period revenues and certain operating expenses from entities with functional currencies other than the U.S. dollar are converted into U.S. dollars at the exchange rates in effect for the comparable prior period rather than the actual exchange rates in effect during the respective periods (i.e. average rates in effect for the three months ended March 31, 2015 are used as exchange rates for the three months ended March 31, 2016 when comparing the three months ended March 31, 2016 with the three months ended March 31, 2015).

Liquidity and Capital Resources

As of March 31, 2016, our total indebtedness was comprised of (i) convertible debt principal totaling \$150.1 million from our 4.75% convertible subordinated notes (gross of discount) and (ii) non-convertible debt and financing obligations totaling \$7.1 billion consisting of (a) \$3.9 billion of principal from our senior notes, (b) approximately \$1.6 billion from our capital lease and other financing obligations, and (c) \$1.6 billion of principal from our mortgage and loans payable (gross of discount and premium).

We believe we have sufficient cash, coupled with anticipated cash generated from operating activities, to meet our operating requirements, including repayment of the current portion of our debt as it becomes due, payment of tax liabilities related to our conversion to a REIT, payment of regular dividends and completion of our publicly-announced expansion projects. As of March 31, 2016, we had \$650.1 million of cash, cash equivalents and short-term and long-term investments, of which approximately \$255.9 million was held in the U.S. We believe that our current expansion activities in the U.S. can be funded with our U.S.-based cash and cash equivalents and investments. Besides our cash and investment portfolio, we have additional liquidity available to us from the \$1.5 billion revolving credit facility.

As of March 31, 2016, we had 30 irrevocable letters of credit totaling \$42.6 million issued and outstanding under the U.S. revolving credit line; as a result, we had a total of approximately \$1.5 billion of additional liquidity available to us under the revolving credit facility. Besides any further financing activities we may pursue, customer collections are our primary source of cash. While we believe we have a strong customer base, and have continued to experience relatively strong collections, if the current market conditions were to deteriorate, some of our customers may have difficulty paying us and we may experience increased churn in our customer base, including reductions in their commitments to us, all of which could have a material adverse effect on our liquidity. Additionally, we may pursue additional expansion opportunities, primarily the build out of new IBX data centers, in certain of our existing markets which are at or near capacity within the next year, as well as potential acquisitions. We are also now operating as a REIT and paying regular, recurring cash dividends. While we expect to fund these plans with our existing resources, additional financing, either debt or equity, may be required and if current market conditions were to deteriorate, we may be unable to secure additional financing or any such additional financing may only be available to us on unfavorable terms. An inability to pursue additional expansion opportunities will have a material adverse effect on our ability to maintain our desired level of revenue growth in future periods.

Sources and Uses of Cash

	Three Months Ended March 31,	
	2016	2015
	(dollars in thousands)	
Net cash provided by operating activities	\$ 104,270	\$ 232,811
Net cash used in investing activities	(1,322,787)	(199,834)
Net cash used in financing activities	(376,368)	(98,794)

Table of Contents

Operating Activities. The decrease in net cash provided by operating activities was primarily due to an increase in cash payments related to TelecityGroup acquisition costs, settlement of derivative liabilities associated with the TelecityGroup purchase price and the payment of our annual corporate bonus program. We expect we will continue to generate cash from our operating activities during the remainder of 2016 and beyond.

Investing Activities. The net cash used in investing activities for the three months ended March 31, 2016 was primarily due to \$1,601.6 million, net of cash acquired for the acquisition of TelecityGroup and remaining amounts due for Bit-isle shares, partially offset by the release of \$466.7 million of restricted cash that was set aside for the TelecityGroup acquisition. Other investing cash flows for the quarter included \$197.7 million of capital expenditures primarily related to our expansion activity and proceeds from the sale of assets of \$22.8 million. The net cash used in investing activities for the three months ended March 31, 2015 was primarily due to \$150.1 million of capital expenditures primarily as a result of expansion activity, \$38.3 million for the purchases of land in San Jose, California and \$18.4 million for the purchase of investments, offset by sales and maturities of investments for \$13.7 million.

Financing Activities. The net cash used in financing activities for the three months ended March 31, 2016 was primarily due to repayments of loans of \$936.4 million relating to loans assumed from TelecityGroup acquisition, our revolving credit facility and our term loan facility; dividend distributions of \$124.8 million and repayments of \$33.2 million of capital lease and other financing obligations and , partially offset by borrowings of \$701.3 million under our multicurrency Term B loan facility and other borrowings and by proceeds from employee equity awards of \$16.3 million. The net cash used in financing activities for the three months ended March 31, 2015 was primarily due to a \$96.6 million dividend distribution and \$18.7 million repayment of various debt, capital leases and other financing obligations, offset by \$16.4 million of proceeds from employee equity awards. Going forward, we expect that our financing activities will consist primarily of repayment of our debt and additional financings needed to support expansion opportunities, additional acquisitions or joint ventures and the payment of our regular cash dividends.

Contractual Obligations and Off-Balance-Sheet Arrangements

We lease a majority of our IBX data centers and certain equipment under non-cancellable lease agreements expiring through 2065. The following represents our debt maturities, financings, leases and other contractual commitments as of March 31, 2016 (in thousands):

	2016 (9 months)	2017	2018	2019	2020	Thereafter	Total
Term loans (1)	\$ 35,688	\$ 47,584	\$ 47,584	\$ 353,368	\$ 6,813	\$ 648,949	\$ 1,139,986
Interest (2)	187,403	248,652	246,858	245,502	228,324	736,317	1,893,056

- (1) Represents principal only
- (2) Represents interest on Brazil financings, convertible debt, mortgage payable, senior notes and term loans based on their approximate interest rates as of March 31, 2016.
- (3) Represents principal and interest.
- (4) Represents minimum operating lease payments, excluding potential lease renewals.
- (5) Represents off-balance sheet arrangements. Other contractual commitments are described below.
- (6) Represents liability, net of future accretion expense.

In order to obtain the approval of the European Commission for our acquisition of TelecityGroup, we have agreed to divest certain data centers, including our London 2 data center in London, UK and certain data centers of TelecityGroup. The table above includes obligations of the data centers to be divested.

Table of Contents

In connection with certain of our leases and other contracts requiring deposits, we entered into 30 irrevocable letters of credit totaling \$42.6 million under the senior revolving credit line. These letters of credit were provided in lieu of cash deposits under the senior revolving credit line. If the landlords for these IBX leases decide to draw down on these letters of credit triggered by an event of default under the lease, we will be required to fund these letters of credit either through cash collateral or borrowing under the senior revolving credit line. These contingent commitments are not reflected in the table above.

We had accrued liabilities related to uncertain tax positions totaling approximately \$42.4 million as of March 31, 2016. These liabilities, which are reflected on our balance sheet, are not reflected in the table above since it is unclear when these liabilities will be paid.

Primarily as a result of our various IBX data center expansion projects, as of March 31, 2016, we were contractually committed for \$410.7 million of unaccrued capital expenditures, primarily for IBX equipment not yet delivered and labor not yet provided in connection with the work necessary to complete construction and open these IBX data centers prior to making them available to customers for installation. This amount, which is expected to be paid during the remainder of 2016 and thereafter, is reflected in the table above as "other contractual commitments."

We had other non-capital purchase commitments in place as of March 31, 2016, such as commitments to purchase power in select locations and other open purchase orders, which contractually bind us for goods or services to be delivered or provided during 2016 and beyond. Such other purchase commitments as of March 31, 2016, which total \$442.4 million, are also reflected in the table above as "other contractual commitments."

In addition, although we are not contractually obligated to do so, we expect to incur additional capital expenditures of approximately \$396.4 million to \$496.4 million, in addition to the \$853.0 million in contractual commitments discussed above as of March 31, 2016, in our various IBX data center expansion projects during 2016 and thereafter in order to complete the work needed to open these IBX data centers. These non-contractual capital expenditures are not reflected in the table above. If we so choose, whether due to economic factors or other considerations, we could delay these non-contractual capital expenditure commitments to preserve liquidity.

Critical Accounting Policies and Estimates

Our consolidated financial statements and accompanying notes are prepared in accordance with GAAP. The preparation of our financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates the accounting policies, assumptions, estimates and judgments to ensure that our consolidated financial statements are presented fairly and in accordance with GAAP. Management bases its assumptions, estimates and judgments on historical experience, current trends and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. However, because future events and their effects cannot be determined with certainty, actual results may differ from these assumptions and estimates, and such differences could be material. Critical accounting policies for Equinix that affect our more significant judgment and estimates used in the preparation of our condensed consolidated financial statements include accounting for income taxes, accounting for business combinations, accounting for impairment of goodwill and accounting for property, plant and equipment, which are discussed in more detail under the caption "Critical Accounting Policies and Estimates" in Management's Discussion and Analysis of Financial Condition and Results of Operations, set forth in Part II Item 7, of our Annual Report on Form 10-K for the year ended December 31, 2015.

We began operating as a REIT for federal income tax purposes effective January 1, 2015. In May 2015, we received a favorable PLR from the IRS in connection with our conversion to a REIT. As of March 31, 2016, our REIT structure includes all of our data center operations in the U.S. and Canada and the historical data center operations in Europe and Japan. Our data center operations in other jurisdictions, as well as the data center operations acquired in the TelecityGroup and Bit-Isle Acquisitions, have initially been designated as TRSs. As a REIT, we generally are permitted to deduct from federal taxable income the dividends we pay to our stockholders (including, for this purpose, the value of any deemed distribution on account of adjustments to the conversion rate relating to our outstanding debt securities that are convertible into our common stock). The income represented by such dividends is not subject to federal taxation at the entity level but is taxed, if at all, at the stockholder level.

We have made TRS elections for some of our subsidiaries in and outside the U.S. In general, a TRS may provide services that would otherwise be considered impermissible for REITs to provide and may hold assets that REITs cannot hold directly. U.S. income taxes for the TRS entities located in the country and foreign income taxes for our foreign operations were accrued, as necessary, for the three months ended March 31, 2016.

Recent Accounting Pronouncements

See Note 1 of Notes to Condensed Consolidated Financial Statements in Item 1 of this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market Risk

While there have been no significant changes in our market risk, investment portfolio risk, interest rate risk, foreign currency risk and commodity price risk exposures and procedures during the three months ended March 31, 2016 as compared to the respective risk exposures and procedures disclosed in Quantitative and Qualitative Disclosures About Market Risk, set forth in Part II Item 7A, of our Annual Report on Form 10-K for the year ended December 31, 2015, the U.S. dollar strengthened relative to certain of the currencies of the foreign countries in which we operate during the three months ended March 31, 2016. This has significantly impacted our consolidated financial position and results of operations during this period, including the amount of revenue that we reported. Continued strengthening or weakening of the U.S. dollar will continue to have a significant impact to us in future periods.

Excluding consideration from hedging contracts, an immediate 10% appreciation in current foreign exchange rates as of March 31, 2016 would have resulted in an increase of \$45.5 million and \$6.3 million in revenue and net income before taxes for the three months ended March 31, 2016. Excluding consideration from hedging contracts, an immediate 10% depreciation in current foreign exchange rates as of March 31, 2016 would have resulted in a decrease of \$46.2 million and \$7.3 million in revenue and net income before taxes for the three months ended March 31, 2016.

Interest Rate Risk

An immediate 10% increase or decrease in current interest rates from their position as of March 31, 2016 would not have a material impact on our debt obligations due to the fixed nature of the majority of our debt obligations. However, the interest expense associated with our senior credit facility, the Brazil financings and bridge term loan, which bear interest at variable rates, could be affected. For every 100 basis point change in interest rates, our annual interest expense could increase or decrease by a total of approximately \$7.3 million based on the total balance of our primary borrowings under the term loan A facility, revolving credit facility, bridge term loan and the Brazil financings as of March 31, 2016. As of March 31, 2016, we had not employed any interest rate derivative products against our debt obligations. However, we may enter into interest rate hedging agreements in the future to mitigate our exposure to interest rate risk.

Item 4. Controls and Procedures

(a) **Evaluation of Disclosure Controls and Procedures.** Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, conducted an evaluation, pursuant to Rule 13a-15 promulgated under the Securities Act of 1934, as amended (the “Exchange Act”), of the effectiveness of our “disclosure controls and procedures” as of the end of the period covered by this quarterly report. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective as of the end of the period covered by this quarterly report.

(b) **Changes in Internal Control over Financial Reporting.** We completed the acquisition of Bit-isle and TelecityGroup in the fourth quarter of 2015 and the first quarter of 2016, respectively. We are evaluating changes to processes and other components of internal controls over financial reporting of Bit-isle and Telecity as part of the ongoing integration activities. There have not been any other changes in our internal control reporting that occurred during the quarter ended March 31, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

(c) **Limitations on the Effectiveness of Controls.** Our management, including our Chief Executive Officer and Chief Financial Officer, believes that our disclosure controls and procedures and internal control over financial reporting are designed and operated to be effective at the reasonable assurance level. However, our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls

[Table of Contents](#)

must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with policies or procedures may deteriorate. Because of the inherent limitations in a cost effective control system, misstatements due to error or fraud may occur and not be detected.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

None

Item 1A. Risk Factors

In addition to the other information contained in this report, the following risk factors should be considered carefully in evaluating our business and us:

Risks Related to the Acquisition and Integration of TeletyGroup

We have incurred and will continue to incur significant transaction, acquisition-related integration and asset divestment costs in connection with the consummation of the TeletyGroup acquisition.

We have incurred and will continue to incur significant costs in connection with consummating the TeletyGroup acquisition and integrating our and TeletyGroup's operations into a combined company. We will also incur costs in connection with the divestment of certain of the assets of the combined company. The actual costs incurred may exceed those estimated and there may be further unanticipated costs and the assumption of known and unknown liabilities. While we have assumed that we will incur transaction, integration and divestment expenses, there are factors beyond our control that could affect the total amount or the timing of such expenses. Many of the expenses that will be incurred, by their nature, are difficult to estimate accurately at the present time.

As a result, the transaction, integration and divestment expenses associated with the TeletyGroup acquisition could, particularly in the near term, exceed the cost savings that we expect to achieve from the streamlining of operations following the completion of the TeletyGroup acquisition.

The anticipated benefits of the TeletyGroup acquisition may not be realized fully and may take longer to realize than expected and there will be numerous challenges associated with integration.

The success of the TeletyGroup acquisition will depend, in part, on the combined company's ability to successfully integrate our and TeletyGroup's businesses and realize the anticipated benefits, including synergies and cost savings, from the combination. If we are unable to achieve these objectives within the anticipated time frame, or at all, the anticipated benefits may not be realized fully or at all, or may take longer to realize than expected and the value of the combined company's common stock may be adversely affected. We also must successfully divest certain assets of the combined company agreed upon with the European Commission in order to obtain clearance of the transaction, which could reduce certain of the benefits we expect to receive from the TeletyGroup acquisition.

We have incurred and will continue to incur significant transaction-related costs in connection with the TeletyGroup acquisition and the integration and divestment processes. We may encounter material challenges in connection with this integration process, including, without limitation:

- the diversion of management's attention from ongoing business concerns and performance shortfalls at one or both of the companies as a result of the devotion of management's attention to the TeletyGroup integration;
- managing a larger combined company;
- integrating two unique corporate cultures, which may prove to be challenging;
- retaining key employees, customers and suppliers, each of whom may experience uncertainty associated with the TeletyGroup acquisition or who may attempt to negotiate changes in their current or future business relationships with us;
- consolidating corporate and administrative infrastructures and eliminating duplicative operations;
- and
- unforeseen expenses or delays associated with the TeletyGroup acquisition.

Many of these factors will be outside of our control and any one of them could result in increased costs, decreases in the amount of expected revenues and diversion of management's time and energy, which could materially impact our business, financial condition and results of operations.

The market price of our common stock may decline as a result of the TeletyGroup acquisition.

The market price of our common stock may decline as a result of the TeletyGroup acquisition if we do not achieve the perceived benefits of the TeletyGroup acquisition as rapidly or to the extent anticipated by financial or industry analysts or if the effect of the TeletyGroup acquisition on our financial results is not consistent with the expectations of financial or industry analysts. In addition, TeletyGroup shareholders now own approximately 10% of the common stock outstanding, and they may decide to sell their common stock which may result in additional pressure on the price of our common stock.

We would incur adverse tax consequences if the combined company following the TelecityGroup acquisition fails to qualify as a REIT for U.S. federal income tax purposes.

We believe that we will continue to integrate TelecityGroup's assets and operations in a manner that will allow us to timely satisfy the REIT income, asset, and distribution tests applicable to us. However, the TelecityGroup integration will be complicated due to the size of TelecityGroup and if we fail to timely satisfy such tests, we could jeopardize or lose our qualification for taxation as a REIT, particularly if we were ineligible to utilize relief provisions set forth in the Internal Revenue Code (the "Code"). For any taxable year that we fail to qualify for taxation as a REIT, we would not be allowed a deduction for distributions to our stockholders in computing our taxable income, and would thus be subject to U.S. federal and state income tax at the regular corporate rates on all of our U.S. federal and state taxable income in the manner of a regular corporation. Those corporate level taxes would reduce the amount of cash available for distribution to our stockholders or for reinvestment or other purposes, and would adversely affect our earnings. As a result, our failure to qualify for taxation as a REIT during any taxable year could have a material adverse effect upon us and our stockholders. Furthermore, unless prescribed relief provisions apply, we would not be eligible to elect REIT status again until the fifth taxable year that begins after the first year for which we failed to qualify as a REIT. Finally, even if we are able to utilize relief provisions and thereby avoid disqualification for taxation as a REIT, relief provisions typically involve paying a penalty tax in proportion to the severity and duration of the noncompliance with REIT requirements, and thus these penalty taxes could be significant in the context of noncompliance stemming from a transaction as large as the TelecityGroup integration.

Risks Related to Our Taxation as a REIT

We may not remain qualified for taxation as a REIT.

We began operating as a REIT for federal income tax purposes, effective for our taxable year that began January 1, 2015. We believe we are operating so as to qualify for taxation as a REIT under the Code and believe that our organization and method of operation complies with the rules and regulations promulgated under the Code and will enable us to continue to qualify for taxation as a REIT. However, we cannot assure you that we will qualify for taxation as a REIT or that we will remain qualified for taxation as a REIT. Qualification for taxation as a REIT requires us to satisfy numerous requirements (some on an annual and others on a quarterly basis) established under highly technical and complex sections of the Code which may change from time to time; and for which there are only limited judicial and administrative interpretations, and involves the determination of various factual matters and circumstances not entirely within our control. For example, in order to qualify for taxation as a REIT, we must derive at least 95% of our gross income in any year from qualifying sources. In addition, we must satisfy specified asset tests on a quarterly basis.

If, in any taxable year, we fail to remain qualified for taxation as a REIT and are not entitled to relief under the Code:

- we will not be allowed a deduction for distributions to stockholders in computing our taxable income;
- we will be subject to federal and state income tax, including any applicable alternative minimum tax, on our taxable income at regular corporate rates; and
- we would not be eligible to elect REIT status again until the fifth taxable year that begins after the first year for which we failed to qualify as a REIT.

Any such corporate tax liability could be substantial and would reduce the amount of cash available for other purposes.

As a REIT, failure to make required distributions would subject us to federal corporate income tax.

We paid a quarterly distribution in March of 2016 and have declared a second quarterly distribution to be paid in June of 2016. The amount, timing and form of any future distributions will be determined, and will be subject to adjustment, by our Board of Directors. To remain qualified for taxation as a REIT, we are generally required to distribute at least 90% of our REIT taxable income (determined without regard to the dividends paid deduction and excluding net capital gain) each year to our stockholders. Generally, we expect to distribute all or substantially all of our REIT taxable income. If our cash available for distribution falls short of our estimates, we may be unable to maintain distributions that approximate our REIT taxable income and may fail to remain qualified for taxation as a REIT. In addition, our cash flows from operations may be insufficient to fund required distributions as a result of differences in timing between the actual receipt of income and the payment of expenses and the recognition of income and expenses for federal income tax purposes, or the effect of nondeductible expenditures, such as capital expenditures, payments of compensation for which Section 162(m) of the Code denies a deduction, the creation of reserves or required debt service or amortization payments.

To the extent that we satisfy the 90% distribution requirement but distribute less than 100% of our REIT taxable income, we will be subject to federal corporate income tax on our undistributed taxable income. In addition, we will be subject to a 4%

nondeductible excise tax on our undistributed taxable income if the actual amount that we distribute to our stockholders for a calendar year is less than the minimum amount specified under the Code.

We may be required to borrow funds or raise equity to satisfy our REIT distribution requirements.

Due to the size and timing of future regular or special distributions, including any distributions made to satisfy REIT distribution requirements and maintain our qualification and taxation as a REIT, we may need to borrow funds or raise equity, even if the then-prevailing market conditions are not favorable for these borrowings or offerings.

Any insufficiency of our cash flows to cover our REIT distribution requirements could adversely impact our ability to raise short- and long-term debt or to offer equity securities in order to fund distributions required to maintain our qualification and taxation as a REIT. Furthermore, the REIT distribution requirements may increase the financing we need to fund capital expenditures, future growth and expansion initiatives. This would increase our indebtedness. A significant increase in our outstanding debt could lead to a downgrade of our credit rating. A downgrade of our credit rating could negatively impact our ability to access credit markets. Further, certain of our current debt instruments limit the amount of indebtedness we and our subsidiaries may incur. Significantly more financing, therefore, may be unavailable, more expensive or restricted by the terms of our outstanding indebtedness. For a discussion of risks related to our substantial level of indebtedness, see “Other Risks”.

Whether we issue equity, at what price and the amount and other terms of any such issuances will depend on many factors, including alternative sources of capital, our then-existing leverage, our need for additional capital, market conditions and other factors beyond our control. If we raise additional funds through the issuance of equity securities or debt convertible into equity securities, the percentage of stock ownership by our existing stockholders may be reduced. In addition, new equity securities or convertible debt securities could have rights, preferences and privileges senior to those of our current stockholders, which could substantially decrease the value of our securities owned by them. Depending on the share price we are able to obtain, we may have to sell a significant number of shares in order to raise the capital we deem necessary to execute our long-term strategy, and our stockholders may experience dilution in the value of their shares as a result.

Legislative or other actions affecting REITs could have a negative effect on us or our stockholders.

At any time, the federal income tax laws governing REITs or the administrative interpretations of those laws may be amended. Federal and state tax laws are constantly under review by persons involved in the legislative process, the IRS, the U.S. Department of the Treasury and state taxing authorities. Changes to the tax laws, regulations and administrative interpretations, which may have retroactive application, could adversely affect us. In addition, some of these changes could have a more significant impact on us as compared to other REITs due to the nature of our business and our substantial use of TRSs. We cannot predict with certainty whether, when, in what forms, or with what effective dates, the tax laws, regulations and administrative interpretations applicable to us may be changed.

Complying with REIT requirements may limit our flexibility or cause us to forego otherwise attractive opportunities.

As a REIT for U.S. federal income tax purposes, we must satisfy tests concerning, among other things, the sources of our income, the nature and diversification of our assets and the amounts we distribute to our stockholders. For example, under the Code, no more than 25% (20% from and after our 2018 taxable year) of the value of the assets of a REIT may be represented by securities of one or more TRSs. Similar rules apply to other nonqualifying assets. These limitations may affect our ability to make large investments in other non-REIT qualifying operations or assets. In addition, in order to maintain qualification for taxation as a REIT, we must annually distribute at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gains. Even if we maintain our qualification for taxation as a REIT, we will be subject to U.S. federal income tax at regular corporate rates for our undistributed REIT taxable income, as well as U.S. federal income tax at regular corporate rates for income recognized by our TRSs. Because of these distribution requirements, we will likely not be able to fund future capital needs and investments from operating cash flow. As such, compliance with REIT tests may hinder our ability to make certain attractive investments, including the purchase of significant nonqualifying assets and the material expansion of non-real estate activities.

As a REIT, we are limited in our ability to fund distribution payments using cash generated through our TRSs.

Our ability to receive distributions from our TRSs is limited by the rules with which we must comply to maintain our qualification for taxation as a REIT. In particular, at least 75% of our gross income for each taxable year as a REIT must be derived from real estate. Consequently, no more than 25% of our gross income may consist of dividend income from our TRSs and other nonqualifying types of income. Thus, our ability to receive distributions from our TRSs may be limited, and may impact our ability to fund distributions to our stockholders using cash flows from our TRSs. Specifically, if our TRSs become highly profitable, we might become limited in our ability to receive net income from our TRSs in an amount required to fund distributions to our stockholders commensurate with that profitability.

Table of Contents

In addition, a significant amount of our income and cash flows from our TRSs is generated from our international operations. In many cases, there are local withholding taxes and currency controls that may impact our ability or willingness to repatriate funds to the United States to help satisfy REIT distribution requirements.

Our extensive use of TRSs, including for certain of our international operations, may cause us to fail to remain qualified for taxation as a REIT.

The net income of our TRSs is not required to be distributed to us, and income that is not distributed to us generally is not subject to the REIT income distribution requirement. However, there may be limitations on our ability to accumulate earnings in our TRSs and the accumulation or reinvestment of significant earnings in our TRSs could result in adverse tax treatment. In particular, if the accumulation of cash in our TRSs causes the fair market value of our securities in our TRSs and other nonqualifying assets to exceed 25% or from and after our 2018 taxable year, causes (1) the fair market value of our securities in our TRSs to exceed 20% of the fair market value of our assets or (2) the fair market value of our securities in our TRSs and other nonqualifying assets to exceed 25% of the fair market value of our assets, then we will fail to remain qualified for taxation as a REIT.

Our cash distributions are not guaranteed and may fluctuate.

A REIT generally is required to distribute at least 90% of its REIT taxable income to its stockholders.

Our Board of Directors, in its sole discretion, will determine on a quarterly basis the amount of cash to be distributed to our stockholders based on a number of factors including, but not limited to, our results of operations, cash flow and capital requirements, economic conditions, tax considerations, borrowing capacity and other factors, including debt covenant restrictions that may impose limitations on cash payments, future acquisitions and divestitures and any stock repurchase program. Consequently, our distribution levels may fluctuate.

Even if we remain qualified for taxation as a REIT, some of our business activities are subject to corporate level income tax and foreign taxes, which will continue to reduce our cash flows, and we will have potential deferred and contingent tax liabilities.

Even if we remain qualified for taxation as a REIT, we may be subject to some federal, state, local and foreign taxes on our income and assets, including alternative minimum taxes, taxes on any undistributed income, and state, local or foreign income, franchise, property and transfer taxes. In addition, we could in certain circumstances be required to pay an excise or penalty tax, which could be significant in amount, in order to utilize one or more relief provisions under the Code to maintain qualification for taxation as a REIT.

A portion of our business is conducted through wholly owned TRSs because certain of our business activities could generate nonqualifying REIT income as currently structured and operated. The income of our U.S. TRSs will continue to be subject to federal and state corporate income taxes. In addition, our international assets and operations will continue to be subject to taxation in the foreign jurisdictions where those assets are held or those operations are conducted. Any of these taxes would decrease our earnings and our available cash.

We will also be subject to a federal corporate level tax at the highest regular corporate rate (currently 35%) on gain recognized from a sale of a REIT asset where our basis in the asset is determined by reference to the basis of the asset in the hands of a former C corporation (such as (i) an asset that we held as of the effective date of our REIT election, that is, January 1, 2015, or (ii) an asset that we or a QRS hold following the liquidation or other conversion of a former TRS). This 35% tax is generally applicable to any disposition of such an asset during the five-year period after the date we first owned the asset as a REIT asset (e.g. January 1, 2015 in the case of REIT assets we held at the time of our REIT conversion), to the extent of the built-in-gain based on the fair market value of such asset on the date we first held the asset as a REIT asset.

In addition, the IRS and any state or local tax authority may successfully assert liabilities against us for corporate income taxes for our pre-REIT period, in which case we will owe these taxes plus applicable interest and penalties, if any. Moreover, any increase in taxable income for these pre-REIT periods will likely result in an increase in pre-REIT accumulated earnings and profits, which could cause us to pay an additional taxable distribution to our stockholders after the relevant determination.

Restrictive loan covenants could prevent us from satisfying REIT distribution requirements.

Restrictions in our credit facility and our indentures may prevent us from satisfying our REIT distribution requirements, and we could fail to remain qualified for taxation as a REIT. If these limits do not jeopardize our qualification for taxation as a REIT but nevertheless prevent us from distributing 100% of our REIT taxable income, we would be subject to federal corporate income tax, and potentially a nondeductible excise tax, on the retained amounts. See "Other Risks" for further information on our restrictive loan covenants.

Complying with REIT requirements may limit our ability to hedge effectively and increase the cost of our hedging and may cause us to incur tax liabilities.

The REIT provisions of the Code limit our ability to hedge assets, liabilities, revenues and expenses. Generally, income from hedging transactions that we enter into to manage risk of interest rate changes or fluctuations with respect to borrowings made or to be made by us to acquire or carry real estate assets and income from certain currency hedging transactions related to our non-U.S. operations, as well as income from qualifying counteracting hedges do not constitute “gross income” for purposes of the REIT gross income tests. To the extent that we enter into other types of hedging transactions, the income from those transactions is likely to be treated as nonqualifying income for purposes of the REIT gross income tests. As a result of these rules, we may need to limit our use of advantageous hedging techniques or implement those hedges through our TRSs, which we presently do. This increases the cost of our hedging activities because our TRSs are subject to tax on income or gains resulting from hedges entered into by them and may expose us to greater risks associated with changes in interest rates or exchange rates than we would otherwise want to bear. In addition, hedging losses in any of our TRSs may not provide any tax benefit, except for being carried forward for possible use against future capital gain in the TRSs.

We have limited experience operating as a REIT, which may adversely affect our financial condition, results of operations, cash flow, per share trading price of our common stock and ability to forecast dividends.

We began operating as a REIT on January 1, 2015 and, as such, have limited operating history as a REIT. In addition, prior to January 1, 2015 our senior management team had no prior experience operating a REIT. We can provide no assurance that our past experience has sufficiently prepared us to operate successfully as a REIT. Our inability to operate successfully as a REIT, including the failure to remain qualified for taxation as a REIT, could adversely affect our business, financial condition and results of operations.

Distributions payable by REITs generally do not qualify for preferential tax rates.

Qualifying distributions payable by corporations to individuals, trusts and estates that are U.S. stockholders are currently eligible for federal income tax at preferential rates. Distributions payable by REITs, in contrast, generally are not eligible for the preferential rates. The preferential rates applicable to regular corporate distributions could cause investors who are individuals, trusts and estates to perceive investments in REITs to be relatively less attractive than investments in the stock of non-REIT corporations that pay distributions, which could adversely affect the value of the stock of REITs, including our common stock.

Our certificate of incorporation contains restrictions on the ownership and transfer of our stock, though they may not be successful in preserving our qualification for taxation as a REIT.

In order for us to remain qualified for taxation as a REIT, no more than 50% of the value of outstanding shares of our stock may be owned, beneficially or constructively, by five or fewer individuals at any time during the last half of each taxable year other than the first year for which we elect to be taxed as a REIT. In addition, rents from “affiliated tenants” will not qualify as qualifying REIT income if we own 10% or more by vote or value of the customer, whether directly or after application of attribution rules under the Code. Subject to certain exceptions, our certificate of incorporation prohibits any stockholder from owning beneficially or constructively more than (i) 9.8% in value of the outstanding shares of all classes or series of our capital stock or (ii) 9.8% in value or number, whichever is more restrictive, of the outstanding shares of any class or series of our capital stock. We refer to these restrictions collectively as the “ownership limits” and we included them in our certificate of incorporation to facilitate our compliance with REIT tax rules. The constructive ownership rules under the Code are complex and may cause the outstanding stock owned by a group of related individuals or entities to be deemed to be constructively owned by one individual or entity. As a result, the acquisition of less than 9.8% of our outstanding common stock (or the outstanding shares of any class or series of our stock) by an individual or entity could cause that individual or entity or another individual or entity to own constructively in excess of the relevant ownership limits. Any attempt to own or transfer shares of our common stock or of any of our other capital stock in violation of these restrictions may result in the shares being automatically transferred to a charitable trust or may be void. Even though our certificate of incorporation contains the ownership limits, there can be no assurance that these provisions will be effective to prevent our qualification for taxation as a REIT from being jeopardized, including under the affiliated tenant rule. Furthermore, there can be no assurance that we will be able to enforce the ownership limits. If the restrictions in our certificate of incorporation are not effective and as a result we fail to satisfy the REIT tax rules described above, then absent an applicable relief provision, we will fail to remain qualified for taxation as a REIT.

Other Risks

Acquisitions present many risks, and we may not realize the financial or strategic goals that were contemplated at the time of any transaction.

Over the last several years, we have completed numerous acquisitions, including most recently that of Nimbo and Bit-isle in

Table of Contents

2015 and TelecityGroup in January of 2016. We may make additional acquisitions in the future, which may include (i) acquisitions of businesses, products, services or technologies that we believe to be complementary, (ii) acquisitions of new IBX data centers or real estate for development of new IBX data centers or (iii) acquisitions through investments in local data center operators. We may pay for future acquisitions by using our existing cash resources (which may limit other potential uses of our cash), incurring additional debt (which may increase our interest expense, leverage and debt service requirements) and/or issuing shares (which may dilute our existing stockholders and have a negative effect on our earnings per share). Acquisitions expose us to potential risks, including:

- the possible disruption of our ongoing business and diversion of management's attention by acquisition, transition and integration activities, particularly when multiple acquisitions and integrations are occurring at the same time;
- our potential inability to successfully pursue or realize some or all of the anticipated revenue opportunities associated with an acquisition or investment;
- the possibility that we may not be able to successfully integrate acquired businesses, or businesses in which we invest, or achieve anticipated operating efficiencies or cost savings;
- the possibility that announced acquisitions may not be completed, due to failure to satisfy the conditions to closing or for other reasons;
- the dilution of our existing stockholders as a result of our issuing stock in transactions, such as in connection with our acquisitions of Switch & Data Facilities Company, Inc. in 2010 ("Switch and Data") and TelecityGroup;
- the possibility of customer dissatisfaction if we are unable to achieve levels of quality and stability on par with past practices;
- the potential deterioration to our ability to access credit markets due to increased leverage;
- the possibility that our customers may not accept either the existing equipment infrastructure or the "look-and-feel" of a new or different IBX data center;
- the possibility that additional capital expenditures may be required or that transaction expenses associated with acquisitions may be higher than anticipated;
- the possibility that required financing to fund an acquisition may not be available on acceptable terms or at all;
- the possibility that we may be unable to obtain required approvals from governmental authorities under antitrust and competition laws on a timely basis or at all, which could, among other things, delay or prevent us from completing an acquisition, limit our ability to realize the expected financial or strategic benefits of an acquisition or have other adverse effects on our current business and operations;
- the possible loss or reduction in value of acquired businesses;
- the possibility that future acquisitions may present new complexities in deal structure, related complex accounting and coordination with new partners, particularly in light of our desire to maintain our taxation as a REIT;
- the possibility that future acquisitions may be in geographies and regulatory environments to which we are unaccustomed;
- the possibility that carriers may find it cost-prohibitive or impractical to bring fiber and networks into a new IBX data center;
- the possibility of litigation or other claims in connection with, or as a result of, an acquisition, including claims from terminated employees, customers, former stockholders or other third parties;
- the possibility that asset divestments may be required in order to obtain regulatory clearance for a transaction;
- and
- the possibility of pre-existing undisclosed liabilities, including, but not limited to, lease or landlord related liability, environmental liability or asbestos liability, for which insurance coverage may be insufficient or unavailable, or other issues not discovered in the diligence process.

The occurrence of any of these risks could have a material adverse effect on our business, results of operations, financial condition or cash flows.

We cannot assure that the price of any future acquisitions of IBX data centers will be similar to prior IBX data center acquisitions. In fact, we expect costs required to build or render new IBX data centers operational to increase in the future. If our revenue does not keep pace with these potential acquisition and expansion costs, we may not be able to maintain our current or expected margins as we absorb these additional expenses. There is no assurance we would successfully overcome these risks or any other problems encountered with these acquisitions.

Our substantial debt could adversely affect our cash flows and limit our flexibility to raise additional capital.

We have a significant amount of debt and may need to incur additional debt to support our growth. Additional debt may also be incurred to fund future acquisitions, any future special distributions, regular distributions or the other cash outlays associated with maintaining qualification for taxation as a REIT. As of March 31, 2016, our total indebtedness was approximately \$7.2 billion, our stockholders' equity was \$4.8 billion and our cash and investments totaled \$650.1 million. In addition, as of March 31, 2016, we had approximately \$1.5 billion of additional liquidity available to us from our \$1.5 billion revolving credit facility. Some of

Table of Contents

our debt contains covenants which may limit our operating flexibility. In addition to our substantial debt, we lease a majority of our IBX data centers and certain equipment under non-cancellable lease agreements, the majority of which are accounted for as operating leases. As of March 31, 2016, our total minimum operating lease commitments under those lease agreements, excluding potential lease renewals, was approximately \$1.7 billion, which represents off-balance sheet commitments.

Our substantial amount of debt and related covenants, and our off-balance sheet commitments, could have important consequences. For example, they could:

- require us to dedicate a substantial portion of our cash flow from operations to make interest and principal payments on our debt and in respect of other off-balance sheet arrangements, reducing the availability of our cash flow to fund future capital expenditures, working capital, execution of our expansion strategy and other general corporate requirements;
- increase the likelihood of negative outlook from our rating agencies;
- make it more difficult for us to satisfy our obligations under our various debt instruments;
- increase our cost of borrowing and even limit our ability to access additional debt to fund future growth;
- increase our vulnerability to general adverse economic and industry conditions and adverse changes in governmental regulations;
- limit our flexibility in planning for, or reacting to, changes in our business and industry, which may place us at a competitive disadvantage compared with our competitors;
- limit our operating flexibility through covenants with which we must comply, such as limiting our ability to repurchase shares of our common stock;
- limit our ability to borrow additional funds, even when necessary to maintain adequate liquidity, which would also limit our ability to further expand our business; and
- make us more vulnerable to increases in interest rates because of the variable interest rates on some of our borrowings to the extent we have not entirely hedged such variable rate debt.

The occurrence of any of the foregoing factors could have a material adverse effect on our business, results of operations and financial condition. In addition, the performance of our stock price may trigger events that would require the write-off of a significant portion of our debt issuance costs related to our convertible debt, which may have a material adverse effect on our results of operations.

We may also need to refinance a portion of our outstanding debt as it matures. There is a risk that we may not be able to refinance existing debt or that the terms of any refinancing may not be as favorable as the terms of our existing debt. Furthermore, if prevailing interest rates or other factors at the time of refinancing result in higher interest rates upon refinancing, then the interest expense relating to that refinanced indebtedness would increase. These risks could materially adversely affect our financial condition, cash flows and results of operations.

Adverse global economic conditions and credit market uncertainty could adversely impact our business and financial condition.

Adverse global economic conditions and uncertain conditions in the credit markets have created, and in the future may create, uncertainty and unpredictability and add risk to our future outlook. An uncertain global economy could also result in churn in our customer base, reductions in revenues from our offerings, longer sales cycles, slower adoption of new technologies and increased price competition, adversely affecting our liquidity. The uncertain economic environment could also have an impact on our foreign exchange forward contracts if our counterparties' credit deteriorates or they are otherwise unable to perform their obligations. Finally, our ability to access the capital markets may be severely restricted at a time when we would like, or need, to do so which could have an impact on our flexibility to pursue additional expansion opportunities and maintain our desired level of revenue growth in the future.

The market price of our stock may continue to be highly volatile, and the value of an investment in our common stock may decline.

The market price of the shares of our common stock has been and may continue to be highly volatile. General economic and market conditions, and market conditions for telecommunications stocks in general, may affect the market price of our common stock.

Announcements by us or others, or speculations about our future plans, may also have a significant impact on the market price of our common stock. These may relate to:

- our operating results or forecasts;
- new issuances of equity, debt or convertible debt by us;
- changes to our capital allocation, tax planning or business strategy;

Table of Contents

- our qualification for taxation as a REIT and our declaration of distributions to our stockholders;
- a stock repurchase program;
- developments in our relationships with corporate customers;
- announcements by our customers or competitors;
- changes in regulatory policy or interpretation;
- governmental investigations;
- changes in the ratings of our debt or stock by rating agencies or securities analysts;
- our purchase or development of real estate and/or additional IBX data centers;
- our acquisitions of complementary businesses; or
- the operational performance of our IBX data centers.

The stock market has from time to time experienced extreme price and volume fluctuations, which have particularly affected the market prices for telecommunications companies, and which have often been unrelated to their operating performance. These broad market fluctuations may adversely affect the market price of our common stock. Furthermore, companies that have experienced volatility in the market price of their stock have been subject to securities class action litigation. We may be the target of this type of litigation in the future. Securities litigation against us could result in substantial costs and/or damages, and divert management's attention from other business concerns, which could seriously harm our business.

If we are not able to generate sufficient operating cash flows or obtain external financing, our ability to fund incremental expansion plans may be limited.

Our capital expenditures, together with ongoing operating expenses, obligations to service our debt and the cash outlays associated with our REIT distribution requirements, are and will continue to be a substantial burden on our cash flow and may decrease our cash balances. Additional debt or equity financing may not be available when needed or, if available, may not be available on satisfactory terms. Our inability to obtain additional debt and/or equity financing or to generate sufficient cash from operations may require us to prioritize projects or curtail capital expenditures which could adversely affect our results of operations.

Fluctuations in foreign currency exchange rates in the markets in which we operate internationally could harm our results of operations.

We may experience gains and losses resulting from fluctuations in foreign currency exchange rates. To date, the majority of revenues and costs in our international operations are denominated in foreign currencies. Where our prices are denominated in U.S. dollars, our sales and revenues could be adversely affected by declines in foreign currencies relative to the U.S. dollar, thereby making our offerings more expensive in local currencies. We are also exposed to risks resulting from fluctuations in foreign currency exchange rates in connection with our international operations. To the extent we are paying contractors in foreign currencies, our operations could cost more than anticipated as a result of declines in the U.S. dollar relative to foreign currencies. In addition, fluctuating foreign currency exchange rates have a direct impact on how our international results of operations translate into U.S. dollars.

Although we currently undertake, and may decide in the future to further undertake, foreign exchange hedging transactions to reduce foreign currency transaction exposure, we do not currently intend to eliminate all foreign currency transaction exposure. In addition, REIT compliance rules may restrict our ability to enter into hedging transactions. Therefore, any weakness of the U.S. dollar may have a positive impact on our consolidated results of operations because the currencies in the foreign countries in which we operate may translate into more U.S. dollars. However, if the U.S. dollar strengthens relative to the currencies of the foreign countries in which we operate, our consolidated financial position and results of operations may be negatively impacted as amounts in foreign currencies will generally translate into fewer U.S. dollars. For additional information on foreign currency risk, refer to our discussion of foreign currency risk in "Quantitative and Qualitative Disclosures About Market Risk" included in Item 3 of this Quarterly Report on Form 10-Q.

Changes in U.S. or foreign tax laws, regulations, or interpretations thereof, including changes to tax rates, may adversely affect our financial statements and cash taxes.

We are a U.S. company with global subsidiaries and are subject to income taxes in the U.S. (although currently limited due to our taxation as a REIT) and many foreign jurisdictions. Significant judgment is required in determining our worldwide provision for income taxes. Although we believe that we have adequately assessed and accounted for our potential tax liabilities, and that our tax estimates are reasonable, there can be no certainty that additional taxes will not be due upon audit of our tax returns or as a result of changes to the tax laws and interpretations thereof. The U.S. Congress as well as the governments of many of the countries in which we operate are actively discussing changes to the corporate recognition and taxation of worldwide income. The nature and timing of any changes to each jurisdiction's tax laws and the impact on our future tax liabilities cannot be predicted with any accuracy but could materially and adversely impact our results of operations and financial position or cash flows.

We are continuing to invest in our expansion efforts but may not have sufficient customer demand in the future to realize expected returns on these investments.

We are considering the acquisition or lease of additional properties and the construction of new IBX data centers beyond those expansion projects already announced. We will be required to commit substantial operational and financial resources to these IBX data centers, generally 12 to 18 months in advance of securing customer contracts, and we may not have sufficient customer demand in those markets to support these centers once they are built. In addition, unanticipated technological changes could affect customer requirements for data centers, and we may not have built such requirements into our new IBX data centers. Either of these contingencies, if they were to occur, could make it difficult for us to realize expected or reasonable returns on these investments.

Our offerings have a long sales cycle that may harm our revenues and operating results.

A customer's decision to purchase our offerings typically involves a significant commitment of resources. In addition, some customers will be reluctant to commit to locating in our IBX data centers until they are confident that the IBX data center has adequate carrier connections. As a result, we have a long sales cycle. Furthermore, we may devote significant time and resources in pursuing a particular sale or customer that does not result in revenue. We have also significantly expanded our sales force in recent years, and it will take time for these new hires to become fully productive.

Delays due to the length of our sales cycle may materially and adversely affect our revenues and operating results, which could harm our ability to meet our forecasts and cause volatility in our stock price.

Any failure of our physical infrastructure or offerings could lead to significant costs and disruptions that could reduce our revenue and harm our business reputation and financial results.

Our business depends on providing customers with highly reliable solutions. We must safehouse our customers' infrastructure and equipment located in our IBX data centers. We own certain of our IBX data centers, but others are leased by us, and we rely on the landlord for basic maintenance of our leased IBX data centers. If such landlord has not maintained a leased property sufficiently, we may be forced into an early exit from the center which could be disruptive to our business. Furthermore, we continue to acquire IBX data centers not built by us. If we discover that these IBX data centers and their infrastructure assets are not in the condition we expected when they were acquired, we may be required to incur substantial additional costs to repair or upgrade the centers.

The offerings we provide in each of our IBX data centers are subject to failure resulting from numerous factors, including:

- human error;
- equipment failure;
- physical, electronic and cybersecurity breaches;
- fire, earthquake, hurricane, flood, tornado and other natural disasters;
- extreme temperatures;
- water damage;
- fiber cuts;
- power loss;
- terrorist acts;
- sabotage and vandalism;
- and
- failure of business partners who provide our resale products.

Problems at one or more of our IBX data centers, whether or not within our control, could result in service interruptions or significant equipment damage. We have service level commitment obligations to certain of our customers. As a result, service interruptions or significant equipment damage in our IBX data centers could result in difficulty maintaining service level commitments to these customers and potential claims related to such failures. Because our IBX data centers are critical to many of our customers' businesses, service interruptions or significant equipment damage in our IBX data centers could also result in lost profits or other indirect or consequential damages to our customers. We cannot guarantee that a court would enforce any contractual limitations on our liability in the event that one of our customers brings a lawsuit against us as a result of a problem at one of our IBX data centers and we may decide to reach settlements with affected customers irrespective of any such contractual limitations. In addition, any loss of service, equipment damage or inability to meet our service level commitment obligations could reduce the confidence of our customers and could consequently impair our ability to obtain and retain customers, which would adversely affect both our ability to generate revenues and our operating results.

Furthermore, we are dependent upon Internet service providers, telecommunications carriers and other website operators in the Americas, Asia-Pacific and EMEA regions and elsewhere, some of which have experienced significant system failures and electrical outages in the past. Our customers may in the future experience difficulties due to system failures unrelated to our systems

and offerings. If, for any reason, these providers fail to provide the required services, our business, financial condition and results of operations could be materially and adversely impacted.

We are currently making significant investments in our back office information technology systems, including those surrounding the customer experience from initial quote to customer billing, and upgrading our worldwide financial application suite. Difficulties, distractions or disruptions to these efforts may interrupt our normal operations and adversely affect our business and operating results.

Commencing in 2012, we began a significant project to overhaul our back office systems that support the customer experience from initial quote to customer billing and our revenue recognition process. Additionally, commencing in 2013, we began to devote significant resources to the upgrade of our worldwide financial application suite from Oracle's version 11i to R12. While significant milestones have been achieved on both projects, both projects have continued into 2016. Oracle has already begun to discontinue its support for our current business application suite. While the Oracle financial application suite implementation was largely completed in July 2014 and the initial implementation of the systems to support our billing and revenue process was completed in August 2014, work continues on our back office systems and their global implementation, including upgrades, developing new functionality and integrations into recently acquired operations such as Bit-isle and TelecityGroup. As a result of that discontinued support and our continued work on these projects, we may experience difficulties with our systems, management distraction and significant business disruptions. Difficulties with our systems may interrupt our ability to accept and deliver customer orders and may adversely impact our overall financial operations, including our accounts payable, accounts receivables, general ledger, fixed assets, revenue recognition, close processes, internal financial controls and our ability to otherwise run and track our business. We may need to expend significant attention, time and resources to correct problems or find alternative sources for performing these functions. All of these changes to our financial systems create an increased risk of deficiencies in our internal controls over financial reporting until such systems are stabilized. Such significant investments in our back office systems may take longer to complete and cost more than originally planned. In addition, we may not realize the full benefits we hoped to achieve and there is a risk of an impairment charge if we decide that portions of these projects will not ultimately benefit the company or are de-scoped. Any such difficulty or disruption may adversely affect our business and operating results.

The insurance coverage that we purchase may prove to be inadequate.

We carry liability, property, business interruption and other insurance policies to cover insurable risks to our company. We select the types of insurance, the limits and the deductibles based on our specific risk profile, the cost of the insurance coverage versus its perceived benefit and general industry standards. Our insurance policies contain industry standard exclusions for events such as war and nuclear reaction. We purchase minimal levels of earthquake insurance for certain of our IBX data centers, but for most of our data centers, including many in California, we have elected to self-insure. The earthquake and flood insurance that we do purchase would be subject to high deductibles. Any of the limits of insurance that we purchase, including those for cyber risks, could prove to be inadequate, which could materially and adversely impact our business, financial condition and results of operations.

Our construction of additional new IBX data centers or IBX data center expansions could involve significant risks to our business.

In order to sustain our growth in certain of our existing and new markets, we must expand an existing data center, lease a new facility or acquire suitable land, with or without structures, to build new IBX data centers from the ground up. Expansions or new builds are currently underway, or being contemplated, in many of our markets. Any related construction requires us to carefully select and rely on the experience of one or more designers, general contractors, and associated subcontractors during the design and construction process. Should a designer, general contractor or significant subcontractor experience financial or other problems during the design or construction process, we could experience significant delays, increased costs to complete the project and/or other negative impacts to our expected returns.

Site selection is also a critical factor in our expansion plans. There may not be suitable properties available in our markets with the necessary combination of high power capacity and fiber connectivity, or selection may be limited. Thus, while we may prefer to locate new IBX data centers adjacent to our existing locations it may not always be possible. In the event we decide to build new IBX data centers separate from our existing IBX data centers, we may provide interconnection solutions to connect these two centers. Should these solutions not provide the necessary reliability to sustain connection, this could result in lower interconnection revenue and lower margins and could have a negative impact on customer retention over time.

Environmental regulations may impose upon us new or unexpected costs.

We are subject to various federal, state, local and international environmental and health and safety laws and regulations, including those relating to the generation, storage, handling and disposal of hazardous substances and wastes. Certain of these laws and regulations also impose joint and several liability, without regard to fault, for investigation and cleanup costs on current

Table of Contents

and former owners and operators of real property and persons who have disposed of or released hazardous substances into the environment. Our operations involve the use of hazardous substances and materials such as petroleum fuel for emergency generators, as well as batteries, cleaning solutions and other materials. In addition, we lease, own or operate real property at which hazardous substances and regulated materials have been used in the past. At some of our locations, hazardous substances or regulated materials are known to be present in soil or groundwater, and there may be additional unknown hazardous substances or regulated materials present at sites we own, operate or lease. At some of our locations, there are land use restrictions in place relating to earlier environmental cleanups that do not materially limit our use of the sites. To the extent any hazardous substances or any other substance or material must be cleaned up or removed from our property, we may be responsible under applicable laws, regulations or leases for the removal or cleanup of such substances or materials, the cost of which could be substantial.

In addition, we are subject to environmental, health and safety laws regulating air emissions, storm water management and other issues arising in our business. While these obligations do not normally impose material costs upon our operations, unexpected events, equipment malfunctions and human error, among other factors, can lead to violations of environmental laws, regulations or permits.

Regulation of greenhouse gas (“GHG”) emissions could increase the cost of electricity by reducing amounts of electricity generated from fossil fuels, by requiring the use of more expensive generating methods or by imposing taxes or fees upon electricity generation or use. Electricity is a material cost in connection with our business, and an increase in the cost of electricity, whether from regulation of GHGs or otherwise, could adversely affect us. GHG reduction legislation exists in Europe, and in several of the states in the U.S., and there is a potential for new or additional legislation in the U.S. and other countries in which we operate. Certain states, like California, already regulate GHG emissions from new and existing state-regulated facilities by imposing regulatory caps on allowances and by selling or auctioning the rights to such emissions. These programs have not had a material adverse effect on our electricity costs to date, but due to the market-driven nature of some of the programs, could do so in the future. Such laws and regulations are also subject to change at any time.

The U.S. EPA published regulations in October 2015, called the “Clean Power Plan,” that is intended to reduce GHG emissions from existing fossil fuel-fired power plants by 32 percent from 2005 levels by 2030. Under the rule, each state is required to develop a plan to reduce state-wide carbon dioxide emissions to meet a specified emissions target set by EPA for that state. If implemented, the Clean Power Plan could impose new emissions trading or credit programs, or other requirements, that could indirectly increase the average cost of electricity in states in which we operate.

New laws in the U.S. and other countries may arise as a result of international agreements. In November 2014, the United States and China announced a climate change agreement that established goals for reducing GHG emissions from both countries, including the prevention of increases in GHG emissions from China after 2030. In order for China to meet this commitment, China may impose limitations on fossil fuel generation or costs upon electricity, similar to those imposed in the U.S. and elsewhere.

On December 12, 2015, the Obama Administration reached agreement in Paris with a majority of 194 attending nations concerning a voluntary program for limiting GHGs. This agreement, known as the Paris Climate Accord (the “Accord”) would, if it becomes effective, require signatory countries to establish GHG reduction goals and report on their implementation of programs to achieve such goals. The Accord would be open for signature for one year commencing in April 2016, and would become effective commencing in 2020 if at least 55 countries representing at least 55% of aggregate, global GHG emissions sign. The U.S. has announced a commitment in support of the Accord to achieve reductions of GHG emissions to levels that are 26-28 percent below 2005 levels by 2025.

Compliance with international agreements, such as the agreement with China and the Accord, could require new national legislation to be adopted in the U.S. or other signatory countries. In this case, in the U.S., if the Clean Power Plan is implemented in the form prescribed by EPA as a final regulation, it may substantially achieve international GHG emissions reduction commitments by the U.S. government. Accordingly, there may be no new legislation or regulation would be required to implement the Accord, assuming that the Clean Power Plan is implemented as set forth in the regulation. Nevertheless, laws or regulations may change over time. To the extent any environmental laws enacted or regulations impose new or unexpected costs, our business, results of operations or financial condition may be adversely affected.

If we are unable to recruit or retain qualified personnel, our business could be harmed

We must continue to identify, hire, train and retain IT professionals, technical engineers, operations employees, and sales, marketing, finance and senior management personnel who maintain relationships with our customers and who can provide the technical, strategic and marketing skills required for our company to grow. There is a shortage of qualified personnel in these fields, and we compete with other companies for the limited pool of talent. The failure to recruit and retain necessary personnel, including, but not limited to, members of our executive team, could harm our business and our ability to grow our company.

We may not be able to compete successfully against current and future competitors.

We must be able to differentiate our IBX data centers and product offerings from those of our competitors. In addition to competing with other neutral colocation providers, we compete with traditional colocation providers, including telecommunications companies, carriers, internet service providers, managed services providers and large REITs who also operate in our market and may enjoy a cost advantage in providing offerings similar to those provided by our IBX data centers. We may experience competition from our landlords which could also reduce the amount of space available to us for expansion in the future. Rather than leasing available space in our buildings to large single tenants, they may decide to convert the space instead to smaller square foot units designed for multi-tenant colocation use, blurring the line between retail and wholesale space. We may also face competition from existing competitors or new entrants to the market seeking to replicate our global IBX data center concept by building or acquiring data centers, offering colocation on neutral terms or by replicating our strategy and messaging. Finally, customers may also decide it is cost-effective for them to build out their own data centers. Once customers have an established data center footprint, either through a relationship with one of our competitors or through in-sourcing, it may be extremely difficult to convince them to relocate to our IBX data centers.

Some of our competitors may adopt aggressive pricing policies, especially if they are not highly leveraged or have lower return thresholds than we do. As a result, we may suffer from pricing pressure that would adversely affect our ability to generate revenues. Some of these competitors may also provide our target customers with additional benefits, including bundled communication services or cloud services, and may do so in a manner that is more attractive to our potential customers than obtaining space in our IBX data centers. Similarly, with growing acceptance of cloud-based technologies, Equinix is at risk losing customers that may decide to fully leverage cloud infrastructure offerings instead of managing their own. Competitors could also operate more successfully or form alliances to acquire significant market share.

Failure to compete successfully may materially adversely affect our financial condition, cash flows and results of operations.

Our business could be harmed by prolonged power outages or shortages, increased costs of energy or general lack of availability of electrical resources.

Our IBX data centers are susceptible to regional costs of power, power shortages, planned or unplanned power outages and limitations, especially internationally, on the availability of adequate power resources.

Power outages, such as those relating to large storms, earthquakes and tsunamis, could harm our customers and our business. We attempt to limit our exposure to system downtime by using backup generators and power supplies; however, we may not be able to limit our exposure entirely even with these protections in place. Some of our IBXs are located in leased buildings where, depending upon the lease requirements and number of tenants involved, we may or may not control some or all of the infrastructure including generators and fuel tanks. As a result, in the event of a power outage, we may be dependent upon the landlord, as well as the utility company, to restore the power.

In addition, global fluctuations in the price of power can increase the cost of energy, and although contractual price increase clauses exist in the majority of our customer agreements, we may not always choose to pass these increased costs on to our customers.

In each of our markets, we rely on third parties to provide a sufficient amount of power for current and future customers. At the same time, power and cooling requirements are growing on a per unit basis. As a result, some customers are consuming an increasing amount of power per cabinet. We generally do not control the amount of power our customers draw from their installed circuits. This means that we could face power limitations in our IBX data centers. This could have a negative impact on the effective available capacity of a given center and limit our ability to grow our business, which could have a negative impact on our financial performance, operating results and cash flows.

We may also have difficulty obtaining sufficient power capacity for potential expansion sites in new or existing markets. We may experience significant delays and substantial increased costs demanded by the utilities to provide the level of electrical service required by our current IBX data center designs.

If our internal controls are found to be ineffective, our financial results or our stock price may be adversely affected.

Our most recent evaluation of our controls resulted in our conclusion that, as of December 31, 2015, in compliance with Section 404 of the Sarbanes-Oxley Act of 2002, our internal controls over financial reporting were effective. Our ability to manage our operations and growth, through, for example, the acquisition and integration of Telecity and Bit-istle and our overhaul of our back office systems that support customer experience from initial quote to customer billing and our revenue recognition process, will require us to further develop our controls and reporting systems and implement or amend new or existing controls and reporting systems in those areas where the implementation and integration is still ongoing. All of these changes to our financial systems

[Table of Contents](#)

and the implementation and integration of acquisitions create an increased risk of deficiencies in our internal controls over financial reporting. If, in the future, our internal control over financial reporting is found to be ineffective, or if a material weakness is identified in our controls over financial reporting, our financial results may be adversely affected. Investors may also lose confidence in the reliability of our financial statements which could adversely affect our stock price.

If we cannot effectively manage our international operations, and successfully implement our international expansion plans, our revenues may not increase and our business and results of operations would be harmed.

For the years ended December 31, 2015, 2014 and 2013, we recognized approximately 49%, 49% and 46%, respectively, of our revenues outside the U.S. We currently operate outside of the U.S. in Canada, Brazil, EMEA and Asia-Pacific.

To date, the network neutrality of our IBX data centers and the variety of networks available to our customers has often been a competitive advantage for us. In certain of our acquired IBX data centers in the Asia-Pacific region the limited number of carriers available reduces that advantage. As a result, we may need to adapt our key revenue-generating offerings and pricing to be competitive in those markets. In addition, we are currently undergoing expansions or evaluating expansion opportunities outside of the U.S. Undertaking and managing expansions in foreign jurisdictions may present unanticipated challenges to us.

Our international operations are generally subject to a number of additional risks, including:

- the costs of customizing IBX data centers for foreign countries;
- protectionist laws and business practices favoring local competition;
- greater difficulty or delay in accounts receivable collection;
- difficulties in staffing and managing foreign operations, including negotiating with foreign labor unions or workers' councils;
- difficulties in managing across cultures and in foreign languages;
- political and economic instability;
- fluctuations in currency exchange rates;
- difficulties in repatriating funds from certain countries;
- our ability to obtain, transfer, or maintain licenses required by governmental entities with respect to our business;
- unexpected changes in regulatory, tax and political environments;
- our ability to secure and maintain the necessary physical and telecommunications infrastructure;
- compliance with anti-bribery and corruption laws;
- compliance with economic and trade sanctions enforced by the Office of Foreign Assets Control of the U.S. Department of Treasury; and
- compliance with evolving governmental regulation with which we have little experience.

In addition, compliance with international and U.S. laws and regulations that apply to our international operations increases our cost of doing business in foreign jurisdictions. These laws and regulations include data privacy requirements, labor relations laws, tax laws, anti-competition regulations, import and trade restrictions, export requirements, economic and trade sanctions, U.S. laws such as the Foreign Corrupt Practices Act and local laws which also prohibit corrupt payments to governmental officials. Violations of these laws and regulations could result in fines, criminal sanctions against us, our officers or our employees, and prohibitions on the conduct of our business. Any such violations could include prohibitions on our ability to offer our offerings in one or more countries, could delay or prevent potential acquisitions, and could also materially damage our reputation, our brand, our international expansion efforts, our ability to attract and retain employees, our business and our operating results. Our success depends, in part, on our ability to anticipate and address these risks and manage these difficulties.

Economic uncertainty in developing markets could adversely affect our revenue and earnings.

We conduct business and are contemplating expansion, in developing markets with economies that tend to be more volatile than those in the U.S. and Western Europe. The risk of doing business in developing markets such as Brazil, China, India, Indonesia, Russia, the United Arab Emirates and other economically volatile areas could adversely affect our operations and earnings. Such risks include the financial instability among customers in these regions, political instability, fraud or corruption and other non-economic factors such as irregular trade flows that need to be managed successfully with the help of the local governments. In addition, commercial laws in some developing countries can be vague, inconsistently administered and retroactively applied. If we are deemed not to be in compliance with applicable laws in developing countries where we conduct business, our prospects and business in those countries could be harmed, which could then have a material adverse impact on our results of operations and financial position. Our failure to successfully manage economic, political and other risks relating to doing business in developing countries and economically and politically volatile areas could adversely affect our business.

The use of high power density equipment may limit our ability to fully utilize our older IBX data centers.

Some customers have increased their use of high power density equipment, such as blade servers, in our IBX data centers

Table of Contents

which has increased the demand for power on a per cabinet basis. Because many of our IBX data centers were built a number of years ago, the current demand for power may exceed the designed electrical capacity in these centers. As power, not space, is a limiting factor in many of our IBX data centers, our ability to fully utilize those IBX data centers may be limited. The ability to increase the power capacity of an IBX data center, should we decide to, is dependent on several factors including, but not limited to, the local utility's ability to provide additional power; the length of time required to provide such power; and/or whether it is feasible to upgrade the electrical infrastructure of an IBX data center to deliver additional power to customers. Although we are currently designing and building to a higher power specification than that of many of our older IBX data centers, there is a risk that demand will continue to increase and our IBX data centers could become underutilized sooner than expected.

Our operating results may fluctuate.

We have experienced fluctuations in our results of operations on a quarterly and annual basis. The fluctuations in our operating results may cause the market price of our common stock to be volatile. We may experience significant fluctuations in our operating results in the foreseeable future due to a variety of factors, including, but not limited to:

- fluctuations of foreign currencies in the markets in which we operate;
- the timing and magnitude of depreciation and interest expense or other expenses related to the acquisition, purchase or construction of additional IBX data centers or the upgrade of existing IBX data centers;
- demand for space, power and services at our IBX data centers;
- changes in general economic conditions, such as an economic downturn, or specific market conditions in the telecommunications and Internet industries, both of which may have an impact on our customer base;
- charges to earnings resulting from past acquisitions due to, among other things, impairment of goodwill or intangible assets, reduction in the useful lives of intangible assets acquired, identification of additional assumed contingent liabilities or revised estimates to restructure an acquired company's operations;
- the duration of the sales cycle for our offerings and our ability to ramp our newly-hired sales persons to full productivity within the time period we have forecasted;
- restructuring charges or reversals of restructuring charges, which may be necessary due to revised sublease assumptions, changes in strategy or otherwise;
- acquisitions or dispositions we may make;
- the financial condition and credit risk of our customers;
- the provision of customer discounts and credits;
- the mix of current and proposed products and offerings and the gross margins associated with our products and offerings;
- the timing required for new and future IBX data centers to open or become fully utilized;
- competition in the markets in which we operate;
- conditions related to international operations;
- increasing repair and maintenance expenses in connection with aging IBX data centers;
- lack of available capacity in our existing IBX data centers to generate new revenue or delays in opening new or acquired IBX data centers that delay our ability to generate new revenue in markets which have otherwise reached capacity;
- changes in rent expense as we amend our IBX data center leases in connection with extending their lease terms when their initial lease term expiration dates approach or changes in shared operating costs in connection with our leases, which are commonly referred to as common area maintenance expenses;
- the timing and magnitude of other operating expenses, including taxes, expenses related to the expansion of sales, marketing, operations and acquisitions, if any, of complementary businesses and assets;
- the cost and availability of adequate public utilities, including power;
- changes in employee stock-based compensation;
- overall inflation;
- increasing interest expense due to any increases in interest rates and/or potential additional debt financings;
- changes in our tax planning strategies or failure to realize anticipated benefits from such strategies;
- changes in income tax benefit or expense;
- and
- changes in or new generally accepted accounting principles ("GAAP") in the U.S. as periodically released by the Financial Accounting Standards Board ("FASB").

Any of the foregoing factors, or other factors discussed elsewhere in this report, could have a material adverse effect on our business, results of operations and financial condition. Although we have experienced growth in revenues in recent quarters, this growth rate is not necessarily indicative of future operating results. Prior to 2008, we had generated net losses every fiscal year since inception. It is possible that we may not be able to generate net income on a quarterly or annual basis in the future. In addition, a relatively large portion of our expenses are fixed in the short-term, particularly with respect to lease and personnel expenses, depreciation and amortization and interest expenses. Therefore, our results of operations are particularly sensitive to fluctuations

in revenues. As such, comparisons to prior reporting periods should not be relied upon as indications of our future performance. In addition, our operating results in one or more future quarters may fail to meet the expectations of securities analysts or investors.

Our days sales outstanding (DSO) of our accounts receivables have been increasing.

Although we have historically experienced a record of strong collection of our accounts receivables as evidenced by our prior DSO metrics, our DSO has increased over the past year. Our DSO was affected by the implementation of a new billing system that was introduced during the second half of 2014. While this new system is now operational in all three regions, it is not operational in all countries within each region and further enhancements to the overall system are still ongoing. While our DSO began to improve during the second half of 2015, our DSO may continue to be adversely impacted by ongoing changes in the billing system, which would continue to have a negative impact on our operating cash flows, liquidity and financial performance.

We may incur goodwill and other intangible asset impairment charges, or impairment charges to our property, plant and equipment, which could result in a significant reduction to our earnings.

In accordance with GAAP, we are required to assess our goodwill and other intangible assets annually, or more frequently whenever events or changes in circumstances indicate potential impairment, such as changing market conditions or any changes in key assumptions. If the testing performed indicates that an asset may not be recoverable, we are required to record a non-cash impairment charge for the difference between the carrying value of the goodwill or other intangible assets and the implied fair value of the goodwill or other intangible assets in the period the determination is made.

We also monitor the remaining net book values of our property, plant and equipment periodically, including at the individual IBX data center level. Although each individual IBX data center is currently performing in line with our expectations, the possibility that one or more IBX data centers could begin to under-perform relative to our expectations is possible and may also result in non-cash impairment charges.

These charges could be significant, which could have a material adverse effect on our business, results of operations or financial condition.

We have incurred substantial losses in the past and may incur additional losses in the future.

As of March 31, 2016, our accumulated deficit was \$139.3 million. Although we have generated net income for each fiscal year since 2008, except for the year ended December 31, 2014, we are also currently investing heavily in our future growth through the build out of multiple additional IBX data centers and IBX data center expansions as well as acquisitions of complementary businesses. As a result, we will incur higher depreciation and other operating expenses, as well as acquisition costs and interest expense, that may negatively impact our ability to sustain profitability in future periods unless and until these new IBX data centers generate enough revenue to exceed their operating costs and cover our additional overhead needed to scale our business for this anticipated growth. The current global financial uncertainty may also impact our ability to sustain profitability if we cannot generate sufficient revenue to offset the increased costs of our recently-opened IBX data centers or IBX data centers currently under construction. In addition, costs associated with the acquisition and integration of any acquired companies, as well as the additional interest expense associated with debt financing we have undertaken to fund our growth initiatives, may also negatively impact our ability to sustain profitability. Finally, given the competitive and evolving nature of the industry in which we operate, we may not be able to sustain or increase profitability on a quarterly or annual basis.

The failure to obtain favorable terms when we renew our IBX data center leases, or the failure to renew such leases, could harm our business and results of operations.

While we own certain of our IBX data centers, others are leased under long-term arrangements with lease terms expiring at various dates through 2065. These leased centers have all been subject to significant development by us in order to convert them from, in most cases, vacant buildings or warehouses into IBX data centers. Most of our IBX data center leases have renewal options available to us. However, many of these renewal options provide for the rent to be set at then-prevailing market rates. To the extent that then-prevailing market rates or negotiated rates are higher than present rates, these higher costs may adversely impact our business and results of operations, or we may decide against renewing the lease. In the event that an IBX data center lease does not have a renewal option, or we fail to exercise a renewal option in a timely fashion and lose our right to renew the lease, we may not be successful in negotiating a renewal of the lease with the landlord. A failure to renew a lease could force us to exit a building prematurely, which could be disruptive to our business, harm our customer relationships, expose us to liability under our customer contracts, cause us to take impairment charges and negatively affect our operating results.

We depend on a number of third parties to provide Internet connectivity to our IBX data centers; if connectivity is interrupted or terminated, our operating results and cash flow could be materially and adversely affected.

The presence of diverse telecommunications carriers' fiber networks in our IBX data centers is critical to our ability to retain and attract new customers. We are not a telecommunications carrier, and as such, we rely on third parties to provide our customers with carrier services. We believe that the availability of carrier capacity will directly affect our ability to achieve our projected results. We rely primarily on revenue opportunities from the telecommunications carriers' customers to encourage them to invest the capital and operating resources required to connect from their centers to our IBX data centers. Carriers will likely evaluate the revenue opportunity of an IBX data center based on the assumption that the environment will be highly competitive. We cannot provide assurance that each and every carrier will elect to offer its services within our IBX data centers or that once a carrier has decided to provide Internet connectivity to our IBX data centers that it will continue to do so for any period of time.

Our new IBX data centers require construction and operation of a sophisticated redundant fiber network. The construction required to connect multiple carrier facilities to our IBX data centers is complex and involves factors outside of our control, including regulatory processes and the availability of construction resources. Any hardware or fiber failures on this network may result in significant loss of connectivity to our new IBX data center expansions. This could affect our ability to attract new customers to these IBX data centers or retain existing customers.

If the establishment of highly diverse Internet connectivity to our IBX data centers does not occur, is materially delayed or is discontinued, or is subject to failure, our operating results and cash flow will be adversely affected.

We may be vulnerable to security breaches which could disrupt our operations and have a material adverse effect on our financial performance and operating results.

We face risks associated with unauthorized access to our computer systems, loss or destruction of data, computer viruses, malware, distributed denial-of-service attacks, or other malicious activities. These threats may result from human error, equipment failure, or fraud or malice on the part of employees or third parties. A party who is able to compromise the security measures on our networks or the security of our infrastructure could misappropriate either our proprietary information or the personal information of our customers or our employees, or cause interruptions or malfunctions in our operations or our customers' operations. As we provide assurances to our customers that we provide a high level of security, such a compromise could be particularly harmful to our brand and reputation. We may be required to expend significant capital and resources to protect against such threats or to alleviate problems caused by breaches in security. As techniques used to breach security change frequently, and are generally not recognized until launched against a target, we may not be able to promptly detect that a cyber breach has occurred, or implement security measures in a timely manner or, if and when implemented, we may not be able to determine the extent to which these measures could be circumvented. Any breaches that may occur could expose us to increased risk of lawsuits, regulatory penalties, loss of existing or potential customers, damage relating to loss of proprietary information, harm to our reputation and increases in our security costs, which could have a material adverse effect on our financial performance and operating results. We maintain insurance coverage for cyber risks but such coverage may be unavailable or insufficient to cover our losses.

We offer professional services to our customers where we consult on data center solutions and assist with implementations. We also offer managed services in certain of our foreign jurisdictions outside of the U.S. where we manage the data center infrastructure for our customers. The access gained from these services to our clients' networks and data creates some risk that our clients' networks or data will be improperly accessed. We may also design our clients' cloud storage systems in such a way that exposes our clients to increased risk of data breach. If Equinix were held to be responsible for any such a breach, it could result in a significant loss to Equinix, including damage to Equinix's client relationships, harm to our brand and reputation, and legal liability.

We have government customers, which subjects us to risks including early termination, audits, investigations, sanctions and penalties.

We derive some revenues from contracts with the U.S. government, state and local governments and foreign governments. Some of these customers may terminate all or part of their contracts at any time, without cause.

There is increased pressure for governments and their agencies, both domestically and internationally, to reduce spending. Some of our federal government contracts are subject to the approval of appropriations being made by the U.S. Congress to fund the expenditures under these contracts. Similarly, some of our contracts at the state and local levels are subject to government funding authorizations.

Additionally, government contracts are generally subject to audits and investigations which could result in various civil and criminal penalties and administrative sanctions, including termination of contracts, refund of a portion of fees received, forfeiture of profits, suspension of payments, fines and suspensions or debarment from future government business.

Because we depend on the development and growth of a balanced customer base, including key magnet customers, failure to attract, grow and retain this base of customers could harm our business and operating results.

Our ability to maximize revenues depends on our ability to develop and grow a balanced customer base, consisting of a variety of companies, including enterprises, cloud, digital content and financial companies, and network service providers. We consider certain of these customers to be key magnets in that they draw in other customers. The more balanced the customer base within each IBX data center, the better we will be able to generate significant interconnection revenues, which in turn increases our overall revenues. Our ability to attract customers to our IBX data centers will depend on a variety of factors, including the presence of multiple carriers, the mix of our offerings, the overall mix of customers, the presence of key customers attracting business through vertical market ecosystems, the IBX data center's operating reliability and security and our ability to effectively market our offerings. However, some of our customers may face competitive pressures and may ultimately not be successful or may be consolidated through merger or acquisition. If these customers do not continue to use our IBX data centers it may be disruptive to our business. Finally, the uncertain economic climate may harm our ability to attract and retain customers if customers slow spending, or delay decision-making, on our offerings, or if customers begin to have difficulty paying us and we experience increased churn in our customer base. Any of these factors may hinder the development, growth and retention of a balanced customer base and adversely affect our business, financial condition and results of operations.

We may be subject to securities class action and other litigation, which may harm our business and results of operations.

We may be subject to securities class action or other litigation. For example, securities class action litigation has often been brought against a company following periods of volatility in the market price of its securities. Litigation can be lengthy, expensive, and divert management's attention and resources. Results cannot be predicted with certainty and an adverse outcome in litigation could result in monetary damages or injunctive relief that could seriously harm our business, results of operations, financial condition or cash flows.

We may not be able to protect our intellectual property rights.

We cannot make assurances that the steps taken by us to protect our intellectual property rights will be adequate to deter misappropriation of proprietary information or that we will be able to detect unauthorized use and take appropriate steps to enforce our intellectual property rights. We also are subject to the risk of litigation alleging infringement of third-party intellectual property rights. Any such claims could require us to spend significant sums in litigation, pay damages, develop non-infringing intellectual property, or acquire licenses to the intellectual property that is the subject of the alleged infringement.

Government regulation may adversely affect our business.

Various laws and governmental regulations, both in the U.S. and abroad, governing Internet related services, related communications services and information technologies remain largely unsettled, even in areas where there has been some legislative action. For example, the Federal Communications Commission recently adopted new network neutrality rules that may result in material changes in the regulations and contribution regime affecting us and our customers. Likewise, as part of a review of the current equity market structure, the Securities and Exchange Commission and the Commodity Futures Trading Commission ("CFTC") have both sought comments regarding the regulation of independent data centers, such as us, which provide colocation for financial markets and exchanges. The CFTC is also considering regulation of companies that use automated and high-frequency trading systems. Any such regulation may ultimately affect our provision of offerings.

It also may take years to determine whether and how existing laws, such as those governing intellectual property, privacy, libel, telecommunications services and taxation, apply to the Internet and to related offerings such as ours, and substantial resources may be required to comply with regulations or bring any non-compliant business practices into compliance with such regulations. In addition, the development of the market for online commerce and the displacement of traditional telephony service by the Internet and related communications services may prompt an increased call for more stringent consumer protection laws or other regulation both in the U.S. and abroad that may impose additional burdens on companies conducting business online and their service providers.

The adoption, or modification of laws or regulations relating to the Internet and our business, or interpretations of existing laws, could have a material adverse effect on our business, financial condition and results of operations.

Industry consolidation may have a negative impact on our business model.

If customers combine businesses, they may require less colocation space, which could lead to churn in our customer base. Regional competitors may also consolidate to become a global competitor. Consolidation of our customers and/or our competitors may present a risk to our business model and have a negative impact on our revenues.

Terrorist activity throughout the world and military action to counter terrorism could adversely impact our business.

The continued threat of terrorist activity and other acts of war or hostility contribute to a climate of political and economic uncertainty. Due to existing or developing circumstances, we may need to incur additional costs in the future to provide enhanced security, including cyber security, which would have a material adverse effect on our business and results of operations. These circumstances may also adversely affect our ability to attract and retain customers, our ability to raise capital and the operation and maintenance of our IBX data centers.

We have various mechanisms in place that may discourage takeover attempts.

Certain provisions of our certificate of incorporation and bylaws may discourage, delay or prevent a third party from acquiring control of us in a merger, acquisition or similar transaction that a stockholder may consider favorable. Such provisions include:

- ownership limitations and transfer restrictions relating to our stock that are intended to facilitate our compliance with certain REIT rules relating to share ownership;
- authorization for the issuance of “blank check” preferred stock;
- the prohibition of cumulative voting in the election of directors;
- limits on the persons who may call special meetings of stockholders;
- limits on stockholder action by written consent; and
- advance notice requirements for nominations to the Board of Directors or for proposing matters that can be acted on by stockholders at stockholder meetings.

In addition, Section 203 of the Delaware General Corporation Law, which restricts certain business combinations with interested stockholders in certain situations, may also discourage, delay or prevent someone from acquiring or merging with us.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosure

Not applicable.

Item 5. Other Information

None.

EQUINIX 2016 ANNUAL INCENTIVE PLAN
JANUARY 1, 2016

PLAN OBJECTIVES

Equinix, Inc. (the “Company”) offers the 2016 Annual Incentive Plan (the “2016 AIP”) to eligible employees of the Company and its subsidiaries to provide them with the opportunity to participate in Company performance. It is designed to motivate employees to achieve certain Company objectives while providing competitive total rewards for key positions and retaining top talent.

PLAN FEATURES

ELIGIBILITY/PARTICIPATION

All full-time and part-time employees of the Company and employees of the Company’s subsidiaries have the possibility of receiving a target bonus under the 2016 AIP, provided the conditions set out below are met. Commissioned sales employees and those on Management by Objectives Plans are not eligible to participate. Full-time and part-time new hires become eligible to participate in the 2016 AIP as of their hire date. The maximum target bonus that an employee not employed by the Company or a participating subsidiary at the beginning of the year may receive, however, will be a percentage of a target bonus equal to that percentage of the year he/she was employed by the Company or a participating subsidiary and is subject to the conditions set out below being met. An employee with a start date on or after October 1, 2016 will not be eligible to participate in the 2016 AIP.

To be eligible to receive a target bonus, the employee must be employed by the Company or a participating subsidiary at the date when the bonus amount is paid pursuant to the paragraph entitled “Payment of Awards” below, and for avoidance of doubt, an employee is not eligible to receive a bonus under the 2016 AIP if on the date a target bonus is to be paid:

- he/she is on a Performance Improvement Plan;
- he/she is on notice (whether given or received) of termination of employment;
- he/she is on garden or similar non-paid leave; and/or
- he/she is suspended from his/her duties for any reason and/or is subject to ongoing disciplinary proceedings.

Payouts will be pro-rated over the period based on the position the employee held during the performance period. For example, if an employee is promoted from Senior Manager to Director, his/her bonus will be calculated based upon the number of days in each position. As another example, if an employee is promoted from a non-commissioned position to a commissioned sales position, his/her bonus will be pro-rated based on the number of days worked in a non-commissioned position. Subject to applicable laws, an employee on an approved leave of absence (not considered as effective work time) from the Company or a participating subsidiary will be eligible for the pro-rated bonus amount based on the number of days worked as an active employee during the 2016 calendar year.

Any bonus payment made under the 2016 AIP will not form part of an employee’s pensionable salary.

The plan year is effective January 1, 2016 and will end on December 31, 2016. Where bonuses are awarded under the 2016 AIP, they will be paid after plan year-end.

TARGET BONUSES

Target bonuses are based on a percentage of the employee’s annual base salary. An employee’s target bonus percentage may be modified from time to time, for example, due to changes in the Company’s financials or salary changes, until the end of the plan year.

The 2016 AIP links directly to the GPS Performance system. Bonus awards are linked to employee impact and value and are intended to reward achievement of key results at both the Company and individual level. Employee performance will be measured by a talent assessment and calibration process, and top performers may earn up to 150% of target bonus awards. Employees may receive less than their targeted bonus based upon Company and individual performance. The degree to which

the employee achieves his/her targeted bonus amount (e.g., less than, equal to, or greater than the target percentage) is the degree to which both the employee and the Company achieve key performance goals throughout the year.

In addition, at its discretion the Compensation Committee of the Board of Directors (the "Compensation Committee") may reduce or eliminate the actual award that otherwise would be payable should economic conditions warrant it.

PAYMENT OF AWARDS

Individual awards are determined once the plan year has ended and the Compensation Committee has decided any amounts to be awarded. Where individual awards are to be paid, they will be paid as soon after the close of the calendar year as practical. It is intended that payment will be made no later than required to ensure that no amount paid or to be paid hereunder shall be subject to the provisions of Section 409A(a)(1)(B) of the Internal Revenue Code and that all payments shall be eligible for the short-term deferral exception to Section 409A of the Internal Revenue Code.

FORM OF PAYMENT

Each award to recipients shall be paid in cash in a single lump sum. The Company shall withhold all required taxes and charges from an award, including any federal, state, local or other taxes and social insurance contributions. Amounts will be determined by the Company in U.S. dollars, but may be paid to employees outside the United States in local currency.

PLAN ADMINISTRATION

The Plan is discretionary in nature, and the Compensation Committee may suspend, modify or terminate the 2016 AIP at any time without advance notice. The CEO of the Company, or the Compensation Committee with respect to the Company's executive officer participants in the Plan, will have the final decision over any interpretations or disputes regarding the 2016 AIP. All determinations and decisions made by the Compensation Committee, the Board of Directors, or the CEO pursuant to the provisions of the 2016 AIP shall be final, conclusive and binding on all persons and shall be given the maximum deference permitted by law.

COMPANY PERFORMANCE AND FUNDING OF INCENTIVE POOL

The funding level of the incentive pool under the 2016 AIP (the "Incentive Pool") will be based on Company performance against revenue (weighted at 50%) and adjusted funds from operations ("AFFO") (weighted at 50%) goals, based on the Board of Directors-approved operating plan, and including the impact of revenues and AFFO related to both the TelecityGroup plc and Bit-isle, Inc. acquisitions, adjusted from time to time throughout the plan year (the "Goals"). The Goals will exclude the impact of one-time events affecting the operating plan, such as expansion projects or acquisitions not contemplated in the approved operating plan, and will exclude the impact of fluctuations in foreign currencies against the foreign currency rates applied in the FY2016 budget. The specific Goals for FY16 shall be as set forth on a "Design Criteria" matrix, established prior to the end of the first quarter of the year.

The Design Criteria shall be as follows:

One hundred percent (100%) of the Incentive Pool shall be funded if the Goals are met, subject to the discretion retained by the Compensation Committee to reduce or eliminate the actual award that otherwise would be payable based upon achieving the Goals. **For every 1% below the Goal for revenue, the revenue portion of the Incentive Pool shall be reduced by 20% and for every 1% below the Goal for AFFO, the AFFO portion of the Incentive Pool shall be reduced by 20%.** For instance, if the Company is 2% below the Goal for AFFO, only 60% of the AFFO portion of the Incentive Pool shall be funded. There shall be no Incentive Pool if revenue and AFFO are 95% or less of the Goals.

MISCELLANEOUS

Nothing in the 2016 AIP shall interfere with or limit in any way the right of the Company or its subsidiary or affiliate, as applicable, to terminate any employee's employment or service at any time, with or without cause. Except to the extent provided by applicable law or pursuant to a written agreement between the employee and the Company or its subsidiary or affiliate, employment with the Company or its subsidiary or affiliates is on an at-will basis only. Nothing in this 2016 AIP shall constitute an employment agreement between an employee and the Company.

Each award that may become payable under the 2016 AIP shall be paid solely from the general assets of the Company. No amounts awarded or accrued under the Plan shall be funded, set aside, subject to interest payment or otherwise segregated prior to payment. The obligation to pay awards under the 2016 AIP shall at all times be an unfunded and unsecured obligation of the Company. Employees shall have the status of general creditors of the Company. Any bonus or award payable under the 2016

AIP is voluntary and occasional and does not create any contractual or other right to receive grants in future years or benefits in lieu of such awards.

The 2016 AIP and all awards shall be construed in accordance with and governed by the laws of the State of California, without regard to their conflict-of-law provisions.

Equinix, Inc. 2000 Equity Incentive Plan
Notice of Restricted Stock Unit Award
For Executives

You have been granted the number of restricted stock units ("Restricted Stock Units") indicated below by Equinix, Inc. (the "Company") on the following terms:

Name:
Employee Id #:

Restricted Stock Unit Award Details:

Date of Grant: _____, 2016
Award Number:
Minimum Restricted Stock Units (0%): 0
Target Restricted Stock Units (83%):
Max Restricted Stock Units (100%):

Each Restricted Stock Unit represents the right to receive one share of the Common Stock of the Company, and any Dividend Equivalents thereon prior to settlement, subject to the terms and conditions contained in this Notice of Restricted Stock Unit Award for Executives and the Restricted Stock Unit Agreement (together, the "Agreement"). Capitalized terms not otherwise defined in this Agreement shall have the meaning set forth in the 2000 Equity Incentive Plan (the "Plan").

Vesting Schedule:

Vesting is dependent upon continuous active service as an employee, consultant or director of the Company or a subsidiary of the Company ("Service") throughout the vesting period. The Restricted Stock Units shall vest on the first Trading Day that coincides with or follows a determination that the Company achieves revenue and/or adjusted funds from operations ("AFFO") goals for 2016 of greater than \$____ million and/or \$____ million, respectively, as set forth on the attached Exhibit A, and if achieved, then the Restricted Stock Units, and any Dividend Equivalents thereon, shall vest in a number of shares determined based on the degree of achievement of the revenue and AFFO targets as set forth on the matrix attached as Exhibit A, and at the following times:

- with respect to 50% of those units on the first Trading Day that coincides with or follows the date upon which the Board, or a committee thereof, certifies that the Company has achieved revenue and/or AFFO goals of greater than \$____ million and/or \$____ million, respectively, for 2016;
- with respect to 25% of those units on February 15, 2018;
and
- with respect to the remaining 25% of those units on February 15, 2019.

The revenue and AFFO goals set forth above will exclude the impact of fluctuations in foreign currencies against the foreign currency rates used in the Company's 2016 operating plan.

The Board, or a committee thereof, may adjust the revenue and AFFO goals set forth above from time to time prior to the 2016 fiscal year end to take into account the financial impacts of discontinued operations, the cumulative effect of accounting changes, acquisitions or divestitures, sales of assets and/or IBX expansions not currently contemplated by the Company.

Any Restricted Stock Units, and Dividend Equivalents thereon, that fail to vest based on the Company's achievement of revenue and AFFO goals based on the matrix set forth on Exhibit A hereto shall be forfeited to the Company immediately following the certification by the Board, or a committee thereof, of the Company's achievement of the revenue and AFFO goals for 2016.

In the event of a Change in Control before the end of the 2016 fiscal year, vesting of these Restricted Stock Units, and any Dividend Equivalent thereon, shall no longer be dependent on achievement of the revenue and AFFO goals described above. Instead, subject to your continued Service through the applicable vesting date, 50% of the Target Restricted Stock Units, and any Dividend Equivalent thereon, will vest on February 15, 2017, 25% of the Target Restricted Stock Units, and any Dividend Equivalent thereon, will vest on February 15, 2018 and the remaining 25% of the Target Restricted Stock Units, and any Dividend Equivalent thereon, will vest on February 15, 2019. The remaining Restricted Stock Units, and any Dividend Equivalents thereon, shall be

forfeited to the Company (and such forfeited Restricted Stock Units, and any Dividend Equivalents thereon, will not accelerate in the event this Award is not assumed or substituted with a new award).

By your signature and the signature of the Company's representative below, you and the Company agree that the Restricted Stock Units, and any Dividend Equivalents thereon, are granted under and governed by the terms and conditions of the Plan and the Agreement that is attached to and made a part of this document.

You further agree that the Company may deliver by email all documents relating to the Plan or this Award (including, without limitation, prospectuses required by the U.S. Securities and Exchange Commission) and all other documents that the Company is required to deliver to its security holders (including, without limitation, annual reports and proxy statements). You also agree that the Company may deliver these documents by posting them on a web site maintained by the Company or by a third party under contract with the Company. If the Company posts these documents on a web site, it will notify you by email.

By your signature below, you agree to cover all Tax-Related Items as defined in the Agreement.

Equinix, Inc. 2000 Equity Incentive Plan

Restricted Stock Unit Agreement

Payment for Shares

No payment is required for the Restricted Stock Units, and any Dividend Equivalents thereon, you receive.

Vesting

The Restricted Stock Units, and any Dividend Equivalents thereon, that you are receiving will vest in accordance with the Vesting Schedule stated in the Notice of Restricted Stock Unit Award for Executives; provided, however, that if your Service terminates due to your death then, if and to the extent Restricted Stock Units, and any Dividend Equivalent thereon, have been earned based on the actual performance results as certified by the Board, or a committee thereof, based on the matrix set forth on Exhibit A hereto, the portion of the Restricted Stock Units, and any Dividend Equivalents thereon, that would have become vested on the next scheduled vesting date will become vested and the underlying shares (and cash equal to the Dividend Equivalents thereon) will be released to your estate not more than 3½ months following such termination of Service but in any event not later than March 15 of the calendar year following your death.

No additional Restricted Stock Units, or any Dividend Equivalents thereon, vest after your Service has terminated for any reason. It is intended that vesting in the Restricted Stock Units, and any Dividend Equivalents thereon, is commensurate with a full-time work schedule. For possible adjustments that may be made by the Company, see the provision below entitled "Leaves of Absence and Part-Time Work."

Dividend Equivalents

You will be credited with Dividend Equivalents equal to the dividends you would have received if you had been the record owner of the Common Stock underlying the Restricted Stock Units on each dividend record date on or after the Date of Grant and through the date you receive a settlement pursuant to the provision below entitled "Settlement of Units" (the "Dividend Equivalent"). Dividend Equivalents shall be subject to the same terms and conditions as the Restricted Stock Units originally awarded pursuant to this Agreement, and they shall vest (or, if applicable, be forfeited) as if they had been granted at the same time as the original Restricted Stock Unit award. If a dividend on the Common Stock is payable wholly or partially in Common Stock, the Dividend Equivalent representing that portion shall be in the form of additional Restricted Stock Units, credited on a one-for-one basis. If a dividend on our Common Stock is payable wholly or partially in cash, the Dividend Equivalent representing that portion shall be in the form of cash, which will be paid to you, without interest, as described below in the provision "Settlement of Units;" provided, however, that the Committee may, in its discretion, provide that the cash portion of any extraordinary distribution on the Common Stock shall be in the form of additional Restricted Stock Units. If a dividend on our Common Stock is payable wholly or partially in other than cash or Common Stock, the Committee may, in its discretion, provide for such Dividend Equivalents with respect to that portion as it deems appropriate under the circumstances.

Settlement of Units

Each Restricted Stock Unit, and any Dividend Equivalents thereon, will be settled on the first Trading Day that occurs on or after the day when the Restricted Stock Unit vests. However, each Restricted Stock Unit, and any Dividend Equivalents thereon, must be settled not later than the March 15 of the calendar year after the calendar year in which the Restricted Stock Unit vests.

At the time of settlement, you will receive one share of the Company's Common Stock for each vested Restricted Stock Unit (no fractional shares will be issued) and an amount of cash, without additional earnings and rounded to the nearest whole cent, equal to the cash portion of the accumulated Dividend Equivalents applicable to the vested Restricted Stock Units, less any Tax-Related Items withholding. Any cash may be distributed to you directly or may be used to offset the amount of any Tax-Related Items withholding arising from the vesting/settlement of the Restricted Stock Units and any Dividend Equivalents thereon.

Trading Day

“Trading Day” means a day that satisfies each of the following requirements:

- The Nasdaq Global Market is open for trading on that day;
- You are permitted to sell shares of Common Stock on that day without incurring liability under Section 16(b) of the Securities Exchange Act;
- Either (a) you are not in possession of material non-public information that would make it illegal for you to sell shares of the Company’s Common Stock on that day under Rule 10b-5 of the U.S. Securities and Exchange Commission or (b) you have a trading plan that complies with the requirements of Rule 10b5-1(c)(1) of the Securities Exchange Act that covers the shares underlying the vesting Restricted Stock Units;
- Under the Company’s Insider Trading Policy, you are permitted to sell shares of Common Stock on that day, and
- You are not prohibited from selling shares of Common Stock on that day by a written agreement between you and the Company or a third party.

Change in Control

Except to the extent set forth in the Notice of Restricted Stock Unit Award, in the event of any Change in Control, vesting of these Restricted Stock Units, and any Dividend Equivalents thereon, will automatically accelerate in full as described in Article X of the Plan. However, vesting of these Restricted Stock Units, and any Dividend Equivalents thereon, will not automatically accelerate if and to the extent these Restricted Stock Units are, in connection with the Change in Control, either to be assumed by the successor corporation (or its parent) or to be replaced with a comparable award for shares of the capital stock of the successor corporation (or its parent). The determination of award comparability will be made by the Committee, and its determination will be final, binding and conclusive.

In addition, you will vest as to 50% of the unvested Restricted Stock Units, and any Dividend Equivalents thereon, if the Company is subject to a Change in Control before your Service terminates, and you are subject to a Qualifying Termination (as defined below) within 12 months after the Change in Control.

Notwithstanding the foregoing, any action taken in connection with a Change in Control must either (a) preserve the exemption of the Restricted Stock Units, and any Dividend Equivalents thereon, from Section 409A of the Code or (b) comply with Section 409A of the Code.

Qualifying Termination

A Qualifying Termination means a Separation (as defined below) resulting from: (a) involuntary discharge for any reason other than Cause (as defined below) within 12 months after a Change in Control; or (b) your voluntary resignation for Good Reason (as defined below), between the date that is four months following a Change in Control and the date that is 12 months following a Change in Control; provided, however, that the grounds for Good Reason may arise at any time within the 12 months following the Change in Control.

Cause means your unauthorized use or disclosure of trade secrets that causes material harm to the Company, your conviction of, or a plea of “guilty” or “no contest” to, a felony or your gross misconduct.

Good Reason means¹: (i) a material diminution in your authority, duties or responsibilities; (ii) a material reduction in your level of compensation (including base salary and target bonus) other than pursuant to a Company-wide reduction of compensation where the reduction affects the other executive officers and your reduction is substantially equal, on a percentage basis, to the reduction of the other executive officers; or (iii) a relocation of your place of employment by more than 30 miles, provided and only if such change, reduction or relocation is effected by the Company without your consent.

¹ Executives other than the CEO, CFO, CLO and CHRO shall have the following definition of “Good Reason”: (i) a material diminution in your authority, duties or responsibilities, provided, however, if by virtue of the Company being acquired and made a division or business unit of a larger entity following a Change in Control, you retain substantially similar authority, duties or responsibilities for such division or business unit of the acquiring corporation but not for the entire acquiring corporation, such reduction in authority, duties or responsibilities shall not constitute Good Reason for purposes of this subclause (i); (ii) a 10% or greater reduction in your level of compensation, which will be determined based on an average of your annual Total Direct Compensation for the prior three calendar years or, if less, the number of years you have been employed by the Company (referred to below as the “look-back years”); or (iii) a relocation of your place of employment by more than 30 miles, provided and only if such change, reduction or relocation is effected by the Company without your consent. For purposes of the foregoing, Total Direct Compensation means total target cash compensation (annual base salary plus target annual cash incentives) plus the grant value of equity awards, determined at the time of grant, based on the total stock compensation (FAS 123R) expense associated with that award; provided, however, that if you commenced employment with the Company during the look-back years, only one-third of the grant value of the equity grant attributable to commencement of employment shall be counted.

For vesting to accelerate as a result of a voluntary resignation for Good Reason, all of the following requirements must be satisfied: (1) you must provide notice to the Company of your intent to assert Good Reason within 120 days of the initial existence of one or more of the conditions set forth in (i) through (iii) of the preceding paragraph; and (2) the Company will have 30 days from the date of such notice to remedy the condition and, if it does so, you may withdraw your resignation or may resign with no acceleration benefit. Should the Company remedy the condition as set forth above and then one or more of the conditions arises again within 12 months following the occurrence of a Change in Control, you may assert Good Reason again subject to all of the conditions set forth herein.

Separation means a "separation from service," as defined in the regulations under Section 409A of the Code.

Forfeiture

If your Service terminates for any reason, then your Restricted Stock Units, and any Dividend Equivalents thereon, will be forfeited to the extent that they have not vested before the termination date and do not vest as a result of the termination (including as a result of a Qualifying Termination). This means that the Restricted Stock Units, and any Dividend Equivalents thereon, will immediately revert to the Company. You receive no payment for Restricted Stock Units, and any Dividend Equivalents thereon, that are forfeited. The Company determines when your Service terminates for this purpose.

Leaves of Absence and Part-Time Work

For purposes of this Award, your Service does not terminate when you go on a military leave, a sick leave or another bona fide leave of absence, if the leave was approved by the Company in writing. But your Service terminates when the approved leave ends, unless you immediately return to active work.

If you go on a leave of absence that lasts or is expected to last seven days or longer, then vesting will be suspended during the leave to the extent provided for in the Company's leave policy. Upon your return to active work (as determined by the Company), vesting will resume; however, unless otherwise provided in the Company's leave policy, you will not receive credit for any vesting until you work an amount of time equal to the period of your leave.

If you and the Company agree to a reduction in your scheduled work hours, then the Company reserves the right to modify the rate at which the Restricted Stock Units, and any Dividend Equivalents thereon, vest, so that the rate of vesting is commensurate with your reduced work schedule. Any such adjustment shall be consistent with the Company's policies for part-time or reduced work schedules or shall be pursuant to the terms of an agreement between you and the Company pertaining to your reduced work schedule.

The Company shall not be required to adjust any vesting schedule pursuant to this provision.

Settlement / Stock Certificates

No shares of Common Stock shall be issued to you prior to the date on which the Restricted Stock Units vest. After any Restricted Stock Units vest pursuant to this Agreement, the Company shall promptly cause to be issued in book-entry form, registered in your name or in the name of your legal representatives or heirs, as the case may be, the number of shares of Common Stock representing your vested Restricted Stock Units. No fractional shares shall be issued.

Section 409A

This provision applies only if the Company determines that you are a "specified employee," as defined in the regulations under Section 409A of the Code, at the time of your "separation from service," as defined in those regulations. If this paragraph applies, then any Restricted Stock Units, and any Dividend Equivalents thereon, that otherwise would have been settled or paid during the first six months following your separation from service will instead be settled or paid on the first business day following the six-month anniversary of your separation from service, unless the settlement of those units is exempt from Section 409A of the Code.

Stockholder Rights

The Restricted Stock Units do not entitle you to any of the rights of a stockholder of the Company. Your rights, including rights to any Dividend Equivalents, shall remain forfeitable at all times prior to the date on which you vest in your Award. Upon settlement of the Restricted Stock Units into shares of Common Stock, you will obtain full voting and other rights as a stockholder of the Company.

Units Restricted

You may not sell, transfer, pledge or otherwise dispose of any Restricted Stock Units or rights under this Agreement other than by will or by the laws of descent and distribution.

Withholding Taxes

Regardless of any action the Company and/or, if different, your employer (the "Employer") take with respect to any or all income tax (including U.S. federal, state and local tax and/or non-U.S. tax), social insurance, payroll tax, payment on account or other tax-related withholding ("Tax-Related Items"), you acknowledge that the ultimate liability for all Tax-Related Items legally due by you is and remains your responsibility and that the Company and/or the Employer: (a) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Restricted Stock Units, including the award of the Restricted Stock Units, the vesting of the Restricted Stock Units, the issuance of shares of Common Stock in settlement of the Restricted Stock Units, the subsequent sale of shares acquired at vesting and the receipt of any Dividend Equivalents and dividends; and (b) do not commit to structure the terms of this Award or any aspect of the Restricted Stock Units to reduce or eliminate your liability for Tax-Related Items. Prior to the relevant taxable event, you shall pay or make adequate arrangements satisfactory to the Company and/or the Employer to satisfy all withholding obligations for Tax-Related Items of the Company and/or the Employer. With the Company's consent, these arrangements may include (i) withholding from any cash Dividend Equivalents or shares of Company stock that otherwise would be issued to you when they vest, (ii) surrendering shares that you previously acquired or (iii) deducting the withholding taxes from any cash compensation payable to you. The fair market value of the shares you surrender, determined as of the date taxes otherwise would have been withheld in cash, will be applied as a credit against the withholding taxes.

The Company may refuse to deliver the shares of Common Stock to you if you fail to comply with your obligations in connection with the Tax-Related Items as described in this provision.

Restrictions on Resale

You agree not to sell any shares of Common Stock you receive under this Agreement at a time when applicable laws, regulations, Company trading policies (including the Company's Insider Trading Policy, a copy of which can be found on the Company's intranet) or an agreement between the Company and its underwriters prohibit a sale. This restriction will apply as long as your Service continues and for such period of time after the termination of your Service as the Company may specify.

No Retention Rights

Except to the extent provided specifically in an agreement between you and the Company, neither this Award nor this Agreement gives you the right to be employed or retained by the Company or a subsidiary of the Company in any capacity; the Company and its subsidiaries reserve the right to terminate your Service at any time, with or without cause.

In accepting this Award, you acknowledge that: (a) the Plan is established voluntarily by the Company, it is discretionary in nature and it may be modified, amended, suspended or terminated by the Company at any time, unless otherwise provided in the Plan and this Agreement; (b) the Award is voluntary and occasional and does not create any contractual or other right to receive future awards of Restricted Stock Units, and any Dividend Equivalents thereon, or benefits in lieu of Restricted Stock Units, and any Dividend Equivalents thereon, even if Restricted Stock Units have been granted repeatedly in the past; (c) all decisions with respect to future awards, if any, will be at the sole discretion of the Company; (d) your participation in the Plan is voluntary; (e) your participation in the Plan shall not create a right to further employment with your Employer and shall not interfere with the ability of your Employer to terminate your Service at any time with or without cause; (f) the Award is an extraordinary item that does not constitute compensation of any kind for services of any kind rendered to the Company or any subsidiary of the Company, and that is outside the scope of your employment or service contract, if any; (g) the Award is not part of normal or expected compensation or salary for any purposes, including, but not limited to, calculation of any severance, resignation, termination, redundancy, end of service payments, bonuses, long-service awards, pension or retirement or welfare benefits or similar payments and in no event should be considered as compensation for, or relating in any way to, past services for the Company or any subsidiary of the Company; (h) in the event that you are not an employee of the Company, the Award and your participation in the Plan will not be interpreted to form an employment or service contract or relationship with the Company and, furthermore, the Award and your participation in the Plan will not be interpreted to form an employment or service contract or relationship with the Employer or any other subsidiary of the Company; (i) the future value of the underlying shares of Common Stock is unknown and cannot be predicted with certainty; (j) in consideration of the Award, no claim or entitlement to compensation or damages shall arise from termination of the Award or from any diminution in value of the Award or shares of Common Stock acquired upon vesting of the Award resulting from termination of Service (for any reason whatsoever and whether or not in breach of local labor laws) and you irrevocably release the Company and any subsidiary of the Company from any such claim that may arise; if, notwithstanding the foregoing, any such claim is found by a court of competent jurisdiction to have arisen, then, by signing this Agreement, you shall be deemed irrevocably to have waived your entitlement to pursue such claim; (k) the Company is not providing any tax, legal or financial advice, nor is the Company making any recommendations regarding your participation in the Plan or your acquisition or sale of the underlying shares of Common Stock; and (l) you are hereby advised to consult with your own personal tax, legal and financial advisors regarding your participation in the Plan before taking any action related to the Plan.

Adjustments

In the event of a stock split, a stock dividend or a similar change in Company stock, the number of Restricted Stock Units that will vest in any future installments will be adjusted accordingly, as provided for in the Plan.

Repayment/Forfeiture

Any benefits you may receive hereunder shall be subject to repayment or forfeiture as may be required to comply with (i) any applicable listing standards of a national securities exchange adopted in accordance with Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (regarding recovery of erroneously awarded compensation) and any implementing rules and regulations of the U.S. Securities and Exchange Commission adopted thereunder, (ii) similar rules under the laws of any other jurisdiction and (iii) any policies adopted by the Company to implement such requirements, all to the extent determined by the Company in its discretion to be applicable to you.

**Insider Trading Restrictions /
Market Abuse Laws**

You acknowledge that, depending on your country of residence, you may be subject to insider trading restrictions and/or market abuse laws, which may affect your ability to acquire or sell shares of Common Stock or rights to shares of Common Stock under the Plan during such times as you are considered to have "inside information" regarding the Company (as defined by the laws in your country). Any restrictions under these laws or regulations are separate from and in addition to any restrictions that may be imposed under any applicable Company insider trading policy. You acknowledge that it is your responsibility to comply with any applicable restrictions and that you are advised to speak to your personal legal advisor on this matter.

Severability

The provisions of this Agreement are severable and if any one or more provisions are determined to be invalid or otherwise enforceable, in whole or in part, the remaining provisions shall continue in effect.

Applicable Law

This Agreement will be interpreted and enforced with respect to issues of contract law under the laws of the State of Delaware (except their choice of law provisions).
For purposes of litigating any dispute that arises directly or indirectly from the relationship of the parties evidenced by this grant or this Agreement, the parties hereby submit to and consent to the exclusive jurisdiction of the State of California and agree that such litigation shall be conducted only in the courts of San Mateo County, California, U.S.A. or the federal courts for the United States for the Northern District of California, and no other courts, where this grant is made and/or to be performed.

The Plan and Other Agreements

The text of the Plan is incorporated in this Agreement by reference. A copy of the Plan is available on the Company's intranet or by request to the Stock Services Department.
This Agreement and the Plan constitute the entire understanding between you and the Company regarding this Award. Any prior agreements, commitments or negotiations concerning this Award are superseded. This Agreement may be amended only by another written agreement between the parties.

BY SIGNING THE NOTICE OF RESTRICTED STOCK UNIT AWARD, YOU AGREE TO ALL OF THE TERMS AND CONDITIONS DESCRIBED ABOVE AND IN THE PLAN.

Exhibit A

Equinix, Inc. 2000 Equity Incentive Plan
Notice of Restricted Stock Unit Award
For Executives

You have been granted the number of restricted stock units ("Restricted Stock Units") indicated below by Equinix, Inc. (the "Company") on the following terms:

Name:
Employee Id #:

Restricted Stock Unit Award Details:

Date of Grant: February 11, 2016
Award Number:
Minimum Restricted Stock Units (0%):
Target Restricted Stock Units (100%):
Max Restricted Stock Units (200%):
Performance Period: **January 1, 2016 through December 31, 2018**

Each Restricted Stock Unit represents the right to receive one share of the Common Stock of the Company, and any Dividend Equivalents thereon prior to settlement, subject to the terms and conditions contained in this Notice of Restricted Stock Unit Award for Executives and the Restricted Stock Unit Agreement (together, the "Agreement"). Capitalized terms not otherwise defined in this Agreement shall have the meaning set forth in the 2000 Equity Incentive Plan (the "Plan").

Vesting Schedule:

Vesting is dependent upon continuous active service as an employee, consultant or director of the Company or a subsidiary of the Company ("Service") throughout the vesting period.

The Restricted Stock Units, and any Dividend Equivalents thereon, shall vest in a number of shares determined based on the total shareholder return ("TSR") of the Company's Common Stock ("EQIX") against the IWB Russell 1000 Index Fund (the "Index"), calculated using the 30-day trading averages for both EQIX and the Index prior to the start (January 1, 2016) and end (December 31, 2018) of the Performance Period, and including the reinvestment of regular dividends paid by the Company and by the Index; provided both the Company and the Index are paying regular dividends. EQIX performance above and below that of the Index results in the scaling set forth on Exhibit A hereto. The number of Restricted Stock Units, and any Dividend Equivalents thereon, vesting under the award may range from 0% to 200% of the Target Restricted Stock Units as further illustrated on the attached Exhibit A.

Vesting shall occur on the first Trading Day that coincides with or follows the date upon which the Board, or a committee thereof, certifies the TSR over the Performance Period. Any Restricted Stock Units, and Dividend Equivalents thereon, that fail to vest based on the Company's TSR achievement shall be forfeited to the Company.

In the event of a Change in Control before the end of the 2018 fiscal year, the Performance Period shall be deemed terminated as of the effective date of the Change in Control (the "Shortened Performance Period"), such that TSR shall be calculated against the Index using the 30-day trading averages for both EQIX and the Index at the start and end of the Shortened Performance Period, including reinvested dividends (provided both the Company and the Index are paying regular dividends), to determine the number of the Restricted Stock Units, and any Dividend Equivalents thereon, that are deemed earned in an amount ranging from 0% to 200% as further illustrated on the attached Exhibit A, but that will remain unvested until December 31, 2018, except as otherwise provided in the Plan and the Agreement. The remaining unearned Restricted Stock Units, and Dividend Equivalents thereon, shall be forfeited to the Company upon such Change in Control (and such forfeited Restricted Stock Units, and any Dividend Equivalents thereon, will not accelerate in the event this Award is not assumed or substituted with a new award).

By your signature and the signature of the Company's representative below, you and the Company agree that the Restricted Stock Units, and any Dividend Equivalents thereon, are granted under and governed by the terms and conditions of the Plan and the Agreement that is attached to and made a part of this document.

You further agree that the Company may deliver by email all documents relating to the Plan or this Award (including, without limitation, prospectuses required by the U.S. Securities and Exchange Commission) and all other documents that the Company is

required to deliver to its security holders (including, without limitation, annual reports and proxy statements). You also agree that the Company may deliver these documents by posting them on a web site maintained by the Company or by a third party under contract with the Company. If the Company posts these documents on a web site, it will notify you by email.

By your signature below, you agree to cover all Tax-Related Items as defined in the Agreement.

Equinix, Inc. 2000 Equity Incentive Plan

Restricted Stock Unit Agreement

Payment for Shares

No payment is required for the Restricted Stock Units, and any Dividend Equivalents thereon, you receive.

Vesting

The Restricted Stock Units, and any Dividend Equivalents thereon, that you are receiving will vest in accordance with the Vesting Schedule stated in the Notice of Restricted Stock Unit Award for Executives; provided, however, that if your Service terminates due to your death then, if and to the extent Restricted Stock Units, and any Dividend Equivalent thereon, have been earned based on the actual performance results as certified by the Board, or a committee thereof, based on the matrix set forth on Exhibit A hereto, the portion of the Restricted Stock Units, and any Dividend Equivalents thereon, that would have become vested on the next scheduled vesting date will become vested and the underlying shares (and cash equal to the Dividend Equivalents thereon) will be released to your estate not more than 3½ months following such termination of Service but in any event not later than March 15 of the calendar year following your death.

No additional Restricted Stock Units, or any Dividend Equivalents thereon, vest after your Service has terminated for any reason. It is intended that vesting in the Restricted Stock Units, and any Dividend Equivalents thereon, is commensurate with a full-time work schedule. For possible adjustments that may be made by the Company, see the provision below entitled "Leaves of Absence and Part-Time Work."

Dividend Equivalents

You will be credited with Dividend Equivalents equal to the dividends you would have received if you had been the record owner of the Common Stock underlying the Restricted Stock Units on each dividend record date on or after the Date of Grant and through the date you receive a settlement pursuant to the provision below entitled "Settlement of Units" (the "Dividend Equivalent"). Dividend Equivalents shall be subject to the same terms and conditions as the Restricted Stock Units originally awarded pursuant to this Agreement, and they shall vest (or, if applicable, be forfeited) as if they had been granted at the same time as the original Restricted Stock Unit award. If a dividend on the Common Stock is payable wholly or partially in Common Stock, the Dividend Equivalent representing that portion shall be in the form of additional Restricted Stock Units, credited on a one-for-one basis. If a dividend on our Common Stock is payable wholly or partially in cash, the Dividend Equivalent representing that portion shall be in the form of cash, which will be paid to you, without interest, as described below in the provision "Settlement of Units;" provided, however, that the Committee may, in its discretion, provide that the cash portion of any extraordinary distribution on the Common Stock shall be in the form of additional Restricted Stock Units. If a dividend on our Common Stock is payable wholly or partially in other than cash or Common Stock, the Committee may, in its discretion, provide for such Dividend Equivalents with respect to that portion as it deems appropriate under the circumstances.

Settlement of Units

Each Restricted Stock Unit, and any Dividend Equivalents thereon, will be settled on the first Trading Day that occurs on or after the day when the Restricted Stock Unit vests. However, each Restricted Stock Unit, and any Dividend Equivalents thereon, must be settled not later than the March 15 of the calendar year after the calendar year in which the Restricted Stock Unit vests.

At the time of settlement, you will receive one share of the Company's Common Stock for each vested Restricted Stock Unit (no fractional shares will be issued) and an amount of cash, without additional earnings and rounded to the nearest whole cent, equal to the cash portion of the accumulated Dividend Equivalents applicable to the vested Restricted Stock Units, less any Tax-Related Items withholding. Any cash may be distributed to you directly or may be used to offset the amount of any Tax-Related Items withholding arising from the vesting/settlement of the Restricted Stock Units and any Dividend Equivalents thereon.

Trading Day

“Trading Day” means a day that satisfies each of the following requirements:

- The Nasdaq Global Market is open for trading on that day;
- You are permitted to sell shares of Common Stock on that day without incurring liability under Section 16(b) of the Securities Exchange Act;
- Either (a) you are not in possession of material non-public information that would make it illegal for you to sell shares of the Company’s Common Stock on that day under Rule 10b-5 of the U.S. Securities and Exchange Commission or (b) you have a trading plan that complies with the requirements of Rule 10b5-1(c)(1) of the Securities Exchange Act that covers the shares underlying the vesting Restricted Stock Units;
- Under the Company’s Insider Trading Policy, you are permitted to sell shares of Common Stock on that day, and
- You are not prohibited from selling shares of Common Stock on that day by a written agreement between you and the Company or a third party.

Change in Control

Except to the extent set forth in the Notice of Restricted Stock Unit Award, in the event of any Change in Control, vesting of these Restricted Stock Units, and any Dividend Equivalents thereon, will automatically accelerate in full as described in Article X of the Plan. However, vesting of these Restricted Stock Units, and any Dividend Equivalents thereon, will not automatically accelerate if and to the extent these Restricted Stock Units are, in connection with the Change in Control, either to be assumed by the successor corporation (or its parent) or to be replaced with a comparable award for shares of the capital stock of the successor corporation (or its parent). The determination of award comparability will be made by the Committee, and its determination will be final, binding and conclusive.

In addition, you will vest as to 50% of the unvested Restricted Stock Units, and any Dividend Equivalents thereon, if the Company is subject to a Change in Control before your Service terminates, and you are subject to a Qualifying Termination (as defined below) within 12 months after the Change in Control.

Notwithstanding the foregoing, any action taken in connection with a Change in Control must either (a) preserve the exemption of the Restricted Stock Units, and any Dividend Equivalents thereon, from Section 409A of the Code or (b) comply with Section 409A of the Code.

Qualifying Termination

A Qualifying Termination means a Separation (as defined below) resulting from: (a) involuntary discharge for any reason other than Cause (as defined below) within 12 months after a Change in Control; or (b) your voluntary resignation for Good Reason (as defined below), between the date that is four months following a Change in Control and the date that is 12 months following a Change in Control; provided, however, that the grounds for Good Reason may arise at any time within the 12 months following the Change in Control.

Cause means your unauthorized use or disclosure of trade secrets that causes material harm to the Company, your conviction of, or a plea of “guilty” or “no contest” to, a felony or your gross misconduct.

Good Reason means¹: (i) a material diminution in your authority, duties or responsibilities; (ii) a material reduction in your level of compensation (including base salary and target bonus) other than pursuant to a Company-wide reduction of compensation where the reduction affects the other executive officers and your reduction is substantially equal, on a percentage basis, to the reduction of the other executive officers; or (iii) a relocation of your place of employment by more than 30 miles, provided and only if such change, reduction or relocation is effected by the Company without your consent.

¹ Executives other than the CEO, CFO, CLO and CHRO shall have the following definition of “Good Reason”: (i) a material diminution in your authority, duties or responsibilities, provided, however, if by virtue of the Company being acquired and made a division or business unit of a larger entity following a Change in Control, you retain substantially similar authority, duties or responsibilities for such division or business unit of the acquiring corporation but not for the entire acquiring corporation, such reduction in authority, duties or responsibilities shall not constitute Good Reason for purposes of this subclause (i); (ii) a 10% or greater reduction in your level of compensation, which will be determined based on an average of your annual Total Direct Compensation for the prior three calendar years or, if less, the number of years you have been employed by the Company (referred to below as the “look-back years”); or (iii) a relocation of your place of employment by more than 30 miles, provided and only if such change, reduction or relocation is effected by the Company without your consent. For purposes of the foregoing, Total Direct Compensation means total target cash compensation (annual base salary plus target annual cash incentives) plus the grant value of equity awards, determined at the time of grant, based on the total stock compensation (FAS 123R) expense associated with that award; provided, however, that if you commenced employment with the Company during the look-back years, only one-third of the grant value of the equity grant attributable to commencement of employment shall be counted.

For vesting to accelerate as a result of a voluntary resignation for Good Reason, all of the following requirements must be satisfied: (1) you must provide notice to the Company of your intent to assert Good Reason within 120 days of the initial existence of one or more of the conditions set forth in (i) through (iii) of the preceding paragraph; and (2) the Company will have 30 days from the date of such notice to remedy the condition and, if it does so, you may withdraw your resignation or may resign with no acceleration benefit. Should the Company remedy the condition as set forth above and then one or more of the conditions arises again within 12 months following the occurrence of a Change in Control, you may assert Good Reason again subject to all of the conditions set forth herein.

Separation means a "separation from service," as defined in the regulations under Section 409A of the Code.

Forfeiture

If your Service terminates for any reason, then your Restricted Stock Units, and any Dividend Equivalents thereon, will be forfeited to the extent that they have not vested before the termination date and do not vest as a result of the termination (including as a result of a Qualifying Termination). This means that the Restricted Stock Units, and any Dividend Equivalents thereon, will immediately revert to the Company. You receive no payment for Restricted Stock Units, and any Dividend Equivalents thereon, that are forfeited. The Company determines when your Service terminates for this purpose.

Leaves of Absence and Part-Time Work

For purposes of this Award, your Service does not terminate when you go on a military leave, a sick leave or another bona fide leave of absence, if the leave was approved by the Company in writing. But your Service terminates when the approved leave ends, unless you immediately return to active work.

If you go on a leave of absence that lasts or is expected to last seven days or longer, then vesting will be suspended during the leave to the extent provided for in the Company's leave policy. Upon your return to active work (as determined by the Company), vesting will resume; however, unless otherwise provided in the Company's leave policy, you will not receive credit for any vesting until you work an amount of time equal to the period of your leave.

If you and the Company agree to a reduction in your scheduled work hours, then the Company reserves the right to modify the rate at which the Restricted Stock Units, and any Dividend Equivalents thereon, vest, so that the rate of vesting is commensurate with your reduced work schedule. Any such adjustment shall be consistent with the Company's policies for part-time or reduced work schedules or shall be pursuant to the terms of an agreement between you and the Company pertaining to your reduced work schedule.

The Company shall not be required to adjust any vesting schedule pursuant to this provision.

Settlement / Stock Certificates

No shares of Common Stock shall be issued to you prior to the date on which the Restricted Stock Units vest. After any Restricted Stock Units vest pursuant to this Agreement, the Company shall promptly cause to be issued in book-entry form, registered in your name or in the name of your legal representatives or heirs, as the case may be, the number of shares of Common Stock representing your vested Restricted Stock Units. No fractional shares shall be issued.

Section 409A

This provision applies only if the Company determines that you are a "specified employee," as defined in the regulations under Section 409A of the Code, at the time of your "separation from service," as defined in those regulations. If this paragraph applies, then any Restricted Stock Units, and any Dividend Equivalents thereon, that otherwise would have been settled or paid during the first six months following your separation from service will instead be settled or paid on the first business day following the six-month anniversary of your separation from service, unless the settlement of those units is exempt from Section 409A of the Code.

Stockholder Rights

The Restricted Stock Units do not entitle you to any of the rights of a stockholder of the Company. Your rights, including rights to any Dividend Equivalents, shall remain forfeitable at all times prior to the date on which you vest in your Award. Upon settlement of the Restricted Stock Units into shares of Common Stock, you will obtain full voting and other rights as a stockholder of the Company.

Units Restricted

You may not sell, transfer, pledge or otherwise dispose of any Restricted Stock Units or rights under this Agreement other than by will or by the laws of descent and distribution.

Withholding Taxes

Regardless of any action the Company and/or, if different, your employer (the "Employer") take with respect to any or all income tax (including U.S. federal, state and local tax and/or non-U.S. tax), social insurance, payroll tax, payment on account or other tax-related withholding ("Tax-Related Items"), you acknowledge that the ultimate liability for all Tax-Related Items legally due by you is and remains your responsibility and that the Company and/or the Employer: (a) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Restricted Stock Units, including the award of the Restricted Stock Units, the vesting of the Restricted Stock Units, the issuance of shares of Common Stock in settlement of the Restricted Stock Units, the subsequent sale of shares acquired at vesting and the receipt of any Dividend Equivalents and dividends; and (b) do not commit to structure the terms of this Award or any aspect of the Restricted Stock Units to reduce or eliminate your liability for Tax-Related Items. Prior to the relevant taxable event, you shall pay or make adequate arrangements satisfactory to the Company and/or the Employer to satisfy all withholding obligations for Tax-Related Items of the Company and/or the Employer. With the Company's consent, these arrangements may include (i) withholding from any cash Dividend Equivalents or shares of Company stock that otherwise would be issued to you when they vest, (ii) surrendering shares that you previously acquired or (iii) deducting the withholding taxes from any cash compensation payable to you. The fair market value of the shares you surrender, determined as of the date taxes otherwise would have been withheld in cash, will be applied as a credit against the withholding taxes.

The Company may refuse to deliver the shares of Common Stock to you if you fail to comply with your obligations in connection with the Tax-Related Items as described in this provision.

Restrictions on Resale

You agree not to sell any shares of Common Stock you receive under this Agreement at a time when applicable laws, regulations, Company trading policies (including the Company's Insider Trading Policy, a copy of which can be found on the Company's intranet) or an agreement between the Company and its underwriters prohibit a sale. This restriction will apply as long as your Service continues and for such period of time after the termination of your Service as the Company may specify.

No Retention Rights

Except to the extent provided specifically in an agreement between you and the Company, neither this Award nor this Agreement gives you the right to be employed or retained by the Company or a subsidiary of the Company in any capacity; the Company and its subsidiaries reserve the right to terminate your Service at any time, with or without cause.

In accepting this Award, you acknowledge that: (a) the Plan is established voluntarily by the Company, it is discretionary in nature and it may be modified, amended, suspended or terminated by the Company at any time, unless otherwise provided in the Plan and this Agreement; (b) the Award is voluntary and occasional and does not create any contractual or other right to receive future awards of Restricted Stock Units, and any Dividend Equivalents thereon, or benefits in lieu of Restricted Stock Units, and any Dividend Equivalents thereon, even if Restricted Stock Units have been granted repeatedly in the past; (c) all decisions with respect to future awards, if any, will be at the sole discretion of the Company; (d) your participation in the Plan is voluntary; (e) your participation in the Plan shall not create a right to further employment with your Employer and shall not interfere with the ability of your Employer to terminate your Service at any time with or without cause; (f) the Award is an extraordinary item that does not constitute compensation of any kind for services of any kind rendered to the Company or any subsidiary of the Company, and that is outside the scope of your employment or service contract, if any; (g) the Award is not part of normal or expected compensation or salary for any purposes, including, but not limited to, calculation of any severance, resignation, termination, redundancy, end of service payments, bonuses, long-service awards, pension or retirement or welfare benefits or similar payments and in no event should be considered as compensation for, or relating in any way to, past services for the Company or any subsidiary of the Company; (h) in the event that you are not an employee of the Company, the Award and your participation in the Plan will not be interpreted to form an employment or service contract or relationship with the Company and, furthermore, the Award and your participation in the Plan will not be interpreted to form an employment or service contract or relationship with the Employer or any other subsidiary of the Company; (i) the future value of the underlying shares of Common Stock is unknown and cannot be predicted with certainty; (j) in consideration of the Award, no claim or entitlement to compensation or damages shall arise from termination of the Award or from any diminution in value of the Award or shares of Common Stock acquired upon vesting of the Award resulting from termination of Service (for any reason whatsoever and whether or not in breach of local labor laws) and you irrevocably release the Company and any subsidiary of the Company from any such claim that may arise; if, notwithstanding the foregoing, any such claim is found by a court of competent jurisdiction to have arisen, then, by signing this Agreement, you shall be deemed irrevocably to have waived your entitlement to pursue such claim; (k) the Company is not providing any tax, legal or financial advice, nor is the Company making any recommendations regarding your participation in the Plan or your acquisition or sale of the underlying shares of Common Stock; and (l) you are hereby advised to consult with your own personal tax, legal and financial advisors regarding your participation in the Plan before taking any action related to the Plan.

Adjustments

In the event of a stock split, a stock dividend or a similar change in Company stock, the number of Restricted Stock Units that will vest in any future installments will be adjusted accordingly, as provided for in the Plan.

Repayment/Forfeiture

Any benefits you may receive hereunder shall be subject to repayment or forfeiture as may be required to comply with (i) any applicable listing standards of a national securities exchange adopted in accordance with Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (regarding recovery of erroneously awarded compensation) and any implementing rules and regulations of the U.S. Securities and Exchange Commission adopted thereunder, (ii) similar rules under the laws of any other jurisdiction and (iii) any policies adopted by the Company to implement such requirements, all to the extent determined by the Company in its discretion to be applicable to you.

**Insider Trading Restrictions /
Market Abuse Laws**

You acknowledge that, depending on your country of residence, you may be subject to insider trading restrictions and/or market abuse laws, which may affect your ability to acquire or sell shares of Common Stock or rights to shares of Common Stock under the Plan during such times as you are considered to have "inside information" regarding the Company (as defined by the laws in your country). Any restrictions under these laws or regulations are separate from and in addition to any restrictions that may be imposed under any applicable Company insider trading policy. You acknowledge that it is your responsibility to comply with any applicable restrictions and that you are advised to speak to your personal legal advisor on this matter.

Severability

The provisions of this Agreement are severable and if any one or more provisions are determined to be invalid or otherwise enforceable, in whole or in part, the remaining provisions shall continue in effect.

Applicable Law

This Agreement will be interpreted and enforced with respect to issues of contract law under the laws of the State of Delaware (except their choice of law provisions).
For purposes of litigating any dispute that arises directly or indirectly from the relationship of the parties evidenced by this grant or this Agreement, the parties hereby submit to and consent to the exclusive jurisdiction of the State of California and agree that such litigation shall be conducted only in the courts of San Mateo County, California, U.S.A. or the federal courts for the United States for the Northern District of California, and no other courts, where this grant is made and/or to be performed.

The Plan and Other Agreements

The text of the Plan is incorporated in this Agreement by reference. A copy of the Plan is available on the Company's intranet or by request to the Stock Services Department.
This Agreement and the Plan constitute the entire understanding between you and the Company regarding this Award. Any prior agreements, commitments or negotiations concerning this Award are superseded. This Agreement may be amended only by another written agreement between the parties.

BY SIGNING THE NOTICE OF RESTRICTED STOCK UNIT AWARD, YOU AGREE TO ALL OF THE TERMS AND CONDITIONS DESCRIBED ABOVE AND IN THE PLAN.

**Equinix, Inc. 2000 Equity Incentive Plan
Notice of Restricted Stock Unit Award
For Executives**

You have been granted the number of restricted stock units ("Restricted Stock Units") indicated below by Equinix, Inc. (the "Company") on the following terms:

Name:
Employee Id #:

Restricted Stock Unit Award Details:

Date of Grant: February 11, 2016
Award Number:
Number of Restricted Stock Units:

Each Restricted Stock Unit represents the right to receive one share of the Common Stock of the Company, and any Dividend Equivalents thereon prior to settlement, subject to the terms and conditions contained in this Notice of Restricted Stock Unit Award for Executives and the Restricted Stock Unit Agreement (together, the "Agreement"). Capitalized terms not otherwise defined in this Agreement shall have the meaning set forth in the 2000 Equity Incentive Plan (the "Plan").

Vesting Schedule:

Vesting is dependent upon continuous active service as an employee, consultant or director of the Company or a subsidiary of the Company ("Service") throughout the vesting period. The Restricted Stock Units, and any Dividend Equivalents thereon, shall vest at the following times:

- with respect to 33 1/3% of those units on the first Trading Day that coincides with or follows January 15, 2017;
- with respect to 33 1/3% of those units on the first Trading Day that coincides with or follows January 15, 2018;
and
- with respect to 33 1/3% of those units on the first Trading Day that coincides with or follows January 15, 2019.

By your signature and the signature of the Company's representative below, you and the Company agree that the Restricted Stock Units, and any Dividend Equivalents thereon, are granted under and governed by the terms and conditions of the Plan and the Agreement that is attached to and made a part of this document.

You further agree that the Company may deliver by email all documents relating to the Plan or this Award (including, without limitation, prospectuses required by the U.S. Securities and Exchange Commission) and all other documents that the Company is required to deliver to its security holders (including, without limitation, annual reports and proxy statements). You also agree that the Company may deliver these documents by posting them on a web site maintained by the Company or by a third party under contract with the Company. If the Company posts these documents on a web site, it will notify you by email.

By your signature below, you agree to cover all Tax-Related Items as defined in the Agreement.

Recipient: Equinix, Inc.

Equinix, Inc. 2000 Equity Incentive Plan

Restricted Stock Unit Agreement

Payment for Shares

No payment is required for the Restricted Stock Units, and any Dividend Equivalents thereon, you receive.

Vesting

The Restricted Stock Units, and any Dividend Equivalents thereon, that you are receiving will vest in accordance with the Vesting Schedule stated in the Notice of Restricted Stock Unit Award for Executives; provided, however, that if your Service terminates due to your death then, the portion of the Restricted Stock Units, and any Dividend Equivalents thereon, that would have become vested on the next scheduled vesting date will become vested and the underlying shares (and cash equal to the Dividend Equivalents thereon) will be released to your estate not more than 3½ months following such termination of Service but in any event not later than March 15 of the calendar year following your death.

No additional Restricted Stock Units, or any Dividend Equivalents thereon, vest after your Service has terminated for any reason. It is intended that vesting in the Restricted Stock Units, and any Dividend Equivalents thereon, is commensurate with a full-time work schedule. For possible adjustments that may be made by the Company, see the provision below entitled "Leaves of Absence and Part-Time Work."

Dividend Equivalents

You will be credited with Dividend Equivalents equal to the dividends you would have received if you had been the record owner of the Common Stock underlying the Restricted Stock Units on each dividend record date on or after the Date of Grant and through the date you receive a settlement pursuant to the provision below entitled "Settlement of Units" (the "Dividend Equivalent"). Dividend Equivalents shall be subject to the same terms and conditions as the Restricted Stock Units originally awarded pursuant to this Agreement, and they shall vest (or, if applicable, be forfeited) as if they had been granted at the same time as the original Restricted Stock Unit award. If a dividend on the Common Stock is payable wholly or partially in Common Stock, the Dividend Equivalent representing that portion shall be in the form of additional Restricted Stock Units, credited on a one-for-one basis. If a dividend on our Common Stock is payable wholly or partially in cash, the Dividend Equivalent representing that portion shall be in the form of cash, which will be paid to you, without interest, as described below in the provision "Settlement of Units;" provided, however, that the Committee may, in its discretion, provide that the cash portion of any extraordinary distribution on the Common Stock shall be in the form of additional Restricted Stock Units. If a dividend on our Common Stock is payable wholly or partially in other than cash or Common Stock, the Committee may, in its discretion, provide for such Dividend Equivalents with respect to that portion as it deems appropriate under the circumstances.

Settlement of Units

Each Restricted Stock Unit, and any Dividend Equivalents thereon, will be settled on the first Trading Day that occurs on or after the day when the Restricted Stock Unit vests. However, each Restricted Stock Unit, and any Dividend Equivalents thereon, must be settled not later than the March 15 of the calendar year after the calendar year in which the Restricted Stock Unit vests.

At the time of settlement, you will receive one share of the Company's Common Stock for each vested Restricted Stock Unit (no fractional shares will be issued) and an amount of cash, without additional earnings and rounded to the nearest whole cent, equal to the cash portion of the accumulated Dividend Equivalents applicable to the vested Restricted Stock Units, less any Tax-Related Items withholding. Any cash may be distributed to you directly or may be used to offset the amount of any Tax-Related Items withholding arising from the vesting/settlement of the Restricted Stock Units and any Dividend Equivalents thereon.

Trading Day

“Trading Day” means a day that satisfies each of the following requirements:

- The Nasdaq Global Market is open for trading on that day;
- You are permitted to sell shares of Common Stock on that day without incurring liability under Section 16(b) of the Securities Exchange Act;
- Either (a) you are not in possession of material non-public information that would make it illegal for you to sell shares of the Company’s Common Stock on that day under Rule 10b-5 of the U.S. Securities and Exchange Commission or (b) you have a trading plan that complies with the requirements of Rule 10b5-1(c)(1) of the Securities Exchange Act that covers the shares underlying the vesting Restricted Stock Units;
- Under the Company’s Insider Trading Policy, you are permitted to sell shares of Common Stock on that day, and
- You are not prohibited from selling shares of Common Stock on that day by a written agreement between you and the Company or a third party.

Change in Control

Except to the extent set forth in the Notice of Restricted Stock Unit Award, in the event of any Change in Control, vesting of these Restricted Stock Units, and any Dividend Equivalents thereon, will automatically accelerate in full as described in Article X of the Plan. However, vesting of these Restricted Stock Units, and any Dividend Equivalents thereon, will not automatically accelerate if and to the extent these Restricted Stock Units are, in connection with the Change in Control, either to be assumed by the successor corporation (or its parent) or to be replaced with a comparable award for shares of the capital stock of the successor corporation (or its parent). The determination of award comparability will be made by the Committee, and its determination will be final, binding and conclusive.

In addition, you will vest as to 50% of the unvested Restricted Stock Units, and any Dividend Equivalents thereon, if the Company is subject to a Change in Control before your Service terminates, and you are subject to a Qualifying Termination (as defined below) within 12 months after the Change in Control.

Notwithstanding the foregoing, any action taken in connection with a Change in Control must either (a) preserve the exemption of the Restricted Stock Units, and any Dividend Equivalents thereon, from Section 409A of the Code or (b) comply with Section 409A of the Code.

Qualifying Termination

A Qualifying Termination means a Separation (as defined below) resulting from: (a) involuntary discharge for any reason other than Cause (as defined below) within 12 months after a Change in Control; or (b) your voluntary resignation for Good Reason (as defined below), between the date that is four months following a Change in Control and the date that is 12 months following a Change in Control; provided, however, that the grounds for Good Reason may arise at any time within the 12 months following the Change in Control.

Cause means your unauthorized use or disclosure of trade secrets that causes material harm to the Company, your conviction of, or a plea of “guilty” or “no contest” to, a felony or your gross misconduct.

Good Reason means¹: (i) a material diminution in your authority, duties or responsibilities; (ii) a material reduction in your level of compensation (including base salary and target bonus) other than pursuant to a Company-wide reduction of compensation where the reduction affects the other executive officers and your reduction is substantially equal, on a percentage basis, to the reduction of the other executive officers; or (iii) a relocation of your place of employment by more than 30 miles, provided and only if such change, reduction or relocation is effected by the Company without your consent.

¹ Executives other than the CEO, CFO, CLO and CHRO shall have the following definition of “Good Reason”: (i) a material diminution in your authority, duties or responsibilities, provided, however, if by virtue of the Company being acquired and made a division or business unit of a larger entity following a Change in Control, you retain substantially similar authority, duties or responsibilities for such division or business unit of the acquiring corporation but not for the entire acquiring corporation, such reduction in authority, duties or responsibilities shall not constitute Good Reason for purposes of this subclause (i); (ii) a 10% or greater reduction in your level of compensation, which will be determined based on an average of your annual Total Direct Compensation for the prior three calendar years or, if less, the number of years you have been employed by the Company (referred to below as the “look-back years”); or (iii) a relocation of your place of employment by more than 30 miles, provided and only if such change, reduction or relocation is effected by the Company without your consent. For purposes of the foregoing, Total Direct Compensation means total target cash compensation (annual base salary plus target annual cash incentives) plus the grant value of equity awards, determined at the time of grant, based on the total stock compensation (FAS 123R) expense associated with that award; provided, however, that if you commenced employment with the Company during the look-back years, only one-third of the grant value of the equity grant attributable to commencement of employment shall be counted.

For vesting to accelerate as a result of a voluntary resignation for Good Reason, all of the following requirements must be satisfied: (1) you must provide notice to the Company of your intent to assert Good Reason within 120 days of the initial existence of one or more of the conditions set forth in (i) through (iii) of the preceding paragraph; and (2) the Company will have 30 days from the date of such notice to remedy the condition and, if it does so, you may withdraw your resignation or may resign with no acceleration benefit. Should the Company remedy the condition as set forth above and then one or more of the conditions arises again within 12 months following the occurrence of a Change in Control, you may assert Good Reason again subject to all of the conditions set forth herein.

Separation means a "separation from service," as defined in the regulations under Section 409A of the Code.

Forfeiture

If your Service terminates for any reason, then your Restricted Stock Units, and any Dividend Equivalents thereon, will be forfeited to the extent that they have not vested before the termination date and do not vest as a result of the termination (including as a result of a Qualifying Termination). This means that the Restricted Stock Units, and any Dividend Equivalents thereon, will immediately revert to the Company. You receive no payment for Restricted Stock Units, and any Dividend Equivalents thereon, that are forfeited. The Company determines when your Service terminates for this purpose.

Leaves of Absence and Part-Time Work

For purposes of this Award, your Service does not terminate when you go on a military leave, a sick leave or another bona fide leave of absence, if the leave was approved by the Company in writing. But your Service terminates when the approved leave ends, unless you immediately return to active work.

If you go on a leave of absence that lasts or is expected to last seven days or longer, then vesting will be suspended during the leave to the extent provided for in the Company's leave policy. Upon your return to active work (as determined by the Company), vesting will resume; however, unless otherwise provided in the Company's leave policy, you will not receive credit for any vesting until you work an amount of time equal to the period of your leave.

If you and the Company agree to a reduction in your scheduled work hours, then the Company reserves the right to modify the rate at which the Restricted Stock Units, and any Dividend Equivalents thereon, vest, so that the rate of vesting is commensurate with your reduced work schedule. Any such adjustment shall be consistent with the Company's policies for part-time or reduced work schedules or shall be pursuant to the terms of an agreement between you and the Company pertaining to your reduced work schedule.

The Company shall not be required to adjust any vesting schedule pursuant to this provision.

Settlement / Stock Certificates

No shares of Common Stock shall be issued to you prior to the date on which the Restricted Stock Units vest. After any Restricted Stock Units vest pursuant to this Agreement, the Company shall promptly cause to be issued in book-entry form, registered in your name or in the name of your legal representatives or heirs, as the case may be, the number of shares of Common Stock representing your vested Restricted Stock Units. No fractional shares shall be issued.

Section 409A

This provision applies only if the Company determines that you are a "specified employee," as defined in the regulations under Section 409A of the Code, at the time of your "separation from service," as defined in those regulations. If this paragraph applies, then any Restricted Stock Units, and any Dividend Equivalents thereon, that otherwise would have been settled or paid during the first six months following your separation from service will instead be settled or paid on the first business day following the six-month anniversary of your separation from service, unless the settlement of those units is exempt from Section 409A of the Code.

Stockholder Rights

The Restricted Stock Units do not entitle you to any of the rights of a stockholder of the Company. Your rights, including rights to any Dividend Equivalents, shall remain forfeitable at all times prior to the date on which you vest in your Award. Upon settlement of the Restricted Stock Units into shares of Common Stock, you will obtain full voting and other rights as a stockholder of the Company.

Units Restricted

You may not sell, transfer, pledge or otherwise dispose of any Restricted Stock Units or rights under this Agreement other than by will or by the laws of descent and distribution.

Withholding Taxes

Regardless of any action the Company and/or, if different, your employer (the "Employer") take with respect to any or all income tax (including U.S. federal, state and local tax and/or non-U.S. tax), social insurance, payroll tax, payment on account or other tax-related withholding ("Tax-Related Items"), you acknowledge that the ultimate liability for all Tax-Related Items legally due by you is and remains your responsibility and that the Company and/or the Employer: (a) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Restricted Stock Units, including the award of the Restricted Stock Units, the vesting of the Restricted Stock Units, the issuance of shares of Common Stock in settlement of the Restricted Stock Units, the subsequent sale of shares acquired at vesting and the receipt of any Dividend Equivalents and dividends; and (b) do not commit to structure the terms of this Award or any aspect of the Restricted Stock Units to reduce or eliminate your liability for Tax-Related Items. Prior to the relevant taxable event, you shall pay or make adequate arrangements satisfactory to the Company and/or the Employer to satisfy all withholding obligations for Tax-Related Items of the Company and/or the Employer. With the Company's consent, these arrangements may include (i) withholding from any cash Dividend Equivalents or shares of Company stock that otherwise would be issued to you when they vest, (ii) surrendering shares that you previously acquired or (iii) deducting the withholding taxes from any cash compensation payable to you. The fair market value of the shares you surrender, determined as of the date taxes otherwise would have been withheld in cash, will be applied as a credit against the withholding taxes.

The Company may refuse to deliver the shares of Common Stock to you if you fail to comply with your obligations in connection with the Tax-Related Items as described in this provision.

Restrictions on Resale

You agree not to sell any shares of Common Stock you receive under this Agreement at a time when applicable laws, regulations, Company trading policies (including the Company's Insider Trading Policy, a copy of which can be found on the Company's intranet) or an agreement between the Company and its underwriters prohibit a sale. This restriction will apply as long as your Service continues and for such period of time after the termination of your Service as the Company may specify.

No Retention Rights

Except to the extent provided specifically in an agreement between you and the Company, neither this Award nor this Agreement gives you the right to be employed or retained by the Company or a subsidiary of the Company in any capacity; the Company and its subsidiaries reserve the right to terminate your Service at any time, with or without cause.

In accepting this Award, you acknowledge that: (a) the Plan is established voluntarily by the Company, it is discretionary in nature and it may be modified, amended, suspended or terminated by the Company at any time, unless otherwise provided in the Plan and this Agreement; (b) the Award is voluntary and occasional and does not create any contractual or other right to receive future awards of Restricted Stock Units, and any Dividend Equivalents thereon, or benefits in lieu of Restricted Stock Units, and any Dividend Equivalents thereon, even if Restricted Stock Units have been granted repeatedly in the past; (c) all decisions with respect to future awards, if any, will be at the sole discretion of the Company; (d) your participation in the Plan is voluntary; (e) your participation in the Plan shall not create a right to further employment with your Employer and shall not interfere with the ability of your Employer to terminate your Service at any time with or without cause; (f) the Award is an extraordinary item that does not constitute compensation of any kind for services of any kind rendered to the Company or any subsidiary of the Company, and that is outside the scope of your employment or service contract, if any; (g) the Award is not part of normal or expected compensation or salary for any purposes, including, but not limited to, calculation of any severance, resignation, termination, redundancy, end of service payments, bonuses, long-service awards, pension or retirement or welfare benefits or similar payments and in no event should be considered as compensation for, or relating in any way to, past services for the Company or any subsidiary of the Company; (h) in the event that you are not an employee of the Company, the Award and your participation in the Plan will not be interpreted to form an employment or service contract or relationship with the Company and, furthermore, the Award and your participation in the Plan will not be interpreted to form an employment or service contract or relationship with the Employer or any other subsidiary of the Company; (i) the future value of the underlying shares of Common Stock is unknown and cannot be predicted with certainty; (j) in consideration of the Award, no claim or entitlement to compensation or damages shall arise from termination of the Award or from any diminution in value of the Award or shares of Common Stock acquired upon vesting of the Award resulting from termination of Service (for any reason whatsoever and whether or not in breach of local labor laws) and you irrevocably release the Company and any subsidiary of the Company from any such claim that may arise; if, notwithstanding the foregoing, any such claim is found by a court of competent jurisdiction to have arisen, then, by signing this Agreement, you shall be deemed irrevocably to have waived your entitlement to pursue such claim; (k) the Company is not providing any tax, legal or financial advice, nor is the Company making any recommendations regarding your participation in the Plan or your acquisition or sale of the underlying shares of Common Stock; and (l) you are hereby advised to consult with your own personal tax, legal and financial advisors regarding your participation in the Plan before taking any action related to the Plan.

Adjustments

In the event of a stock split, a stock dividend or a similar change in Company stock, the number of Restricted Stock Units that will vest in any future installments will be adjusted accordingly, as provided for in the Plan.

Repayment/Forfeiture

Any benefits you may receive hereunder shall be subject to repayment or forfeiture as may be required to comply with (i) any applicable listing standards of a national securities exchange adopted in accordance with Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (regarding recovery of erroneously awarded compensation) and any implementing rules and regulations of the U.S. Securities and Exchange Commission adopted thereunder, (ii) similar rules under the laws of any other jurisdiction and (iii) any policies adopted by the Company to implement such requirements, all to the extent determined by the Company in its discretion to be applicable to you.

**Insider Trading Restrictions /
Market Abuse Laws**

You acknowledge that, depending on your country of residence, you may be subject to insider trading restrictions and/or market abuse laws, which may affect your ability to acquire or sell shares of Common Stock or rights to shares of Common Stock under the Plan during such times as you are considered to have "inside information" regarding the Company (as defined by the laws in your country). Any restrictions under these laws or regulations are separate from and in addition to any restrictions that may be imposed under any applicable Company insider trading policy. You acknowledge that it is your responsibility to comply with any applicable restrictions and that you are advised to speak to your personal legal advisor on this matter.

Severability

The provisions of this Agreement are severable and if any one or more provisions are determined to be invalid or otherwise enforceable, in whole or in part, the remaining provisions shall continue in effect.

Applicable Law

This Agreement will be interpreted and enforced with respect to issues of contract law under the laws of the State of Delaware (except their choice of law provisions).

For purposes of litigating any dispute that arises directly or indirectly from the relationship of the parties evidenced by this grant or this Agreement, the parties hereby submit to and consent to the exclusive jurisdiction of the State of California and agree that such litigation shall be conducted only in the courts of San Mateo County, California, U.S.A. or the federal courts for the United States for the Northern District of California, and no other courts, where this grant is made and/or to be performed.

The Plan and Other Agreements

The text of the Plan is incorporated in this Agreement by reference. A copy of the Plan is available on the Company's intranet or by request to the Stock Services Department.

This Agreement and the Plan constitute the entire understanding between you and the Company regarding this Award. Any prior agreements, commitments or negotiations concerning this Award are superseded. This Agreement may be amended only by another written agreement between the parties.

BY SIGNING THE NOTICE OF RESTRICTED STOCK UNIT AWARD, YOU AGREE TO ALL OF THE TERMS AND CONDITIONS DESCRIBED ABOVE AND IN THE PLAN.

Equinix, Inc. 2000 Equity Incentive Plan
Global Notice of Restricted Stock Unit Award
(Non-U.S. Outside Director)

You have been granted the number of restricted stock units ("Restricted Stock Units") indicated below by Equinix, Inc. (the "Company") on the following terms:

Name: **John L. Hughes**
Employee ID #: **DIR15**

Restricted Stock Unit Award Details:

Date of Award: **February 25, 2016**
Award Number: **RU9680**
Restricted Stock Units: **4,874**

Each Restricted Stock Unit represents the right to receive one share of the Common Stock of the Company, and any Dividend Equivalents thereon prior to settlement, subject to the terms and conditions contained in this Global Notice of Restricted Stock Unit Award and the Global Restricted Stock Unit Agreement (together, the "Agreement"). Capitalized terms not otherwise defined in this Agreement shall have the meaning set forth in the 2000 Equity Incentive Plan (the "Plan").

Vesting Schedule:

Vesting is dependent upon you remaining engaged as a non-executive director (a "NED Role") of the Company or any of its subsidiaries or associated undertakings or any successor corporation (together, the "Group") throughout the vesting period, except if your NED Role were to cease during the vesting period by reason of an Involuntary Reason (as defined below).

The Restricted Stock Units, and any Dividend Equivalents thereon, shall vest on **11 June 2018**, subject to your continued engagement in a NED Role until such date (except where such engagement has ceased during the vesting period for an Involuntary Reason and this Global Notice of Restricted Stock Unit Award provides otherwise).

Cessation of the NED Role as a result of any of the following shall be an "Involuntary Reason":

- (a) termination by the Board other than by reason of your misconduct which is sufficiently serious to allow the Company to immediately terminate your NED Role;
- (b) your resignation from the NED Role (i) in circumstances where the Company is in breach of an express or implied term of your appointment to the NED Role and such breach is sufficiently serious to justify you resigning in circumstances amounting to constructive dismissal, or (ii) in circumstances where you resign by reason of a material concern relating to the governance standards or procedures of the Group where your concern has been notified to the relevant board and has not, in your reasonable opinion, been satisfactorily addressed within a reasonable period; and
- (c) your death or resignation where, as a result of ill-health, you are no longer able to carry out the duties of your NED Role.

Where the NED Role ceases for an Involuntary Reason the Restricted Stock Units, and any Dividend Equivalents thereon, shall vest at the date of such cessation. The Restricted Stock Units, and any Dividend Equivalents thereon, will lapse upon the date that your engagement in the NED Role ceases, unless such cessation was for an Involuntary Reason.

If there is a Change in Control, the Restricted Stock Units, and any Dividend Equivalents thereon, will vest immediately (other than where the Change in Control relates to an internal reorganization of the Company, in which this Award will continue in force).

By signing below to accept this Award, you and the Company agree that the Restricted Stock Units, and any Dividend Equivalents thereon, are granted under and governed by the terms and conditions of the Plan and the Agreement.

You further agree that the Company may deliver by email all documents relating to the Plan or this Award (including, without limitation, prospectuses required by the U.S. Securities and Exchange Commission) and all other documents that the Company is required to deliver to its security holders (including, without limitation, annual reports and proxy statements). You also agree that

the Company may deliver these documents by posting them on a web site maintained by the Company or by a third party under contract with the Company. If the Company posts these documents on a web site, it will notify you by email.

Equinix, Inc. 2000 Equity Incentive Plan
Global Restricted Stock Unit Agreement
(Non-U.S. Outside Director)

Payment for Shares	No payment is required for the Restricted Stock Units, and any Dividend Equivalents thereon, you receive.
Vesting	<p>The Restricted Stock Units, and any Dividend Equivalents thereon, that you are receiving will vest in a single installment, as stated in the Global Notice of Restricted Stock Unit Award.</p> <p>No additional Restricted Stock Units, or any Dividend Equivalents thereon, vest after your NED Role has terminated, as determined in accordance with subsection (h) of the provision below entitled “No Retention Rights”, except where your engagement in a NED Role has terminated as a result of an Involuntary Reason as defined in the Global Notice of Restricted Stock Unit Award.</p>
Dividend Equivalents	<p>You will be credited with Dividend Equivalents equal to the dividends you would have received if you had been the record owner of the Common Stock underlying the Restricted Stock Units on each dividend record date on or after the Date of Award and through the date you receive a settlement pursuant to the provision below entitled “Settlement of Units” (the “Dividend Equivalent”). Dividend Equivalents shall be subject to the same terms and conditions as the Restricted Stock Units originally awarded pursuant to this Agreement, and they shall vest (or, if applicable, be forfeited) as if they had been granted at the same time as the original Restricted Stock Unit award. If a dividend on the Common Stock is payable wholly or partially in Common Stock, the Dividend Equivalent representing that portion shall be in the form of additional Restricted Stock Units, credited on a one-for-one basis. If a dividend on our Common Stock is payable wholly or partially in cash, the Dividend Equivalent representing that portion shall be in the form of cash, which will be paid to you, without interest, as described below in the provision “Settlement of Units;” provided, however, that the Committee may, in its discretion, provide that the cash portion of any extraordinary distribution on the Common Stock shall be in the form of additional Restricted Stock Units. If a dividend on our Common Stock is payable wholly or partially in other than cash or Common Stock, the Committee may, in its discretion, provide for such Dividend Equivalents with respect to that portion as it deems appropriate under the circumstances.</p>
Settlement of Units	<p>Each Restricted Stock Unit, and any Dividend Equivalents thereon, will be settled on the first Trading Day that occurs on or after the day when the Restricted Stock Unit vests. However, each Restricted Stock Unit, and any Dividend Equivalents thereon, must be settled not later than the March 15 of the calendar year after the calendar year in which the Restricted Stock Unit vests.</p> <p>At the time of settlement, you will receive one share of the Company’s Common Stock for each vested Restricted Stock Unit (no fractional shares will be issued) and an amount of cash, without additional earnings and rounded to the nearest whole cent, equal to (i) any fractional shares and (ii) the cash portion of the accumulated Dividend Equivalents applicable to the vested Restricted Stock Units, less any Tax-Related Items withholding. Any cash may be distributed to you directly or may be used to offset the withholding due on Tax-Related Items at the time of the vesting/settlement of the Restricted Stock Units and any Dividend Equivalents thereon.</p>
"Trading Day"	<p>“Trading Day” means a day that satisfies each of the following requirements:</p> <ul style="list-style-type: none">• The Nasdaq Global Market is open for trading on that day;• You are permitted to sell shares of Common Stock on that day without incurring liability under Section 16(b) of the Securities Exchange Act;• Either (a) you are not in possession of material non-public information that would make it illegal for you to sell shares of the Company’s Common Stock on that day under Rule 10b-5 of the U.S. Securities and Exchange Commission or (b) this Agreement continues to comply with the requirements of Rule 10b5-1(c)(1) of the Securities Exchange Act;• Under the Company’s Insider Trading Policy, you are permitted to sell shares of Common Stock on that day; and• You are not prohibited from selling shares of Common Stock on that day by a written agreement between you and the Company or a third party.

Change in Control	In the event of any Change in Control, the Restricted Stock Units, and any Dividend Equivalents thereon, will vest in accordance with the Global Notice of Restricted Stock Unit Award.
Forfeiture	If your engagement in a NED Role terminates for any reason, except for an Involuntary Reason as defined in the Global Notice of Restricted Stock Unit Award, then your Restricted Stock Units, and any Dividend Equivalents thereon, will be forfeited to the extent that they have not vested before the termination date (as determined in accordance with subsection (h) of the provision entitled “No Retention Rights” below) and do not vest as a result of the termination. This means that the Restricted Stock Units, and any Dividend Equivalents thereon, will immediately revert to the Company. You receive no payment for Restricted Stock Units, and any Dividend Equivalents thereon, that are forfeited. The Company determines when your engagement in a NED Role terminates for this purpose.
Section 409A	This provision applies only to the extent you are a U.S. taxpayer, and only if the Company determines that you are a “specified employee,” as defined in the regulations under Section 409A of the Code, at the time of your “separation from service,” as defined in those regulations. If this paragraph applies, then any Restricted Stock Units, and any Dividend Equivalents thereon, that otherwise would have been settled or paid during the first six months following your separation from service will instead be settled or paid on the first business day following the six-month anniversary of your separation from service, unless the settlement of those units is exempt from Section 409A of the Code.
Settlement / Stock Certificates	No shares of Common Stock shall be issued to you prior to the settlement date. At settlement, the Company shall promptly cause to be issued in book-entry form, registered in your name or in the name of your legal representatives or heirs, as the case may be, the number of shares of Common Stock representing your vested Restricted Stock Units. No fractional shares shall be issued.
Stockholder Rights	The Restricted Stock Units do not entitle you to any of the rights of a stockholder of the Company. Your rights, including rights to any Dividend Equivalents, shall remain forfeitable at all times prior to the date on which you vest in your Award. Upon settlement of the Restricted Stock Units into shares of Common Stock, you will obtain full voting and other rights as a stockholder of the Company.
Units Restricted	You may not sell, transfer, pledge or otherwise dispose of any Restricted Stock Units or rights under this Agreement other than by will or by the laws of descent and distribution.

Withholding Taxes

Regardless of any action the Company and its Subsidiary or Affiliate take with respect to any or all income tax (including U.S. federal, state and local tax and/or non-U.S. tax), social insurance, payroll tax, payment on account or other tax-related items related to your participation in the Plan and legally applicable to you ("Tax-Related Items"), you acknowledge that the ultimate liability for all Tax-Related Items is and remains your responsibility and may exceed the amount actually withheld by the Company and/or its Subsidiary or Affiliate. You further acknowledge that the Company and/or the Subsidiary or Affiliate: (a) make no representations or undertakings regarding the treatment of any Tax-Related Items in connection with any aspect of the Restricted Stock Units, including, but not limited to, the award of the Restricted Stock Units, the vesting of the Restricted Stock Units, the issuance of shares of Common Stock in settlement of the Restricted Stock Units, the subsequent sale of shares acquired at vesting and the receipt of any Dividend Equivalents and dividends; and (b) do not commit to and are under no obligation to structure the terms of this Award or any aspect of the Restricted Stock Units to reduce or eliminate your liability for Tax-Related Items or achieve any particular tax result. Further, if you become subject to tax in more than one jurisdiction, you acknowledge that the Company and/or the Subsidiary or Affiliate may be required to withhold or account for Tax-Related Items in more than one jurisdiction.

In order for you to satisfy all Tax-Related Items, you authorize the Company and/or its Subsidiary or Affiliate, or their respective agents, at their discretion, to withhold all applicable Tax-Related Items by withholding from any cash Dividend Equivalents or from the proceeds of the sale of the shares of Common Stock issued upon the vesting of your Restricted Stock Units through a mandatory sale arranged by the Company (on your behalf pursuant to this authorization). In addition to, in lieu of or in combination with the above withholding method, you authorize the Company and/or the Subsidiary or Affiliate, or their respective agents, at their discretion, to satisfy the Tax-Related Items by: (i) withholding from your fees or other cash amounts paid to you by the Company and/or the Subsidiary or Affiliate; or (ii) withholding in shares of Common Stock to be issued upon vesting of your Restricted Stock Units. With respect to subsection (ii) of this provision, this form of withholding must be authorized by the Committee to the extent that you are subject to Section 16 of the Exchange Act.

To avoid negative accounting treatment, the Company may withhold or account for Tax-Related Items by considering applicable minimum statutory withholding amounts or other applicable withholding rates. If the Company satisfies the obligation for Tax-Related Items by withholding a number of shares of Common Stock as described above, for tax purposes, you are deemed to have been issued the full number of shares subject to the award of Restricted Stock Units, notwithstanding that a number of the shares is held back solely for the purpose of paying the Tax-Related Items due as a result of any aspect of your participation in the Plan.

Finally, you must pay to the Company or the Subsidiary or Affiliate any amount of Tax-Related Items that the Company or the Subsidiary or Affiliate may be required to withhold or account for as a result of your award of Restricted Stock Units, vesting of the Restricted Stock Units, settlement of Dividend Equivalents or the issuance of shares of Common Stock in settlement of vested Restricted Stock Units that cannot be satisfied by the means previously described. The Company may refuse to deliver the shares of Common Stock or the proceeds of the sale of shares of Common Stock to you if you fail to comply with your obligations in connection with the Tax-Related Items.

Restrictions on Resale

You agree not to sell any shares of Common Stock you receive under this Agreement at a time when applicable laws, regulations, Company trading policies (including the Company's Insider Trading Policy, a copy of which can be found on the Company's intranet) or an agreement between the Company and its underwriters prohibit a sale. This restriction will apply as long as your engagement in a NED Role continues and for such period of time after the termination of such engagement as the Company may specify.

No Retention Rights

In accepting this Award, you acknowledge that: (a) the Plan is established voluntarily by the Company, it is discretionary in nature and it may be modified, amended, suspended or terminated by the Company at any time; (b) the Award is voluntary and occasional and does not create any contractual or other right to receive future awards of Restricted Stock Units, and any Dividend Equivalents thereon, or benefits in lieu of Restricted Stock Units, and any Dividend Equivalents thereon, even if Restricted Stock Units have been granted repeatedly in the past; (c) all decisions with respect to future awards, if any, will be at the sole discretion of the Company; (d) your participation in the Plan is voluntary; (e) your participation in the Plan shall not create a right to further engagement with the Company and shall not interfere with the ability of the Company to terminate your NED Role at any time with or without cause; (f) the Award and your participation in the Plan will not be interpreted to form an employment or service contract or relationship with the Company or any subsidiary or affiliate of the Company; (g) in the event of cessation of your NED Role (whether or not in breach of local labor laws and whether or not later found to be invalid), except for an Involuntary Reason as defined in the Global Notice of RSU Award, your right to vest in the Restricted Stock Units, and any Dividend Equivalents thereon, under the Plan, if any, will terminate effective as of the date your NED Role ceases; (h) the future value of the underlying shares of Common Stock is unknown and cannot be predicted with certainty; (i) the Company is not providing any tax, legal or financial advice, nor is the Company making any recommendations regarding your participation in the Plan or your acquisition or sale of the underlying shares of Common Stock; and (j) you are hereby advised to consult with your own personal tax, legal and financial advisors regarding your participation in the Plan before taking any action related to the Plan.

If you reside outside the U.S., the following additional provisions shall apply: (k) no claim or entitlement to compensation or damages shall arise from forfeiture of the Award resulting from termination of your NED Role (for any reason whatsoever and whether or not in breach of local labor laws and whether or not later found to be invalid) and in consideration of the Award (to which you are not otherwise entitled), you irrevocably agree never to institute any claim against the Company or the Subsidiary or Affiliate, waive your ability, if any, to bring any such claim and release the Company, the Subsidiary or Affiliate and any subsidiary of the Company from any such claim; if, notwithstanding the foregoing, any such claim is allowed by a court of competent jurisdiction, then, by participating in the Plan, you shall be deemed irrevocably to have agreed not to pursue such claim and agree to execute any and all documents necessary to request dismissal or withdrawal of such claims; and (l) you acknowledge and agree that neither the Company, nor its Subsidiary or Affiliate shall be liable for any foreign exchange rate fluctuation between your local currency and the United States Dollar that may affect the value of the Restricted Stock Units, and any Dividend Equivalents thereon, or of any amount due to you pursuant to the vesting of the Restricted Stock Units, and any Dividend Equivalents thereon, under the Plan or the subsequent sale of the shares of Common Stock acquired by you under the Plan.

Adjustments

In the event of a stock split, a stock dividend or a similar change in Company stock, the number of Restricted Stock Units that will vest in any future installments will be adjusted accordingly, as provided for in the Plan.

Data Privacy Notice and Consent

You hereby voluntarily, explicitly and unambiguously consent to the collection, use and transfer, in electronic or other form, of your personal data as described in this Agreement and any other Restricted Stock Unit grant materials by and among, as applicable, the Company and its Subsidiaries and Affiliates for the exclusive purpose of implementing, administering and managing your participation in the Plan.

You understand that the Company and the Subsidiary or Affiliate may hold certain personal information about you, including, but not limited to, your name, home address and telephone number, date of birth, social insurance number or other identification number (e.g., resident registration number), salary, nationality, job title, any shares of stock or directorships held in the Company, details of all Restricted Stock Units or any other entitlement to shares of Common Stock awarded, canceled, vested, unvested or outstanding in your favor ("Data"), for the exclusive purpose of implementing, administering and managing the Plan.

*You understand that Data will be transferred to Morgan Stanley, E*TRADE, or such other stock plan service provider as may be selected by the Company in the future, which is assisting the Company with the implementation, administration and management of the Plan. You understand the recipients of the Data may be located in your country, in the United States or elsewhere, and that the recipients' country may have different data privacy laws and protections than your country. You understand that you may request a list with the names and addresses of any potential recipients of the Data by contacting your local human resources representative. You authorize the Company, the Subsidiary or Affiliate, Morgan Stanley, E*TRADE and any other possible recipients that may assist the Company (presently or in the future) with implementing, administering and managing the Plan to receive, possess, use, retain and transfer the Data, in electronic or other form, for the sole purpose of implementing, administering and managing your participation in the Plan. You understand that Data will be held only as long as is necessary to implement, administer and manage your participation in the Plan. You understand that you may, at any time, view Data, request additional information about the storage and processing of Data, require any necessary amendments to Data or refuse or withdraw the consents herein, in any case without cost, by contacting the Company in writing. You understand, however, that refusing or withdrawing your consent may affect your ability to participate in the Plan, but any refusal or withdrawal of consent will not have any adverse impact on your engagement in the NED Role by the Company. For more information on the consequences of your refusal to consent or withdrawal of consent, you understand that you may contact the Company.*

**Insider Trading Restrictions /
Market Abuse Laws**

You acknowledge that, depending on your country of residence, you may be subject to insider trading restrictions and/or market abuse laws, which may affect your ability to acquire or sell shares of Common Stock or rights to shares of Common Stock under the Plan during such times as you are considered to have "inside information" regarding the Company (as defined by the laws in your country). Any restrictions under these laws or regulations are separate from and in addition to any restrictions that may be imposed under any applicable Company insider trading policy. You acknowledge that it is your responsibility to comply with any applicable restrictions and that you are advised to speak to your personal legal advisor on this matter.

**Foreign Asset / Account Reporting
Requirements and Exchange
Controls**

Your country may have certain foreign asset and/or account reporting requirements and exchange controls which may affect your ability to acquire or hold shares of Common Stock under the Plan or cash received from participating in the Plan (including from any dividends or Dividend Equivalents received or sale proceeds arising from the sale of shares of Common Stock) in a brokerage or bank account outside your country. You may be required to report such accounts, assets or transactions to the tax or other authorities in your country. You also may be required to repatriate sale proceeds or other funds received as a result of your participation in the Plan to your country through a designated bank or broker and/or within a certain time after receipt. You acknowledge that it is your responsibility to be compliant with such regulations, and you should consult your personal legal advisor for any details.

Severability

The provisions of this Agreement are severable and if any one or more provisions are determined to be invalid or otherwise enforceable, in whole or in part, the remaining provisions shall continue in effect.

Waiver

You acknowledge that a waiver by the Company of breach of any provision of this Agreement shall not operate or be construed as a waiver of any other provision of this Agreement or of any subsequent breach by you.

Language

If you have received this Agreement or any other document related to the Plan translated into a language other than English and if the translated version is different from the English version, the English version will control, unless otherwise prescribed by local law.

- Electronic Delivery** The Company may, in its sole discretion, decide to deliver any documents related to current or future participation in the Plan by electronic means. You hereby consent to receive such documents by electronic delivery.
- Applicable Law** This Agreement will be interpreted and enforced with respect to issues of contract law under the laws of the State of Delaware (except their choice of law provisions).
For purposes of litigating any dispute that arises directly or indirectly from the relationship of the parties evidenced by this grant or this Agreement, the parties hereby submit to and consent to the exclusive jurisdiction of the State of California and agree that such litigation shall be conducted only in the courts of San Mateo County, California, U.S.A. or the federal courts for the United States for the Northern District of California, and no other courts, where this grant is made and/or to be performed.
- Imposition of Other Requirements** The Company reserves the right to impose other requirements on your participation in the Plan, on the Restricted Stock Units, and any Dividend Equivalents thereon, and on any shares of Common Stock acquired under the Plan, to the extent the Company determines it is necessary or advisable in order to comply with local law or facilitate the administration of the Plan, and to require you to sign any additional agreements or undertakings that may be necessary to accomplish the foregoing.
- The Plan and Other Agreements** The text of the Plan is incorporated in this Agreement by reference. A copy of the Plan is available on the Company's intranet or by request to the Stock Services Department.
This Agreement and the Plan constitute the entire understanding between you and the Company regarding this Award. Any prior agreements, commitments or negotiations concerning this Award are superseded. This Agreement may be amended only by another written agreement between the parties.

BY ACCEPTING THE GLOBAL NOTICE OF RESTRICTED STOCK UNIT AWARD, YOU AGREE TO ALL OF THE TERMS AND CONDITIONS DESCRIBED ABOVE AND IN THE PLAN.

**CERTIFICATION PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Stephen M. Smith, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Equinix, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
