We have presented Adjusted EBITDA, which is a non-GAAP financial measure, to provide investors with an additional tool to evaluate our operating results in a manner that focuses on what management believes to be our core, ongoing business operations. We believe that the inclusion of Adjusted EBITDA provides consistency and comparability with past reports and provides a better understanding of the overall performance of the business and ability to perform in subsequent periods, although it is not a substitute for our financial statements prepared in accordance with GAAP which we urge you to consider. Investors should note that Adjusted EBITDA used by us may not be calculated in the same manner as similarly titled financial measures of other companies. Investors should therefore exercise caution when comparing Adjusted EBITDA used by us to similarly titled financial measures of other companies.

We define Adjusted EBITDA as net income excluding income tax expense, interest income, interest expense, other income or expense, gain or loss on debt extinguishment, depreciation, amortization, accretion, stock-based compensation expense, restructuring and other exit charges, impairment charges, transaction costs and gain or loss on asset sales. The following table presents a reconciliation of net income, the most directly comparable financial measure calculated and presented in accordance with GAAP, to Adjusted EBITDA for each of the periods indicated:

Equinix Canada Financing Ltd. is a finance subsidiary with no operations other than financing activities and will depend on Equinix, Inc. and its subsidiaries for funds to meet its obligations under the notes.

Equinix Canada Financing Ltd. is an indirect, wholly-owned finance subsidiary of Equinix, Inc. The Issuer conducts no independent operations and has no operating assets other than as related to the issuance, administration, repayment and hedging of any debt securities that the Issuer has issued and may issue in the future and that will be fully and unconditionally guaranteed by Equinix, Inc. As such, the Issuer’s sole activity is to borrow funds and lend those funds to Equinix, Inc. and its other subsidiaries, which loans will be reflected as intercompany receivables. The Issuer’s ability to pay interest and repay principal in respect of its indebtedness, including the notes, depends upon the receipt of payments from Equinix, Inc. and its other subsidiaries. Therefore, investors should primarily consider the financial condition and liquidity of Equinix, Inc. and its other subsidiaries rather than that of the Issuer.

Equinix, Inc. depends in large part on the cash flow from its subsidiaries and if Equinix, Inc. does not receive sufficient funds from its other subsidiaries, it may not be able to make payments to the Issuer or to meet its obligations under the guarantees of the notes.

Equinix, Inc.’s subsidiaries are separate and distinct legal entities with no obligation to pay any amounts due pursuant to the notes or to provide the Issuer with funds for the Issuer’s payment obligations. Substantially all of our operations are conducted through our subsidiaries and we derive substantially all our revenues from our subsidiaries, and substantially all of our operating assets are owned by our subsidiaries. As a result, Equinix, Inc.’s cash flow and ability to service its indebtedness, including the intercompany payables to Equinix Canada Financing Ltd. or any obligations under the guarantees of the notes, depends in large part on the earnings of our subsidiaries and on the distribution of earnings, loans or other payments to Equinix, Inc. by its subsidiaries. Payments to Equinix, Inc. by its subsidiaries also will be contingent upon their earnings and their business considerations. In addition, the ability of Equinix, Inc.’s subsidiaries to make any dividend, distribution, loan or other payment to Equinix, Inc. could be subject to statutory or contractual restrictions. Because Equinix, Inc. depends in large part on the cash flow of its subsidiaries to meet its obligations, these types of restrictions may impair Equinix, Inc.’s ability to make payments to the Issuer who may be unable to make scheduled interest and principal payments on the notes and may also impair Equinix, Inc.’s ability to meet its obligations under the guarantees of the notes. Equinix, Inc.’s subsidiaries held approximately 90% of our consolidated assets as of March 31, 2026.

Neither the notes nor the guarantees are secured and will be effectively subordinated to any of the Issuer’s or Equinix, Inc.’s existing or future secured indebtedness.

The notes will be the Issuer’s general unsecured senior obligations, ranking equal in right of payment with the Issuer’s existing and any future unsubordinated indebtedness. In addition, Equinix, Inc.’s obligations under the guarantees will rank equally with all of its other unsecured and unsubordinated indebtedness. Because neither the notes nor the guarantees are secured, they will be effectively junior to any of the Issuer’s or Equinix, Inc.’s existing or future secured indebtedness to the extent of the value of the assets securing such debt, respectively. As of March 31, 2026, without giving effect to this offering, we had total consolidated indebtedness of approximately \$21.9 billion, approximately \$17 million of which represented secured indebtedness, which excludes approximately \$2.3 billion of finance lease liabilities.

In addition, the indenture and supplemental indentures governing the notes will permit the Issuer, Equinix, Inc. and their subsidiaries to incur significant amounts of additional indebtedness, including secured indebtedness. In the event that we are declared bankrupt, become insolvent or liquidate or reorganize, our assets that serve as collateral under any such secured indebtedness would be made available to satisfy the obligations under the secured indebtedness before those assets may be used to satisfy our obligations with respect to the notes. Holders of the notes will participate ratably with all holders of our unsecured indebtedness that is deemed to be of the same class as the notes, and potentially with all of our other general creditors, based upon the respective amounts owed to each holder or creditor, in our remaining assets. In any of the foregoing events, we cannot assure you that there will be sufficient assets to pay amounts due on the notes. As a result, holders of the notes may receive less, ratably, than holders of secured indebtedness.

The guarantees and the ability of Equinix, Inc. to make payments on the intercompany payables to the Issuer are effectively subordinated to all of the liabilities of other subsidiaries of Equinix, Inc.

The guarantees and the ability of Equinix, Inc. to make payments on the intercompany payables to the Issuer will be structurally subordinated to all of the liabilities of other subsidiaries of Equinix, Inc., which may include indebtedness, trade payables, guarantees, lease obligations and letter of credit obligations. In the event of a bankruptcy, liquidation or reorganization of any of Equinix, Inc.'s subsidiaries, holders of their indebtedness and their trade creditors will generally be entitled to payment of their claims from the assets of those subsidiaries before any assets of the subsidiaries are made available for distribution to Equinix, Inc. As of March 31, 2026, without giving effect to this offering, Equinix, Inc.'s subsidiaries (other than the Issuer) had \$11.1 billion of indebtedness (excluding trade payables and intercompany items and liabilities of a type not required to be reflected on a balance sheet of such subsidiaries in accordance with GAAP), which includes \$2.1 billion of finance lease liabilities, all of which is structurally senior to the guarantees.

The guarantees of the notes by Equinix, Inc. could be voided.

Equinix, Inc.'s obligations under its guarantees of the notes may be subject to review under state or federal fraudulent transfer laws in the event of Equinix, Inc.'s bankruptcy or other financial difficulty. Under those laws, in a lawsuit by an unpaid creditor or representative of creditors of Equinix, Inc., such as a trustee in bankruptcy, if a court were to find that, when Equinix, Inc. entered into the guarantees, it received less than fair consideration or reasonably equivalent value for the guarantees and either:

- was insolvent;
- was rendered insolvent;
- was engaged in a business or transaction for which its remaining unencumbered assets constituted unreasonably small capital;
- intended to incur or believed that it would incur debts beyond its ability to pay as the debts matured; or
- entered into the guarantees with actual intent to hinder, delay or defraud its creditors,

then the court could void the guarantees and Equinix, Inc.'s obligations under the guarantees and direct the return of any amounts paid under the guarantees to Equinix, Inc. or to a fund for the benefit of its creditors. Furthermore, to the extent that Equinix, Inc.'s obligations under the guarantees of the notes exceed the actual benefit that it receives from the issuance of the notes, Equinix, Inc. may be deemed not to have received fair consideration or reasonably equivalent value from the guarantees. As a result, the guarantees and Equinix, Inc.'s obligations under the guarantees may be void. The measure of insolvency for purposes of the factors above will vary depending on the law of the jurisdiction being applied. Generally, however, an entity would be considered insolvent if the sum of its debts (including contingent or unliquidated debts) is greater than all of its property at a fair valuation or if the present fair saleable value of its assets is less than the amount that will be required to pay its probable liability on its existing debts as they become absolute and matured.

Our debt agreements allow us and our subsidiaries to incur significantly more debt, which could exacerbate the other risks described herein, as well as the risks described in the documents incorporated by reference in this prospectus supplement and the accompanying prospectus.

The terms of our debt instruments, including the indenture and supplemental indentures governing the notes offered hereby and the agreement governing Equinix, Inc.'s revolving credit facility, permit the Issuer, Equinix, Inc. and their subsidiaries to incur additional indebtedness. Additional debt may be necessary for many reasons, including to adequately respond to competition, to comply with regulatory requirements related to our service obligations or for financial reasons alone. Incremental borrowings or borrowings at maturity on terms that impose additional financial risks to our various efforts to improve our operating results and financial condition could exacerbate the other risks described herein, as well as the risks described in the documents incorporated by reference in this prospectus supplement and the accompanying prospectus.

As of March 31, 2026, Equinix, Inc. had approximately \$4.0 billion of additional liquidity available to it from its \$4.0 billion revolving credit facility, subject to its compliance with the financial covenants and other conditions precedent set forth in the credit agreement relating to such facility.

Equinix, Inc.'s revolving credit facility and other existing debt instruments have restrictive covenants that could limit its financial flexibility.

The indentures relating to certain of Equinix, Inc.'s existing senior notes and the agreement governing Equinix, Inc.'s revolving credit facility contain financial and other restrictive covenants that limit its ability to engage in activities that may be in its long-term best interests.

Equinix, Inc.'s ability to borrow under Equinix, Inc.'s revolving credit facility is subject to compliance with certain financial covenants, including leverage coverage ratios. Equinix, Inc.'s revolving credit facility and term loan facility include other restrictions that, among other things: limit its ability to incur indebtedness; grant liens; engage in mergers, consolidations and liquidations; make asset dispositions, restricted payments and investments; enter into transactions with affiliates; and amend, modify or prepay certain indebtedness. In addition, the indentures related to certain of Equinix, Inc.'s existing senior notes contain certain covenants that limit its ability and the ability of its subsidiaries to, among other things,

- incur liens
- enter into sale-leaseback transactions; and
- merge or consolidate with any other person.

Our failure to comply with these covenants could result in an event of default that, if not cured or waived, could result in the acceleration of all of our debts. We do not have sufficient working capital to satisfy our debt obligations in the event of an acceleration of all or a significant portion of our outstanding indebtedness.

The limited covenants in the indenture and the supplemental indentures governing the notes offered hereby and the terms of the notes will not provide protection against some types of corporate events and may not protect your investment.

The indenture and supplemental indentures governing the notes offered hereby will not:

- require us to maintain any financial ratios or specific levels of net worth, revenues, income, cash flow or liquidity and, accordingly, will not protect holders of the notes in the event that we experience significant adverse changes in our financial condition or results of operations;
- restrict our subsidiaries' ability to issue securities or otherwise incur indebtedness that would be senior to our equity interests in our subsidiaries and therefore would be structurally senior to the notes and the guarantees;
- limit the Issuer or Equinix, Inc.'s ability to incur unsecured indebtedness that is equal in right of payment to the notes and the guarantees;
- restrict the Issuer or Equinix, Inc.'s ability to repurchase or prepay its securities;

- restrict the Issuer’s ability to make investments or to repurchase or pay dividends or other distributions or make other payments in respect of limited liability company interest in the Issuer or other securities ranking junior to the notes;
- restrict Equinix, Inc.’s ability to make investments or to repurchase or pay dividends or other distributions or make other payments in respect of our common stock or other securities ranking junior to the guarantees; or
- restrict the Issuer or Equinix, Inc.’s ability to enter into highly leveraged transactions.

In addition, the limitation on liens and limitation on sale and leaseback transactions covenants contained therein with respect to property held by Equinix, Inc. or its restricted subsidiaries contain exceptions that will allow us to create, grant or incur liens or security interests, and to enter into sale and leaseback transactions, in a number of circumstances.

As a result of the foregoing, when evaluating the terms of the notes, you should be aware that the terms of the indenture and the supplemental indentures governing the notes offered hereby and the notes will not restrict our ability to engage in, or to otherwise be a party to, a variety of corporate transactions, circumstances and events, such as certain acquisitions, refinancings or recapitalizations that could substantially and adversely affect our capital structure and the value of the notes. For these reasons, you should not consider the covenants in the indenture or the supplemental indentures as a significant factor in evaluating whether to invest in the notes.

We may not be able to repurchase the notes upon a Change of Control Triggering Event.

Upon the occurrence of a Change of Control Triggering Event (as defined in “Description of Notes — Change of Control Triggering Event”), the Issuer will be required to make an offer to purchase each holder’s notes at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest to, but not including, the date of repurchase. See “Description of Notes — Change of Control Triggering Event.”

If a Change of Control Triggering Event occurs, the Issuer may not have sufficient financial resources available to satisfy its obligations to repurchase the notes. The Issuer’s failure to repurchase the notes as required under the supplemental indentures governing the notes would result in a default under the indenture, which could result in defaults under Equinix, Inc.’s and its subsidiaries’ other debt agreements and have material adverse consequences for us and the holders of the notes.

Moreover, if holders of the notes elect to have their notes repurchased by the Issuer (or if holders of the Issuer’s other existing and future debt securities, such as the Issuer’s existing senior notes that have a right to require the Issuer to repurchase their securities upon such a Change of Control Triggering Event, elect to have their debt securities repurchased by the Issuer), it could cause a default under the Issuer’s existing or future debt, even if the Change of Control Triggering Event itself does not result in a default under existing or future debt, due to the financial effect of such repurchase on the Issuer.

The provisions in the indenture and the supplemental indentures governing the notes relating to change of control transactions will not necessarily protect you in the event of a highly leveraged transaction.

While the indenture, supplemental indentures and the notes offered hereby contain terms intended to provide protections to holders upon the occurrence of certain events involving significant corporate transactions or our creditworthiness, these terms are limited and may not be sufficient to protect your investment in the notes. The provisions in the indenture and the supplemental indentures governing the notes offered hereby relating to change of control transactions will not necessarily afford you protection in the event of a highly leveraged transaction that may adversely affect you, including a reorganization, restructuring, merger or other similar transaction involving us. These transactions may not involve a change in voting power or beneficial ownership or, even if they do, may not involve a change of the magnitude required under the definition of change of control triggering event in the supplemental indentures governing the notes offered hereby to trigger these provisions, including the requirement that the transactions be accompanied or followed within 60 days by a downgrade in the rating of the notes below certain levels by at least two ratings agencies. Except as described under “Description of Notes — Change of Control Triggering Event”, the

indenture and the supplemental indentures governing the notes will not contain provisions that permit the holders of the notes to require the Issuer to repurchase the notes in the event of a takeover, recapitalization or similar transaction. Further, the definition of change of control, which is a condition precedent to a change of control triggering event, includes a phrase relating to the sale, transfer, conveyance or other disposition of “all or substantially all” of the Guarantor’s assets. There is no precisely established definition of the phrase “substantially all” under applicable law. Accordingly, your ability to require the Issuer to repurchase your notes as a result of a sale, transfer, conveyance or other disposition of less than all of the Guarantor’s assets to another individual, group or entity may be uncertain.

An active trading market for the notes may not develop or be maintained; many factors affect the trading market and value of the notes.

Each series of notes is a new issue of securities with no trading history or established trading market. We will not apply to have the notes listed on any exchange or automated dealer quotation system and we cannot assure you that a trading market for the notes will ever develop or, if a trading market develops, that it will be maintained or provide adequate liquidity, that holders will be able to sell any of the notes at a particular time (if at all) or that the prices holders receive if or when they sell the notes will be above their initial offering prices. The underwriters for this offering have advised us that they intend to make a market in the notes after completion of the offering. However, the underwriters are not obligated to do so and may discontinue any market making at any time without notice, in their sole discretion. Therefore, no assurance can be given as to the liquidity of, or trading market for, the notes. The lack of a trading market could adversely affect investors’ ability to sell the notes and the price at which investors may be able to sell the notes. The liquidity of the trading market, if any, and future trading prices of the notes will depend on many factors, including, among other things, the number of holders of the notes, our operating results, financial performance and prospects, prevailing interest rates, prevailing foreign currency exchange rates, the market for similar securities and the overall securities market, and may be adversely affected by unfavorable changes in these factors. In particular, if interest rates increase, the market value of the notes would generally decrease.

The market valuation of the notes may be exposed to substantial volatility.

A real or perceived economic downturn or higher interest rates could cause a decline in the value of the notes, and of debt securities generally, and thereby negatively impact the market for debt securities, and more specifically, the notes. Because the notes may be thinly traded, it may be more difficult to sell and accurately value the notes. In addition, the entire bond market can experience sudden and sharp price swings, which can be exacerbated by large or sustained sales by major investors in the notes, a high-profile default by another issuer, or simply a change in the market’s psychology regarding debt securities generally. This risk is exacerbated by general market volatility, which has been characteristic of global financial markets in recent periods, and ongoing macroeconomic uncertainty.

Our credit ratings may not reflect all of the risks of an investment in the notes.

The credit ratings on the notes may not reflect the potential impact of all of the risks related to structure and other factors on the value of the notes. In addition, actual or anticipated changes in our credit ratings will generally affect the market value of the notes. Credit ratings are not recommendations to buy, sell or hold securities and are subject to revision or withdrawal at any time by the assigning rating agency. Each rating agency may have different criteria for evaluating credit risk, and therefore ratings should be evaluated independently for each rating agency.

Redemption may adversely affect your return on the notes.

The Issuer has the right to redeem some or all of the notes of any series prior to maturity. The Issuer may redeem the notes of any series at times when prevailing interest rates may be relatively low. Accordingly, you may not be able to reinvest the amount received upon a redemption in a comparable security at an effective interest rate as high as that of the notes of an applicable series.

Holders of the notes may be subject to the effects of foreign currency exchange rate fluctuations, as well as possible exchange controls, relating to Canadian dollars.

Investors will have to pay for the notes in Canadian dollars. None of the Issuer, the Guarantor, the underwriters or the paying agent will be obligated to assist the investors purchasing the notes in the offering in obtaining Canadian dollars or in converting other currencies into Canadian dollars to facilitate the payment of the purchase price for the notes. All payments of principal, interest and premium, if any, including payments made upon any redemption pursuant to the terms of the notes, will be made in Canadian dollars except in limited circumstances. See “Currency Conversion” in this prospectus supplement. An investment in the notes that are denominated in, and all payments in respect of which are to be made in, a currency other than the currency of the country in which the purchaser is resident or the currency in which the purchaser conducts its business or activities (the home currency), entails significant risks not associated with a similar investment in a security denominated in the home currency. These include the possibility of:

- significant changes in rates of exchange between the home currency and Canadian dollars;
- the imposition or modification of foreign exchange controls with respect to Canadian dollars or the home currency; and
- tax consequences for you as a result of any foreign currency exchange gains resulting from an investment in the notes.

We have no control over a number of factors affecting the notes and foreign currency exchange rates, including economic, financial and political events that are important in determining the existence, magnitude and longevity of these risks and their results. Changes in foreign currency exchange rates between two currencies result from the interaction over time of many factors directly or indirectly affecting economic and political conditions in the countries issuing such currencies, and economic and political developments globally and in other relevant countries. Foreign currency exchange rates may be affected by, among other factors, existing and expected rates of inflation, existing and expected interest rate levels, the balance of payments between countries, tariffs, the aggregate amount of a national government’s outstanding debt, and the extent of governmental surpluses or deficits in various countries. In addition, increases in prevailing interest rates could have an adverse effect on the trading prices of the notes. All of these factors are, in turn, sensitive to the monetary, fiscal and trade policies pursued by the governments of various countries important to international trade and finance. Moreover, current global economic conditions and the actions taken or to be taken by various national governments in response to such conditions could significantly affect the exchange rates between the home currency and Canadian dollars.

In recent years, rates of exchange for certain currencies, including Canadian dollars, have been highly volatile, and each holder should be aware that such volatility may occur in the future. Fluctuations in any particular exchange rate that have occurred in the past are not necessarily indicative of fluctuations in the rate that may occur during the term of the notes. Depreciation of the Canadian dollar against the home currency could result in a decrease in the effective yield of the notes below the applicable coupon rate and, in certain circumstances, could result in a loss to you on a home currency basis. Appreciation of the Canadian dollar in relation to the home currency could have the opposite effect.

Canada may, in the future, impose exchange controls and/or modify any exchange controls imposed, which controls could affect exchange rates as well as the availability of Canadian dollars at the time of payment of principal of, interest on, or any redemption payment or Additional Amounts with respect to, the notes.

Depreciation of the Canadian dollar against the U.S. dollar could cause a decrease in the effective yield of the notes below their stated coupon rates and could result in a loss to U.S. investors on a U.S. dollar basis. Investing in the notes by U.S. investors may have significant tax consequences with respect to exchange gain or loss. See “Material U.S. Federal Income Tax Considerations.”

The notes will be governed by the laws of the State of New York. U.S. federal or state courts rendering a judgment on the notes may be unable to enter judgment in any currency except in U.S. dollars. Accordingly, in a lawsuit for payment on the notes, investors may bear currency exchange risk, which could be material.

This description of foreign currency risks does not describe all of the risks of an investment in securities denominated in a currency other than the home currency. You should consult your own financial, tax and legal advisors as to the risks involved in an investment in the notes.

On April 29, 2026, the daily average CAD/USD rate of exchange was C\$1/U.S.\$0.7309 as published by the Bank of Canada.

Any information provided in this prospectus supplement concerning exchange rates is provided as a matter of information only and you should not regard it as indicative of the range of, or trends in, fluctuations in currency exchange rates that may occur in the future.

Holders of the notes will receive payments solely in Canadian dollars, except under the limited circumstances provided herein.

All payments of interest, premium, if any, and the principal of the notes, any redemption price for the notes, and Additional Amounts with respect to, the notes will be made in Canadian dollars, except under the circumstances described under “Currency Conversion” in this prospectus supplement. We, the underwriters, the trustee and the paying agent with respect to the notes will not be obligated to convert, or to assist any registered owner or beneficial owner of notes in converting, payments of interest, principal, premium, any redemption price or any Additional Amounts payable with respect to the notes in Canadian dollars into U.S. dollars or any other currency.

If, as permitted by the notes, we make payments in U.S. dollars, you will be exposed to significant risks if your home currency is not U.S. dollars.

If Canadian dollars are unavailable to us due to the imposition of exchange controls or other circumstances beyond our control, then all payments in respect of the notes will be made in U.S. dollars until Canadian dollars are again available to us. In such circumstances, the amount payable on any date in Canadian dollars will be converted into U.S. dollars by us at the rate mandated by the Board of Governors of the Federal Reserve System as of the close of business on the second Business Day (as defined in “Description of Notes — Certain Definitions” in this prospectus supplement) prior to the relevant payment date or, if the Board of Governors of the Federal Reserve System has not announced a rate of conversion, on the basis of the most recent U.S. dollar/Canadian dollar exchange rate published in The Wall Street Journal on or prior to the second Business Day prior to the relevant payment date or, in the event The Wall Street Journal has not published such exchange rate, the rate will be determined by us in our sole discretion on the basis of the most recently available market exchange rate for Canadian dollars. See “Description of Notes — Issuance in Canadian Dollars and Payment on the Notes.” If your home currency is not U.S. dollars, any such payment will expose you to the risks described above under “— Holders of the notes may be subject to the effects of foreign currency exchange rate fluctuations, as well as possible exchange controls, relating to Canadian dollars.” Any payment in respect of the applicable series of notes so made in U.S. dollars will not constitute an event of default under such series of notes or the indenture or supplemental indenture governing such series of notes.

There can be no assurance that the exchange rate determined as set forth above will be as favorable to holders of notes as the exchange rate that might otherwise be determined by applicable law or the exchange rate that might have been used had that rate been determined as of a specific date or with reference to a specific publication or other source of exchange rate data. This exchange rate determination, or market perceptions concerning this and related issues, could adversely affect the value of the notes. The potential developments regarding the availability of Canadian dollars and the possible conversion of amounts payable into U.S. dollars, or market perceptions concerning these and related issues, could adversely affect the value of the notes. Investors will be subject to foreign exchange risks as to payment of principal and interest that may have important economic and tax consequences for them.

Judgments in a foreign currency could result in a substantial loss to you.

The indenture and supplemental indentures governing the notes and the notes will be governed by, and construed in accordance with, the laws of the State of New York. Courts in the United States customarily have not rendered judgments for money damages denominated in any currency other than U.S. dollars. It is

not clear, however, whether in granting any judgment, the rate of conversion into U.S. dollars would be determined with reference to the date of default, the date judgment is rendered, the date when the obligation is actually paid (as several states of the United States have adopted the Uniform Foreign Money Claims Act, which endorses the “payment date” rule) or some other date.

Under the New York judiciary law, an action based upon an obligation denominated in Canadian dollars will be rendered in Canadian dollars. Any judgment awarded in such an action will be converted into U.S. dollars at the rate of exchange prevailing on the date of the entry of the judgment or decree. The exchange rate on the date of judgment could be more or less favorable than the exchange rate on the date the judgment is paid. There will be no provision for any further payments if exchange rates continue to change after the judgment is rendered.

CURRENCY CONVERSION

All payments of principal, interest, premium, if any, or any Additional Amounts with respect to the notes, including payments made upon any redemption pursuant to the terms of the applicable series of notes, will be payable in Canadian dollars. Notwithstanding anything to the contrary set forth in this prospectus supplement or the accompanying prospectus, if Canadian dollars are unavailable to the Issuer or the Guarantor due to the imposition of exchange controls or other circumstances beyond the Issuer or the Guarantor's control, then all payments in respect of the notes will be made in U.S. dollars until Canadian dollars are again available to the Issuer or the Guarantor. In such circumstances, the amount payable on any date in Canadian dollars will be converted into U.S. dollars by the Issuer or the Guarantor at the rate mandated by the Board of Governors of the Federal Reserve System as of the close of business on the second Business Day prior to the relevant payment date or, if the Board of Governors of the Federal Reserve System has not announced a rate of conversion, on the basis of the most recent U.S. dollar/Canadian dollar exchange rate published on The Wall Street Journal on or prior to the second Business Day prior to the relevant payment date or, in the event The Wall Street Journal has not published such exchange rate, the rate will be determined in the Issuer or the Guarantor's sole discretion on the basis of the most recently available market exchange rate for Canadian dollars. See "Description of Notes — Issuance in Canadian Dollars and Payment on the Notes." Any payment in respect of any series of notes so made in U.S. dollars will not constitute a default under the notes or the terms of the indenture and the supplemental indenture governing such series of notes. Neither the trustee nor the paying agent shall be responsible for obtaining exchange rates, effecting conversions or otherwise handling redenominations.

Investors will be subject to foreign exchange risks as to payments of principal, interest, premium, if any, and Additional Amounts, if any, with respect to the notes, including payments made upon any redemption pursuant to the terms of the notes, that may have important economic and tax consequences to them. See "Risk Factors." You should consult your own financial, legal and tax advisors as to the risks involved in an investment in the notes.

On April 29, 2026, the daily average CAD/USD rate of exchange was C\$1/U.S.\$0.7309 as published by the Bank of Canada.

Any information provided in this prospectus supplement concerning exchange rates is provided as a matter of information only and you should not regard it as indicative of the range of, or trends in, fluctuations in currency exchange rates that may occur in the future.

USE OF PROCEEDS

We estimate that the net proceeds from the sale of the notes offered hereby, after deducting the underwriting discounts and estimated offering expenses payable by us, will be approximately C\$.

We intend to use the net proceeds from this offering to fund the acquisition of additional properties or businesses, fund development opportunities, and to provide for working capital and other general corporate purposes, including but not limited to refinancing upcoming maturities and for repayment of existing borrowings.

DESCRIPTION OF NOTES

This section describes the 20 notes and the 20 notes. The Issuer will issue each series of notes under a supplemental indenture (together, the “Supplemental Indentures”) to that certain base indenture, dated as of November 24, 2025 (together with each respective Supplemental Indenture, an “Indenture”), among itself, as Issuer, Equinix, Inc., as guarantor (the “Guarantor”, the Issuer and the Guarantor are collectively referred to as the “Obligors”) and U.S. Bank Trust Company, National Association, as Trustee (the “Trustee”). The following is a summary of the material provisions of the Indentures. The Indentures will comply with the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”). The terms of the notes include those stated in the applicable Indenture and those made part of the applicable Indenture by reference to certain provisions of the Trust Indenture Act. You can find definitions of certain capitalized terms used in this description under “— Certain Definitions.”

You are encouraged to read the Indentures because they, and not this description, define your rights as a holder of the applicable series of notes. Copies of the Indentures are available upon request to the Issuer at the address indicated under “Where You Can Find More Information” in this prospectus supplement.

Paying Agent and Registrar

The Issuer will issue the notes in fully registered form in minimum denominations of C\$2,000 and integral multiples of C\$1,000 in excess thereof. Computershare Trust Company of Canada will initially act as paying agent and registrar for the notes. The notes may be presented for registration or transfer and exchange at the offices of the registrar. The Issuer may change any paying agent and registrar without notice to registered holders of the notes of any series (the “Holders”). All transactions to be handled by the paying agent and registrar will be handled at the principal office of Computershare Trust Company of Canada in Toronto, Ontario or Montreal, Quebec.

Principal, Maturity and Interest

The Issuer is issuing C\$ aggregate principal amount of the 20 notes and C\$ aggregate principal amount of the 20 notes in this offering and may issue an unlimited principal amount of additional 20 notes and 20 notes at later dates under the applicable Indenture (the “Additional Notes”). Any Additional Notes that the Issuer issues in the future will be identical in all respects to the applicable series of notes and will be treated as a single class for all purposes under the applicable Indenture with the applicable series of notes offered hereby, except that such Additional Notes will have different issuance dates and may have different issuance prices as well as a different amount of interest payable on the first interest payment date, *provided* that any such issuance is not prohibited by the terms of the applicable Indenture; *further provided* that if any such Additional Notes are not fungible with the applicable series of notes offered hereby for U.S. and Canadian federal income tax purposes, such Additional Notes will have one or more separate CUSIP numbers. Unless the context requires otherwise, references to “20 notes,” “20 notes” or “notes” for all purposes of the applicable Indenture and this “Description of Notes” include any Additional Notes that are actually issued.

The 20 notes will mature on , 20 and the 20 notes will mature on , 20 , in each case, unless earlier redeemed or repurchased.

Interest on the 20 notes will accrue at a rate of % per annum and interest on the 20 notes will accrue at a rate of % per annum. Interest will be payable semi-annually on and of each year, commencing , 2026 for the 20 notes, and on and of each year, commencing , 2026 for the 20 notes. The initial interest payment will be C\$ per C\$1,000 of principal amount for the 20 notes and C\$ per C\$1,000 of principal amount for the 20 notes. The Issuer will pay interest to those persons who were Holders of record on the or immediately preceding each interest payment date for the 20 notes and who were Holders of record on the or immediately preceding each interest payment date for the 20 notes. Interest on the notes will accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid. The amount of interest payable for any period will be computed (1) for a full semi-annual period on the basis of a 360-day year consisting of twelve 30-day months and (2) for an interest period that is not a full semi-annual period on the basis of a 365-day year and the actual number of days in such interest

period. Solely for the purposes of disclosure under the *Interest Act* (Canada), the yearly rate of interest to which the rate used in such computation is equivalent during any particular period is the rate so used (y) multiplied by the actual number of days in the calendar year in which the period for which such interest or fee is payable (or compounded) ends, and (z) divided by the number of days based on which such rate is calculated.

The notes will not be entitled to the benefit of any mandatory sinking fund.

Issuance in Canadian Dollars and Payment on the Notes

Investors purchasing notes in the offering will be required to pay for the notes in Canadian dollars, and all payments of principal, interest, premium, if any, or any Additional Amounts with respect to the notes, including payments made upon any redemption pursuant to the terms of the applicable series of notes, will be payable in Canadian dollars. Notwithstanding anything to the contrary set forth in this prospectus supplement or the accompanying prospectus, if Canadian dollars are unavailable to the Issuer or the Guarantor due to the imposition of exchange controls or other circumstances beyond the Issuer or the Guarantor's control, then all payments in respect of the notes will be made in U.S. dollars until Canadian dollars are again available to the Issuer or the Guarantor. In such circumstances, the amount payable on any date in Canadian dollars will be converted into U.S. dollars by the Issuer or the Guarantor at the rate mandated by the Board of Governors of the Federal Reserve System as of the close of business on the second Business Day prior to the relevant payment date or, if the Board of Governors of the Federal Reserve System has not announced a rate of conversion, on the basis of the most recent U.S. dollar/Canadian dollar exchange rate published in *The Wall Street Journal* on or prior to the second Business Day prior to the relevant payment date or, in the event *The Wall Street Journal* has not published such exchange rate, the rate will be determined in the Issuer or the Guarantor's sole discretion on the basis of the most recently available market exchange rate for Canadian dollars. Any payment in respect of any series of notes so made in U.S. dollars will not constitute a Default under the notes or the terms of the applicable Indenture. Neither the Trustee nor the paying agent shall be responsible for obtaining exchange rates, effecting conversions or otherwise handling redenominations.

Investors purchasing notes in the offering will be subject to foreign exchange risks as to such payments that may have important economic and tax consequences to them. See "Risk Factors."

In the event of an official redenomination of the Canadian dollar, the obligations with respect to payments on the notes immediately following such redenomination shall be regarded as providing for the payment of that amount of Canadian dollars representing the amount of such obligations immediately before such redenomination. The notes do not provide for any adjustment to any amount payable under the notes as a result of any change in the value of the Canadian dollar relative to any other currency due solely to fluctuations in exchange rates.

All determinations referred to above made by the Issuer or the Guarantor will be at its sole discretion and will, in the absence of clear error, be conclusive for all purposes and binding on the holders of the notes.

Ranking

The notes will be general senior obligations of the Issuer. The Holders' right to payment under these notes will be:

- effectively subordinated to any of the Issuer's future secured indebtedness;
- structurally subordinated to any future indebtedness and other liabilities (including trade payables) of any of the Issuer's subsidiaries, if any;
- equal in right of payment to any of the Issuer's existing and future senior indebtedness; and
- senior in right of payment to any of the Issuer's future subordinated indebtedness.

As of March 31, 2026, the Issuer had no subsidiaries and \$494 million of outstanding indebtedness (excluding trade payables and intercompany items and liabilities of a type not required to be reflected on the balance sheet of Equinix, Inc.'s subsidiaries in accordance with GAAP).

The notes will be fully and unconditionally guaranteed on an unsecured basis by Equinix, Inc. Equinix, Inc.'s obligations under the guarantees will be:

- effectively subordinated to all of Equinix, Inc.'s existing and future secured indebtedness;
- structurally subordinated to all of the existing and future indebtedness and other liabilities (including trade payables) of other subsidiaries of Equinix, Inc.;
- equal in right of payment to all of Equinix, Inc.'s existing and future senior indebtedness; and
- senior in right of payment to any of Equinix, Inc.'s existing and future subordinated indebtedness.

As of March 31, 2026, without giving effect to this offering:

- Equinix, Inc. had total consolidated indebtedness of approximately \$21.9 billion, approximately \$17 million of which represented secured indebtedness, which excludes approximately \$2.3 billion of finance lease liabilities;
- if Equinix, Inc. borrowed all of the approximately \$4.0 billion available under its revolving credit facility, \$4.0 billion of such borrowings would have been unsecured indebtedness; and
- the subsidiaries of Equinix, Inc. (other than the Issuer) had approximately \$11.1 billion of indebtedness (excluding trade payables and intercompany items and liabilities of a type not required to be reflected on the balance sheet of Equinix, Inc.'s subsidiaries in accordance with GAAP), which includes \$2.1 billion of finance lease liabilities, all of which is structurally senior to Equinix, Inc.'s obligations under the guarantees.

Additional Amounts

All payments made by the Obligors under or with respect to the notes will be made free and clear of, and without withholding or deduction for or on account of, any Tax, unless the withholding or deduction of such Tax is then required by law. If any deduction or withholding by any applicable withholding agent for or on account of any Taxes imposed or levied by or on behalf of any jurisdiction (excluding the United States) in which an Obligor is organized, resident or carrying on business for tax purposes or from or through which such Obligor (or its agents) makes any payment on the notes or the guarantees, or any state, province, political subdivision or taxing authority therein or thereof (a "Tax Jurisdiction"), will at any time be required to be made in respect of any payments made by the Obligors under or with respect to the notes, including payments of principal, redemption price, purchase price, interest or premium, then the Obligors will pay such additional amounts (the "Additional Amounts") as may be necessary in order that the net amounts received in respect of such payments by each Holder of the notes after such withholding, deduction or imposition (including any such withholding, deduction or imposition in respect of any such Additional Amounts) will equal the respective amounts that would have been received in respect of such payments in the absence of such withholding or deduction; provided, however, that no Additional Amounts will be payable with respect to:

1. any Taxes, to the extent such Taxes would not have been imposed but for the Holder of a note (or the beneficial owner for whose benefit such Holder holds such note) or a fiduciary, settlor, beneficiary, member or shareholder of the Holder if the Holder is an estate, trust, partnership or corporation, or a person holding a power over an estate or trust administered by a fiduciary holder, being considered as having a current or former connection with the relevant Tax Jurisdiction (other than a connection arising solely from the ownership or disposition of such note, the enforcement of rights under such note, or the receipt of any payments in respect of such note), including being or having been a citizen or resident of such Tax Jurisdiction, being or having engaged in a trade or business in such Tax Jurisdiction or having or having had a permanent establishment in such Tax Jurisdiction.
2. any Holder that is not the sole beneficial owner of the notes, or a portion of the notes, or that is a fiduciary, partnership or limited liability company, but only to the extent that a beneficial owner with respect to the Holder, a beneficiary or settlor with respect to the fiduciary, or a beneficial owner or member of the partnership or limited liability company would not have been entitled to the

- payment of Additional Amounts had the beneficial owner, beneficiary, settlor or member received directly its beneficial or distributive share of the payment;
3. any Taxes required to be withheld by any paying agent from any payment of principal of or interest on any note, if such payment can be made without such withholding by at least one other paying agent;
 4. any Taxes, to the extent such Taxes were imposed as a result of the presentation of a note for payment more than 30 days after the relevant payment is first made available for payment to the Holder (except to the extent that the Holder or beneficial owner would otherwise have been entitled to Additional Amounts had the note been presented on the last day of such 30-day period);
 5. any Tax, assessment, or other governmental charge that is payable otherwise than by deduction or withholding from a payment on or in respect of any note;
 6. any estate, inheritance, gift, sales, transfer, excise, wealth, capital gains, personal property or similar Taxes;
 7. any Taxes, to the extent such Taxes are imposed or withheld by reason of the failure of the Holder or beneficial owner of notes to comply with any certification, identification, information or other reporting requirements, whether required by statute, treaty, regulation or administrative practice of a Tax Jurisdiction, as a precondition to exemption from, or reduction in the rate of deduction or withholding of, Taxes imposed by the Tax Jurisdiction (including, without limitation, a certification that the Holder or beneficial owner is not resident in the Tax Jurisdiction), but in each case, only to the extent the Holder or beneficial owner is legally eligible to provide such certification or documentation;
 8. any Taxes imposed by virtue of the Holder or beneficial owner of such notes not dealing at arm's length within the meaning of the Income Tax Act (Canada) with an Obligor;
 9. any Taxes imposed by virtue of the Obligor being a "specified entity" (as defined in subsection 18.4(1) of the Income Tax Act (Canada)) in respect of a Holder or beneficial owner of such notes;
 10. any Taxes imposed by virtue of a Holder or beneficial owner of such notes being a, or not dealing at arm's length within the meaning of the Income Tax Act (Canada) with any, "specified shareholder" (as defined in subsection 18(5) of the Income Tax Act (Canada)) of the Obligor;
 11. any Taxes that are imposed or withheld pursuant to Sections 1471 through 1474 of the Code as of the date of the Indenture (or any amended or successor version that is substantively comparable), any regulations promulgated thereunder or any other official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Code as of the date of the Indenture (or any amended or successor version described above) or any intergovernmental agreements (and any related law, regulation or official administrative guidance) implementing the foregoing; or
 12. any combination of items 1 through 11 above.

Except as specifically provided under this heading "Additional Amounts," the Obligors will not be required to make any payment for any Tax.

If the Obligors become aware that they will be obligated to pay Additional Amounts with respect to any payment under or with respect to the notes, the Obligors will deliver to the Trustee and paying agent promptly prior to the date of that payment an officers' certificate stating the fact that Additional Amounts will be payable and the amount estimated to be so payable. The officers' certificate must also set forth any other information reasonably necessary to enable the paying agent to pay Additional Amounts to Holders on the relevant payment date. The Trustee and paying agent shall be entitled to rely solely on such officers' certificate as conclusive proof that such payments are necessary.

The Issuer or the Guarantor, if it is the applicable withholding agent, will make all withholdings and deductions required by law and will remit the full amount deducted or withheld to the relevant Tax authority

in accordance with applicable law. The Obligors will use their reasonable efforts to obtain Tax receipts from each Tax authority evidencing the payment of any Taxes so deducted or withheld.

The Obligors will furnish to the Trustee and paying agent upon reasonable written request, within a reasonable time after the date the payment of any Taxes so deducted or withheld is made, certified copies of Tax receipts evidencing payment by the Obligors, or if, notwithstanding such entity's efforts to obtain receipts, receipts are not obtained, other reasonable evidence of payments by such entity.

Whenever in the Indentures or in this "Description of Notes" there is mentioned, in any context, the payment of amounts based upon the principal amount of the notes or of principal, interest or of any other amount payable under, or with respect to, any of the notes, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

Where Tax is payable pursuant to Regulation 803 of the Income Tax Act (Canada) by a Holder or beneficial owner of notes in respect of any amount payable under the notes or the guarantees (other than by reason of a transfer of the notes to a person resident in Canada with whom the transferor does not deal at arm's length for the purposes of the Income Tax Act (Canada)), but no Additional Amount is paid in respect of such Tax, the applicable Obligor will pay, as or on account of interest to the Holder or beneficial owner of the notes, an amount equal to such Tax (a "Regulation 803 Reimbursement") plus an amount equal to any Tax required to be paid by such Holder or Beneficial owner of the notes as a result of such Regulation 803 Reimbursement within 45 days after receiving from the Holder or beneficial owner a notice containing reasonable particulars of the Tax so payable, provided such Holder or beneficial owner of the notes would have been entitled to receive Additional Amounts on account of such Tax (and only to the extent of such Additional Amounts that such Holder or beneficial owner of the notes would have been entitled to receive) but for the fact that it is payable otherwise than by deduction or withholding from payments made under or with respect to the notes or the guarantees.

The above obligations will survive any termination, defeasance or discharge of the Indenture, any transfer by a Holder or beneficial owner of its notes, and will apply, mutatis mutandis, to any successor Person to the Obligors.

As used under this heading "Additional Amounts" and under the heading "Redemption upon a Tax Event," the term "United States" means the United States of America, any state thereof and the District of Columbia.

Redemption upon a Tax Event

The Issuer may redeem the notes of any series, in whole but not in part, at its option, at any time upon giving not less than 10 nor more than 60 days' prior notice to the Holders of the notes and the Trustee or other appointed agent (which notice will be irrevocable) at a redemption price equal to 100% of the principal amount of the notes being redeemed, plus accrued and unpaid interest to, but excluding, the date of redemption ("Tax Event Redemption Date") and all Additional Amounts (if any) then due and which will become due on the Tax Event Redemption Date as a result of the redemption or otherwise (subject to the right of Holders of the notes on the relevant record date to receive interest due on the relevant interest payment date occurring on or prior to the redemption date and Additional Amounts (if any) in respect thereof), if, on the next date on which any amount would be payable in respect of the notes, the Issuer is or, based upon an opinion of independent tax counsel of recognized standing in the relevant Tax Jurisdiction, would be required to pay Additional Amounts in respect of the notes and cannot avoid such payment obligation by taking reasonable measures available to the Issuer, and such requirement arises as a result of:

1. any amendment to, or change in, the laws (or any regulations or rulings promulgated thereunder) of a relevant Tax Jurisdiction, which change or amendment is announced and becomes effective after the Issue Date (or, if later, the date the relevant Tax Jurisdiction becomes a Tax Jurisdiction); or
2. any amendment to, or change in, an official written interpretation or application of such laws, regulations or rulings (including by virtue of a holding, judgment or order by a court of competent jurisdiction or a change in published administrative practice), which amendment or change is

announced and becomes effective after the Issue Date (or, if later, the date the relevant Tax Jurisdiction becomes a Tax Jurisdiction).

The Issuer will not give any such notice of redemption of notes earlier than 60 days prior to the earliest date on which the Issuer would be obligated to pay Additional Amounts if a payment in respect of an applicable series of notes was then due, and the obligation to pay Additional Amounts must be in effect at the time such notice is given. Before the Issuer publishes or delivers a notice of redemption in respect of a Tax Event Redemption Date as described above, the Obligors will deliver to the Trustee an officers' certificate to the effect that the Issuer cannot avoid the obligation to pay Additional Amounts by taking reasonable measures available to it and, if required, the opinion of independent tax counsel described above. Any notice of redemption shall otherwise be given pursuant to the procedures described under "— Optional Redemption." The Trustee shall accept, and will be entitled to conclusively rely on, such an opinion of counsel and such officers' certificate as sufficient evidence of the existence and satisfaction of the conditions precedent described in clause 1 or 2 above, as applicable, and upon delivery of such opinion of counsel and officers' certificate to the Trustee, the Issuer will be entitled to give notice of redemption hereunder and such notice of redemption will be conclusive and binding on the Holders of the notes.

Optional Redemption

Prior to the applicable Par Call Date, the Issuer may redeem notes of either series at its option, in whole or in part, at any time and from time to time, at a redemption price (expressed as a percentage of principal amount and rounded to three decimal places) equal to the greater of:

1. 100% of the aggregate principal amount of the notes to be redeemed, and
2. the Canada Yield Price,

plus, in either case, accrued and unpaid interest, if any, thereon to, but excluding, the redemption date.

On or after the applicable Par Call Date, the Issuer may redeem notes of either series, at its option, in whole or in part, at any time and from time to time, at a redemption price equal to 100% of the aggregate principal amount of the notes to be redeemed, plus accrued and unpaid interest, if any, thereon to, but excluding, the redemption date.

"Par Call Date" means, with respect to the 20 notes, , 20 (the date that is month(s) prior to the maturity date of the 20 notes), and with respect to the 20 notes, , 20 (the date that is month(s) prior to the maturity date of the 20 notes).

Neither the Trustee nor any paying agent shall have any obligation to calculate or verify the calculation of the make-whole premium. The Issuer's actions and determinations in determining the redemption price shall be conclusive and binding for all purposes, absent manifest error.

"Canada Yield Price" means a price for the applicable series of notes being redeemed, calculated on the Business Day preceding the date on which the Issuer issues the notice of redemption pursuant to the applicable Indenture and in accordance with generally accepted Canadian financial practice to provide a yield to the applicable Par Call Date equal to the Government of Canada Yield *plus* basis points in the case of the 20 notes and *plus* basis points in the case of the 20 notes.

"Government of Canada Yield" means, on any date, the bid-side yield to maturity on such date as determined by the arithmetic average (rounded to three decimal places) of the yields quoted at 10:00 a.m. (Toronto time) by any two nationally recognized investment dealers in Canada selected by the Issuer, assuming semi-annual compounding, which a non-callable Government of Canada bond would carry if issued in Canadian dollars in Canada, at 100% of its principal amount on such date with a term to maturity equal to, or if no Government of Canada bond having an equal term to maturity exists, as close as possible to, the remaining term to the applicable Par Call Date.

Selection and Notice of Redemption

Notice of any redemption will be delivered at least 10 but not more than 60 days before the applicable redemption date to each Holder of notes to be redeemed.

In the case of a partial redemption, selection of the notes for redemption will be made pro rata, by lot or by such other method as the Trustee or other appointed agent in its sole discretion deems appropriate and fair. No notes of a principal amount of C\$2,000 or less will be redeemed in part.

If any series of notes is to be redeemed in part only, the notice of redemption that relates to the note will state the portion of the principal amount of the note to be redeemed. A new note in a principal amount equal to the unredeemed portion of the note will be issued in the name of the Holder of the note upon surrender for cancellation of the original note. Any redemption or notice of redemption may, at our discretion, be subject to one or more conditions precedent. For so long as the applicable series of notes are held by CDS & Co., as nominee for CDS, (or another depository), the redemption of such series of notes shall be done in accordance with the policies and procedures of the depository.

Unless the Issuer defaults in payment of the redemption price, on and after the applicable redemption date, interest will cease to accrue on the series of notes or portions thereof called for redemption.

Mandatory Redemption; Offers to Purchase; Open Market Purchases

The Obligors are not required to make any mandatory redemption or sinking fund payments with respect to the notes. However, under certain circumstances, the Issuer may be required to offer to purchase the notes as described under “— Change of Control Triggering Event.” We may at any time and from time to time purchase notes of any series in the open market or otherwise (including pursuant to cash-settled swaps or derivatives), subject to compliance with applicable securities laws.

Holding Company Structure

Equinix, Inc. is a holding company for its Subsidiaries. Substantially all of Equinix, Inc.’s operations are conducted through its Subsidiaries and Equinix, Inc. derives substantially all its revenues from its Subsidiaries, and substantially all of its operating assets are owned by its Subsidiaries. Accordingly, Equinix, Inc. is dependent upon the distribution of the earnings of its Subsidiaries, whether in the form of dividends, advances or payments on account of intercompany obligations, to service its debt obligations and its obligations under the guarantees of the notes. In addition, the claims of the Holders are subject to the prior payment of all liabilities (whether or not for borrowed money) and to any preferred stock interest of such Restricted Subsidiaries. There can be no assurance that, after providing for all prior claims, there would be sufficient assets available from Equinix, Inc. and its Subsidiaries to satisfy the claims of the Holders of notes. See “Risk Factors — Equinix, Inc. depends in large part on the cash flow from its subsidiaries and if Equinix, Inc. does not receive sufficient funds from its other subsidiaries, it may not be able to make payments to the Issuer or to meet its obligations under the guarantees of the notes.”

Guarantee

The notes will be fully and unconditionally guaranteed on an unsecured basis by Equinix, Inc. Equinix, Inc.’s obligations under the guarantees will rank equally with all of its other unsecured and unsubordinated indebtedness and will be effectively subordinated to all of the other secured indebtedness of Equinix, Inc. and structurally subordinated to all of the liabilities of other Subsidiaries of Equinix, Inc.

Equinix, Inc. has the right, at its option at any time, without the consent of any Holders of any series of notes, to be substituted for, and assume the obligations of, the Issuer under the applicable series of notes that is then outstanding if, immediately after giving effect to such substitution, no Event of Default, and no event which, after notice or lapse of time or both, would become an Event of Default, has occurred and is continuing (other than a Default or Event of Default that would be cured by such substitution); *provided* that Equinix, Inc. executes a supplemental indenture in which it agrees to be bound by the terms of the applicable series of notes and the applicable Indenture. In the case of such a substitution and assumption by Equinix, Inc. (an “Equinix Substitution”), (i) the Issuer will be relieved of any further obligations under the assumed notes of the applicable series and the applicable Indenture, (ii) Equinix, Inc. will be released from all obligations under the guarantees and will instead become the primary (and sole) obligor under such notes and the related Indenture provisions and (iii) bankruptcy and certain other events affecting the Issuer but not Equinix, Inc. will no longer be Events of Default. For the avoidance of doubt, other than the conditions in this paragraph, nothing in the Indentures shall prevent an Equinix Substitution. Following

such Equinix Substitution, references in this prospectus supplement and in the Indentures to the Issuer shall be deemed to instead refer to Equinix, Inc. with respect to the applicable series of notes to which such Equinix Substitution applied.

Change of Control Triggering Event

Upon the occurrence of a Change of Control Triggering Event, unless the Issuer or a third party has previously or concurrently delivered a redemption notice with respect to all outstanding notes of a particular series as described under “— Optional Redemption,” the Issuer will be required to make an offer to purchase each Holder’s notes of such series pursuant to the offer described below (the “Change of Control Offer”), at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to but not including, the date of purchase.

Within 30 days following the date upon which the Change of Control Triggering Event occurred, the Issuer must send, or cause the Trustee or other appointed agent to send a notice to each Holder, with a copy to the Trustee, which notice shall govern the terms of the Change of Control Offer. Such notice shall state, among other things, the purchase date, which must be no earlier than 10 days nor later than 60 days after the date such notice is delivered, other than as may be required by law (the “Change of Control Payment Date”). Holders electing to have a note purchased pursuant to a Change of Control Offer will be required to surrender the note, with the form entitled “Option of Holder to Elect Purchase” on the reverse of the note completed and specifying the portion (equal to C\$2,000 and integral multiples of C\$1,000 in excess thereof) of such Holder’s notes that it agrees to sell to the Issuer pursuant to the Change of Control Offer, to the paying agent at the address specified in the notice prior to the close of business on the third Business Day prior to the Change of Control Payment Date.

If a Change of Control Offer is made, there can be no assurance that the Obligor will have available funds sufficient to pay the purchase price for all the notes that might be delivered by Holders seeking to accept the Change of Control Offer. In the event the Issuer is required to purchase outstanding notes of an applicable series pursuant to a Change of Control Offer, the Issuer expects that it would seek third-party financing to the extent it does not have available funds to meet its purchase obligations. However, there can be no assurance that the Issuer would be able to obtain such financing. In addition, there can be no assurance that the Obligor would be able to obtain the consents necessary to consummate a Change of Control Offer from the lenders under agreements governing outstanding Indebtedness that may in the future prohibit the Change of Control Offer. The failure to consummate a Change of Control Offer would constitute an Event of Default under the Indentures. See “Risk Factors — Additional Risks Related to the Notes — We may not be able to repurchase the notes upon a Change of Control Triggering Event” for more information.

One of the events that constitutes a Change of Control under the Indentures is the disposition of “all or substantially all” of the Guarantor’s assets. This term has not been interpreted under New York law, which is the governing law of the Indentures, to represent a specific quantitative test. As a consequence, if Holders of an applicable series of notes assert that the Issuer is required to make a Change of Control Offer and the Issuer elects to contest such assertion, there is uncertainty as to how a court interpreting New York law would interpret the term. Neither the Board of Directors of either Obligor nor the Trustee may waive the covenant of the Issuer to make a Change of Control Offer following a Change of Control Triggering Event. Restrictions in the Indentures described herein on the ability of the Issuer, the Guarantor and their Subsidiaries to incur additional secured Indebtedness and to grant Liens on the property of the Guarantor and its Restricted Subsidiaries may also make more difficult or discourage a takeover of the Issuer or the Guarantor, whether favored or opposed by the management, member or stockholders of the Obligor, as applicable. There can be no assurance that the Obligor or the acquiring party will have sufficient financial resources to effect a Change of Control Offer. Such restrictions may, in certain circumstances, make more difficult or discourage any leveraged buyout of the Issuer, the Guarantor or any of their Subsidiaries by their respective management. However, the Indentures may not afford the Holders protection in all circumstances from the adverse aspects of a highly leveraged transaction, reorganization, amalgamation, restructuring, merger or similar transaction.

The Issuer will not be required to make a Change of Control Offer upon the occurrence of a Change of Control Triggering Event if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indentures applicable to a Change of

Control Offer made by the Issuer and purchases all notes validly tendered and not withdrawn under such Change of Control Offer. The Issuer (or a third party) may make a Change of Control Offer in advance of, and conditioned upon, any Change of Control Triggering Event.

The Obligors will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws and regulations are applicable in connection with the repurchase of an applicable series of notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the “Change of Control” provisions of the Indentures, the Obligors shall comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations under the “Change of Control” provisions of the Indentures by virtue thereof.

Certain Covenants

The Indentures will contain, among others, the following covenants:

Limitation on liens. The Obligors will not, and will not cause or permit any of the Restricted Subsidiaries of the Guarantor to, directly or indirectly, create, incur, assume or permit or suffer to exist any Liens of any kind against or upon any property or assets of the Guarantor or any of its Restricted Subsidiaries whether owned on the Issue Date or acquired after the Issue Date, or any proceeds therefrom, or assign or otherwise convey any right to receive income or profits therefrom unless:

1. in the case of Liens securing Subordinated Indebtedness, the notes of the applicable series or the guarantees are secured by a Lien on such property, assets or proceeds that is senior in priority to such Liens; and
2. in all other cases, the notes of the applicable series are equally and ratably secured, except for:
 - (a) Liens existing as of the Issue Date to the extent and in the manner such Liens are in effect on the Issue Date;
 - (b) Liens securing the Obligations of the Obligors and the Obligations of the Restricted Subsidiaries of the Guarantor under any hedge facility permitted under the Indentures to be entered into by the Obligors and the Restricted Subsidiaries of the Guarantor;
 - (c) Liens securing the notes of the applicable series or the Guarantor’s guarantees thereof;
 - (d) Liens in favor of the Obligors or a Wholly Owned Restricted Subsidiary of the Guarantor on assets of any Restricted Subsidiary of the Guarantor; and
 - (e) Permitted Liens.

With respect to any Lien securing Indebtedness that was permitted to secure such Indebtedness at the time of the incurrence of such Indebtedness, such Lien shall also be permitted to secure any Increased Amount of such Indebtedness. The “*Increased Amount*” of any Indebtedness shall mean any increase in the amount of such Indebtedness in connection with any accrual of interest, whether payable in cash or in kind, accretion or amortization of original issue discount, imputed interest, the payment of interest in the form of additional Indebtedness with the same terms or the payment of dividends on Disqualified Capital Stock in the form of additional shares of the same class, and increases in the amount of Indebtedness outstanding solely as a result of fluctuations in the exchange rate of currencies or increases in the value of property securing Indebtedness.

Limitation on Sale and Leaseback Transactions. The Obligors will not, and will not permit any Restricted Subsidiary to, enter into any Sale and Leaseback Transaction with respect to any property or assets unless:

1. the Sale and Leaseback Transaction is solely with the Issuer, the Guarantor or a Restricted Subsidiary;
2. the lease is for a period not in excess of 36 months (or which may be terminated by either Obligor or any of its Subsidiaries within a period of not more than 36 months);

3. the Obligors would be able to incur Indebtedness secured by a Lien with respect to such Sale and Leaseback Transaction without equally and ratably securing the notes pursuant to the second enumerated item of the “Limitation on liens” subsection described above (other than in reliance on clause (20) of the definition of “Permitted Liens”); or
4. the Issuer, the Guarantor or such Restricted Subsidiary within 365 days after the sale of such property in connection with such Sale and Leaseback Transaction is completed, applies an amount equal to the net proceeds of the sale of such property to (i) the redemption of notes of the applicable series, other Indebtedness of the Issuer ranking on a parity with the notes of the applicable series in right of payment or Indebtedness of the Issuer, the Guarantor or a Restricted Subsidiary or (ii) the purchase of other property; *provided* that, in lieu of applying such amount to the retirement of Pari Passu Indebtedness, the Issuer may deliver notes to the Trustee or other appointed agent for cancellation; such notes to be credited at the cost thereof to the Issuer.

Consolidation, merger and sale of assets. Neither the Issuer nor the Guarantor will, in a single transaction or series of related transactions, consolidate, amalgamate or merge with or into any Person, or sell, assign, transfer, lease, convey or otherwise dispose of (or cause or permit any Restricted Subsidiary of the Guarantor to sell, assign, transfer, lease, convey or otherwise dispose of) all or substantially all of the Issuer or the Guarantor’s assets (determined on a consolidated basis for the Guarantor and the Guarantor’s Restricted Subsidiaries) whether as an entirety or substantially as an entirety to any Person unless:

1. in the case of the Issuer, the Issuer shall be the surviving or continuing Person, or the Person (if other than the Issuer) formed by such consolidation or amalgamation into which the Issuer is merged or the Person which acquires by sale, assignment, transfer, lease, conveyance or other disposition the properties and assets of the Issuer substantially as an entirety (the “Issuer Surviving Entity”) (A) shall be an entity organized and validly existing under the laws of Canada or any province or territory thereof, the United States or any State thereof or the District of Columbia; and (B) shall expressly assume, by supplemental indenture (in form satisfactory to the Trustee), executed and delivered to the Trustee, the due and punctual payment of the principal of, and premium, if any, interest on all of the notes of the applicable series and the performance of every covenant of the notes and the Indentures on the part of the Issuer to be performed or observed;
2. in the case of the Guarantor, the Guarantor shall be the surviving or continuing Person, or the Person (if other than the Guarantor) formed by such consolidation or into which the Guarantor is merged or the Person which acquires by sale, assignment, transfer, lease, conveyance or other disposition the properties and assets of the Guarantor and of the Guarantor’s Restricted Subsidiaries substantially as an entirety (the “Guarantor Surviving Entity”) (A) shall be an entity organized and validly existing under the laws of the United States or any State thereof or the District of Columbia; and (B) shall expressly assume, by supplemental indenture (in form satisfactory to the Trustee), executed and delivered to the Trustee, the performance of the guarantee and every covenant of the notes of the applicable series and the applicable Indenture on the part of the Guarantor to be performed or observed;
3. immediately before and immediately after giving effect to such transaction and the assumption contemplated by clause 1(B) and clause 2(B) above, no Default or Event of Default shall have occurred or be continuing; and
4. the Issuer, or the Issuer Surviving Entity and the Guarantor, or the Guarantor Surviving Entity shall have delivered to the Trustee an officers’ certificate and an opinion of counsel, each stating that such consolidation, amalgamation, merger, sale, assignment, transfer, lease, conveyance or other disposition and, if a supplemental indenture is required in connection with such transaction, such supplemental indenture complies with the applicable provisions of the Indentures and that all conditions precedent in the Indentures relating to such transaction have been satisfied.

For purposes of the foregoing, the transfer (by lease, assignment, sale or otherwise, in a single transaction or series of transactions) of all or substantially all of the properties or assets of one or more Restricted Subsidiaries of the Guarantor, in a single or a series of related transactions, which properties and assets, if held by the Guarantor instead of such Restricted Subsidiaries, would constitute all or substantially all of the

properties and assets of the Guarantor on a consolidated basis, shall be deemed to be the transfer of all or substantially all of the properties and assets of the Guarantor.

Notwithstanding the foregoing clauses 1, 2 and 3, but subject to the proviso in clause 1(A) and clause 2(A), the Issuer and the Guarantor may merge with (a) any of the Guarantor's Wholly Owned Restricted Subsidiaries, (b) in the case of the Issuer, the Guarantor, or (c) an Affiliate that is a Person that has no material assets or liabilities and which was organized solely for the purpose of reorganizing the Issuer or the Guarantor in another jurisdiction.

Each Indenture will provide that upon any consolidation, amalgamation, combination or merger or any transfer of all or substantially all of the assets of the Issuer or the Guarantor in accordance with the foregoing in which the Issuer or the Guarantor is not the continuing Person, the successor Person formed by such consolidation or amalgamation into which the Issuer or the Guarantor is merged or to which such conveyance, lease or transfer is made shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer and the Guarantor under the applicable Indenture and the applicable series of notes with the same effect as if such surviving entity had been named as such and all financial information and reports required by the Indentures shall be provided by and for such surviving entity.

For the avoidance of doubt, following an Equinix Substitution, this covenant shall cease to apply to the Issuer. Nothing in this covenant shall prevent the Guarantor from consummating an Equinix Substitution or prevent the Guarantor or any Restricted Subsidiary from consummating the Guarantor Conversion.

Reports to Holders. Whether or not the Guarantor is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act, the Guarantor must provide the Trustee and, upon request, to any Holder of the notes within fifteen (15) Business Days after filing, or in the event no such filing is required, within fifteen (15) Business Day after the end of the time periods specified in those sections with:

- (1) all quarterly and annual financial information that would be required to be contained in a filing with the SEC on Forms 10-Q and 10-K if the Guarantor were required to file such forms, including a "Management's Discussion and Analysis of Financial Condition and Results of Operations" and, with respect to the annual financial statements only, a report thereon by the Guarantor's certified independent accountants, and
- (2) all current reports that would be required to be filed with the SEC on Form 8-K if the Guarantor were required to file such reports;

provided that the foregoing delivery requirements shall be deemed satisfied if the foregoing materials are available on the SEC's EDGAR system or on the Guarantor's website within the applicable time period.

In addition, whether or not required by the SEC, the Guarantor will, if the SEC will accept the filing, file a copy of all of the information and reports referred to in clauses (1) and (2) with the SEC for public availability within the time periods specified in the SEC's rules and regulations. In addition, the Guarantor will make the information and reports available to securities analysts and prospective investors upon request. If the Guarantor had any Unrestricted Subsidiaries during the relevant period, the Guarantor will also provide to the Trustee and, upon request, to any Holder of the notes, information sufficient to ascertain the financial condition and results of operations of the Guarantor and its Restricted Subsidiaries, excluding in all respects the Unrestricted Subsidiaries.

Notwithstanding anything to the contrary herein, the Obligors will not be deemed to have failed to comply with any of its obligations hereunder for purposes of clause (3) under "— Events of Default" until 90 days after the date any report hereunder is due to be delivered to the Trustee.

Events of Default

The following events are defined in each Indenture as "Events of Default":

- (1) the failure to pay interest on any notes of the applicable series when the same becomes due and payable and the Default continues for a period of 30 days;
- (2) the failure to pay the principal on any notes of the applicable series, when such principal becomes

- due and payable, at maturity, upon redemption or otherwise (including the failure to make a payment to purchase the notes tendered pursuant to a Change of Control Offer) on the date specified for such payment in the applicable offer to purchase;
- (3) a Default in the observance or performance of any other covenant or agreement contained in the applicable Indenture which Default continues for a period of 60 days after the Obligor receives written notice specifying the Default (and demanding that such Default be remedied) from the Trustee or the Holders of at least 25% of the outstanding principal amount of the notes of the applicable series (except in the case of a Default with respect to the “Consolidation, merger and sale of assets” covenant, which will constitute an Event of Default with such notice requirement but without such passage of time requirement);
 - (4) the failure to pay at final maturity (giving effect to any applicable grace periods and any extensions thereof) the stated principal amount of any Indebtedness of the Issuer, the Guarantor or any Restricted Subsidiary of the Guarantor, or the acceleration of the final stated maturity of any such Indebtedness (which acceleration is not rescinded, annulled or otherwise cured within 30 days of receipt by the Issuer, the Guarantor or such Restricted Subsidiary of notice of any such acceleration) if the aggregate principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness in default for failure to pay principal at final stated maturity or which has been so accelerated (in each case with respect to which the 30-day period described above has passed), equals \$500.0 million or more at any time;
 - (5) certain events of bankruptcy affecting the Issuer, the Guarantor or any of its Material Subsidiaries; or
 - (6) the Guarantor’s guarantee ceases to be in full force and effect, other than in accordance with the terms of the applicable Indenture, or the Guarantor denies or disaffirms in writing its obligations under its guarantee of the applicable series of notes, other than in accordance with the terms thereof or upon release of its guarantee of the applicable series of notes in accordance with the applicable Indenture.

If an Event of Default (other than an Event of Default specified in clause (5) above with respect to the Issuer or the Guarantor) shall occur and be continuing with respect to a series of notes, the Trustee or the Holders of at least 25% in principal amount of outstanding notes of such series may declare the principal of and accrued interest on all the notes of such series to be due and payable by notice in writing to the Obligor and the Trustee specifying the respective Event of Default and that it is a “notice of acceleration,” and the same shall become immediately due and payable.

If an Event of Default specified in clause (5) above with respect to the Issuer or the Guarantor occurs and is continuing with respect to a series of notes, then all unpaid principal of, and premium, if any, and accrued and unpaid interest on all of the outstanding notes of such series shall ipso facto become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder.

Each Indenture will provide that, at any time after a declaration of acceleration with respect to the applicable series of notes as described in the preceding paragraphs, the Holders of a majority in principal amount of such notes may rescind and cancel such declaration and its consequences:

1. if the rescission would not conflict with any judgment or decree;
2. if all existing Events of Default have been cured or waived except nonpayment of principal or interest that has become due solely because of the acceleration;
3. to the extent the payment of such interest is lawful, interest on overdue installments of interest and overdue principal, which has become due otherwise than by such declaration of acceleration, has been paid;
4. if the Issuer has paid the Trustee its reasonable compensation and reimbursed the Trustee for its expenses, disbursements and advances; and
5. in the event of the cure or waiver of an Event of Default of the type described in clause (5) of the

description above of Events of Default, the Trustee shall have received an officers' certificate and an opinion of counsel that such Event of Default has been cured or waived. No such rescission shall affect any subsequent Default or impair any right consequent thereto.

The Holders of a majority in principal amount of any series of notes may waive any existing Default or Event of Default under the applicable Indenture, and its consequences, except a default in the payment of the principal of or interest on any notes of such series.

Holders of a series of notes may not enforce the applicable Indenture or the notes except as provided in the applicable Indenture and under the Trust Indenture Act. Subject to the provisions of the Indentures relating to the duties of the Trustee, the Trustee is under no obligation to exercise any of its rights or powers under the Indentures at the request, order or direction of any of the Holders, unless such Holders have offered, and if requested, provide to the Trustee indemnity satisfactory to the Trustee. Subject to all provisions of the applicable Indenture and applicable law, the Holders of a majority in aggregate principal amount of a then outstanding series of notes have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee.

Under the Indentures, the Obligor are required to provide an officers' certificate to the Trustee promptly upon any such officer obtaining knowledge of any Default or Event of Default (*provided* that such officers shall provide such certification at least annually whether or not they know of any Default or Event of Default) that has occurred and, if applicable, describe such Default or Event of Default and the status thereof.

No Personal Liability of Directors, Officers, Employees and Stockholders

No past, present or future director, officer, employee, incorporator, agent, stockholder or Affiliate of the Issuer and the Guarantor, as such, shall have any liability for any obligations of the Obligor under the notes or under the Indentures or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder of notes by accepting a note waives and releases all such liabilities. The waiver and release are part of the consideration for the issuance of the notes. Such waiver may not be effective to waive liabilities under federal securities law, and it is the view of the SEC that such a waiver is against public policy.

Legal Defeasance and Covenant Defeasance

The Issuer may, at its option and at any time, elect to have its obligations discharged with respect to the outstanding notes of any series ("Legal Defeasance"). Such Legal Defeasance means that the Issuer shall be deemed to have paid and discharged the entire Indebtedness represented by the outstanding notes of the applicable series, except for:

1. the rights of Holders to receive payments in respect of the principal of, premium, if any, and interest on the notes of the applicable series when such payments are due;
2. the Issuer's obligations with respect to the applicable series of notes concerning issuing temporary notes, registration of notes, mutilated, destroyed, lost or stolen notes and the maintenance of an office or agency for payments;
3. the rights, powers, trust, duties and immunities of the Trustee and the Obligor's obligations in connection therewith; and
4. the Legal Defeasance provisions of the applicable Indenture.

In addition, the Issuer may, at its option and at any time, elect to have the obligations of the Obligor released with respect to certain covenants that are described in the applicable Indenture ("Covenant Defeasance") and thereafter any omission to comply with such obligations shall not constitute a Default or Event of Default with respect to the notes of the applicable series. In the event Covenant Defeasance occurs, certain events (not including non-payment, bankruptcy, receivership, reorganization and insolvency events) described under "— Events of Default" will no longer constitute an Event of Default with respect to the notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

1. the Issuer or the Guarantor must irrevocably deposit with the Trustee (or with a custodian or account bank appointed on behalf of the Trustee), for the benefit of the Holders, cash in Canadian dollars, non-callable Canadian government obligations, rated AAA or better by S&P and Aaa by Moody's, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay the principal of, premium, if any, and interest on the notes of the applicable series on the stated date for payment thereof or on the applicable redemption date, as the case may be;
2. in the case of Legal Defeasance, the Obligors shall have delivered to the Trustee an opinion of counsel in Canada in form reasonably acceptable to the Trustee confirming that:
 - (a) the Obligors have received from, or there has been published by the Canada Revenue Agency a ruling; or
 - (b) since the date of the Indenture, there has been a change in the applicable federal income tax law,

in either case to the effect that, and based thereon such opinion of counsel shall confirm that, beneficial owners of the notes of the applicable series will not recognize income, gain or loss for Canadian federal income tax purposes as a result of such Legal Defeasance and will be subject to Canadian federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;
3. in the case of Covenant Defeasance, the Obligors shall have delivered to the Trustee an opinion of counsel in Canada in form reasonably acceptable to the Trustee confirming that beneficial owners of the notes will not recognize income, gain or loss for Canadian federal income tax purposes as a result of such Covenant Defeasance and will be subject to Canadian federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;
4. no Default or Event of Default shall have occurred and be continuing on the date of such deposit (other than a Default or an Event of Default resulting from the borrowing of funds to be applied to such deposit and the grant of any Lien securing such borrowings);
5. such Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a Default under the applicable Indenture (other than a Default or an Event of Default resulting from the borrowing of funds to be applied to such deposit and the grant of any Lien securing such borrowings) or any other material agreement or instrument to which the Issuer, the Guarantor or a Restricted Subsidiary of the Guarantor is a party or by which the Issuer, the Guarantor or a Restricted Subsidiary of the Guarantor is bound;
6. the Obligors shall have delivered to the Trustee an officers' certificate stating that the deposit was not made by the Issuer or the Guarantor, as applicable, with the intent of preferring the Holders over any other creditors of the Issuer or the Guarantor, as applicable, or with the intent of defeating, hindering, delaying or defrauding any other creditors of the Issuer, the Guarantor or others;
7. the Obligors shall have delivered to the Trustee an officers' certificate and an opinion of counsel, which opinion may be subject to customary assumptions and exclusions, each stating that all conditions precedent provided for or relating to the Legal Defeasance or the Covenant Defeasance have been complied with; and
8. certain other customary conditions precedent are satisfied.

Notwithstanding the foregoing, the opinion of counsel required by clause 2 above with respect to a Legal Defeasance need not be delivered if all notes of the applicable series not theretofore delivered to the Trustee or other appointed agent for cancellation (1) have become due and payable or (2) will become due and payable on the maturity date or a redemption date within one year under arrangements reasonably

satisfactory to the Trustee or other appointed agent for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Issuer.

Satisfaction and Discharge

An Indenture will be discharged and will cease to be of further effect (except as to surviving rights or registration of transfer or exchange of the notes of the applicable series, as expressly provided for in such Indenture) as to all outstanding notes of such series when:

1. either:
 - (a) all notes of the applicable series theretofore authenticated and delivered (except lost, stolen or destroyed notes which have been replaced or paid and notes for whose payment money has theretofore been deposited in trust or segregated and held in trust by the Issuer and thereafter repaid to the Issuer or discharged from such trust) have been delivered to the Trustee or other appointed agent for cancellation; or
 - (b) all notes of the applicable series not theretofore delivered to the Trustee or other appointed agent for cancellation (1) have become due and payable or (2) will become due and payable within one year, or are to be called for redemption within one year, under arrangements reasonably satisfactory to the Trustee for the giving of notice of redemption by the Trustee or other appointed agent in the name, and at the expense, of the Issuer, and the Issuer or the Guarantor has irrevocably deposited or caused to be deposited with the Trustee (or with a custodian or account bank appointed on behalf of the Trustee), funds in an amount in cash in Canadian dollars, non-callable Canadian government obligations, rated AAA or better by S&P and Aaa by Moody's, or a combination thereof, sufficient to pay and discharge the entire Indebtedness on the applicable series of notes not theretofore delivered to the Trustee or other appointed agent for cancellation, for principal of, premium, if any, and interest on the applicable series of notes to the date of maturity or redemption, as the case may be, together with irrevocable instructions from the Issuer directing the Trustee to apply such funds to the payment thereof at maturity or redemption, as the case may be;
2. the Issuer or the Guarantor has paid all other sums payable under such Indenture by it with respect to the applicable series of notes; and
3. the Obligors have delivered to the Trustee an officers' certificate and an opinion of counsel, which opinion may be subject to customary assumptions and exclusions, stating that all conditions precedent under such Indenture relating to the satisfaction and discharge of such Indenture have been complied with.

Modification of the Indentures

Except as provided in the next two succeeding paragraphs, the Obligors and the Trustee with the consent of the Holders of at least a majority in aggregate principal amount of the notes of a series then outstanding (including consents obtained in connection with a tender offer or exchange offer for such notes) may amend the applicable Indenture or the notes of such series and the Holders of at least a majority in aggregate principal amount of the notes of a series outstanding may waive any past Default or compliance with any provisions of the applicable Indenture or the notes of such series.

Without the consent of each Holder of an outstanding note of a series, no amendment or waiver may:

1. reduce the principal amount, or extend the fixed maturity, of the notes of such series, alter or waive the redemption provisions of the notes of such series;
2. change the currency in which principal, any premium or interest is paid;
3. reduce the percentage in principal amount outstanding of the notes of such series which must consent to an amendment, supplement or waiver or consent to take any action;
4. impair the right to institute suit for the enforcement of any payment on the notes of such series or any guarantee;

5. waive a payment Default with respect to the notes of such series or any guarantor;
6. reduce the interest rate or extend the time for payment of interest on the notes of such series;
7. adversely affect the ranking of the notes of such series;
8. release the Guarantor from any of its obligations under its guarantee or the applicable Indenture, except in compliance with the terms of such Indenture; or
9. after the Issuer's obligation to purchase notes of such series arises thereunder, amend, change or modify in any material respect the obligation of the Issuer to make and consummate a Change of Control Offer in the event of a Change of Control Triggering Event or, after such Change of Control Triggering Event has occurred, modify any of the provisions or definitions with respect thereto.

Each Indenture and the notes of the applicable series may be amended by the Obligors and the Trustee without the consent of any Holder of the notes of such series to:

1. cure any ambiguity, defect or inconsistency;
2. provide for the assumption by an Issuer Surviving Entity of the obligations of the Issuer under the applicable Indenture and/or the assumption by a Guarantor Surviving Entity of the obligations of the Guarantor under such Indenture;
3. provide for uncertificated notes in addition to or in place of certificated notes of such series;
4. add additional guarantees with respect to the notes of such series or confirm and evidence the release, termination or discharge of any security or guarantee when such release, termination or discharge is permitted by the applicable Indenture;
5. secure the notes of such series, add to the covenants of the Obligors for the benefit of the Holders of the notes of such series or surrender any right or power conferred upon the Obligors;
6. make any change that does not adversely affect the rights of any Holder of the notes of such series;
7. comply with any requirement of the SEC in connection with the qualification of the applicable Indenture under the Trust Indenture Act;
8. provide for the issuance of Additional Notes in accordance with the applicable Indenture;
9. evidence and provide for the acceptance of appointment by a successor Trustee;
10. conform the text of the applicable Indenture or the notes of such series to any provision of this "Description of Notes" to the extent that such provision in this "Description of Notes" was intended to be a recitation of a provision of such Indenture or such notes;
11. make any amendment to the provisions of the applicable Indenture relating to the transfer and legending of the notes of such series as permitted by such Indenture, including, without limitation to facilitate the issuance and administration of the notes of such series; *provided* that
 - (i) compliance with the applicable Indenture as so amended would not result in the notes of such series being transferred in violation of the Securities Act or any applicable securities law and
 - (ii) such amendment does not materially and adversely affect the rights of Holders to transfer the notes of such series; or
12. to evidence the substitution of the Guarantor for the Issuer and the assumption by the Guarantor of the rights, powers, covenants, agreements and obligations of the Issuer pursuant to the relevant provisions in the applicable Indenture.

The consent of the Holders of the notes of an applicable series is not necessary to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

Governing Law

The Indentures will provide that the Indentures, the notes and the guarantees will be governed by, and construed in accordance with, the laws of the State of New York but without giving effect to applicable principles of conflicts of law to the extent that the application of the law of another jurisdiction would be required thereby.

The Trustee

Each Indenture will provide that, except during the continuance of an Event of Default, the Trustee will perform only such duties as are specifically set forth in such Indenture. During the existence of an Event of Default, the Trustee will exercise such rights and powers vested in it by the applicable Indenture, and use the same degree of care and skill in its exercise as a prudent person would exercise or use under the circumstances in the conduct of his own affairs.

The Indentures and the provisions of the Trust Indenture Act contain certain limitations on the rights of the Trustee, should it become a creditor of the Issuer or the Guarantor, to obtain payments of claims in certain cases or to realize on certain property received in respect of any such claim as security or otherwise. Subject to the Trust Indenture Act, the Trustee will be permitted to engage in other transactions; *provided* that if the Trustee acquires any conflicting interest as described in the Trust Indenture Act, it must eliminate such conflict or resign.

Board Action

Any action required or permitted to be taken by the Board of Directors of the Obligors pursuant to the terms of the Indentures may be taken by a duly constituted committee of the Board of Directors or any officer, director, or authorized representative of such Obligor, in each case duly authorized by such board to act hereunder.

Book-Entry Only Issuance

Each series of notes will be initially issued in the form of one or more fully-registered, book-entry global notes which will be deposited with, or on behalf of, CDS and registered, at the request of CDS, in the name of CDS & Co, as its nominee. The notes will settle in immediately available funds through CDS. You will not be permitted to withdraw the notes from CDS except in accordance with CDS' rules and procedures, the terms of the Indenture and the terms of the notes. You may hold interests in a global note through organizations that participate, directly or indirectly, in the CDS system.

For as long as the notes are maintained in book-entry form at CDS, CDS or its nominee will be the registered holder of the notes for all purposes and all payments on the notes will be made to CDS and payments to beneficial owners of the notes will be made in accordance with CDS' procedures and the procedures of its participants. Consequently, you will need to look to CDS and its participants through which you own your interest in the notes for any payment or to exercise any rights in respect of the notes. The Issuer has no responsibility for the actions of CDS or its participants, and your ability to receive payments or exercise any rights in respect of the notes will be subject to their procedures.

CDS is Canada's national securities depository, clearing and settlement hub, supporting Canada's equity, fixed income and money markets. Functioning as a service utility for the Canadian financial community, CDS provides a wide variety of computer automated services for financial institutions and investment dealers active in domestic and international capital markets. CDS participants include banks, investment dealers and trust companies and may include certain of the underwriters. Indirect access to CDS is available to other organizations that clear through or maintain a custodial relationship with a CDS participant. Transfers of ownership and other interests in notes in CDS, including cash distributions, may only be processed through CDS participants and will be completed in accordance with existing CDS rules and procedures. CDS is headquartered in Toronto and has offices in Montreal, Vancouver and Calgary. CDS is a subsidiary of The Canadian Depository for Securities Limited, part of TMX Group Limited. It is affiliated with CDS Inc., which provides services to the Canadian Securities Administrators, and CDS Innovations Inc., a commercial marketer of CDS information products such as CDS Bulletins and entitlements information.

You may elect to hold interests in the notes outside Canada through Clearstream and Euroclear if you are a participant in those systems, or indirectly through organizations that are participants in those systems. Clearstream and Euroclear will hold interests on behalf of their participants through securities accounts in Clearstream's and Euroclear's names on the books of their respective sub-custodians. The interests are ultimately held through a CDS participant that acts as sub-custodian for Clearstream or Euroclear, as applicable. Cross-market transfers between persons holding directly or indirectly through CDS participants, on the one hand, and directly or indirectly through Clearstream participants or Euroclear participants, on the other, will be effected in CDS in accordance with CDS rules; however, such cross-market transactions will require delivery of instructions to the relevant clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines. The relevant clearing system will, if the transaction meets its settlement requirements, deliver instructions to CDS directly or through its Canadian sub-custodian to take action to effect final settlement on its behalf by delivering or receiving notes in CDS, and making or receiving payment in accordance with normal procedures for settlement in CDS. Clearstream participants and Euroclear participants may not deliver instructions directly to CDS or the Canadian sub-custodians.

Because of time-zone differences, credits of the notes received in Clearstream or Euroclear as a result of a transaction with a CDS participant may be made during subsequent securities settlement processing and dated the Business Day following the CDS settlement date. Such credits or any transactions in such notes settled during such processing will be reported to the relevant Clearstream participants or Euroclear participants on such Business Day. Cash received in Clearstream or Euroclear as a result of sales of the notes by or through a Clearstream participant or a Euroclear participant to a CDS participant will be received with value on the CDS settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the Business Day following settlement in CDS.

Although CDS, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of the notes among participants of CDS, Clearstream and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be modified or discontinued at any time. None of the Issuer, Equinix, Inc. or the Trustee will have any responsibility for the performance by CDS, Clearstream or Euroclear or their respective direct or indirect participants of their obligations under the rules and procedures governing their operations.

The information in this section concerning CDS, Clearstream and Euroclear and their book-entry systems and procedures has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

Form, Denomination and Book-Entry

The notes, subject to certain exceptions, will at all times be represented in the form of one or more global note held by, or on behalf of, CDS, as custodian of the global notes (for its participants) and registered in the name of CDS & Co., and registrations of interests in and transfers of the notes will be made only through the book-entry only system of CDS. Except as described below, owners of beneficial interests in the notes will not be entitled to a certificate or other instrument from us or CDS evidencing the purchaser's ownership thereof, and owners of beneficial interests in the notes held through CDS and its participants will not be shown on the records maintained by CDS, although the Issuer expects that such beneficial interests will be reflected through book-entry accounts of CDS' direct and indirect participants acting on behalf of such beneficial owners. Each purchaser of notes represented by a global note is expected to receive a customer confirmation of purchase from the underwriter or other registered dealer from which the notes are purchased in accordance with the practices and procedures of the selling underwriter or dealer. The practices of the underwriters may vary but, generally, customer confirmations are issued promptly after execution of a customer order. CDS will be responsible for establishing and maintaining book-entry accounts for its participants having interests in a global note, and CDS' direct and indirect participants will be responsible for maintaining book-entry accounts for beneficial owners holding interest in such global note. Sales of interests in a global note can only be completed through participants in the book-entry only depositary service of CDS.

None of the Issuer, the Guarantor, the underwriters, the Trustee or the security registrar and paying agent will assume any liability for: (a) any aspect of the records relating to the beneficial ownership of the

notes held by CDS or any of its direct or indirect participants or the payments relating thereto; (b) maintaining, supervising or retaining any records of CDS relating to the notes held by CDS; or (c) any advice or representation made by, or with respect to, CDS or any action to be taken by CDS or at the direction of its participants.

No global note will be exchanged by the Obligor for a certificated note in definitive fully-registered form unless (i) the Issuer delivers to the Trustee and any other applicable agent notice from CDS that it is unwilling or unable to continue to act as the depository or that it is no longer a clearing agency registered under the applicable Canadian securities laws and, in either case, a successor depository is not appointed by the Issuer within 120 days after the date of such notice from the depository; (ii) the Obligor in their sole discretion determine that the global notes should be exchanged for certificated notes and deliver a written notice to such effect to the Trustee and agents; or (iii) there has occurred and is continuing an Event of Default with respect to the notes of which an officer of the Trustee has received actual notice and the registrar has received a request from the depository to issue such certificated notes.

Transfers of Notes

Transfers of beneficial ownership of notes represented by a global note will be effected only through records maintained by CDS for such global note (with respect to interests of participants) and on the records of its direct and indirect participants (with respect to interests of persons other than participants). Beneficial owners who are not participants in the book-entry only depository service of CDS, but who desire to purchase, sell or otherwise transfer ownership of or other interests in a global note, may do so only through participants in the book-entry only depository service of CDS.

The ability of a beneficial owner of an interest in a note of each series represented by a global note to pledge such notes or otherwise take action with respect to such owner's interest in the notes represented by a global note (other than through a participant) may be limited due to the lack of possession of a certificate representing physical notes.

If certificated notes are issued, registration of transfers or exchanges of such certificated notes may be made by delivery of those certificated notes, duly endorsed or accompanied by instruments of transfer duly endorsed, by the registered holders thereof, at the office of the security registrar for the notes.

If a regular record date is a Legal Holiday, the record date shall not be affected.

“*Lien*” means any lien, mortgage, deed of trust, pledge, security interest, charge or encumbrance of any kind (including any conditional sale or other title retention agreement, any lease in the nature thereof and any agreement to give any security interest); *provided* that, in any event and not in limitation of the foregoing, a lease shall not be deemed to be a Lien if such lease is classified as an operating lease under GAAP.

“*Material Subsidiary*” means a “significant subsidiary” as defined in Rule 1-02(w) of Regulation S-X under the Securities Act.

- (14) leases, subleases, licenses and sublicenses granted to others that do not materially interfere with the ordinary course of business of the Guarantor and its Restricted Subsidiaries;

"Rating Event" means that the notes of an applicable series are downgraded by at least one rating category from the applicable rating of such notes on the first day of the Trigger Period by two of the Rating Agencies and/or cease to be rated by two of the Rating Agencies, in each case, on any date during the Trigger Period; *provided* that a Rating Event will not be deemed to have occurred unless the rating category of the applicable series of notes is below an Investment Grade Rating by two of the Rating Agencies; *provided, further*, that a Rating Event will not be deemed to have occurred in respect of a particular Change of Control if each applicable downgrading Rating Agency does not publicly announce or confirm or inform the Trustee in writing at the Issuer's request that the reduction was the result of the Change of Control (whether or not the applicable Change of Control has occurred at the time of the Change of Control Triggering Event). Notwithstanding the foregoing, no Rating Event will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated; *provided* that in the event that a Rating Agency does not provide a rating of an applicable series of notes on the first day of the Trigger Period, such absence of rating shall be treated as both a downgrade in the rating of such notes below an Investment Grade Rating by such Rating Agency and a downgrade that results in such notes no longer being rated at the rating category in effect on the first day of

the Trigger Period by such Rating Agency, in each case, and shall not be subject to the second proviso in the immediately preceding sentence. The Trustee shall have no obligation to determine whether a Rating Event has occurred.

“*REIT*” means a “real estate investment trust” as defined and taxed under Sections 856-860 of the Code.

- (2) any other Person of which at least a majority of the voting interest under ordinary circumstances is at the time, directly or indirectly, owned by such Person.

“*Tax*” or “*Taxes*” means all present and future taxes, levies, imposts, deductions, charges, duties and withholdings (including backup withholdings), fees and any charges of a similar nature (including interest, fines, penalties and other liabilities with respect thereto) that are imposed by any government or other taxing authority.

“*Trigger Period*” means the 60-day period commencing on the earlier of (i) the occurrence of a Change of Control or (ii) the first public announcement of the occurrence of a Change of Control or the Guarantor’s intention to effect a Change of Control (which Trigger Period will be extended so long as the ratings of the applicable series of notes are under publicly announced consideration for possible downgrade by any two of the three Rating Agencies); *provided* that the Trigger Period will terminate with respect to each Rating Agency when such Rating Agency takes action (including affirming its existing ratings) with respect to such Change of Control.

“*Unrestricted Subsidiary*” of any Person means:

- (1) any Subsidiary of such Person that at the time of determination shall be or continue to be designated an Unrestricted Subsidiary by the Board of Directors of such Person in the manner provided below; and
- (2) any Subsidiary of an Unrestricted Subsidiary.

The Board of Directors of the Guarantor may designate any Subsidiary (including any newly acquired or newly formed Subsidiary) to be an Unrestricted Subsidiary unless such Subsidiary owns any Capital Stock of, or owns or holds any Lien on any property of, the Guarantor or any other Subsidiary of the Guarantor that is not a Subsidiary of the Subsidiary to be so designated; *provided* that each Subsidiary to be so designated and each of its Subsidiaries has not at the time of designation, and does not thereafter, create, incur, issue,

assume, guarantee or otherwise become directly or indirectly liable with respect to any Indebtedness pursuant to which the lender has recourse to any of the assets of the Guarantor or any of its Restricted Subsidiaries.

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary only if, immediately before and immediately after giving effect to such designation, no Default or Event of Default shall have occurred and be continuing. Any such designation by the Board of Directors shall be evidenced to the Trustee by promptly filing with the Trustee a copy of the Board Resolution giving effect to such designation and an officers' certificate certifying that such designation complied with the foregoing provisions.

"Wholly Owned Restricted Subsidiary" means a Restricted Subsidiary, all of the Capital Stock of which (other than directors' qualifying shares) is owned by the Guarantor or another Wholly Owned Restricted Subsidiary.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following are the material U.S. federal income tax consequences of ownership and disposition of each series of notes and should be applied separately to each series. This discussion applies only to notes that are:

- held by those initial investors who purchased such notes in this offering at the “issue price,” which will equal the first price at which a substantial amount of the applicable series of notes is sold for money to investors (not including bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers); and
- held as capital assets within the meaning of the Internal Revenue Code of 1986, as amended (the “Code”).

This discussion does not describe any state, local or non-U.S. tax consequences or any U.S. federal tax consequences other than income tax consequences (such as estate or gift tax consequences). This discussion does not describe all of the U.S. federal income tax consequences that may be relevant to an investor in light of the investor’s particular circumstances, including any minimum tax or Medicare contribution tax consequences, or tax consequences applicable to holders subject to special rules, such as:

- banks or other financial institutions;
- insurance companies;
- regulated investment companies or real estate investment trusts;
- dealers in securities;
- traders in securities that use a mark-to-market method of tax accounting;
- persons holding notes as part of a “straddle,” integrated transaction or similar transaction;
- persons required for U.S. federal income tax purposes to conform the timing of income accruals with respect to the notes to their financial statements under Section 451(b) of the Code;
- U.S. Holders (as defined below) whose functional currency is not the U.S. dollar;
- U.S. expatriates;
- entities classified as partnerships for U.S. federal income tax purposes (and investors in such entities);
- any purchasers of the notes that are holders of any obligations that may be paid using the proceeds from the issuance of the notes; or
- tax-exempt entities.

If an entity or arrangement that is classified as a partnership for U.S. federal income tax purposes holds notes, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. Partnerships considering an investment in the notes and partners in such partnerships should consult their tax advisors as to their particular U.S. federal income tax consequences of holding and disposing of the notes.

This summary is based on the Code, administrative pronouncements, judicial decisions and final, temporary and proposed Treasury Regulations, changes to or different interpretations of any of which subsequent to the date of this prospectus supplement may affect the tax consequences described herein, possibly on a retroactive basis. Persons considering the purchase of notes are urged to consult their tax advisors with regard to the application of the U.S. federal income tax laws to their particular situations as well as any tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

The notes are treated for U.S. federal income tax purposes as issued by a “United States person” within the meaning of Section 7701(a)(30) of the Code. Therefore, interest income on the notes generally is expected to be treated as U.S.-source income for U.S. federal income tax purposes.

Tax Consequences to U.S. Holders

As used herein, the term “U.S. Holder” means a beneficial owner of a note that is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation, or other entity taxable as a corporation, created or organized under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if a court within the U.S. is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or, to the extent provided in Treasury regulations, a trust in existence on August 20, 1996 that has elected to be treated as a domestic trust.

Potential contingent payment debt treatment. Under certain circumstances, we may pay holders amounts in excess of the stated interest and principal payable on the notes or in advance of their scheduled payment dates. For instance, we would be required to offer to repurchase notes in the circumstances described under “Description of Notes — Change of Control Triggering Event.” Although the issue is not free from doubt, we intend to take the position that the possibility of such contingencies does not result in the notes being treated as contingent payment debt instruments (including nonfunctional currency contingent payment debt instruments) under the applicable Treasury Regulations. Our position is binding on a U.S. Holder unless such U.S. Holder discloses a contrary position in the manner required by applicable Treasury Regulations. A successful challenge of this position by the Internal Revenue Service (“IRS”) could adversely affect the timing and amount of a U.S. Holder’s income and could cause any gain from the sale or other disposition of a note to be treated as ordinary income. U.S. Holders should consult their tax advisors regarding the tax consequences of the notes being treated as contingent payment debt instruments. The remainder of this discussion assumes that the notes are not treated as contingent payment debt instruments.

Payments of interest. Stated interest on a note will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with such U.S. Holder’s method of accounting for U.S. federal income tax purposes. It is expected, and therefore this discussion assumes, that the notes will be issued without original issue discount for U.S. federal income tax purposes. Interest income will be treated as U.S.-source income for U.S. federal income tax purposes, which may be relevant to a U.S. Holder in calculating the U.S. Holder’s foreign tax credit limitation.

U.S. Holders that use the cash method of accounting for U.S. federal income tax purposes will be required to include in income the U.S. dollar value of a CAD interest payment determined based on the spot rate on the date the payment is received, regardless of whether the payment is in fact converted into U.S. dollars. Such U.S. Holders generally will not recognize foreign currency exchange gain or loss with respect to the receipt of interest payments. U.S. Holders that use the accrual method of accounting for U.S. federal income tax purposes will accrue interest income on the notes in CAD and translate that amount into U.S. dollars at the average rate of exchange for the accrual period (or, with respect to an accrual period that spans two taxable years, at the average rate of exchange for the partial period within the taxable year). Alternatively, an accrual-method U.S. Holder may elect to translate accrued interest income into U.S. dollars at the spot rate in effect on the last day of the accrual period (or the last day of the taxable year, in the case of a partial accrual period) or at the spot rate on the date the payment is received, if that date is within five business days of the last day of the accrual period. This election must be applied consistently to all debt instruments from year to year and cannot be changed without the consent of the IRS. Accrual-method U.S. Holders will recognize foreign currency exchange gain or loss in an amount equal to the difference between the U.S. dollar value of a CAD interest payment received in respect of an accrual period (determined based on the spot rate on the date the payment is received) and the U.S. dollar value of interest income that has accrued during the accrual period (as described above), regardless of whether the payment is in fact converted into U.S. dollars. Any foreign currency exchange gain or loss will generally be treated as U.S.-source ordinary income or loss.

Sale, exchange, redemption, retirement or other taxable disposition of the notes. Upon the sale, exchange, redemption, retirement or other taxable disposition of a note, a U.S. Holder will generally

recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange, redemption, retirement or other taxable disposition of the note and the U.S. Holder's tax basis in the note. For these purposes, the amount realized does not include any amount attributable to accrued stated interest. Amounts attributable to accrued stated interest are treated as interest as described under "— Payments of interest" above. A U.S. Holder's tax basis in a note will generally be the U.S. dollar value of the CAD amount paid for the note, generally determined on the date of the purchase. However, if the notes are traded on an established securities market, and the U.S. Holder is a cash-method taxpayer (or an accrual-method taxpayer that so elects), the U.S. Holder will determine the U.S. dollar value of the CAD amount paid for the note at the spot rate on the settlement date of the purchase. An accrual-method U.S. Holder that makes this election must apply it consistently to all debt instruments from year to year and cannot change the election without the consent of the IRS. If a note is sold, exchanged or otherwise disposed of in a taxable transaction for an amount denominated in CAD, a U.S. Holder's amount realized generally will equal the U.S. dollar value of the CAD received in the sale, exchange or other taxable disposition, generally calculated at the spot rate in effect on the date of the disposition (or the settlement date of the disposition if the notes are traded on an established securities market and the U.S. Holder is a cash method taxpayer or an electing accrual method taxpayer, as described above). Except to the extent of foreign currency gain or loss (as described below), gain or loss recognized on the sale, exchange, redemption, retirement or other taxable disposition of a note will generally be capital gain or loss and will be long-term capital gain or loss if at the time of sale, exchange, redemption, retirement or other taxable disposition the note has been held for more than one year. Long-term capital gains recognized by non-corporate U.S. Holders are subject to reduced tax rates. The deductibility of capital losses may be subject to limitations.

A U.S. Holder may recognize foreign currency gain or loss upon the sale, exchange, redemption, retirement or other taxable disposition of a note as a result of fluctuations in the CAD-U.S. dollar exchange rate. Gain or loss attributable to such fluctuations will equal the difference between (i) the U.S. dollar value of the U.S. Holder's purchase price in CAD of the note, determined using the spot rate on the date the note is disposed of (or, possibly, in the case of cash method or electing accrual method taxpayers, the settlement date of such disposition, if the note is treated as traded on an established securities market), and (ii) the U.S. dollar value of the U.S. Holder's purchase price in CAD of the note, determined using the spot rate on the date the U.S. Holder acquired the note. The foreign currency gain or loss will be recognized only to the extent of the total gain or loss recognized by a U.S. Holder on the sale, exchange, redemption, retirement or other taxable disposition of the note. Any such gain or loss generally will be ordinary income or loss and generally will constitute U.S.-source income. If a U.S. Holder recognizes a loss upon a sale, exchange, redemption, retirement or other taxable disposition of a note and such loss is above certain thresholds (which thresholds are, in the case of individuals and trusts, significantly lower for foreign currency losses than for other loss transactions), the U.S. Holder may be required to file a disclosure statement with the IRS. U.S. Holders should consult their own tax advisors regarding this reporting obligation and the significant penalties for non-compliance.

Backup withholding and information reporting. Information returns will generally be filed with the IRS in connection with payments of interest on the notes and the proceeds from a sale, exchange, redemption, retirement or other disposition of the notes. A U.S. Holder will be subject to backup withholding on these payments if the U.S. Holder fails to provide its taxpayer identification number to the applicable withholding agent and comply with certain certification procedures or otherwise establish an exemption from backup withholding.

Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against the U.S. Holder's U.S. federal income tax liability and may entitle the U.S. Holder to a refund, *provided* that the required information is timely furnished to the IRS.

Tax Consequences to Non-U.S. Holders

As used herein, the term "Non-U.S. Holder" means a beneficial owner of a note that is, for U.S. federal income tax purposes:

- a nonresident alien individual;
- a foreign corporation; or

- a foreign estate or trust.

“Non-U.S. Holder” does not include a nonresident alien individual present in the United States for 183 days or more in the taxable year of disposition of the notes. Such a holder is urged to consult his or her own tax advisor regarding the U.S. federal income tax consequences of the ownership and disposition of the notes.

Potential contingent payment debt treatment. As described in more detail above under “Tax Consequences to U.S. Holders — Potential contingent payment debt treatment,” Equinix intends to take the position that the possibility of making payments in excess of the stated interest and principal payable on the notes, or in advance of their scheduled payment dates, under certain circumstances does not result in the notes being treated as contingent payment debt instruments (including nonfunctional currency contingent payment debt instruments). The remainder of this discussion assumes that the notes are not treated as contingent payment debt instruments.

Payments on the notes. Subject to the discussions below concerning backup withholding and FATCA, payments of principal and interest on the notes to a Non-U.S. Holder will not be subject to U.S. federal income or withholding tax, *provided* that, in the case of interest, the Non-U.S. Holder qualifies for the “portfolio interest exception,” which will be the case if:

- the Non-U.S. Holder does not own, actually or constructively, 10 percent or more of the total combined voting power of all classes of stock of the Guarantor entitled to vote and is not a controlled foreign corporation related, actually or constructively, to the Guarantor through stock ownership;
- the Non-U.S. Holder is not a bank receiving interest described in Section 881(c)(3)(A) of the Code;
- the interest is not effectively connected with the Non-U.S. Holder’s conduct of a trade or business in the United States; and
- the beneficial owner of the note certifies on a properly executed IRS Form W-8BEN or Form W8BEN-E, under penalties of perjury, that it is not a United States person.

If a Non-U.S. Holder cannot meet the above requirements, such Non-U.S. Holder will be subject to U.S. federal withholding tax at a rate of 30% (or lower applicable treaty rate) on any payments of interest on the notes that are not effectively connected with the conduct of a United States trade or business. To claim a reduction in or exemption from such withholding under an applicable treaty, the Non-U.S. Holder must provide the applicable withholding agent with a properly executed IRS Form W-8BEN or W-8BEN-E claiming such entitlement.

If a Non-U.S. Holder is engaged in a trade or business in the United States, and if interest on the note is effectively connected with the conduct of this trade or business, unless an applicable income tax treaty provides otherwise, payments of interest to the Non-U.S. Holder will be exempt from the withholding tax discussed in the preceding paragraph and will generally be taxed in the same manner as payments of interest to a U.S. Holder (see “Tax Consequences to U.S. Holders” above), except that the Non-U.S. Holder will be required to provide a properly executed IRS Form W-8ECI (or other applicable form) in order to claim an exemption from the withholding tax discussed in the preceding paragraph. Non-U.S. Holders are urged to consult their own tax advisors regarding whether an applicable income tax treaty provides for a different result and regarding other U.S. federal tax consequences of the ownership and disposition of notes, including for a corporate Non-U.S. Holder the possible imposition of a branch profits tax at a rate of 30% (or a lower treaty rate) on its effectively connected earnings and profits, subject to adjustments.

Sale, exchange, redemption, retirement or other taxable disposition of notes. Subject to the discussions below concerning backup withholding and FATCA, a Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on gain recognized on a sale, exchange, redemption, retirement or other taxable disposition of notes (other than with respect to amounts attributable to accrued interest which will be subject to tax in the manner described above), unless the gain is effectively connected with the conduct of a trade or business of the Non-U.S. Holder in the United States, subject to an applicable income tax treaty providing otherwise.

If a Non-U.S. Holder is engaged in a trade or business in the United States and gain recognized by the Non-U.S. Holder on a sale, exchange, redemption, retirement or other disposition of notes is effectively

connected with a conduct of such trade or business, the Non-U.S. Holder will generally be taxed in the same manner as a U.S. Holder (see “Tax Consequences to U.S. Holders” above), subject to an applicable income tax treaty providing otherwise. Non-U.S. Holders whose gain from dispositions of notes may be effectively connected with the conduct of a trade or business in the United States are urged to consult their own tax advisors with respect to the U.S. tax consequences of the ownership and disposition of notes, including the possible imposition of an additional branch profits tax imposed at a rate of 30% (or a lower treaty rate) on its effectively connected earnings and profits, subject to adjustments.

Backup withholding and information reporting. Information returns will be filed with the IRS in connection with payments of interest on the notes. Unless the Non-U.S. Holder complies with certification procedures to establish that it is not a United States person, information returns may be filed with the IRS in connection with the proceeds from a sale or other disposition of the notes (including a retirement or redemption) and the Non-U.S. Holder may be subject to backup withholding on payments of interest on the notes or on the proceeds from a sale or other disposition of the notes. Compliance with the certification procedures required to claim the exemption from withholding tax on interest described above will satisfy the certification requirements necessary to avoid backup withholding as well.

Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against the Non-U.S. Holder’s U.S. federal income tax liability and may entitle the Non-U.S. Holder to a refund, *provided* that the required information is timely furnished to the IRS.

FATCA

Provisions commonly referred to as “FATCA” impose U.S. federal withholding of 30% on payments of interest on the notes to “foreign financial institutions” (which is broadly defined for this purpose and in general includes investment vehicles) and certain other non-U.S. entities (whether such foreign financial institutions or other non-U.S. entities are beneficial owners or intermediaries) unless various U.S. information reporting, withholding and due diligence requirements (generally relating to ownership by U.S. persons of equity or debt interests in or accounts with those entities) have been satisfied, or an exemption applies. If FATCA withholding is imposed, a beneficial owner that is not a foreign financial institution generally will be entitled to a refund of any amounts withheld (in excess of its U.S. federal income tax liability) by filing a U.S. federal income tax return (which may entail significant administrative burden).

Although existing FATCA regulations would also impose withholding on payments of gross proceeds from the sale or other disposition (including a retirement or redemption) of the notes, under proposed regulations (the preamble to which provides that taxpayers may rely on them pending finalization), no such withholding on gross proceeds would apply. Prospective investors should consult their tax advisors regarding the effects of FATCA on their investment in the notes.

Equinix, Inc. Assumption of the Notes

As described in “Description of Notes — Guarantee”, Equinix, Inc. has the right to assume the obligations of the Issuer under the notes, at Equinix Inc.’s option, at any time. The U.S. federal income tax treatment of such an assumption will generally depend on whether the assumption results in a “modification” of the terms of the notes that is “significant” within the meaning of applicable Treasury Regulations and, if the assumption does result in a “significant modification,” whether the deemed exchange qualifies as a “recapitalization” (within the meaning of the Code and applicable Treasury Regulations). The determination of whether a modification is “significant” is generally based on all the facts and circumstances. Although the matter is not free from doubt, Equinix, Inc. anticipates and, to the extent required to take a position, intends to take the position that any such assumption should not result in a significant modification under these rules. However, each holder is urged to consult its tax advisor regarding the U.S. federal income tax consequences of any such assumption.

UNDERWRITING

We and the underwriters for the offering named below have entered into an underwriting agreement with respect to the notes. Merrill Lynch Canada Inc., RBC Dominion Securities Inc., Scotia Capital Inc. and TD Securities Inc. are acting as representatives of the underwriters. Subject to certain conditions, each underwriter has severally agreed to purchase the principal amount of the notes indicated in the following table opposite the name of such underwriter.

Underwriters	Principal amount of the 20 notes	Principal amount of the 20 notes
Merrill Lynch Canada Inc.	C\$	C\$
RBC Dominion Securities Inc.		
Scotia Capital Inc.		
TD Securities Inc.		
Total	C\$	C\$

The obligations of the underwriters under the underwriting agreement, including their agreement to purchase notes from us, are several and not joint. The underwriting agreement provides that the underwriters have agreed to purchase all of the notes being offered, if any are purchased. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

Notes sold by the underwriters to the public will initially be offered at the initial public offering prices set forth on the cover of this prospectus supplement. If all the notes are not sold at the initial offering prices, the underwriters may change the offering prices and the other selling terms.

Each series of notes is a new issue of securities with no established trading market. We will not apply for listing of the notes on any securities exchange or any automated dealer quotation system. We have been advised by certain of the underwriters that the underwriters currently intend to make a market in the notes but are not obligated to do so and may discontinue market making at any time without notice. No assurance can be given as to the liquidity of the trading market for the notes.

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of notes than they are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

These activities by the underwriters, as well as other purchases by the underwriters for their own accounts, may stabilize, maintain or otherwise affect the market price of the notes. As a result, the price of the notes may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time without notice. These transactions may be effected in the over-the-counter market or otherwise.

It is expected that delivery of the notes will be made against payment therefor on or about May 1, 2026, which is the fifth Toronto and fifth New York business day following the date of pricing of the notes (such settlement cycle being referred to as "T+5"). Under Rule 15c6-1 under the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in one business day unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes prior to closing will be required, by virtue of the fact that the notes initially will settle on May 1, 2026, to specify an alternative settlement cycle at the time of any such trade to prevent failed settlement and should consult their own advisors.

We estimate that our total expenses for this offering, other than the underwriting discount, will be approximately C\$.

In the underwriting agreement, we have agreed that:

- we will not offer or sell any of our debt securities (other than the notes offered pursuant to this prospectus supplement) until the day after the initial issue date of the notes without the prior consent of the representatives; and
- we will indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in respect of those liabilities.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to us and to persons and entities with relationships with us, for which they received or will receive customary fees and expenses. Certain of the underwriters or their affiliates are customers of ours and engage in transactions with us or our affiliates in the ordinary course of business.

Certain of the underwriters or their affiliates act as sales agents under our “at-the-market” program. Certain affiliates of the underwriters act as lenders and/or agents under our existing credit facilities or have other lending relationships with us, certain of the underwriters have acted as underwriters for offerings of our common stock and/or our existing senior notes, and certain underwriters and their affiliates may from time to time hold our senior notes for their own account. Certain of the underwriters or their affiliates routinely hedge, certain of the underwriters or their affiliates are likely to hedge or otherwise reduce, and certain other of the underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby.

In addition, from time to time, certain of the underwriters and their affiliates may effect transactions for their own account or the account of customers, and hold on behalf of themselves or their customers, long or short positions in our debt or equity securities or loans, and may do so in the future. In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to our assets, securities and/or instruments (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with us. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

Certain of the underwriters are not broker-dealers registered with the SEC, and therefore may not make sales of any notes in the United States or to U.S. persons except in compliance with applicable U.S. laws and regulations.

You should be aware that the laws and practices of certain countries require investors to pay stamp taxes and other charges in connection with purchases of securities.

Selling Restrictions

European Economic Area

The notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (the

“EEA”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU as amended (“MiFID II”); (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the “Insurance Distribution Directive”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the “Prospectus Regulation”). Consequently, no key information document required by Regulation (EU) No 1286/2014 (as amended, the “PRIIPs Regulation”) for offering or selling the notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation. This prospectus supplement has been prepared on the basis that any offer of notes in any Member State of the EEA will be made pursuant to an exemption under the Prospectus Regulation from the requirement to publish a prospectus for offers of notes. This prospectus supplement is not a prospectus for the purposes of the Prospectus Regulation.

United Kingdom

The notes are not intended to be offered, sold, distributed or otherwise made available to and should not be offered, sold, distributed or otherwise made available to any retail investor in the United Kingdom (the “UK”). For these purposes, a retail investor means a person who is one (or both) of: (i) not a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No. 600/2014 as it forms part of domestic law by virtue of European Union (Withdrawal) Act 2018 (“EUWA”); or (ii) not a qualified investor as defined in paragraph 15 of Schedule 1 to the Public Offers and Admissions to Trading Regulations 2024 (the “POATRS”). Consequently, no disclosure document required by the FCA Product Disclosure Sourcebook (“DISC”) for offering, selling or distributing the notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering, selling or distributing the notes or otherwise making them available to any retail investor in the UK may be unlawful under DISC and the Consumer Composite Investments (Designated Activities) Regulations 2024. This prospectus supplement has been prepared on the basis that any offer of notes in the UK will be made pursuant to an exception from the prohibition on offers of notes to the public under the POATRS.

In addition, in the United Kingdom, this document is being distributed only to, and is directed only at, and any offer subsequently made may only be directed at persons who are “qualified investors” (as defined in paragraph 15 of Schedule 1 to the POATRS) who (i) have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (as amended, the “Order”), (ii) are persons falling within Article 49(2)(a) to (d) (“high net worth companies, unincorporated associations etc.”) of the Order, or (iii) are persons to whom an invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Market Act 2000, as amended) in connection with the issue or sale of any securities may otherwise lawfully be communicated or caused to be communicated (all such persons together being referred to as “relevant persons”). In the United Kingdom this document is directed only at relevant persons and must not be acted on or relied on by persons who are not relevant persons. In the United Kingdom, any investment or investment activity to which this document relates is available only to relevant persons and will be engaged in only with relevant persons.

Hong Kong

The notes may not be offered or sold in Hong Kong by means of any document other than (a) to “professional investors” as defined in the Securities and Futures Ordinance (Cap. 571 of the laws of Hong Kong) (the “SFO”) and any rules made thereunder; or (b) in other circumstances which do not result in the document being a “prospectus” as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32 of the Laws of Hong Kong) (the “CO”) or which do not constitute an offer to the public within the meaning of the CO, and no advertisement, invitation or document relating to the notes may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to the notes which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” as defined in the SFO and any rules made thereunder.

Japan

The notes have not been and will not be registered pursuant to Article 4, Paragraph 1 of the Financial Instruments and Exchange Act. Accordingly, none of the notes nor any interest therein may be offered or sold, directly or indirectly, in Japan or to, or for the benefit of, any “resident” of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan), or to others for re-offering or resale, directly or indirectly, in Japan or to or for the benefit of a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Act and any other applicable laws, regulations and ministerial guidelines of Japan in effect at the relevant time.

The notes have not been and will not be registered under the Financial Instruments and Exchange Act and are subject to the Special Taxation Measures Act of Japan (Act No. 26 of 1957), as amended (the “Special Taxation Measures Act”). The notes may not be offered or sold directly or indirectly (i) in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organized under the laws of Japan) or to others for reoffering or resale, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Financial Instruments and Exchange Act and any other applicable laws, regulations and government guidelines of Japan; or (ii) as part of the initial distribution of the notes at any time, to, or for the benefit of, any person other than a beneficial owner that is, (a) for Japanese tax purposes, neither (x) an individual resident of Japan or a Japanese corporation, nor (y) an individual non-resident of Japan or a non-Japanese corporation that in either case is a person having a special relationship with the Issuer as described in Article 6, paragraph (4) of the Special Taxation Measures Act, (b) a Japanese financial institution, designated in Article 6 paragraph (9) of the Special Taxation Measures Act or (c) an individual resident of Japan or a Japanese corporation whose receipt of interest on the notes is made through a payment handling agent in Japan as defined in Article 2-2 paragraph (2) of the Cabinet Order relating to the Special Taxation Measures Act.

The notes will be sold in Canada on a private placement basis to “accredited investors” who, in certain circumstances, are also “permitted clients”, each as defined under applicable Canadian securities laws, and in such a manner that is exempt from the prospectus requirements of applicable Canadian securities laws, in each case in accordance with the terms and conditions of the Canadian offering memorandum dated on or about the date hereof.

Purchasers of the notes in any jurisdiction are hereby notified that certificates representing the notes will bear legends about resales of the notes in Canada to the following effect:

FORWARD-LOOKING STATEMENTS

This prospectus, any prospectus supplement and the documents incorporated by reference herein or therein contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Any statements contained in this prospectus or any prospectus supplement or incorporated by reference herein or therein that are not statements of historical fact may be deemed to be forward-looking statements. For example, the words “believes,” “anticipates,” “plans,” “expects,” “intends” and similar expressions are intended to identify forward-looking statements.

Forward-looking statements involve numerous risks and uncertainties and depend on assumptions, data or methods that may be incorrect or imprecise. DESCRIPTION OF CAPITAL STOCK

The following summary of the terms of Equinix, Inc.'s capital stock is not meant to be complete and is qualified by reference to the relevant provisions of the Delaware General Corporation Law (the "DGCL") and Equinix, Inc.'s amended and restated certificate of incorporation (our "certificate of incorporation") and amended and restated bylaws (our "bylaws"). Our certificate of incorporation and bylaws are incorporated by reference as exhibits to the registration statement of which this prospectus forms a part. See "Where You Can Find More Information" above. As used in this section under the heading "Description of Capital Stock", the terms "we", "our" and "us" refer to Equinix, Inc. only, unless otherwise indicated or the context otherwise requires.

Authorized Capital Stock

Under our certificate of incorporation, our authorized capital stock consists of 300,000,000 shares of common stock, par value \$0.001 per share, and 100,000,000 shares of preferred stock, \$0.001 par value per share.

Common Stock

The holders of our common stock are entitled to one vote per share on all matters to be voted on by the stockholders. Subject to preferences that may be applicable to any outstanding preferred stock, the holders of common stock are entitled to receive ratably such dividends, if any, as may be declared from time to time by the board of directors out of funds legally available for the payment of dividends. All dividends are non-cumulative. In the event of the liquidation, dissolution or winding up of Equinix, Inc., the holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to prior distribution rights of preferred stock, if any, then outstanding. Our common stock has no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of our common stock are fully paid and nonassessable.

Our common stock is listed on the Nasdaq Global Select Market under the symbol "EQIX."

Preferred Stock

Preferred stock may be issued from time to time in one or more series, each of which is to have the voting powers, designation, preferences and relative, participating, optional or other special rights and qualifications, limitations or restrictions thereof as are stated and expressed in our certificate of incorporation, or in a resolution or resolutions providing for the issue of that series adopted by our board of directors.

Our board of directors has the authority, without stockholder approval, to create one or more series of preferred stock and, with respect to each series, to fix or alter as permitted by law, among other things, the number of shares of the series and the designation thereof, dividend rights, dividend rate, conversion rights, voting rights, rights and terms of any redemption, redemption price or prices and liquidation preferences.

When we or the selling securityholders offer to sell a particular series of preferred stock, we will describe the specific terms of the securities in a supplement to this prospectus. The preferred stock will be issued under a certificate of designations relating to each series of preferred stock and is also subject to our certificate of incorporation.

The transfer agent for each series of preferred stock will be described in the prospectus supplement.

Restrictions on Ownership and Transfer

To facilitate compliance with the ownership limitations applicable to a REIT under the Internal Revenue Code of 1986, as amended (the "Code"), our certificate of incorporation contains restrictions on the ownership and transfer of our capital stock.

These ownership and transfer restrictions could delay, defer or prevent a transaction or a change in control that might involve a premium price for our common stock or that our stockholders might otherwise deem to be in their best interests.

For us to qualify for taxation as a REIT under the Code, our capital stock must be beneficially owned by 100 or more persons during at least 335 days of a taxable year of 12 months or during a proportionate part of a shorter taxable year. Also, not more than 50% of the value of the outstanding shares of our capital stock may be owned, directly or indirectly, by five or fewer “individuals” (as defined in the Code to include certain entities such as private foundations) during the last half of a taxable year. To facilitate compliance with these ownership requirements and other requirements for continued qualification as a REIT and to otherwise protect us from the consequences of a concentration of ownership among our stockholders, our certificate of incorporation contains provisions restricting the ownership or transfer of shares of capital stock.

The relevant sections of our certificate of incorporation provide that, subject to the exceptions and the constructive ownership rules described below, no person (as defined in our certificate of incorporation) may beneficially or constructively own more than 9.8% in value of the aggregate of outstanding shares of capital stock, including common stock and preferred stock, or more than 9.8% in value or number (whichever is more restrictive) of the outstanding shares of any class or series of capital stock. We refer to these restrictions as the “ownership limits.”

The applicable constructive ownership rules under the Code are complex and may cause capital stock owned actually or constructively by an individual or entity to be treated as owned by another individual or entity. As a result, the acquisition of less than 9.8% in value of outstanding capital stock or less than 9.8% in value or number of outstanding shares of any class or series of capital stock (including through the acquisition of an interest in an entity that owns, actually or constructively, any class or series of capital stock) by an individual or entity could nevertheless cause that individual or entity, or another individual or entity, to own, constructively or beneficially, in excess of 9.8% in value of outstanding capital stock or 9.8% in value or number of outstanding shares of any class or series of capital stock.

In addition to the ownership limits, our certificate of incorporation prohibits any person from actually or constructively owning shares of capital stock to the extent that such ownership would cause any of our income that would otherwise qualify as “rents from real property” for purposes of Section 856(d) of the Code to fail to qualify as such.

Our board of directors has in the past granted ownership limitation waivers and may, in its sole discretion, in the future grant such a waiver to a person exempting them from the ownership limits and certain other REIT limits on ownership and transfer of capital stock described above, and may establish a different limit on ownership for any such person. However, our board of directors may not exempt any person whose ownership of outstanding capital stock in violation of these limits would result in our failing to qualify as a REIT. In order to be considered by our board of directors for an ownership limitation waiver or a different limit on ownership, a person must make such representations and undertakings as are reasonably necessary to ascertain that such person’s beneficial or constructive ownership of capital stock will not now or in the future jeopardize our ability to qualify as a REIT under the Code and must generally agree that any violation or attempted violation of such representations or undertakings (or other action that is contrary to the ownership limits and certain other REIT limits on ownership and transfer of capital stock described above) will result in the shares of capital stock being automatically transferred to a trust as described below. As a condition of its waiver, our board of directors may require an opinion of counsel or Internal Revenue Service ruling satisfactory to our board of directors with respect to our qualification as a REIT and may impose such other conditions as it deems appropriate in connection with the granting of the waiver or a different limit on ownership.

In connection with the waiver of the ownership limits or at any other time, our board of directors may from time to time increase the ownership limits for one or more persons and decrease the ownership limits for all other persons; *provided* that the new ownership limits may not, after giving effect to such increase and under certain assumptions stated in our certificate of incorporation, result in us being “closely held” within the meaning of Section 856(h) of the Code (without regard to whether the ownership interests are held during the last half of a taxable year). Reduced ownership limits will not apply to any person whose percentage ownership of total shares of capital stock or of the shares of a class or series of capital stock, as applicable, is in excess of such decreased ownership limits until such time as such person’s percentage of total shares of capital stock or of the shares of a class or series of capital stock, as applicable, equals or falls below the decreased ownership limits, but any further acquisition of capital stock in excess of such percentage will be in violation of the ownership limits.

Our certificate of incorporation further prohibits:

- any person from transferring shares of capital stock if such transfer would result in shares of capital stock being beneficially owned by fewer than 100 persons (determined without reference to any rules of attribution); and
- any person from beneficially or constructively owning shares of capital stock if such ownership would result in our failing to qualify as a REIT.

The foregoing provisions on transferability and ownership will not apply if our board of directors determines that it is no longer in our best interests to attempt to qualify, or to continue to qualify, as a REIT.

Any person who acquires or attempts or intends to acquire beneficial or constructive ownership of shares of capital stock that will or may violate the ownership limits or any of the other foregoing restrictions on transferability and ownership will be required to give notice to us immediately (or, in the case of a proposed or attempted transaction, at least 15 days prior to such transaction) and provide us with such other information as we may request in order to determine the effect, if any, of such transfer on our qualification as a REIT.

Pursuant to our certificate of incorporation, if there is any purported transfer of our capital stock or other event or change of circumstances that, if effective or otherwise, would violate any of the restrictions described above, then the number of shares causing the violation (rounded up to the nearest whole share) will be automatically transferred to a trust for the exclusive benefit of a designated charitable beneficiary, except that any transfer that results in the violation of the restriction relating to our capital stock being beneficially owned by fewer than 100 persons will be automatically void and of no force or effect. The automatic transfer will be effective as of the close of business on the business day prior to the date of the purported transfer or other event or change of circumstances that requires the transfer to the trust. We refer below to the person that would have owned the shares if they had not been transferred to the trust as the purported transferee. Any ordinary dividend paid to the purported transferee, prior to our discovery that the shares had been automatically transferred to a trust as described above, must be repaid to a trustee designated in accordance with the certificate of incorporation upon demand. Our certificate of incorporation also provides for adjustments to the entitlement to receive extraordinary dividends and other distributions as between the purported transferee and the trust. If the transfer to the trust as described above is not automatically effective, for any reason, to prevent violation of the applicable restriction contained in our certificate of incorporation, then the transfer of the excess shares will be automatically void and of no force or effect.

Shares of our capital stock transferred to the trustee are deemed to be offered for sale to us or our designee at a price per share equal to the lesser of (i) the price per share in the transaction that resulted in such transfer to the trust or, if the purported transferee did not give value for the shares in connection with the event causing the shares to be held in trust (e.g., in the case of a gift, devise or other such transaction), the market price at the time of such event and (ii) the market price on the date we accept, or our designee accepts, such offer. We have the right to accept such offer until the trustee has sold the shares of our capital stock held in the trust pursuant to the clauses described below. Upon a sale to us, the interest of the charitable beneficiary in the shares sold terminates and the trustee must distribute the net proceeds of the sale to the purported transferee, except that the trustee may reduce the amount payable to the purported transferee by the amount of any ordinary dividends that we paid to the purported transferee prior to our discovery that the shares had been transferred to the trust and that is owed by the purported transferee to the trustee as described above. Any net sales proceeds and extraordinary dividends in excess of the amount payable to the purported transferee shall be immediately paid to the charitable beneficiary, and any ordinary dividends held by the trustee with respect to such capital stock will be promptly paid to the charitable beneficiary.

After receiving notice that the shares have been transferred to the trust, the trustee must, as soon as reasonably practicable (and, if the shares are listed on a national securities exchange, within 20 days) after receiving notice from us of the transfer of shares to the trust, sell the shares to a person or entity who could own the shares without violating the restrictions described above. Upon such a sale, the trustee must distribute to the purported transferee an amount equal to the lesser of (i) the price paid by the purported transferee for the shares or, if the purported transferee did not give value for the shares in connection with the event causing the shares to be held in trust (e.g., in the case of a gift, devise or other such transaction), the market price of the shares on the day of the event causing the shares to be held in the trust, and (ii) the sales proceeds (net of commissions and other expenses of sale) received by the trustee for the shares. The trustee may reduce the

amount payable to the purported transferee by the amount of any ordinary dividends that we paid to the purported transferee before our discovery that the shares had been transferred to the trust and that is owed by the purported transferee to the trustee as described above. Any net sales proceeds in excess of the amount payable to the purported transferee will be immediately paid to the charitable beneficiary, together with any ordinary dividends held by the trustee with respect to such capital stock. In addition, if prior to discovery by us that shares of our capital stock have been transferred to a trust, such shares of capital stock are sold by a purported transferee, then such shares will be deemed to have been sold on behalf of the trust and, to the extent that the purported transferee received an amount for or in respect of such shares that exceeds the amount that such purported transferee was entitled to receive as described above, such excess amount shall be paid to the trustee upon demand. The purported transferee has no rights in the shares held by the trustee.

The trustee will be indemnified by us or from the proceeds of sales of capital stock in the trust for its costs and expenses reasonably incurred in connection with conducting its duties and satisfying its obligations under our certificate of incorporation. The trustee will also be entitled to reasonable compensation for services provided as determined by agreement between the trustee and the board of directors, which compensation may be funded by us or the trust. If we pay any such indemnification or compensation, we are entitled on a first priority basis (subject to the trustee's indemnification and compensation rights) to be reimbursed from the trust. To the extent the trust funds any such indemnification and compensation, the amounts available for payment to a purported transferee (or the charitable beneficiary) would be reduced.

The trustee will be designated by us and must be unaffiliated with us and with any purported transferee. Prior to the sale of any shares by the trust, the trustee will receive, in trust for the beneficiary, all distributions paid by us with respect to the shares, and may also exercise all voting rights with respect to the shares.

Subject to the DGCL, effective as of the date that the shares have been transferred to the trust, the trustee will have the authority, at the trustee's sole discretion:

- to rescind as void any vote cast by a purported transferee prior to our discovery that the shares have been transferred to the trust; and
- to recast the vote in accordance with the desires of the trustee acting for the benefit of the charitable beneficiary of the trust.

However, if we have already taken corporate action, then the trustee may not rescind and recast the vote.

In addition, if the board of directors determines that a proposed or purported transfer would violate the restrictions on ownership and transfer of our capital stock set forth in our certificate of incorporation, the board of directors may take such action as it deems advisable to refuse to give effect to or to prevent such violation, including but not limited to, causing us to repurchase shares of our capital stock, refusing to give effect to the transfer on our books or instituting proceedings to enjoin the transfer.

From time to time, at our request, every person that is an owner of 5% or more (or such lower percentage as required by the Code or the Treasury regulations thereunder) of the outstanding shares of any class or series of our capital stock, must provide us written notice of its name and address, the number of shares of each class and series of our capital stock that the person beneficially owns and a description of the manner in which the shares are held. Each such owner must also provide us with such additional information as we may request in order to determine the effect, if any, of such owner's beneficial ownership on our qualification as a REIT and to ensure compliance with the ownership limits. In addition, each beneficial owner or constructive owner of our capital stock, and any person (including the stockholder of record) who is holding shares of our capital stock for a beneficial owner or constructive owner will, upon demand, be required to provide us with such information as we may request in good faith in order to determine our qualification as a REIT and to comply with the requirements of any taxing authority or governmental authority or to determine such compliance.

Anti-Takeover Effects of Provisions of Our Certificate of Incorporation, Bylaws and Delaware law

Provisions of our certificate of incorporation and bylaws may delay or discourage transactions involving an actual or potential change in control or change in our management, including transactions in which

stockholders might otherwise receive a premium for their shares, or transactions that our stockholders might otherwise deem to be in their best interests. Therefore, these provisions could adversely affect the price of our common stock.

Among other things, our certificate of incorporation and bylaws:

- permit our board of directors to issue up to 100,000,000 shares of preferred stock, with any rights, preferences and privileges as they may designate;
- provide that, subject to the terms of any series of preferred stock, the authorized number of directors may be changed only by resolution of the board of directors;
- provide that, subject to the terms of any series of preferred stock, all vacancies, including newly created directorships, may, except as otherwise required by law, be filled by the affirmative vote of a majority of directors then in office, even if less than a quorum;
- eliminate the personal liability of our directors for monetary damages resulting from breaches of their fiduciary duty to the extent permitted by the DGCL and indemnify our directors and officers to the fullest extent permitted by the DGCL;
- provide that stockholders seeking to present proposals before a meeting of stockholders or to nominate candidates for election as directors at a meeting of stockholders must provide notice in writing in a timely manner, and also specify requirements as to the form and content of a stockholder's notice;
- do not provide for cumulative voting rights, therefore allowing the holders of a majority of the shares of common stock entitled to vote in any election of directors to elect all of the directors standing for election, if they should so choose;
- provide that, subject to exceptions, certain waivers we may grant and constructive ownership rules, no person may own, or be deemed to own by virtue of the attribution provisions of the Code, in excess of (i) 9.8% in value of the outstanding shares of all classes or series of Equinix stock or (ii) 9.8% in value or number (whichever is more restrictive) of the outstanding shares of any class or series of Equinix stock (as described above in "Restrictions on Ownership and Transfer");
- provide that our bylaws can be amended or repealed at any regular or special meeting of stockholders or by the board of directors;
- permit stockholders to act by written consent so long as stockholders holding at least 25% of the voting power of the outstanding capital stock request that the board of directors set a record date for the action by written consent, and in connection with such a request for the establishment of a record date, provide certain information, make certain representations and comply with certain requirements relating to the proposed action and their ownership of our stock; and
- provide that special meetings of our stockholders may be called in limited circumstances. Special meetings of stockholders may be called by our board of directors or the chairman of the board of directors, the President or the Secretary and may not be called by any other person. A special meeting of stockholders shall be called by our Secretary at the written request of holders of record of at least 15% of the voting power of our outstanding capital stock entitled to vote on the matters to be brought before the proposed special meeting.

Delaware Takeover Statute. We are subject to Section 203 of the DGCL, which regulates corporate acquisitions. DGCL Section 203 restricts the ability of certain Delaware corporations, including those whose securities are listed on the Nasdaq Global Select Market, from engaging under certain circumstances in a business combination with any interested stockholder for three years following the date that such stockholder became an interested stockholder. For purposes of DGCL Section 203, a business combination includes, among other things, a merger or consolidation involving us and the interested stockholder and the sale of 10% or more of our assets. In general, DGCL Section 203 defines an interested stockholder as any entity or person beneficially owning 15% or more of our outstanding voting stock and any entity or person affiliated with or controlling or controlled by such entity or person. A Delaware corporation may opt out of DGCL Section 203 with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or bylaws resulting from amendments approved by the holders of at least a majority of the

corporation's outstanding voting shares. We have not opted out of the provisions of DGCL Section 203 in our certificate of incorporation or bylaws.

Forum Selection

Our bylaws include a forum selection provision providing that, unless the Company consents in writing, a state court located in the State of Delaware (or, if no state court located within the State of Delaware has jurisdiction, the federal district court for the District of Delaware) will be the sole and exclusive forum for any stockholder to bring any derivative action, any action asserting a claim of breach of fiduciary duties, any action asserting a claim arising from a provision of the Delaware General Corporation Law or the certificate of incorporation or our bylaws or any action asserting a claim governed by the internal affairs doctrine.
