#### EQUINIX REPORTS EARNINGS FOR FIRST QUARTER 2003; COMPANY EXCEEDS GUIDANCE

- Increases revenues by 26% over same quarter 2002
- Accelerates cash flow positive from operations projection to end of third quarter 2003
- · Announces definitive agreements for an additional \$10 million in funding from Crosslink Capital
- · Gains 59 new customers including Adobe and Fidelity with strong bookings from installed base including Electronic Arts, Fujitsu, Google, IBM, and Sony

Foster City, CA—May 13, 2003—Equinix, Inc. (Nasdaq: EQIX), the leading provider of network-neutral data centers and Internet exchange services, today reported its quarterly results for the period ended March 31, 2003.

Revenues on a combined company basis, which now includes the acquired operations of Pihana Pacific and i-STT, were \$25.4 million for the first quarter ended March 31, a 26% increase over the same quarter last year and a 35% increase over fourth quarter of 2002. Of the total company's available cabinets, 31% were billing as of March 31. Cost of revenues, excluding non-cash depreciation, amortization and stock-based compensation, were \$17.0 million for the first quarter. Selling, general and administrative expenses, excluding non-cash depreciation, amortization and stock-based compensation, were \$11.5 million for the first quarter. Net loss for the first quarter was \$25.6 million, or basic net loss per share of \$3.00.

On a pre-acquisition Equinix basis, which excludes the Pihana Pacific and i-STT operations, recurring revenues were \$19.3 million. This represents a 17% increase over the same quarter last year and a 10% increase over fourth quarter of 2002. Cost of revenues were \$12.2 million, excluding non-cash depreciation, amortization and stock-based compensation, a 15% improvement over same quarter last year and a 4% improvement sequentially. Selling, general and administrative expenses were \$7.3 million, excluding non-cash depreciation, amortization and stock-based compensation, a slight improvement over same quarter last year and a 9% improvement sequentially.

For the combined companies, cash used in operations for the quarter was approximately \$7.9 million, which excludes one-time merger, financing and restructuring costs. Cash used in operations, including all one-time charges, was \$19.6 million. The company also announced the acceleration of the projection of cash flow positive from operations from the previous guidance of year-end 2003 to now take place by the end of third quarter of 2003. Cash flow generated from investing activities was \$1.6 million, primarily related to the release of restricted cash to fund a bond interest payment, partially offset by capital expenditures of \$0.3 million. Cash used in financing activities was \$2.4 million, primarily related to costs attributed to the repayment of certain debt facilities. As of March 31, 2003, the company's cash balance was \$21.0 million, which excludes the planned \$10 million investment from Crosslink Capital.

Equinix added 59 new customers in the first quarter including Adobe, Euronext.liffe, Fidelity, Kontiki, and Rogers Cable. The company also received a record number of additional orders in the quarter from more than 165 of Equinix's existing customers including Accenture, Electronic Arts, Fujitsu, Google, Hotwire, IBM, Kyocera, Level 3, PayPal, Sony, and Yahoo!

"This was a solid first quarter, demonstrating great momentum into 2003. The quality of new bookings, the rise in revenues from our margin rich exchange services, and progress in our Asia integration efforts has made it possible to accelerate our timeline to an operating cash flow positive position," said Peter Van Camp, CEO of Equinix.

#### **Company Developments**

On April 29, Equinix signed definitive agreements for an investment of \$10 million dollars from Crosslink Capital. The transaction is expected to close in June. The company intends to retain the proceeds from this financing on its balance sheet for greater operating flexibility.

Extending the value of its exchange services business model, Equinix also announced two new services in the US and Asia, including:

- · Equinix Direct, a multi-network management service that allows enterprises and content companies to easily manage multiple network providers
- Equinix GigE Exchange extended into Asia, a service that allows ISPs and content companies to peer or exchange traffic. This service introduction builds on the success and market leadership Equinix has attained in the US

#### **Business Outlook**

For the second quarter 2003, the company expects revenue to be in the range of \$27 to \$28 million and cash used in operations will be less than \$5 million. Cash used in investing activities, consisting primarily of capital expenditures, will be approximately \$2 million. Cash flow generated from financing activities will be in excess of \$5 million, including \$10 million of cash expected from the planned Crosslink investment, which will be offset by costs attributed to the repayment of certain debt facilities. As of June 30, 2003, total cash is expected to be greater than \$22 million.

Full year revenues are projected to be in the range of \$112 to \$118 million and cash used in operations will be less than \$23 million. Cash used in investing activities, consisting primarily of capital expenditures, will be approximately \$4 million. Cash flow generated from financing activities, including \$10 million of cash expected from the Crosslink investment, offset by costs attributed to the repayment of certain debt facilities, will be greater than \$1 million. Total cash as of December 31, 2003 is expected to be in the range of \$18 to \$20 million.

#### **About Equinix**

Equinix is the leading global provider of network-neutral data centers and Internet exchange services for enterprises, content companies and network services providers. Through the company's 15 Internet Business Exchange $^{\text{TM}}$  (IBX $^{\text{RM}}$ ) centers in six countries, customers can directly interconnect with the providers that serve more than 90% of the world's Internet networks and users for their critical peering, transit and traffic exchange requirements. These interconnection points facilitate the highest performance and growth of the Internet by serving as neutral and open marketplaces for Internet infrastructure services, allowing customers to expand their businesses while reducing costs.

Equinix and IBX are registered trademarks of Equinix, Inc. Internet Business Exchange is a trademark of Equinix, Inc.

###

This press release contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from expectations discussed in such forward-looking statements. Factors that might cause such differences include, but are not limited to, the failure of the Crosslink transaction to close, the challenges of operating IBX centers and developing, deploying and delivering Equinix services; competition from existing and new competitors; the ability to generate sufficient cash flow or otherwise obtain funds to repay outstanding indebtedness; the loss or decline in business from our key customers and other risks described from time to time in Equinix's filings with the Securities and Exchange Commission. In particular, see Equinix's recent quarterly and annual reports filed with the Securities and Exchange Commission, copies of which are available upon request from Equinix. Equinix does not assume any obligation to update the forward-looking information contained in this press release.
